To: Christine Massey <cmssyc@gmail.com>

Tue, Jan 4, 2022 at 8:18 PM

FOIs reveal that health/science institutions around the world (156 and counting!) have no record of SARS-COV-2 isolation/purification, anywhere, ever

Would a sane person mix a patient sample (containing various sources of genetic material and never proven to contain any alleged “virus”) with transfected monkey kidney cells, fetal bovine serum and toxic drugs, then claim that the resulting concoction is “SARS-COV-2 isolate” and ship it off internationally for use in critical research (including vaccine and test development)?

Because that’s the sort of fraudulent monkey business that’s being passed off as “virus isolation” by research teams around the world.

Just 1 of many examples is shown below – this is from a study [cited by the Australian Department of Health](#) as a paper “*which led to the isolation of SARS-CoV-2 in culture*“. (Can you spot the oxymoron in that quote?)

2.1 Cell culture of SARS-CoV-2 and electron microscopy

Vero/hSLAM cells (African green monkey kidney cells transfected to express the human signaling lymphocytic activation molecule (SLAM; also known as CDw150)¹ were grown at 37°C, 5% CO₂ in maintenance media consisting of 10mL Earle's minimum essential medium (EMEM), 7% fetal bovine serum (FBS) (Bovogen Biologicals, Keilor East, AUS) 2mM L-glutamine, 1 mM sodium pyruvate, 1500mg/L sodium bicarbonate, 15 mM HEPES and 0.4mg/ml geneticin to 95% confluency in 25cm² flasks. Prior to use for isolation, maintenance media was removed from the flask and 500µL of respiratory swab inoculum was overlaid on the cell monolayer. The flask was returned to the 37°C incubator to allow the virus to adsorb for 1 hour before addition of 10 mL viral culture media (EMEM as above but FBS reduced to 2%). Flasks were monitored for viral cytopathic effect and 140µL aliquots of supernatant removed every 48 hours to assess virus burden by TaqMan real-time RT-PCR. First passage culture grown virus isolate was subsequently shipped nationally and internationally in packaging compliant with UN 2814 Category A shipping requirements using credentialed, specialised courier services under the appropriate Australian government export approvals processes and receiving country import permissions.

If you're new to the topic of "virus isolation/purification", I strongly recommend that you begin by reading the Statement On Virus Isolation by Dr. Andrew Kaufman, Dr. Thomas Cowan and Sally Fallon Morell, MA: <https://andrewkaufmanmd.com/sovi/> or watch this 5 minute video from Dr. Cowan. Or go [here](#) for many more resources, and corroborating evidence.

A colleague in New Zealand and I (CM) and many other people around the world have been submitting Freedom of Information requests to institutions in various countries seeking records that describe the isolation/purification of the alleged "COVID-19 virus" from any unadulterated sample taken from a diseased patient.

The reason: without the crucial step of isolation/purification having been performed (from many patients, followed by characterization, sequencing and controlled experiments), there is no way to claim scientifically that the alleged "novel coronavirus" (blamed for widespread death/disease/lockdown measures) actually exists.

Without this step having been performed and followed by characterization, sequencing and controlled experiments, all claims of this alleged "virus" are nothing but wild speculation backed only by fraudulent science, fraudulent tests and fraud-based diagnoses.

The requests submitted by my colleague in NZ and I (and many of the other submitters) have **not** been limited to records of isolation performed by the respective institution, or limited to records authored by the respective

institution, rather they were open to any records describing “COVID-19 virus” (aka “SARS-COV-2”) isolation/purification performed by anyone, ever, anywhere on the planet.

Thus far (January 4, 2022) 45 Canadian institutions have provided their responses: [Public Health Agency of Canada](#) (and another from [Public Health Agency of Canada](#), this one re the alleged “UK variant” aka “B.1.1.7” aka “Alpha”; and another from [Public Health Agency of Canada](#) re any alleged virus/variant, and another from [Public Health Agency of Canada](#) re ANY type of alleged virus at all), [Health Canada](#) (and another from [Health Canada](#); and another from [Health Canada](#)), the [National Research Council of Canada](#), [Vaccine and Infectious Disease Organization-International Vaccine Centre \(VIDO-InterVac\)](#), [Canadian Institutes of Health Research](#), [Natural Sciences and Engineering Research Council of Canada](#), [Patented Medicine Prices Review Board Canada](#), [Royal Canadian Mounted Police \(RCMP\)](#), [Public Health Ontario](#), [Ontario Ministry of Health](#) (and another from [Ontario Ministry of Health](#) re “delta variant”, [University Health Network](#), [Ontario Ministry of the Solicitor General and Ontario Provincial Police](#), [Alberta Ministry of Health](#), [Alberta Premier Jason Kenney, his Office and Executive Council](#), [Calgary Police Service](#), [Institut National de Sante Publique du Quebec](#) (another from [Public Health Quebec](#)), [British Columbia’s Ministry of Health](#) (re “the UK variant”), [British Columbia’s Centre for Disease Control](#), [British Columbia’s Provincial Health Services Authority](#) (2 responses, 1 re “SARS-COV-2”, 1 re the alleged “B.1.1.7” aka “Alpha variant” aka “UK variant”), [Vancouver Coastal Health Authority](#) (re “B.1.1.7” aka “Alpha variant” aka “UK variant”), [Newfoundland Labrador Department of Health & Community Services](#), [New Brunswick’s Department/Ministry of Health](#), [McGill University](#), [University of Ottawa](#), [University of Waterloo](#), [Dalhousie University](#), the [City of Toronto](#), [Toronto Police](#) (and another from [Toronto Police](#)), [Halton Region](#), [Hamilton Police Service](#) (Ontario), the [Region of Peel](#) (Ontario), [Region of Durham](#) (Ontario); [KFL&A Public Health](#) (Kingston, Frontenac, Lennox and Addington, Ontario, re “any variant”), [Grey Bruce Health Services](#), [Grey Bruce Health Unit](#), [Niagara Regional Police Service](#), [Peterborough Public Health \(Ontario\)](#), [Peterborough Police Service](#) (Ontario) (another from [Peterborough Police](#)), [Aylmer Police Service](#) (Ontario) (and another from [Aylmer Police](#)), [Woodstock Police Service](#) (Ontario), [Hastings Prince Edward Public Health](#) (Ontario), the [University of Toronto](#), [Sunnybrook Health Sciences Centre](#), [McMaster University](#) and [Mount Sinai Hospital](#) (Toronto) (note that researchers from the last 4 institutions had publicly claimed to have “isolated the virus”, as had VIDO-InterVac).

Every institution has failed to provide or cite even 1 record describing the isolation aka purification of the alleged “COVID-19 virus” directly from a patient sample that was not first adulterated with other sources of genetic material. (Those other sources are typically monkey kidney aka “Vero” cells and fetal bovine serum).

(And, to our knowledge, no one on the planet has ever purified the alleged “virus” even from a cell culture!)

For some insight into what's really going on:

[Canadian public health officials have no record of SARS-COV-2 isolation/purification performed anywhere, ever](#)

PLEASE SHARE THESE DOCUMENTS FAR AND WIDE

As of January 4, 2022: **156 institutions and offices in over 25 countries** have responded thus far, as well as some “SARS-COV-2 isolation” study authors, and none have provided or cited any record describing actual “SARS-COV-2” isolation/purification. All of the responses in our collection are available from this page.

Excel file listing the 156 institutions (last updated January 4, 2022):

<https://www.fluoridefreepeel.ca/wp-content/uploads/2022/01/Institution-list-for-website18.xls>

Google drive folder where all of the FOI documents as of December 5, 2021 are grouped by country (for the most part) and compiled into 10 pdfs:

<https://tinyurl.com/IsolationFOIs>

Check back here (the page you are currently on) for regular updates.

In their FOI responses, numerous institutions have made it explicitly clear that **isolation/purification is simply never done in virology**, and that “isolation” in virology means the exact opposite of what it means in everyday English. This is also evidenced in every “virus isolation” paper we have ever seen, for any alleged “virus”.

(Yes, we are aware of the many publications wherein authors claim to have “isolated the virus”. We’ve looked at numerous such studies and have yet to see one where they actually did so. Claiming to have done something and actually doing it are sometimes 2 different things, even in peer-reviewed science.

And yes we are aware of the many published alleged “SARS-COV-2 genomes” – these were in fact manufactured, not discovered.

And yes we are aware that EM photos have been published, allegedly of “the virus”, however a photo of something does not tell you what the thing is, where it came from or what it does. One has to scrutinize the Methods used to “isolate the virus” / obtain said photos / obtain alleged genomes, and that is when absolutely **everything** falls apart with “COVID-19” (and virology in general).

Notes:

[Global Research](#) posted the entire FOI collection (as of August 04, 2021) on their website. **GR’s webpages can be translated into 51 different languages** by activating the “Translate Website” drop down menu on the top banner of the home page:

<https://www.globalresearch.ca/foi-reveal-health-science-institutions-around-world-have-no-record-sars-cov-2-isolation-purification-anywhere-ever/5751969>

Anyone is welcome to post these documents on other sites. Please do!

We only ask that you also cite this particular webpage because this is where we add all the new FOIs that we obtain. It's important that people know where they can find the most up-to-date and complete collection.

And if you obtain or come across new responses that are not in our collection, please forward them so that we can add them to the collection!

Here is a **tiny URL** that re-directs to this webpage:

<http://tinyurl.com/norecordfound>

Donations to support this work are greatly needed and appreciated! See bottom of this page for details.

FOI responses from institutions in the U.S., India, Republic of South Africa, New Zealand, Australia, U.K., England, Scotland, Wales, Ireland, Denmark, Norway, Finland, the Netherlands, Sweden, Spain, European CDC, Slovenia, Czech Republic, Ukraine, Colombia, Uruguay, Italy, Portugal, Brazil, Republic of Colombia, Argentina, Isle of Man, Phillipines, etc., plus emails from Germany's Robert Koch Institut (RKI) and several "virus isolation authors".

A big **Thank You** to all the individuals who have now kindly shared additional responses that they obtained re isolation/purification/existence of "SARS-COV-2". Some prefer to remain anonymous, others are named below.

[Before we begin, FYI: we also have a collection of responses from the U.S. CDC, Public Health Agency of Canada, New Zealand Ministry of Health, etc. in regards to isolation/purification of a number of other alleged "viruses", i.e. "HIV", "measles virus", "polio virus", "HPV", "Ebola virus", "Zika virus", "XMRV", "HTLV1", "HTLV-III/LAV", 2003 "SARS-COV", "MERS virus", any common cold "coronavirus", "Marburg virus" any "virus" on their "immunization" schedules. Again, **none** have yielded any records or citations of records describing the isolation/purification of any "virus" from a patient sample. Click here to see those responses:

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-have-no-record-of-any-virus-having-been-isolated-purified-virology-isnt-a-science/>

And click here to see our new page of responses to FOI requests asking for records proving that bacteria are actually the CAUSE of certain diseases (no one has any such records for TB so far!):

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Ok, here we go. Below are >100 SARS-COV-2 FOI responses from outside of Canada.

As this next link you will see a "no records of SARS-COV-2 isolation/purification" FOI response from the U.S. Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR),

dated November 2, 2020:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/USA-CDC-Virus-Isolation-Response-Scrubbed.pdf>

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control and Prevention (CDC)
Atlanta GA 30333
November 2, 2020

Page 2-

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to FOIARequest@psc.hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be postmarked or electronically transmitted by Monday, February 1, 2021.

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of August 9, 2020, for "All records in the possession, custody or control of The Centers for Disease Control (CDC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- * the culturing of something,
- * or the performance of an amplification test (i.e. a PCR test),
- * or the sequencing of something.

Please also note that my request is not limited to records that were authored by the CDC or that pertain to work done by The CDC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the CDC has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it)."

A search of our records failed to reveal any documents pertaining to your request.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Sincerely,

Roger Andoh
CDC/ATSDR FOIA Officer
Office of the Chief Operating Officer
(770) 488-6399
Fax: (404) 235-1852

#20-02166-FOIA

On **March 1, 2021** once again **the CDC** made clear to my colleague in NZ that they still have no records of "SARS-COV-2" isolation performed by anyone, anywhere on the planet, ever... just not in so many words. Instead, the CDC absurdly implied that isolation of "SARS-COV-2" would require the replication of a "virus" without host cells and thus is impossible.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/03/CDC-March-1-2021-SARS-COV-2-Isolation-Response-Redacted.pdf>

For information about the SARS-CoV-2 genome sequence, see the NIH GenBank website (<https://www.ncbi.nlm.nih.gov/genbank/sars-cov-2-seqs/>), which includes over 44,000 sequences as of December 7, 2020.

