Dear Sirs/Mesdames,

FOR THE URGENT PERSONAL ATTENTION OF:

Superintendent Jon P Simpson, Assistant to Metropolitan Police Commissioner, Cressida Dick

Detective Inspector Trevor Struthers, Criminal Investigation Department, Hammersmith Police Station

Detective Sergeant Oliver Mallett, Criminal Investigation Department, Hammersmith Police Station

Police Constable Irvine, Criminal Investigation Department, Hammersmith Police Station

I am aware that a complaint of extremely serious criminality was made to the Metropolitan Police on 20 December 2021 and that a crime reference number 6029679/21 was supplied on that date.

I have been asked by the original informants to provide my details to the investigating team and I request that that team is made aware of my details as soon as possible.

My name and qualifications are: Christine Massey, M.Sc. (Canada); I was trained and worked professionally as a biostatistician for cancer researchers (Toronto).

I am still based in Canada.

My email address is cmssyc@gmail.com.

My telephone number is +1 [REDACTED] (My phone is often turned off and I am easier to reach via email, but would be willing to arrange to speak by phone.)

I have been researching and collecting evidence for almost two years, and thus have accumulated a large body of evidence that supports the serious allegations which have been made. I am prepared, and consider it my responsibility, to assist the Metropolitan Police to the very best of my ability with their criminal investigation.

I am aware that an application has been made to the International Criminal Court (ICC) in The Hague on behalf of the United Kingdom. That application has been acknowledged by the ICC and the reference number OTP-CR-473/21 has been assigned. I will offer my assistance to the ICC investigation in due course.

Based on the evidence that I possess as a result of extensive research, I demand that the "Covid-19 vaccines" be stopped immediately, not just in the United Kingdom but worldwide.

I have attached to this email, for you and the investigating team, my Witness Statement dated December 14, 2021 in support of an application for an injunction in the High Court of Justice.

I would like to extend my sincere congratulations to Police Constable Irvine for recognising the extreme importance of the evidence presented to him on 20 December 2021 at Hammersmith Police Station and for providing a crime number in accordance with his duties as a police officer.

Based on the evidence that I have reviewed and collected it is clear to me that there never was, and there still is not, any justification for any "COVID-19 measures", including but not confined to the "vaccination" programme.

Further, given that the precise contents of the gene-based "vaccines" have not been made public or disclosed to medical doctors, and given the evidence that I have reviewed and collected, it has been impossible to obtain "informed consent" from any potential "vaccinee" anywhere in the world. Administering the "vaccines" without "informed consent" is thereby a gross violation of the Nuremberg Code re "human medical experimentation". On 2 June 1948, in Bavaria, Germany, seven medical doctors, having been found guilty of "human medical experimentation" at the Doctors' Trial in Nuremberg, were hanged.

You are faced with the greatest crime scene the world has ever seen and I wish you the very best of luck in discharging your onerous duties. I solemnly promise to assist you to the limits of my ability.

For Truth and Justice,
Christine Massey, M.Sc.
Peterborough, Ontario, Canada