On February 21, 2021, you requested the following information:

Can you please clarify if you have any records of the separation of SARS-COV-2 from everything else (known as isolation and purification)? A simple yes or no will do regarding the answer. Please use the Merriam-Webster dictionary's common definition of [isolation](#). I will provide the definitions below:

[isolation](#)

isolation noun

Save Word

iso-la-tion | \ ,I-sə-'lā-shən also ,i-\

Definition of *isolation*

: the action of [isolating](#); the condition of being [isolated](#)

[Isolated](#)

isolated adjective

Save Word

iso-lat-ed | \ 'I-sə-,lā-təd also 'i-\

Definition of *isolated*

- 1 : occurring alone or once : [UNIQUE](#)
- 2 : [SPORADIC](#)

[Isolate](#)

isolate verb

Save Word

iso-late | \ 'I-sə-,lāt also 'i-\

isolated; isolating

Definition of *isolate* (Entry 1 of 3)

transitive verb

- 1 : to set apart from others
also : [QUARANTINE](#)
- 2 : to select from among others
especially : to separate from another substance so as to obtain pure or in a free state
- 3 : [INSULATE](#)

The SME states the following:

The definition of “isolation” provided in the request is outside of what is possible in virology, as viruses need cells to replicate, and cells require liquid food. However, the SARS-CoV-2 virus may be isolated from a human clinical specimen by culturing in cell culture, which is the definition of “isolation” as used in microbiology, and as indicated in the previous round of response in the resources provided.

March 3, 2021: CDC again failed to provide/cite any records describing “SARS-COV-2” isolation/purification by anyone anywhere ever... BUT would no longer simply say so (as they did back on November 2nd); instead they gave my colleague in NZ some song and dance and cited their own fraudulent study (by Harcourt et al.): <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/03/CDC-March-3-2021-SARS-COV-2-purification-FOI-response.pdf>

[REDACTED]

[REDACTED]

This letter is our final response to your attached Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 1, 2021, assigned #21-00795-FOIA.

For administrative convenience and to fully respond to your request, program staff have provided the following information below with corresponding web links.

SARS-CoV-2 is the virus that causes coronavirus disease 2019 (COVID-19). Active infection with SARS-CoV-2 is detected by [diagnostic tests](#). Currently there are two types of diagnostic tests – molecular tests that detect the virus's genetic material and antigen tests that detect specific proteins on the surface of the virus. For current data showing the total number of SARS-CoV-2-positive cases and deaths, visit the [CDC COVID-19 Data Tracker](#), which shows cases and deaths in the United States broken down by state and county, daily trends in the number of cases by state, and other parameters.

Evidence of SARS-CoV-2 infection can be found in a study entitled, [Pathology and Pathogenesis of SARS-CoV-2 Associated with Fatal Coronavirus Disease](#), which includes electron microscopy images of SARS-CoV-2 in infected lung and upper airway tissues as well as staining of lung and upper airway tissues using an antibody against SARS-CoV-2. The specimens analyzed in this study were from patients with common signs and symptoms associated with COVID-19, including fever, cough, and shortness of breath. All patients had abnormal findings on chest radiographs. There are other similar studies publicly available online. To aid in locating other related studies, please see the articles suggested in the "Similar Articles" and "Cited by" section on the manuscript's [PubMed entry](#).

The SARS-CoV-2 virus may be isolated from human clinical specimens by culturing in cells. In January 2020, CDC [isolated the SARS-CoV-2 virus](#) from a clinical specimen from the first confirmed case of COVID-19 in the United States. There are other similar studies published describing the isolation and characterization of SARS-CoV-2 from human clinical specimens. To aid in locating other related studies, please see the articles suggested in the "Similar Articles" and "Cited by" section on the manuscript's [PubMed entry](#). There are also [several publications](#) documenting SARS-CoV-2 infection and transmission among pre-symptomatic and asymptomatic individuals.

For information about the SARS-CoV-2 genome sequence, see the NIH GenBank website (<https://www.ncbi.nlm.nih.gov/genbank/sars-cov-2-seqs/>), which includes over 44,000 sequences as of December 7, 2020.

If you need any further assistance or would like to discuss any aspect of the records provided please contact either our FOIA Requester Service Center at 770-488-6399 or our FOIA Public Liaison at 770-488-6277.

June 7, 2021: CDC admitted they have no record of “SARS-COV-2” purification from a patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-FOIA-request-response-no-records-SARS-COV-2-purification.pdf>

September 1, 2021:

Yet another FOIA response from the CDC where they failed to provide or cite even 1 record of the alleged “COVID-19 virus” aka “SARS-COV-2”, or any “variants” having been purified from any patient sample on the planet, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/CDC-Sept-1-PACKAGE-redacted.pdf>

The SARS-CoV-2 virus may be isolated from human clinical specimens by culturing in cells.

September 8, 2021: Another FOIA response from the CDC re purification of the phantom “SARS-COV-2”. This time, CDC cited a paper wherein the authors never even claimed to have purified any “virus” themselves, and instead falsely stated that: “*SARS-CoV-2 was isolated in Vero cells ... (8)*” [oxymoron]. [CDC’s reference #8 is the infamous Harcourt et al. study.]

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control and Prevention (CDC)
Atlanta GA 30333
October 26, 2021

SENT VIA EMAIL

[Redacted]

This letter is our final response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of September 20, 2021, assigned #21-402310-FOIA, for

This is a formal request for access to general records, made under the *Freedom of Information Act*.

Please note: this request is very similar to another request CDC/ATSDR responded to in March, 2021 where I had **specified** purification via maceration, filtration and use of an ultracentrifuge.

The difference with this new request is that it does **not specify** maceration, filtration and use of an ultracentrifuge; it only mentions filtration, ultracentrifugation and chromatography by way of an example.

My request also includes the language of 'variants' to ensure that records would match all related alleged SARS-COV-2 viruses.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) describing the **purification** of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was **not** first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a “genome” by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Page 2 [Redacted]

Further, I am **not** requesting records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is **not limited** to records that were authored by CDC/ATSDR or that pertain to work done at/by CDC/ATSDR. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by CDC/ATSDR and relied on as evidence of a disease-causing “virus”.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title the public may access it). Please provide URLs where possible.

For administrative convenience and to fully respond to your request, program staff have provided the following information below with corresponding web links.

SARS-CoV-2 is the virus that causes coronavirus disease 2019 (COVID-19). Active infection with SARS-CoV-2 is detected by **diagnostic tests**. Currently there are two types of diagnostic tests – molecular tests that detect the virus’s genetic material and antigen tests that detect specific proteins on the surface of the virus. For current data showing the total number of SARS-CoV-2-positive cases and deaths, visit the [CDC COVID-19 Data Tracker](#), which shows cases and deaths in the United States broken down by state and county, daily trends in the number of cases by state, and other parameters.

Evidence of SARS-CoV-2 infection can be found in a study entitled, [Pathology and Pathogenesis of SARS-CoV-2 Associated with Fatal Coronavirus Disease](#), which includes electron microscopy images of SARS-CoV-2 in infected lung and upper airway tissues as well as staining of lung and upper airway tissues using an antibody against SARS-CoV-2.

The specimens analyzed in this study were from patients with common signs and symptoms associated with COVID-19, including fever, cough, and shortness of breath. All patients had abnormal findings on chest radiographs.

There are other similar studies publicly available online. To aid in locating other related studies, please see the articles suggested in the “Similar Articles” and “Cited by” section on the manuscript’s [PubMed entry](#).

The SARS-CoV-2 virus, whether the original strain or variants of the virus, may be isolated from human clinical specimens by culturing in cells. In January 2020, CDC [isolated the SARS-CoV-2 virus](#) from a clinical specimen from the first confirmed case of COVID-19 in the United States. There are other similar studies published describing the isolation and characterization of SARS-CoV-2 from human clinical specimens. To aid in locating other related studies, please see the articles suggested in the “Similar Articles” and “Cited by” section on the manuscript’s [PubMed entry](#). There are also [several publications](#) documenting SARS-CoV-2 infection and transmission among pre-symptomatic and asymptomatic individuals.

For information about the SARS-CoV-2 genome sequence, see the NIH GenBank website (<https://www.ncbi.nlm.nih.gov/genbank/sars-cov-2-seqs/>), which includes over 1 million sequences.

[Note that someone kindly forwarded another FOI response from the CDC dated December 30, 2020 re the alleged 2003 “SARS-COV-1” and all “common cold coronaviruses” – the CDC has no record of any having been isolated. Here is a temporary pdf of the redacted letter... a better pdf one will follow:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/12/CDC-isolation-FOI-reply-any-coronavirus.pdf>

December 10, 2021:

U.S. Department of Labor / Occupational Safety and Health Administration (OSHA) admitted they have no record describing purification of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants”) from any patient sample on the planet, by anyone, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/OSHA-PACKAGE-redacted.pdf>

December 10, 2021

Ms. Christine Massey
[REDACTED]
Peterborough, Ontario
Canada [REDACTED]

RE: Freedom of Information Act Request No. 2022-F-01464

Dear Ms. Massey:

This is a final response to your Freedom of Information Act (FOIA) request to the Occupational Safety and Health Administration (OSHA) dated November 8, 2021, seeking documents concerning the "purification" of SARS-CoV-2. Your request was assigned to the OSHA Directorate of Technical Support and Emergency Management for a response.

You have asked for documentation in OSHA's possession, "...describing the purification of any 'COVID-19 virus' (aka 'SARS-COV-2', including any alleged 'variants' i.e. 'B.1.1.7', 'B.1.351', 'P.1')". In your request, you defined "purification" to mean, "... separation of the alleged 'virus' from everything else in the patient sample...."

A search of OSHA's records did not locate any documents that meet the criteria of your request. Therefore, under FOIA we are providing you a no records response. Please be aware that OSHA did not extend the search for documents outside of the Agency for any responsive records, as you requested. This is beyond the scope of FOIA requirements.

If you have questions about our response, please contact Robert B. Turnage at (202) 693-2036 or turnage.rob@dol.gov.

Although we believe we have fulfilled your FOIA request, you have the right to appeal this decision with the Solicitor of Labor within 90 days from the date of this letter. The appeal must state, in writing, the grounds for the appeal, including any supporting statements or arguments. The appeal should also include a copy of your initial request and a copy of this letter.

If you appeal, you may mail your appeal to: Solicitor of Labor, U.S. Department of Labor, Room N-2420, 200 Constitution Avenue, NW, Washington, DC 20210 or fax your appeal to (202) 693-5538. Alternatively, you may email your appeal to foiaappeal@dol.gov; appeals submitted to any other email address will not be accepted. The envelope (if mailed), subject line (if emailed), or fax cover sheet (if faxed), and the letter indicating the grounds for appeal, should be clearly marked: "Freedom of Information Act Appeal."

In addition to filing an appeal, you may contact the Department's FOIA Public Liaison, Thomas G. Hicks, Sr., at (202) 693-5427 or hicks.thomas@dol.gov for assistance in resolving disputes.

- conflates isolation/purification with growth of the imaginary virus in cell culture,
- provides irrelevant, distracting comments re Koch's Postulates,
- cites useless, irrelevant studies and webpages, and fabricated computer "genomes", and
- confirms that virology isn't a science.

Re: FOIA Case Number: 56905

Dear [REDACTED]

This is our final response to your Freedom of Information Act (FOIA) request addressed to National Institutes of Health (NIH), dated August 18, 2021, and received in this office on the same day. You requested copies of public records that demonstrates the NIAID or NIH has a physical sample of the isolated and purified SARS-CoV-2 virus, to produce any and all evidence of this External Standard or Certified Reference Material (CRM) for calibration of RT-PCR test kits and any or all documentation and evidence of whether the Whole Genome Sequencing (WGS) occurred from the isolate, as well as evidence and information on the current modality/test being used to determine and identify the difference from the original SARS-CoV-2 virus and the "Delta Variant" and/or other variants with all evidence and documentation demonstrating the initial discovery of the other variants.

Please be advised that your request is improper as defined by FOIA given that you have not specified where (named office or institute) or what (i.e. named grant number, report, etc) you would like searched at the NIH. Considering the omission of the aforementioned information necessary for a proper search to be conducted, the NIH cannot process your request as it is written. In good faith, we provide the following information that may prove useful to you.

Much of the information on the isolation of the virus from the diseased host, which requires growth in cell culture, is already publicly available. Viruses do not replicate outside of a host or in a pure culture (devoid of other cells). Koch's postulates were formed prior to the identification of viruses as the causative agents of some diseases and also pre-date modern microbiological techniques, including the ability to isolate viruses from hosts. As such, Koch's postulates have limitations when evaluating viruses and do not adequately account for the way viruses are isolated and propagated given that viruses are obligate intracellular parasites.

August 19, 2021:

The U.S. Department of Health and Human Services cited useless, irrelevant studies and webpages, and fabricated computer "genomes" in response to an FOIA request for "Records that demonstrates the US Department of Health and Human Services has a physical sample of the isolated and purified SARS-CoV-2 virus..."

Christine Massey <cmssyc@gmail.com>

Fwd: HHS FOIA Request 2021-01625-FOIA-OS

Mon, Aug 23, 2021 at 6:05 PM

To: "christinem@fluoridefreepeel.ca" <christinem@fluoridefreepeel.ca>

You can add to your list. From US Department of Human and Health Services.

Subject: HHS FOIA Request 2021-01625-FOIA-OS
To: [REDACTED]

RE: 2021-01625-FOIA-OS

Mr. [REDACTED]

Dear Mr. [REDACTED]

This is in response to your Freedom of Information Act (FOIA) request, dated: **August 18, 2021**, concerning "Records that demonstrates the US Department of Health and Human Services has a physical sample of the isolated and purified SARS-CoV-2 virus including the following: 1) Any and all evidence of this External Standard or Certified Reference Material (CRM) for calibration of RT-PCR test kits and any or all documentation; 2) Evidence of whether the Whole Genome Sequencing (WGS) occurred from the isolate; 3) Evidence and information on the current modality/test being used to determine and identify the difference from the original SARS-CoV-2 virus and the "Delta Variant" and/or other variants with all evidence and documentation demonstrating the initial discovery of the other variants. (Date Range for Record Search: From 10/1/2019 To 8/18/2021)".

We received your request on **August 18, 2021**.

For administrative convenience and to fully respond to your request, program staff have provided the following information below with corresponding web links.

SARS-CoV-2 is the virus that causes coronavirus disease 2019 (COVID-19). Active infection with SARS-CoV-2 is detected by diagnostic tests. Currently there are two types of diagnostic tests – molecular tests that detect the virus's genetic material and antigen tests that detect specific proteins on the surface of the virus. For current data showing the total number of SARS-CoV-2-positive cases and deaths, visit the [CDC COVID-19 Data Tracker](#), which shows cases and deaths in the United States broken down by state and county, daily trends in the number of cases by state, and other parameters.

Evidence of SARS-CoV-2 infection can be found in a study entitled, [Pathology and Pathogenesis of SARS-CoV-2 Associated with Fatal Coronavirus Disease](#), which includes electron microscopy images of SARS-CoV-2 in infected lung and upper airway tissues as well as staining of lung and upper airway tissues using an antibody against SARS-CoV-2.

The specimens analyzed in this study were from patients with common signs and symptoms associated with COVID-19, including fever, cough, and shortness of breath. All patients had abnormal findings on chest radiographs.

There are other similar studies publicly available online. To aid in locating other related studies, please see the articles suggested in the "Similar Articles" and "Cited by" section on the manuscript's [PubMed entry](#).

The SARS-CoV-2 virus may be isolated from human clinical specimens by culturing in cells. In January 2020, CDC isolated the SARS-CoV-2 virus from a clinical specimen from the first confirmed case of COVID-19 in the United States. There are other similar studies published describing the isolation and characterization of SARS-CoV-2 from human clinical specimens. To aid in locating other related studies, please see the articles suggested in the "Similar Articles" and "Cited by" section on the manuscript's [PubMed entry](#). There are also several publications documenting SARS-CoV-2 infection and transmission among pre-symptomatic and asymptomatic individuals.

June 24, 2021 FOIA response:

Anthony Fauci's **National Institute of Allergy and Infectious Diseases (NIAID)** failed to provide/cite any record of "SARS-COV-2" purification from a patient sample by anyone, anywhere.

NIAID referred me to the anti-science CDC study by Harcourt et al., even after I'd advised them of CDC's [June 7, 2021](#) 'no records' response. I have appealed to NIAID's FOIA Public Liaison.

The communications between myself and NIAID are provided here:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/NIAID-FOIA-package-redacted.pdf>

We have previously queried our Division of Clinical Research for records responsive to similar requests. Your request is properly directed to the Centers for Disease Control and Prevention (CDC) as they are the ones who did the isolation: <https://www.cdc.gov/coronavirus/2019-ncov/lab/grows-virus-cell-culture.html>

See publication: https://wwwnc.cdc.gov/eid/article/26/6/20-0516_article

You can submit a request to the CDC at the following link: <https://www.cdc.gov/od/foia/index.htm>
If you disagree with their no records determination, you should properly avail yourself of the appeal rights described in their final response to you.

If you are not satisfied with the processing and handling of this request, you may contact the NIAID FOIA Public Liaison:

NIAID FOIA Public Liaison

The CDC study cited by NIAID did not purify anything from a patient sample. It is the same study that Dr. Thomas Cowan wrote about in 2020 (“~~Only Poisoned Monkey Kidney Cells ‘Grew’ the ‘Virus’~~”) where he also addressed the fraudulent nature of the authors’ fabricated “SARS-COV-2 genome” (as shown in the screenshot below).

First, in the section titled “Whole Genome Sequencing,” we find that rather than having isolated the virus and sequencing the genome from end to end, that the CDC “designed 37 pairs of nested PCRs spanning the genome on the basis of the coronavirus reference sequence (GenBank accession no. NC045512).”

To me, this computer-generation step constitutes scientific fraud. Here is an equivalency: A group of researchers claim to have found a unicorn because they found a piece of a hoof, a hair from a tail, and a snippet of a horn. They then add that information into a computer and program it to re-create the unicorn, and they then claim this computer re-creation is the real unicorn. Of course, they had never actually seen a unicorn so could not possibly have examined its genetic makeup to compare their samples with the actual unicorn’s hair, hooves and horn.

The researchers claim they decided which is the real genome of SARS-CoV-2 by “consensus,” sort of like a vote. Again, different computer programs will come up with different versions of the imaginary “unicorn,” so they come together as a group and decide which is the real imaginary unicorn.

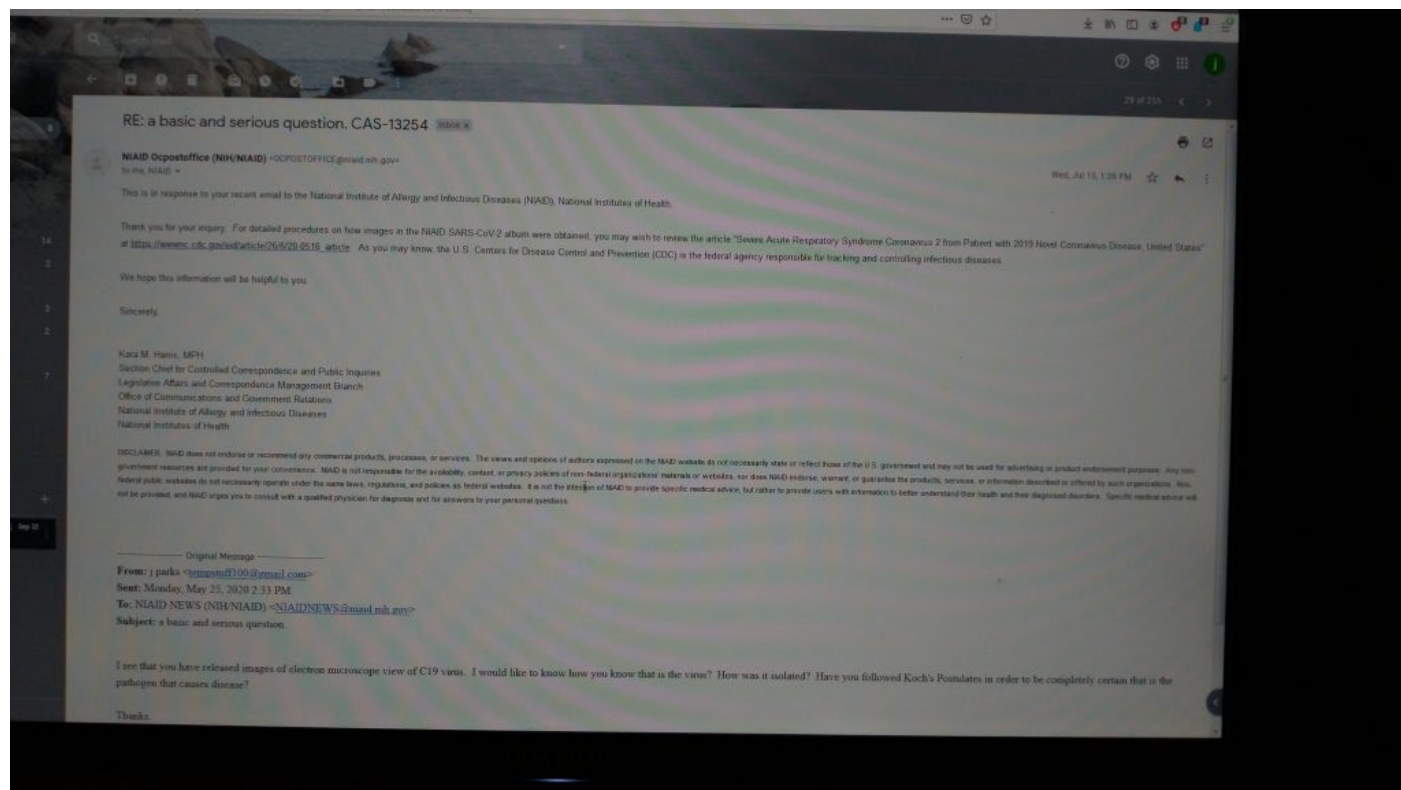

Previously, in 2020, Ron Bublitz had already asked the **U.S. National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health (NIH)** the question shown below. His correspondence is posted at the following link, along with the evasive response provided by the NIH/NIAID Section Chief for Controlled Correspondence and Public Inquiries, Legislative Affairs and Correspondence Management Branch. Pdf showing the text and a photo of the actual emails: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/NIAID-reply-to-Ron-Bublitz-re-SARS-COV-2-isolation.pdf>

To: NIAID NEWS (NIH/NIAID)

Subject: a basic and serious question.

I see that you have released images of the electron microscope view of C19 virus. I would like to know how you are certain that is the virus? How was it isolated? Have you followed Koch's Postulates in order to be completely certain that is the pathogen that causes disease?

Ron kindly provided a screenshot of his communications with NIAID, shown below.

Note that NIH/NIAID failed to answer any of Ron Bublitz's questions and merely cited [the same CDC study](#) by Harcourt et al. mentioned above that indulged in the typical fraudulent "monkey business" approach to so-called "isolation" – as shown in the screenshot below).

Cell Culture, Limiting Dilution, and Virus Isolation

We used Vero CCL-81 cells for isolation and initial passage. We cultured Vero E6, Vero CCL-81, HUH 7.0, 293T, A549, and EFKB3 cells in Dulbecco minimal essential medium (DMEM) supplemented with heat-inactivated fetal bovine serum (5% or 10%) and antibiotics/antimycotics (GIBCO, <https://www.thermofisher.com> ) . We used both NP and OP swab specimens for virus isolation. For isolation, limiting dilution, and passage 1 of the virus, we pipetted 50 µL of serum-free DMEM into columns 2–12 of a 96-well tissue culture plate, then pipetted 100 µL of clinical specimens into column 1 and serially diluted 2-fold across the plate. We then trypsinized and resuspended Vero cells in DMEM containing 10% fetal bovine serum, 2× penicillin/streptomycin, 2× antibiotics/antimycotics, and 2× amphotericin B at a concentration of 2.5×10^5 cells/mL. We added 100 µL of cell suspension directly to the clinical specimen dilutions and mixed gently by pipetting. We then grew the inoculated cultures in a humidified 37°C incubator in an atmosphere of 5% CO₂ and observed for cytopathic effects (CPEs) daily. We used standard plaque assays for SARS-CoV-2, which were based on SARS-CoV and Middle East respiratory syndrome coronavirus (MERS-CoV) protocols ([9,10](#)).

Peterborough Public Health and (outgoing) Medical Officer Dr. Rosana Salvaterra confirm they have no records describing purification of the alleged “**SARS-COV-2**”, “**HIV**” aka “**human immunodeficiency virus**”, “**Hep B virus**” or “**Hep C virus**” from any patient sample on the planet, by anyone, anywhere. Which means they have zero proof of their existence.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/Peterborough-PH-HIV-Hep-B-Hep-C-SARSCOV2-package-redacted.pdf>

January 3, 2022:

Sarah B. Kotler, J.D. (a lawyer), Director, Division of Freedom of Information, **U.S. Food and Drug Administration (FDA)** refused to formally respond to my FOIA request delivered to her via email... but also indicated that the FDA has no record describing purification of “**SARS-COV-2**” from any patient sample on Earth, by anyone, anywhere, ever. She also failed to answer my question re what she will do with the knowledge that no one on the planet has any proof of “the virus”, despite being a “public servant” working for an agency that has been rubber-stamping all manner of “COVID-19” devices, injections, etc. She also called me “rude”, meanwhile she appears quite content to go along with worldwide fraud and violations of the Nuremberg Code:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2022/01/FDA-PACKAGE-redacted.pdf>

FOIA request to FDA re: "SARS-COV-2" purification

Kotler, Sarah <Sarah.Kotler@fda.hhs.gov>
To: Christine Massey <cmssyc@gmail.com>

Mon, Jan 3, 2022 at 7:15 AM

Our regulation (which I cited below) gives you the option of (1) mailing or (2) faxing your request. We also have the online portal, which is the fastest method right now due to mail delays and the fact that our office remains closed, and we are limited in our ability to retrieve mail or faxes. In any event, the information you are seeking about "purification" would not even be with FDA. I would suggest you submit your request to the CDC based on the information at [SARS-CoV-2 Viral Culturing at CDC | CDC](#). Instructions for submitting a request to that agency are at:

[Freedom of Information Act Importance to CDC Mission | CDC](#)

Thank you,

Sarah B. Kotler, J.D.
Director, Division of Freedom of Information
US FDA
301-796-8976

December 29, 2021:

The **New York City Mayor's Office** aka the office of **Bill de Blasio** insisted they would need extra time, specifically until March 16, 2022, to respond to a request for any records describing purification of the alleged "SARS-COV-2" by anyone, from any patient sample on Earth:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2022/01/NYC-Mayors-Office-PACKAGE-redacted.pdf>

[OpenRecords] Request FOIL-2021-002-00688 Extended

The Mayor's Office (OOM) has extended the time to respond to your FOIL request FOIL-2021-002-00688 for the following reasons:

You can expect a response on or about Wednesday, March 16, 2022.

Additional Information:

Due to the volume of requests that we have received, we now estimate that we will be able to provide you with a response on or before the above date.

Please visit [FOIL-2021-002-00688](#) to view additional information and take any necessary action.

October 23, 2021:

The Assistant General Counsel at **Clemson University, South Carolina** confirmed for the requester that the University does not have any record of "SARS-COV-2" purification, despite their Department of Environmental Engineering and Earth Sciences recently receiving \$900,000 to study the alleged "virus":

Robert Wilkins <bertw@clemson.edu>

Sat, Oct 23, 2021 at 5:43 AM

Cc: Amy McKinney Josey <amjosey@clemson.edu>

Good afternoon [REDACTED]

I hope you are doing well. Your FOIA request below was forwarded to me for response. I have directed your below request to the appropriate departments. The University does not have records responsive to your request.

I hope you have a nice weekend.

Best regards,

Robert W. Wilkins
Assistant General Counsel
Clemson University

Re: FOIA Request # 2021-268

Dear Ms. Turney:

This letter is in response to your narrowed Illinois Freedom of Information Act ("FOIA") request received on October 7, 2021 seeking:

All records of scientific laboratory studies analyzing and identifying the SARS-CoV-2 virus from an isolated sample extracted from a human being. am unable to find proof of the above.

Please be advised that after conducting a search, the Governor's Office has located no records responsive to your request.

To the extent you consider this response to be a denial of your FOIA request, you have the right to a denial reviewed by the Office of the Illinois Attorney General, 500 S. 2nd Street, Springfield, Illinois 62706, (877) 299-3642, publicaccess@atg.state.il.us.

If you choose to submit a request for review, you must do so within 60 days after the date of this response letter. The request for review must be in writing, signed by you, and include a copy of your FOIA request and this office's response. 5 ILCS 140/9.5(a). In addition, you have the right to seek judicial review of this response. 5 ILCS 140/11(a), (b).

If you have any questions or need additional information, please contact me.

Sincerely,

Shannon I. Leonard, FOIA Officer
Office of Illinois Governor JB Pritzker

September 24, 2021:

Wisconsin Governor and Department of Health Services confirmed for Charles R. Haeuser that they have no record regarding isolation/purification of the alleged “COVID-19 virus” (or regarding safety and/or approval of so-called “vaccines”). (The DHS did provide attachments regarding Wisconsin’s “COVID-19 Community Outreach Grant”; click [here](#) to see or download them.)

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Wisconsin-Governor-and-Dept-of-Health-Services-PACKAGE-redacted.pdf>

RE: Your August 14, 2021 Public Records Requests

Dear Mr. Haeuser:

This is in response to your public records requests received by the Department of Health Services on August 14, 2021. You requested:

- All studies and/or reports in the possession, custody or control of the State of Wisconsin, Department of Health Services, Governor of the State of Wisconsin, Any contracted employees or Laboratories contracted by The State of Wisconsin, Department of Health Services or its duly appointed entities describing the purification (i.e. via filtration and ultracentrifugation) of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).
- [A]ny/all internal documents that refer to, or indicate who authorized the total amount and any and all records regarding research done into the use of the word vaccine, the safety of any vaccine and any records that the Department of Health Services has that show an approval of any “vaccine or inoculation” that was approved by the FDA for safe, ethical use on anyone, anywhere.

DHS has no responsive records to the first two bullets of your request. It should also be

September 29, 2021:

Metro Public Health Department, Nashville, Tennessee advised that “*No such record(s) exists, or this office does not maintain record(s) responsive to*” a request from Irucka Embry re purification of the alleged “SARS-COV-2” or the complete matching of “virus genomic sequences” from victims of the alleged virus in Metro Nashville and Wuhan, China.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/Metro-PHD-Nashville-Tennessee-redacted-PACKAGE.pdf>

- Copies of public record(s) responsive to your request are:
- Attached;
 - Available for pickup at the following location:
2500 Charlotte Avenue, First Floor, Suite 115 (Medical Records); or
 - Being delivered via: USPS First-Class Mail Electronically Other: _____.
- Your request is denied on the following grounds:
- Your request was not sufficiently detailed to enable identification of the specific requested record(s). You need to provide additional information to identify the requested record(s).
 - Questions which seek information rather than the reproduction of record(s) does not require a response under TPRA.
- No such record(s) exists, or this office does not maintain record(s) responsive to your request.

August 18, 2021:

Arizona Department of Health Services confirmed for Timothy Martin that they have no record describing isolation/purification of any “SARS-COV-2” from any patient sample on the planet, and confuse such with private/protected/identifiable healthcare data:<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/Arizona-Dept-Health-PACKAGE-redacted.pdf>

Re: Response-August 16, 2021 Public Records Request

Dear Mr. Martin:

On behalf of the Arizona Department of Health Services ("ADHS"), I am responding to your August 16, 2021 public records request (the "Request"). In your Request, you ask for communicable disease related information, specifically records "describing the isolation of a SARS-CoV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; liver cancer cells, lung cells from a lung cancer patient)."

In response to your Request, ADHS does not have any records "describing the isolation of a SARS-CoV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material." Please note that available de-identified COVID-19 data, including case data, may be reviewed at: <https://www.azdhs.gov/covid19/data/index.php>. You may also wish to check with the Centers for Disease Control and Prevention for information that may be useful to you. See <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

In addition, even if ADHS had records responsive to your Request, A.R.S. § 36-664(A) states: "[a] person who obtains **communicable disease related information** in the course of providing a health service or obtains that information from a health care provider pursuant to an authorization shall not disclose or be compelled to disclose that information except as authorized by state or federal law...." (Emphasis added). See also A.R.S. §§ 36-661(5), (14), (21), 36-664(C), 36-665 and 36-666(A)(2) (it is a class 3 misdemeanor to disclose communicable disease related information in violation of A.R.S. Title 36, Chapter 6, Article 4); May 29, 2020 Under Advisement Ruling issued in Maricopa County Superior Court Case No. CV2020-005385; January 29, 2021 Minute Entry issued in Maricopa County Superior Court Case No. CV2020-012030.

December 9, 2021:

10 short months is all it took for the **New York State Department of Health** to provide William Huston with a meaningless list of imaginary “SARS-COV-2” variants in response to his request for records indicating that “the virus” has been isolated. And 3 short months is all they need to complete their “diligent search” for records responsive to my purification request:

FOIL #: 21-02-073

Dear Mr. Huston:

This letter responds to your Freedom of Information Law (FOIL) request of February 1, 2021, in which you requested "records which indicate that the virus* which purportedly causes COVID-19 disease, has been isolated, (* Known by various names, including SARS-nCoV, SARS-COV-2, 2019-nCoV, SARS2-nCoV- 19, HCoV-19, etc)."

Please be advised that the culture and isolation of SARS-CoV-2 virus is a time-consuming process and a high biohazard procedure, that can only be performed in a certified biosafety level 3 (BSL-3) laboratory. Very few clinical laboratories can perform this procedure as most do not have BSL-3 facilities. The New York State Department of Health's Wadsworth Center ("Wadsworth") does have BSL-3 laboratories and as of November 12, 2021, has performed cultures on a total of 306 specimens from COVID patients, randomly selected throughout the pandemic. Due to the cost and labor-intensive nature of the procedure, it is only performed on a small fraction of samples. From these 306 specimens, the SARS-CoV-2 virus has been isolated 194 times.

The lineage of the harvested viruses from the cultures is determined by analyzing the entire genomic viral sequence following next generation sequencing. This is also a costly and time-consuming procedure, only performed on a small percentage of samples. For 85 of the inoculated samples that grew, the virus lineage (variant type) is not known at this time as the sequence analysis has not been performed.

Further, variants are only assigned a Greek letter by the World Health Organization when they are determined to be Variants of Interest or Variants of Concern. Thus, there have been numerous variants identified that do not have a Greek letter designation. For the 109 samples that have been cultured and sequenced at Wadsworth, the lineage and variant classifications identified are shown in the table below:

| <u>SARS-CoV-2 Lineage</u> | <u>Greek letter designation</u> | <u>Number of Different Samples That Grew</u> |
|---------------------------|---------------------------------|--|
| B.1 | N/A | 34 |
| B.1.1.207 | N/A | 5 |
| B.1.1.348 | N/A | 2 |
| B.1.1.519 | N/A | 1 |

September 30, 2021: New York State Department of Health advised [William Huston](#) that they have zero records indicating that the alleged "SARS-CoV-2" is the cause of "COVID-19."

FOIL #: 21-02-070

Dear William Huston:

This letter responds to your Freedom of Information Law (FOIL) request of February 1, 2021, in which you requested "[r]ecords which indicate that the virus known as SARS-CoV-2 (a/k/a, 2019-nCoV, HCoV-19, SARSnCoV- 19, SARS-nCoV-2, and SARS2-nCoV-19) is the cause of Coronavirus Disease-2019 (COVID-19)."

The New York State Department of Health does not maintain records responsive to your request. Please be advised, the Department follows the findings and directives issued by the Centers for Disease Control and Prevention (CDC). Information responsive to your request can be found on the CDC's website at the following link:

<https://www.cdc.gov/coronavirus/2019-ncov/your-health/about-covid-19/basics-covid-19.html>

Should you feel that you have been unlawfully denied access to records, you may appeal such denial in writing within 30 days to the Records Access Appeals Officer, Division of Legal Affairs, Empire State Plaza, 2438 Corning Tower, Albany, New York 12237-0026.

If you require additional information or wish to discuss this matter further, please do not hesitate to contact me at (518) 474-8734.

Sincerely,

Oggetto: R: istanza accesso agli atti

In merito a quanto richiesto dall'Avvocato Rodaro, si rappresenta quanto segue.

Il richiedente usa il termine isolamento a sproposito.

In Virologia con il termine isolamento virale si intende **la messa in coltura di un campione biologico e la verifica della moltiplicazione del virus su un substrato di cellule vive permissive, coltivate in vitro**. L'isolamento si può ottenere anche in animali da esperimento, ma non è questo il caso.

Le cellule inoculate, in parallelo con un controllo non inoculato, vengono monitorate nel tempo per vedere se il virus cresce, la qual cosa è evidente come effetto citopatico, come presenza di particelle virali in microscopia elettronica, oppure, più comunemente, misurando nel tempo la quantità di genomi virali rilasciati dalle cellule in maniera progressivamente incrementale, come risultato della replicazione del virus. Non esistono altre accezioni del termine "Isolamento virale".

October 29, 2021?

Italy's Ministry of Health failed to provide or cite any study or report (evidence) (or webpage citing such) re the isolation/purification of the alleged Sars-Cov-2 virus or any alleged variant, for the requester:

|---|---|
| <p>I. Documents and/or communications regarding the Certified Reference Material (CRM) being used by DOH and its authorized testing centers to determine whether a person is positively infected with SARS-CoV-2.</p> | <p>Real-time PCR technology is reliant on the ability of the thermocycling machine's camera to correctly detect successive exponential increases in the fluorescence intensity against erratic fluorescence signals that behave as background noise.</p> <p>As such, the primary determinant whether a person is classified as positive is the presence of the viral RNA target in their sample.</p> <p>In the context of the PCR procedure, the "CRM" referred here may pertain to the "positive" control that is incorporated as part of the components of the real-time PCR kit. The primary function of a positive template control is to serve as a validity checkpoint to detect general failures or errors assumed to be related to all samples belonging to the same run; that is to say that if a positive control fails, then all samples belonging to the same run are retested.</p> <p>The final outcome of each tested sample is tied to the performance of the positive control.</p> |
| <p>II. Documents, lab results, and/or communications including but not limited to scientific articles demonstrating, using procedures that satisfy Koch's Postulates, that this Certified Reference Material is</p> | <p>The real-time RT-PCR test for SARS-CoV-2 does not "isolate" the virus but rather detects short target sequences of the virus in clinical samples. If these target sequences are detected in clinical samples, these can be amplified and detected through the test. The positive control material included in the PCR kit is likewise not a whole virus but rather nucleic acid fragments taken from the virus or synthesized, and that which serve as the basis for (1) comparing if a clinical sample that is tested is positive for the virus; and (2) provide supporting information that the assay is working.</p> <p>As originally stated, the four criteria known as "Koch's postulates" are: (1) The microorganism must be found in diseased but not healthy individuals; (2) The microorganism must be cultured from the diseased individual; (3) Inoculation of a healthy individual with the cultured microorganism must recapitulate the disease; and finally (4) The microorganism must be re-isolated from the inoculated, diseased individual and matched to the original microorganism. (https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3775492/).</p> |

August 2021: **Massachusetts Department of Health** Reports “No Responsive Documents” to FOIA Request for Information on Purified Isolate of Professed SARS-COV-2/COVID-19 Virus & Delta Variant Forming Basis for all State COVID Restrictions — by Ramola Dharmaraj:

<https://everydayconcerned.net/2021/08/30/massachusetts-department-of-health-reports-no-responsive-documents-to-foia-request-for-information-on-purified-isolate-of-professed-sars-cov-2-covid-19-virus-delta-variant-forming-basis-for-all/>

The Massachusetts responses in the above article are also backed-up at the following links:

August 11, 2021

Commonwealth of Massachusetts Office of the Governor told Ramola Dharmaraj “we have no records” re isolation of (the alleged) SARS-COV-2/COVID-19 virus:

https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/COMMONWEALTH-OF-MASSACHUSETTS-OFFICE-OF-THE-GOVERNOR-Response_Letter_-_Dharmaraj.pdf

August 25, 2021

Commonwealth of Massachusetts Department of Health: “The Department has no responsive records to your request.”

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/Commonwealth-of-Massachusetts-Dept-of-Health-package.pdf>

Clarification 2: Isolate means "to separate something from other things with which it is connected or mixed"--Cambridge Dictionary definition.

Clarification 3: This request is not for information on something procured by means of

- 1) Culturing something,
- 2) Nasally swabbing something from any randomly sick (with some other disease) or healthy person,
- 3) Amplifying something via PCR Test (Which its inventor Dr. Kary Mullis has clearly stated is not to be used to diagnose any disease),
- 4) the Sequencing of something,
- 5) or the Computer-Generated Sequencing of something.

The Department has no responsive records to your request.

September 2, 2021: The **Commonwealth of Virginia Department of General Services** provided allegedly responsive records that contained zero descriptions of "SARS-COV-2" purification from any patient sample on the planet, by anyone, anywhere. The allegedly (but not really) responsive records are 1): the CDC's 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel, and 2) ThermoFisher TaqPath™ COVID-19 Combo Kit Procedure for the Detection of 2019-nCoV RNA by RTPCR.

Via email: [REDACTED]

Dear [REDACTED]

I am responding to your request for information received by the Department of General Services (DGS) via email on August 26, 2021. In your request you asked for in brief, all studies and/or reports in possession, custody or control of the Division of Consolidated Laboratory Services describing the **purification** of any **COVID-19 virus**.

Please find attached documents responsive to your request.

I hope this information is helpful. Thank you for your inquiry.

Sincerely,

Dena Potter
Director of Communications

Commonwealth of Virginia
Department of General Services
Division of Consolidated Laboratory Services
Richmond, Virginia

CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel

I. PURPOSE/APPLICATION:

- A. This procedure is for the qualitative detection of nucleic acid from the 2019-novel Coronavirus (nCoV), termed severe acute respiratory syndrome

September 1, 2021: The **Pennsylvania Department of Health** confirmed they have no record of "SARS-COV-2" purification from any patient sample on the planet, by anyone, anywhere:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/Pennsylvania-Dept-of-Health-PACKAGE-redacted.pdf>

**RE: Right to Know Law Request
DOH-RTKL-COV-150-2021**

Dear M [REDACTED]

This letter acknowledges receipt by the Pennsylvania Department of Health (Department) of your written request for records under the Pennsylvania Right-to-Know Law (RTKL), 65 P.S. §§ 67.101-67.3104. The Department received your request on August 25, 2021. You requested:

[A]ny records that describe the isolation of a “COVID-19 virus” (aka “SARS-COV-2”) from an unadulterated sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material. Isolate meaning a thing is separated from all other material surrounding it. I am NOT REQUESTING white papers where “isolation” of SARS-CoV-2 refers to: the culturing of something, performance of an amplification test (PCR) or the sequencing of something.

Your request is denied, as the Department is not in possession of records responsive to your request.

As a courtesy, the Department provides the following information: The Department interprets your request to seek records for the isolation of intact virus/viral particles of SARS-CoV-2.

Please be advised that the Department’s molecular test processing is not isolating live virus or viral particles. The Department is isolating SARS-CoV-2 genetic material extracted from virus/viral particles in the patient specimen. That extracted genetic material is used in PCR reactions for the detection of the presence of SARS-CoV-2 genetic material in that extract.

The Department’s Bureau of Laboratories utilizes COVID PCR assays which have received authorized EUAs from the FDA:

- (1) The CDC COVID RT-PCR assay described in the most recent approved update; and
- (2) The ThermoFisher COVID multiplex RT-PCR panel assay.

August 30, 2021: **Montgomery County, Pennsylvania** confirms they have no record of “SARS-COV-2” purification from any patient sample on the planet, by anyone, anywhere, or any proof of “its” existence: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/Montgomery-County-Pennsylvania-no-records-PACKAGE-redacted.pdf>

**MONTGOMERY COUNTY
BOARD OF COMMISSIONERS**

August 30, 2021

VIA E-MAIL

King of Prussia,

Re: Right-to-Know Request No. OR21-553

Dear M

On August 26, 2021, the open-records officer of Montgomery County received your written request for information. The County is responding to your request under the Pennsylvania Right-To-Know Law, 65 P.S. §§ 67.101, et seq. (RTKL). You asked for the following:

"...I am seeking any records that describe the isolation of a "COVID-19 virus" (aka "SARS-COV-2") from an unadulterated sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material. Isolate meaning a thing is separated from all other material surrounding it.

Note: I am NOT REQUESTING CDC website referral information or white papers where "isolation" of SARS-CoV-2 refers to:

- the culturing of something
- performance of an amplification test (PCR) or
- the sequencing of something.

To clarify, I am requesting via disclosure all white papers / solid scientific evidence proving that:

1. the SARS-CoV-2 virus causes the illness that matches the characteristics of all of the deaths attributed to COVID-19;
2. that said virus has been properly purified / isolated from human beings, reproduced and then shown to cause said Covid-19 / SARS-COV-2 in human beings..."

Under the RTKL, a written response to your request was due on or before September 2, 2021.

August 13, 2021: The General Counsel and FOI Officer for the **Washington DC Department of Health** confirmed for the requester that the Department has no record describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a patient sample. Full communication:

https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/Washington-DCH_DC_-FOIA_001_RFI_08_11_2021-redacted-package.pdf

Your Freedom of Information Act (FOIA) request seeks “studies and/or reports ... describing the **purification** of any “**COVID-19 virus**” (aka “SARS-COV-2”, including alleged variants”
[Bolding in original]

FOIA Response

The Government of the District of Columbia has posted COVID-19 documents, data, and information on <https://coronavirus.dc.gov/>.

When I conferred with the Director of the Department of Health regarding your FOIA request, I was advised that the Department of Health has not been involved in any research or day-to-day activities related to purification of SARS-CoV-2. No letters, reports, or documents (other than your FOIA request) regarding a purification process have been received by the Director of the Department of Health.

August 2021: **Michigan Department of Health and Human Services** confirmed for Andrew Nihem that they have no record describing purification of “the virus” (including any alleged “variants”) from any patient sample on the planet, by anyone, anywhere.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/Michigan-Dept-of-Health-and-Human-Services-package.pdf>

RE: Public Records Request, Reference # H012477-080421.

Dear Mr Nihem,

This notice is issued in response to your request, legally received by the Michigan Department of Health and Human Services (Department) on August 05, 2021, requesting information under the Freedom of Information Act (FOIA), MCL 15.231 *et seq.*

Your request is denied.

To the best of the Department's knowledge, information, and belief, this Department does not possess or maintain records under the description you provided or by other names reasonably known to the Department.

As to the denial, the Department is obligated to inform you that under MCL 15.240 §10 the following remedies are available:

1. Appeal this decision in writing to the Legal Affairs Administration of the Department of Health and Human Services, PO Box 30195, Lansing, MI 48909. The writing must specifically state the word "appeal" and must identify the reason or reasons you believe the denial should be reversed. The Department must respond to your appeal within ten days of receipt. Under unusual circumstances, the time for response to your appeal may be extended by ten business days.
2. File an action in the appropriate court within 180 days after the date of the final determination to deny the request. If you prevail in such an action, the court is to award reasonable attorney fees, costs, disbursements, and possible damages.

The Department's FOIA policies and procedures are available at [Policies and Procedures](#).

Sincerely,

Ruth O'Connor
Bureau of Legal Affairs

August 18, 2021: California's Department of Public Health confirmed for Kim Leonoudakis that they have no record of "SARS-COV-2" (including any "variants") having been purified from any patient sample on the planet and no analysis whatsoever re the alleged "Delta variant":

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/California-DPH-FOIA-P013439080421.pdf>

From: CDPH Public Records Portal cdph@govqa.us
Subject: California Public Records Request :: P013439-080421
Date: August 18, 2021 at 10:23 PM
To: Kim.Leonoudakis@state.ca.gov

August 18, 2021

RE: Public Records Act Request, Reference Number P013439-080421

Dear Kim Leonoudakis,

On August 04, 2021, the California Department of Public Health (CDPH) received your request for the following records under the Public Records Act:

1. *describing the isolation of the of the SARS-COV-2 (COVID-19) virus including any "variants" that allegedly causes the disease referred to as COVID-19 in the United States, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e., monkey kidney cells, aka vero cells; liver cancer cells; fetal bovine serum).*

2. *describing how this alleged new variant referred to as Delta relates to the alleged "SARSCOV-2 (COVID-19) virus" including any analysis or investigation into this alleged new variant, Delta.*

3. *I am not requesting records where "isolation of a "SARS-COV-2" refers. Instead only to:*

- the culturing of something; and/or*
- the performance of an amplification test (i.e. a PCR test), and/or*
- the sequencing of something, or*
- the fabrication of a genome.*

After reviewing your initial request, we were unable to identify the requested information based upon the description. Accordingly, on Aug 12, 2021, we requested additional information from you in order to clarify certain portions of your request so that we may have provided responsive records, if any. You provided the clarifying information on Aug 15, 2021.

After reviewing your initial request, and subsequent clarifying information, CDPH has determined it is not in possession of records that are responsive to the request.

Thank you,

Chloe Guldera

To monitor the progress, update this request, or download responsive records, please log into the [Public Records Center](#).

August 24, 2021: **California's Department of Public Health** confirmed for Robin that they have no record of "the virus" (including any "variants") having been purified from any patient sample on the planet, by anyone, anywhere. <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/California-Dept-Public-Health-P013542-081421-redacted.pdf>

culture or from any unpurified substance, and/or

-Produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (i.e. separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$5. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of "COVID-19". This information is not being sought for commercial purposes.

The California Public Records Act requires a response within ten business days. If access to the records I am requesting will take longer, please contact me with information about when I might expect copies.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Format

Electronic files conveyed to me via email, preferably in PDF format; I do not wish for anything to be shipped to me.

CDPH has completed a diligent search and has determined that it is not in possession of records that are responsive to your request. For this reason, this concludes CDPH's response to your request, which will now be closed.

Sincerely,

Taylor St. Mary
AGPA
CID/DCDC

To monitor the progress, update this request, or download responsive records, please log into the [Public Records Center](#).

August 9, 2021: The **Arkansas Department of Health**'s Deputy General Counsel advised Dr. James W. Smith that the Department has no record describing the purification of any "SARS-COV-2" (including any scariants) from any patient sample on the planet, by anyone, ever, via filtration and ultra-centrifugation. He did however provide 2 emails re "looking for COVID 19 in wastewater" – lol. Dr. Smith will be following up to request that the response be provided in a formal, signed and dated letter with a file number. Full correspondence:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/Arkanas-Dept-of-Health-no-records-email-response-Aug-9-redacted.pdf>

 No photo description available.

After a series of Freedom of Information requests beginning in April 2020 failed to yield any satisfactory response, Ricardo Maarman (working alongside [Dr. Faiez Kirsten](#)) challenged the **South African government** in the Western Cape High Court in May 2021 to provide proof of "the virus" that allegedly justifies that government's devastating lockdown measures.

(More specifically, Ricardo challenged the President, the National Department of Health, the Governmental COVID-19 Advisory Committee and the Minister of Co-operative Governance and Traditional Affairs. And the responding affidavit was authored primarily by the Acting Executive Director of South Africa's National Institute for Communicable Diseases.)

The government failed to provide proof or even compelling evidence, and on pages 29+ of their [responding affidavit](#) (starting on page 31 of the pdf) revealed that they have relied on a “well established” but unscientific approach to “virus isolation”.

86.1. Protocols for isolation and culturing of “physical virus” are now well established. There are many clear review manuscripts to support this statement. It is not done routinely for diagnosis, as it will be impractical and will not be conducive to patient management.

86.2. The nature of the SARS COV-2 has been established not only through RT-PCR in sequencing but also in electron microscopy.

86.5. There have been significant advances with new diagnostic methodologies and sequencing, and further associations are made:

86.5.1. A nucleic acid sequencing belonging to a putative pathogen should be present in most cases of an infectious disease.

86.6. The nature of the micro-organism inferred from the available sequence should be consistent with the known biological characteristic of that group or organisms.

The SA government’s affidavit artfully implies that Koch’s Postulates (or a variation therefore) have been fulfilled for the alleged “virus” when in fact none of them have been. It contains no mention of **purification** of the particles that have been shown in EM images (within cell cultures, never purified or in patient samples!) alleged to be “the virus”, or the characterization or sequencing of purified particles, or any controlled experiment involving purified particles.

And the SA government’s discussion of the Bradford-Hill criteria glosses over the fact that these criteria **presuppose** the existence and valid measurement of the potentially causative factor under investigation, when the reality is that no test ever has been or could have been validated for the never-purified, never-characterized, never-sequenced particles alleged to be “the virus”.

The judge ruled that the matter is **not urgent** and struck the matter from her roll. Ricardo will be pursuing this further. The notice of motion, [hearing transcript](#), [court ruling](#), other documentation and interviews about this case are posted on a dedicated website:

<https://www.showusthevirus.info>.

The applicant has not made a case for urgency.

5852/2020_2021.05.27

1...

2

RULING

Consequently the matter is struck off the roll. The applicant has got another course which the applicant, if he wishes, can take. That is my ruling.

Pertaining to costs, each party will pay its own costs.

10

NZIWENI, AJ

JUDGE OF THE HIGH COURT

A **Lisbon court document** dated May 19, 2021 is posted on the website of [Andre Dias, PhD](#) (as reported by Celia Farber at “The Truth Barrier,” celiafarber.substack.com).

The court document’s URL is <https://andre-dias.net/wp-content/uploads/Fwd-Sentenca.pdf> (and we have backed it up at <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/Portuguese-court-ruling.pdf>).

According to Ms. Farber’s published June 28, 2021 email interview with Dias, who is an expert in lung disease modeling, the court ruling is in regards to a citizen’s petition to the Ministry of Health, “*equivalent to a Freedom of Information Request...that ended up in court – with epidemiological and statistical queries*“, and “*the court also formalized that the ministry has no data or references about the existence of the virus...*”

Ms. Farber advises that an English translation of the court ruling is in the works and will be shared on her website once it’s prepared. Below is a screenshot from the original document showing some of the questions that had been posed to Portugal’s Ministry of Health, for which they apparently had no answers.

I - Cópia de publicação científica, revista por pares (peer-review), referente ao estudo sobre o grau de infecção provocada nos humanos, pelo vírus SARS-Cov2, responsável pela doença Covid-19, a partir de uma amostra não adulterada retirada de um humano doente;

II - Cópia de publicação científica, revista por pares (peer review), referente ao estudo sobre o grau de infecção nos humanos provocada pelo SARS-Cov2 obtida por via empírica e que prove que foram cumpridos os postulados de Koch/Evans (1976), indicando a data e o(s) autor(es) que realizaram o isolamento e purificação do vírus em laboratório;

III - Cópia da publicação científica, revista por pares (peer review), relativamente ao teste RT-PCR (polimerase chain reaction, ou, em português, reação em cadeia da polimerase) como ferramenta de diagnóstico fiável para identificar a infecção por vírus SARS-Cov2 em humanos, i.é, se o teste RT-PCR identifica a presença do RNA viral e a presença do referido vírus infeccioso;

July 2021: **Brazil's Ministry of Health** provided/cited zero records of "SARS-COV-2" purification for the FOI submitter, Marcella Picone. The Ministry initially claimed that the request (that the rest of world understood just fine) was unclear, but also admitted "information non-existent". In their 2nd response to Ms. Picone they explained that they have been following research conducted by other countries. See ps 2, 13, 14. Full responses:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/Brazil-Ministry-of-Health-package.pdf>

22/07/2021

SE/ANVISA - 1537031 - Despacho

Processo nº 25351.920427/2021-18

Interessado: CGTAI

Assunto: **Recurso de 1ª Instância Fala.BR NUP nº 25072018642202185**

A questão feita pelo protocolo SAT é genérica e solicita informação não disponível em âmbito da GGTPS:

"Solicito,todos os estudos e / ou relatórios em posse, custódia ou controle da Anvisa, FIOCRUZ, MINISTERIO DA SAUDE E MINISTERIO da CIENCIA descrevendo a purificação de qualquer "vírus COVID-19" (também conhecido como "SARS-COV-2", incluindo quaisquer alegadas "variantes", ou seja, " B.1.1.7 "," B.1.351 "," P.1 ") diretamente de uma amostra retirada de um ser humano doente, onde a amostra do paciente não foi combinada primeiro com qualquer outra fonte de material genético (ou seja, células de rim de macaco aka Células Vero; soro fetal de bovino). Observe que não estou solicitando estudos / relatórios em que os pesquisadores não conseguiram purificar o "vírus" suspeito (separe o suposto "vírus" de tudo o mais na amostra do paciente) e, em vez disso: cultivou uma amostra não purificada ou outra substância não purificada, e / ou realizou um teste de amplificação (ou seja, um teste de PCR) no RNA total de uma amostra de paciente ou de uma cultura de células, ou no material genético de qualquer substância não purificada, e / ou fabricou um genoma com base em sequências detectadas por PCR no RNA total de uma amostra de paciente ou de uma cultura de células ou de qualquer substância não purificada, e / ou produziu imagens de microscopia eletrônica de coisas não purificadas em uma cultura de células. Esclarecimento de Pedido Para maior clareza, observe que já estou ciente de que, de acordo com a teoria do vírus, um "vírus" requer células hospedeiras para se replicar e não estou solicitando registros que descrevam a replicação de um "vírus" sem células hospedeiras. Além disso, não estou solicitando registros que descrevam um "vírus" suspeito fluuando no vácuo; Estou simplesmente solicitando registros que descrevem sua purificação (separação de tudo o mais na amostra do paciente, de acordo com as práticas laboratoriais padrão para a purificação de outras coisas muito pequenas). Observe que minha solicitação inclui qualquer estudo / relatório que corresponda à descrição acima, por exemplo (mas não limitado a) qualquer estudo revisado por pares publicado de autoria de qualquer pessoa, em qualquer lugar. Observe também que, apesar do fato de que a purificação é uma etapa essencial (mas não suficiente) para provar a existência de um "vírus" causador de doenças. Portanto, no interesse da transparência e de acordo com os propósitos da legislação, se algum registro corresponder à descrição acima dos registros solicitados e estiver atualmente disponível ao público em outro lugar, forneça informações suficientes sobre cada registro para que eu possa identificar e acessar cada um com certeza (ou seja, título, autor (es), data, periódico, onde o público pode acessá-lo). Forneça URLs sempre que possível. Grata desde já. Aguardo retorno."

Betreff: AW: AW: Re: Your shot on rki.de/DE/Content/Infekt/NRZ/EM/Aufnahmen/EM_Tab_covid.html

Dear Mr. Seidmann,

Answer to question 1:

At the time of publication of our images of SARS-CoV-2 on our homepage the virus was already identified a few months before by chinese researchers (Zhu et al. 2020 (<https://www.nejm.org/doi/full/10.1056/NEJMoa2001017>)). Other publications quickly supported this result. At the time we checked the isolates, which were available to us, the information was already impossible to be published because there was no reasonable scientific doubt about SARS-CoV-2 as the causative of the diseases. As already mentioned before, one of our scientific outputs was submitted for publication and is already available as a preprint (<https://www.biorxiv.org/content/10.1101/2020.08.20.259531v2>)

Answer to question 2:

Isolation of the virus from patient material by using cell cultures is the standard technique, followed by identification of the virus using genome sequencing or PCR. Electron microscopy may serve as a control. Purification of the virus is not necessary for identification. I am not aware of a paper which purified isolated SARS-CoV-2. I am sure that cell culture propagated virus will be purified for particular tests. Simple purification steps, such as purification via sucrose cushion, have been already performed (e.g. Turonova et al. <https://science.sciencemag.org/content/early/2020/08/17/science.abd5223.abstract>)

Kind regards,

Michael Laue

The link for the Turonova et al. abstract, provided by Dr. Laue in the email above, is [here](#); the full text of the paper is here: [In situ structural analysis of SARS-CoV-2 spike reveals flexibility mediated by three hinges](#)

The **starting point** for this paper is a so-called SARS-COV-2 isolate named “MUC-IMB1” (referred to simply as “MUC-1” in the paper’s [supporting materials](#)). Turonova et al. credit G. Dobler of the Bundeswehr Institute for Microbiology for providing them this “isolate”.

I contacted Dr. Gerhard Dobler to confirm details about “MUC-1” (which goes by several different names including Germany/BavPat1/2020), and it turns out that MUC-1 is another result of the monkey-business methodology cited at the top of this page. (The emails and more details are posted here: [MUC-1 aka MUC-IMB1: just more Corman/Drosten monkey business fraud.](#)) MUC-1 is not isolated/purified “virus” nor was it ever shown to contain any “virus”.

Also on Torsten Engelbrecht’s website are links to email responses from authors of “SARS-COV-2” studies, starting with the Zhu et al paper cited above by Dr. Michael Laue. **None** provided any evidence or assurance re purification of “the virus”. The following is copied and pasted from Torsten’s homepage:

“**Na Zhu et al. (NEJM)**: “[We show] an image of sedimented virus particles, not purified ones” ([see Email](#)).

Leo L. M. Poon; Malik Peiris (*Nature Medicine*): “The image is the virus budding from an infected cell. It is not purified virus” ([see Email](#)).

Sharon R. Lewin et al. (*The Medical Journal of Australia*): ““The nucleic acid extraction was performed on isolate material recovered from infected cells. This material was not centrifuged, so was not purified through sucrose gradient to have a density band as such. The EM images were obtained directly from cell culture material” ([see Email](#)).

Myung-Guk Han et al. (*Osong Public Health and Research Perspectives*): “We could not estimate the degree of purification because we do not purify and concentrate the virus cultured in cells” ([see Email](#)).

Wan Beom Park et al. (*Journal of Korean Medical Science*): “We did not obtain an electron micrograph showing the degree of purification” ([see Email](#)).”

January 13, 2021: **Norway’s Ministry of Health and Care Services** failed to provide or cite any record of “SARS-COV-2” isolation from a sample from a symptomatic patient, where the sample was not adulterated with additional genetic material, by anyone anywhere, for the requester Martiens Bekker. Request and response with English translation:

Emne: krav om innsyn

Hei,

Vi viser til din henvendelse om krav om innsyn fra en innbygger i din kommune.

Slik vi forstår henvendelsen gjelder det dokumentasjon på om SARS-CoV-2 forårsaker sykdommen covid-19.

Departementet vil vise til Folkehelseinstituttets hjemmesider på norsk og engelsk [Folkehelseinstituttet - FHI](#) :

Det finnes også informasjon på nettsidene til det europeiske smittevernbyrået [Homepage | European Centre for Disease Prevention and Control \(europa.eu\)](#) og WHO [Technical guidance \(who.int\)](#).

Med vennlig hilsen

April 25, 2021: the **Norwegian Directorate of Health** (which is under the Ministry of Health and Care Services) failed to provide or cite even 1 record of “SARS-COV-2” purification from a patient sample, by anyone, anywhere, and provided a silly excuse instead:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/Norwegian-Directorate-of-Health.pdf>

May, 2021 **Uruguay's Clemente Stable Biological Research Institute** (under the Ministry of Education and Culture) and the **Faculty of Chemistry, University of the Republic** provided/cited no records of “SARS-COV-2” purification, by anyone anywhere, for requester María Bettina Galo. Both responses:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/05/Uruguay-Clemente-Stable-Biol-Research-Inst-Min-Edu-and-Culture-Faculty-of-Chem-U-of-Repub-no-records.pdf>

Montevideo, 25 de mayo de 2021.

Consejo Directivo del Instituto de Investigaciones Biológicas Clemente Estable

ASUNTO: la solicitud de acceso a información pública, presentada por la Sra. María Bettina Gallo, al amparo de la Ley 18.381 de Acceso a la Información Pública.

OBJETO: La Sra. María Bettina Gallo determina el objeto de la solicitud en su derecho a conocer acerca de *"Todos los estudios y / o informes en posesión, custodia o control de los informes y registros que describan la **purificación** de cualquier **"virus COVID-19"** (incluidos "B.1.1.7", "B.1.351", "P.1" y cualquier otra "variante") (mediante maceración, filtración y uso de una ultracentrífuga; también a veces por algunas personas como "aislamiento"), directamente de una muestra tomada de un ser humano enfermo, donde la muestra del paciente **NO SE** combinó primero con ninguna otra fuente de material **genético** (es decir, células de riñón de mono, también conocidas como células Vero; suero fetal bovino)"*

FUNDAMENTO LEGAL: El acceso a la información pública es un derecho de todas las personas, con arreglo al artículo 3º de la Ley 18.381.

Que la Unidad Ejecutora 011 "Instituto de Investigaciones Biológicas Clemente Estable" es un sujeto obligado por la Ley 18.831 a brindar información que se sea considerada pública con arreglo a los artículos 4 y 5 de la citada.

Que en aplicación del principio de informalismo a favor del administrado el Consejo Directivo de la Unidad Ejecutara va a procesar la presente solicitud y que la misma debió presentarse por escrito en la forma establecida por el artículo 13 de la Ley 18.381.

INFORME: De acuerdo a lo hasta aquí expresado el Consejo Directivo de la Unidad Ejecutora 011 "Instituto de Investigaciones Biológicas Clemente Estable" informa que no se trabaja con el virus vivo y que no se realizó la purificación del virus COVID en ninguna de sus variantes.

June 7 2021: **Uruguay Ministry of Public Health** failed to provide or cite for requester María Bettina Galo any record of “SARS-COV-2” purified from a patient sample, by anyone, anywhere, ever and claimed they can’t understand the request:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/Uruguay-Ministry-of-Public-Health-of-Res-377-2021.pdf>

RESULTANDO: que la peticionante solicita información sobre: i) todos los estudios y/o informes en posesión, custodia o control de los Centros para el Control y la Prevención de Enfermedades del M.S.P. y/ o privados integrantes o no del Grupo Asesor Científico Honorario (GACH), sin excepción, a cargo de la pandemia Covid-19, UDELAR, Facultad de Ciencias, Facultad de Química, Facultad de Medicina y el Departamento de Genética de la Facultad de Medicina, la Agencia para Sustancias y cualquier otra dependencia público o privado, o público-privada (Laboratorios de investigación); y ii) información sobre cada registro que describan la purificación de cualquier “virus- COVID -19” para poder identificar y acceder a cada uno con certeza;

CONSIDERANDO: I) que en merito a lo informado por la División Servicios Jurídicos, corresponde acceder a lo peticionado con excepción de la información solicitada que no se ajusta a los requisitos normativos, debiendo existir una descripción clara de la información requerida, así como cualquier dato que facilite su localización, rigiendo para ello lo dispuesto en el artículo 13 de la Ley Nº 18.381 de 17 de octubre de 2008;

II) que de acuerdo a lo dispuesto por el artículo 16 de la citada disposición legal, el acto que resuelva la petición debe emanar del jerarca máximo del Inciso o quien posea facultades delegadas al efecto;

ATENCIÓN: a lo precedentemente expuesto y a lo establecido por Resolución Ministerial Nº 38.991 de 22 de enero de 1991;

Once again, **Uruguay Ministry of Public Health** was queried by María Bettina Galo re “SARS-COV-2” purification. The answer: “*We are not aware that SARS COV 2 has been cultivated*“... even though Bettina hadn’t asked about “cultivation”, which is the opposite of purifying anything.

See page 20:

https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/Uruguay-Respuesta-MSP-SOBRE-COVID-EFECTOS-ADVERSOS-DOCUMENTO_Maria-Bettina-Galo-1.pdf

18. El Sars-Cov2 ha sido Aislado, Secuenciado y Purificado según método científico para elementos pequeños en Uruguay? Si la respuesta es Sí, indicar por favor por quién, documentación al respecto, publicación, corroborado por pares (quiénes)

No tenemos conocimiento que en el país se haya cultivado el SARS CoV 2 ya que exige condiciones de bioseguridad con las cuales el país no cuenta.

March 30, 2021: **Oregon Health Authority** confirmed they have no record re purification of any “SARS-COV-2” from any patient sample in the world: See the full wording of the request, and response:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/05/Oregon-HA-March-2021-request-response.pdf>

Re: Public Records Request - Studies/Reports Related to Purification of Any
"SARS-COV-2 Causing Disease in Humans (2021-[REDACTED])

Good Afternoon [REDACTED],

This will confirm Oregon Health Authority received your March 29, 2021 public records request for "All studies and/or reports in the possession, custody or control of the Oregon Health Authority (OHA) describing the purification of any "SARS-COV-2" (including any "variant" of "SARS-COV-2") said to have caused disease in humans (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)." There are no responsive records to your request. This will complete your request.

May 22, 2021: **Ministry of Health and Social Protection, Republic of Colombia** admits they have no record re purification of "SARS-COV-2" from a patient sample, by anyone anywhere. Full letter:
<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/FOI-Colombia-no-records-package.pdf>

Bogotá D.C.,

ASUNTO: Derecho de Petición. Rad.20212400025922

Respetada 

En atención al radicado del asunto, en el que solicita "Todos los registros en posesión, custodia o control del Ministerio de Salud y Protección Social de la República de Colombia que describan el aislamiento de un virus SARS-COV-2 y / o cualquiera de sus variantes, directamente de una muestra tomada de un paciente enfermo, donde no se combinó la muestra del paciente primero con ninguna otra fuente de material genético (es decir, células de riñón de mono, también conocidas como células Vero; suero fetal bovino)", para lo cual este Ministerio se permite precisar lo siguiente:

Conforme al Decreto 4107 de 2011 el Ministerio de Salud y Protección Social tiene como objetivo, dentro del marco de sus competencias, formular, adoptar, dirigir, coordinar, ejecutar y evaluar la política pública en materia de salud, salud pública, y promoción social en salud, y participar en la formulación de las políticas en materia de pensiones, beneficios económicos periódicos y riesgos profesionales, lo cual se desarrollará a través de la institucionalidad que comprende el sector administrativo.

De otra parte, informarle que conforme a nuestras competencias no contamos con registros que describan el aislamiento de un virus SARS-COV-2 y / o cualquiera de sus variantes, directamente de una muestra tomada de un paciente enfermo, donde no se combinó la muestra del paciente primero con ninguna otra fuente de material genético.

Cordialmente.

Leonardo Arregoces Castillo
Director de Medicamentos y Tecnologías en Salud

Carrera 13 N° 32 - 76 - Código Postal 110311, Bogotá D.C.

December 7, 2021:

"There is no methodology to purify the SARS-COV-2 directly from the clinical specimens of patients until the virus is isolated using in vitro or in vivo methods", said no coherent man or woman ever. Nevertheless, this is the latest response from **Indian Council of Medical Research** ("the apex body in India for formulation, coordination & promotion of biomedical research") to a request for records of purification.

And, "considering the biosecurity aspects, the records of the clinical specimens, isolates of SARS-COV-2 in the possession, custody or control of ICMR-National Institute of Virology – Pune cannot be shared publicly." Mkaay.

requester (who asked to keep both their name and file # private); instead they cited a typical example of “monkey-business” fraud – exactly what the requester had asked **not** to receive.

Note that ICRM has fraudulently claimed to have isolated “the virus” and the imaginary UK scariant, to have been tracking “the virus” across India, has developed a COVID-19 quackcine, shares ownership rights on the quackcine and is a member of guess WHO’s [Global Health Workforce Network](#).

The 1 record cited by ICMR is a [correspondence](#) entitled “*First isolation of SARS-CoV-2 from clinical samples in India*” published in the *Indian Journal of Medical Research* which is a journal published for the ICRM. According to the correspondence “*The designated COVID-19 testing laboratories ...referred the specimens ...to the Indian Council of Medical Research-National Institute of Virology (ICMR-NIV), Pune, after screening for envelope (E) gene by realtime RT-PCR was done.*” Three of of co-the authors are affiliated with ICRM.

Yash, the requester for the above FOI to ICMR, then appealed the ICMR's response, pointing out that the study cited by ICMR was exactly what he had specified he was **not** requesting (because it has nothing to do with isolating/purifying an alleged "virus").

The July 12, 2021 response to his appeal: "*The reply provided to the applicant is in order and satisfactory.*"

Next is a 2nd FOI response of June 28 2021 from the **Indian Council of Medical Research** failing again to provide/cite any record of “SARS-COV-2” purification and citing the same anti-science papers, this time in

response to requester Trinayan Das. ICMR was also asked additional questions re PCR, and responded that it is the “gold standard” for detection (“very accurately”! “confirms the presence”!!). Full response:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/ICMR-June-28-2.pdf>

| | |
|---|---|
| 2. What are the methods used for isolation/purification of SARS-CoV-2 virus? | Virus isolation is being performed in Vero cell lines using the tissue culture techniques. |
| 3. Is the RT-PCR test approved for diagnostic of infectious disease like SARS-CoV-2 (COVID-19) virus? | Yes, Real Time Reverse Transcription Polymerase Chain Reaction (Real Time RT-PCR) is the gold standard test for detection of SARS-CoV-2. For more details on molecular testing of SARS-CoV-2 please refer to ICMR advisory available at https://www.icmr.gov.in/pdf/covid/labs/ICMR_Advisory_Testing_System_v_10112_020.pdf and the WHO guidelines available at https://www.who.int/docs/default-source/coronaviruse/protocol-v2-1.pdf |
| 4. Was the RT-PCR test used earlier to diagnose any infectious disease? What is the accuracy of the test? | Yes, RT-PCR test is a widely used test to detect many infectious diseases such as Influenza viruses, Hepatitis viruses, HIV, Dengue chikungunya etc. it is widely used in biomedical science research. The test is highly sensitive and detects specific targets very accurately. |

April / June 2021:

India’s Council of Medical Research twice failed to provide or cite any record proving contagion of “COVID-19” or causation by “the virus”, for the requester:

September 14, 2021:

Institute of Organic Chemistry and Biochemistry of the Czech Academy of Sciences (Ústav organické chemie a biochemie AV ČR, v. v. i. (Prague)) advised that they have never purified the alleged COVID-19 virus from any patient sample, but convinced themselves they had a sample of “it” by fabricating a “genome” from RNA sequences found in their monkey cell culture. <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/Czech-UOCHB-FOI-ANSWER-14.9.2021.pdf>

Prague, 14 September 2021

Re: Information Provided in Response to a Request for Information Filed in accordance with Act No. 106/1999 Coll.

On 1 September 2021, the following request for information was delivered to the Institute of Organic Chemistry and Biochemistry of the Czech Academy of Sciences (*Ústav organické chemie a biochemie AV ČR, v. v. i.*) ("Institute"). The request was filed by David Šubík ("Applicant") in accordance with Act No. 106/1999 Coll., the Freedom of Information Act, as in effect ("Freedom of Information Act"):

- 1) What method was used by the Institute to carry out the full purification and isolation of the virus referred to as SARS-CoV-2? Provide a citation referring to a scientific paper or a verifiable methodology.
- 2) Provide electron microscope imagery demonstrating the full purification and isolation of viral particles of the virus referred to as SARS-CoV-2.
- 3) What method was used to identify the fully purified and isolated viral particles to be part of the virus referred to as SARS-CoV-2? Provide a citation referring to a scientific paper or a methodology.

The Institute has fully complied with the request and hereby provides the following information to the Applicant in accordance with Section 14(5)(d) of the Freedom of Information Act:

Re 1)

- a) A nasopharyngeal swab specimen in a collection tube with a transport medium was agitated briefly five times.
- b) The medium was filtered using a 0.22 µm filter and added to Vero cells in a 25 cm² cultivation bottle and incubated in an incubator at 37 °C, 5% CO₂.
- c) Cytopathic effect on the cells was monitored on a daily basis.
- d) After three days, the cultivation bottle containing the cells was twice frosted and defrosted.
- e) The culture containing Vero cells was centrifuged for five minutes at 1,000 g.
- f) The supernatant was filtered using a 0.45 µm filter, and 0.5 ml was transferred to fresh Vero cells in a 25 cm² cultivation bottle and incubated in an incubator at 37°C, 5% CO₂.
- g) After three days, the cultivation bottle containing the cells was frosted and defrosted twice.
- h) The culture containing Vero cells was centrifuged for five minutes at 1,000 g.
- i) The supernatant was filtered using a 0.45 µm filter, and 1.5 ml was transferred to fresh Vero cells in a 75cm²cultivation bottle and incubated in an incubator at 37°C, 5% CO₂.
- j) After three days, the cultivation bottle containing the cells was twice frosted and defrosted.
- k) The culture containing Vero cells was centrifuged for five minutes at 1,000 g.

Flemingovo nám. 2 | +420 (0) 220 180 033 | IČ: 010369903
165 10 Praha 6 | uochb@uochb.cz | DIČ: CZ010899403
Czech Republic | www.uochb.cz

l) The supernatant was filtered using a 0.45 µm filter, aliquoted, and frozen to -80 °C.

m) Thus obtained supernatant contained purified, infectious particles of SARS CoV-2 with a 10e6 IU/ml titer, capable of infecting fresh cells.

Re 2)

SARS-CoV-2 was not examined by means of electron microscopy in the Institute's laboratory; however, imagery obtained this way has been described in numerous instances in literature, such as

- a) Turonova, B.; Sikora, M.; Schürmann, C.; Hagen, W.J.H.; Weisch, S.; Blanc, F.E.C.; von Bulow, S.; Gecht, M.; Bagola, K.; Horner, C., et al. *In situ structural analysis of SARS-CoV-2 spike reveals flexibility mediated by three hinges. Science* 2020, 370, 203-208, doi:10.1126/science.abd5223.
- b) Ke, Z.; Otonari, J.; Qu, K.; Cortese, M.; Zila, V.; McKean, L.; Nakane, T.; Zivanov, J.; Neufeldt, C.J.; Cerikan, B., et al. *Structures and distributions of SARS-CoV-2 spike proteins on intact virions. Nature* 2020, 588, 498-502, doi:10.1038/s41585-020-2665-2.

Re 3)

- a) The virus aliquot was defrosted, and 70 µl was used to isolate RNA using a QIAamp Viral RNA kit (Qiagen).
- b) cDNA was prepared using a LunaScript RT SuperMix kit (New England Biolabs).
- c) cDNA was amplified by means of multiplex PCR using an Artic nCov-2019 V3 panel (IDT) with a Q5 HotStart High Fidelity 2x master mix.
- d) The products of the PCR procedure were purified, quantified, and fragmented using a NEB Next Ultra II FS DNA module (New England Biolabs).
- e) Adaptors for Illumina sequencing were added using NEBNext® Ultra™ II DNA Library Prep and indexation was carried out using NEBNext® Multiplex Oligos for Illumina (New England Biolabs).
- f) Virus sequencing was performed using an Illumina Miniseq device, and the sequence was analyzed using the DNASTAR Lasergene software.
- g) The sequences were entered into the GISAID database, specifically an isolate designated as hCoV-19/Czech Republic/NRL_6632_2/2020 under the code EPI_ISL_3050767. The sequence corresponds to SARS-CoV-2 line B.1.
- h) The isolated virus contained the described viral proteins (demonstrated by means of specific antibodies using immunofluorescence and the Western Blot method) and was able to infect sensitive mammalian cells, which subsequently produced viral particles.

Notice

The Applicant may file a complaint against the manner in which the request has been processed in accordance with Section 16a(1)(a) of Act No. 106/1999 Coll., the Freedom of Information Act, as in effect. A complaint must be filed with the Institute within 30 days of the delivery of this document. Complaints are reviewed by the supervisory authority, specifically the Office for Personal Data Protection.

Institute of Organic Chemistry and Biochemistry
RNDr. PhDr. Zdeněk Hostomský, CSc.
Director

I personally cannot read these Czech documents, but was told:

Univerzita Karlova: "This from the No.1 university in Czech R. As answer, they inform us, that "there is broad consensus in the international scientific community" about precise RNA sequence of SARS-Cov2, about its chemical and protein structure and it causing COVID19."

Thus Univerzita Karlova failed to provide any record proving the purification or existence of "the virus":

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/05/Czech-university.pdf>

Existuje široký vědecký konsensus o tom, že chorobu COVID-19 způsobuje virus SARS-CoV-2, že tento virus lze specificky a citlivě detekovat pomocí řady biochemických metod včetně polymeázové řetězové reakce, je známa detailní chemická i prostorová struktura všech proteinů, z nichž se virus SARS-CoV-2 skládá, i struktura viru samotného a je známa přesná sekvence jeho dědičné informace, RNA. To vše může poučená, kvalifikovaná osoba snadno zjistit informovaným hledáním v otevřených informačních zdrojích. Univerzita Karlova však nemůže sdělit odpovědi na předmětné dotazy žadatele, které by mohly sloužit jako konečné, autoritativní a nesporné pravdy, resp. konečné vědecké informace.

Z těchto všech důvodů nelze žadateli vyhovět a Univerzitě Karlově nezbyvá než žádost odmítnout.

Poučení : Proti tomuto rozhodnutí lze podat odvolání nejpozději do 15 dnů ode dne jeho doručení podáním u rektorátu Univerzity Karlovy (ust. § 16 odst. 1 zák. č. 106/1999 Sb.).

JUDr. Tomáš Horáček, Ph.D.
kvestor Univerzity Karlovy

Czech Ministry of Health: *“This is the response of Czech ministry of health. When a proof of existence of the SARS-Cov2 virus was requested...”*

The references cited by the Ministry are in English and do not describe purification of an alleged virus, let alone scientific study of such. Full letter:

Державна установа «Центр громадського здоров'я Міністерства охорони здоров'я України» (далі - Центр) розглянула у межах компетенції запит щодо реєстрації в референс-лабораторії вірусологічних досліджень Центру штаму SARS-CoV-2 та інформує про таке.

Центр, відповідно до пункту 1 розділу I Статуту Державної установи «Центр громадського здоров'я Міністерства охорони здоров'я України», затвердженого наказом МОЗ України від 30.06.2020 № 1483, є санітарно-профілактичним закладом охорони здоров'я, головним завданням якого є діяльність у галузі громадського здоров'я, а саме здійснення епідемічного нагляду (спостереження), виконання повноважень щодо захисту населення від інфекційних хвороб та неінфекційних захворювань, лабораторній діяльності, біобезпеки, інфекційної безпеки донорської крові та/або її компонентів у межах, визначених цим Статутом.

У референс-лабораторії вірусологічних досліджень Центру штаму SARS-CoV-2 відсутній, референс-лабораторія вірусологічних досліджень Центру не проводить вірусні дослідження з метою виділення вірусу SARS-CoV-2 на культурі клітин.

Генеральний директор

Роман РОДИНА

The Dutch Ministry of Health, Welfare and Sport (the Netherlands) provided/cited for the requester no records of actual purification and control experiments to show "SARS-CoV-2" exists:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/12/FOI-RIVM2.pdf>

August 24, 2021: **Sweden's Public Health Authority** also can't find "the virus". [John Blaid](#) submitted a formal FOI request to for records describing purification of "the virus" from any patient sample (not adulterated with genetic material, i.e. monkey cells, fetal bovine serum) on the planet, by anyone, anywhere. The response: "No, no such documents exist." Full correspondence:

Karolinska Institutet – a medical university

April 26, 2021: Once again the **Dutch Minister for Health, Well-being & Sport (the Netherlands)** replied to an FOI sent to its agency RIVM (National Institute for Public Health and the Environment) re purification of “the virus”; the Minister provided/cited zero such records for Gabriëlle Rutten, and cited cell culture anti-science instead.

Full correspondence:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/Wob-verzoek-no-records-package.pdf>

(English Translation of response from the Dutch)
Ministry of Health, Well-being and Sport

> Return address PO Box 20350 2500 EJ The Hague

BY E-MAIL ONLY
Mr G. Rutten
info@official-eft.nl

Date 26 april 2021
Subject Request for information

Dear Mr Rutten,

On March 16, 2021, I received your email. I confirmed receipt of this letter of 29 March 2021 with characteristic 2021.063/001.

By invoking the Public Administration Act (hereinafter: Wob), you request all scientific peer-reviewed publications that promote the isolation of the SARS-COV 2. You have also requested scientific publications that prove that the aforementioned virus is the cause of the disease 'Covid-19'.

In accordance with Article 6(1), the Wob only applies to information documented in documents which are not already public. The requested information concerns public information. Next I will indicate where you can find the relevant information.

The coronavirus Sars-Cov-2 is the virus that can cause the disease COVID-19. More information about this can be found on the website of the Government Institute for Public Health and the Environment (hereinafter: RIVM) under the heading 'virus' (www.rivm.nl/coronavirus-covid-19/virus). For the scientific reports about the existence of Sars-Cov2 I refer you to the following websites:

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7159086/> and
<https://pubmed.ncbi.nlm.nih.gov/31978945/>.

In addition to the website of the RIVM mentioned above, you might also like to visit the following RIVM website: <https://lci.rivm.nl/richtlijnen/covid-19>. On this website you will find relevant literature.

If you have any questions about this letter, please feel free to contact the Wob cluster. The contact details are at the top of this letter.

Sincerely,

the Minister for Health,
Well-being and Sport,
on behalf of this,
the Director of Legislation and Legal Affairs,
Mr. M.M. den Boer

Feb 18, 2021: The Isle of Man's Department of Health and Social Care admitted in a FOI response to Mr. Steven Gardner that:

– “the virus” is not isolated/purified;

– 45 PCR cycles!

and gave false info re sequences used in PCR “tests”. Full unredacted pdf:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/Isle-of-Man-FOI-response.pdf>

Clarification received:

Has the SarsCov2 been isolated and purified. To be proven scientifically and proven the virus causes disease.

Question 1:

Has Covid 19/21 been isolated?

Regarding SARS-CoV-2 the virus is not isolated.

Question 2:

Has covid 19/21 been purified?

Regarding SARS-CoV-2 it is not purified.

Question 3:

Has there been a risk assessment on masks?

The Department has and does risk assessments on masks.

Question 4:

Have all places of business who have mandatory masks done a risk assessment or should they do a risk assessment, in regards to masks? For their employees and customers.

While our aim is to provide information whenever possible, in this instance the Department of Health and Social Care ("the Department") is unable to provide the information that you have requested. This is in line with Section 11(3)a of the Act, as a practical refusal reason applies; namely we do not hold or cannot, after taking reasonable steps to do so, find the information that you have requested.

Places of business are responsible for undertaking their own risk assessments and setting their own policies for wearing masks.

To provide further advice and assistance guidance on face coverings, including 'face coverings at work' is available within the public domain at:

<https://covid19.gov.im/general-information/guidance-on-face-coverings/>

Question 5:

Is the sequence in the PCR test SarsCov2?

Yes, the sequence in the PCR test is SARsCov2

Question 6:

What amplifications has the PCR test been run at?

The amplification is 45 cycles.

December 13, 2021:

New Zealand Defence Force confirmed for Michael S. in NZ that they have no record describing purification of "SARS-COV-2" from any patient sample on the planet, by anyone, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/NZ-Defence-Force-SARS-COV-2-v3-Redacted-2021-12-13-.pdf>

Private Bag 39997
Wellington Mail Centre
Lower Hutt 5045
New Zealand

OIA-2021-4275

13 December 2021

[REDACTED]

[REDACTED]

I refer to your request of 25 November 2021, under the Official Information Act 1982 (OIA), for the following:

All studies and/or reports in the possession, custody or control of The New Zealand Defence Force (NZDF) describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Noting you have asked that this request not be transferred, the response only addresses information held by the New Zealand Defence Force (NZDF). Your request is declined in accordance with section 18(e) of the OIA as no relevant studies or reports are held by the NZDF.

You have the right, under section 28(3) of the OIA, to ask an Ombudsman to review this response to your request.

Yours sincerely

AJ WOODS
Air Commodore
Chief of Staff HQNZDF

November 19, 2021:

Tauranga City Council, New Zealand advised the requester that they have no record describing purification of any "SARS-COV-2" or "variants" from any patient sample, by anyone, anywhere... ..however they do take 24 hour wastewater composite samples, send them to ESR for meaningless "analysis" and "tests" (that have no gold

standard and thus are impossible to validate) which are then forwarded to the Ministry of Health. Because science. Pdf:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/Tauranga-City-Council-SARS-COV-2-v3-redacted-2021-11-19-.pdf>

19 November 2021

INFORMATION REQUEST – SARS-COV-2 Purification

We write in response to your email dated 9 November 2021 in which you requested the following information:

- "All studies and/or reports in the possession, custody or control of The Tauranga City Council describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)."

We have considered your request in accordance with the Local Government Official Information and Meetings Act 1987 ("LGOIMA") and respond as follows:

Tauranga City Council (TCC) does not hold any reports describing the purification of the "SARS-COV-2" virus or its variants. TCC takes 24-hour composite samples of incoming wastewater and sends one litre samples from the inflow of our two wastewater treatment plants to the Institute of Environmental Science and Research (ESR) for analysis, who then test the sample and send their results to the Ministry of Health.

Therefore, your request is refused under section 17(e) of LGOIMA that the document alleged to contain the information requested does not exist or, despite reasonable efforts to locate it, cannot be found.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

We may publish this response on our website as your request may be of interest to others. All personal information will be removed and only the question and answers will be seen.

If you wish to discuss this decision with us, please feel free to contact the writer.

Ngā mihi

Coral Hair

Coral Hair
Manager
Democracy Services

August 23, 2021:

Once again **New Zealand’s Ministry of Health** confirmed for my colleague in NZ that neither they nor New Zealand’s crown research institute, the **Institute of Environmental Science and Research (ESR)**, have any record of the phantom “SARS-COV-2” (including any “variants”) purified from any patient sample on the planet, by anyone, anywhere.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/NZ-MOH-2021-08-23-SARS-COV-2-Variants-Purification-Request-Response-Redacted-1.pdf>

to work done at/by the NZ Ministry of Health. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by the NZ Ministry of Health and relied on as evidence of a disease-causing "virus".

The Ministry does not hold any information, authored by any party, in relation to your request. The Ministry has also confirmed that Institute of Environmental Science and Research (ESR) does not hold any information relating to your request.

Therefore, your request is refused under section 18(g)(i) as the information requested is not held by the Ministry and there are no grounds for believing it is held by another agency subject to the Act.

Please be aware that should you make further requests for the same information the Ministry may refuse your requests under section 18(h) of the Act, as they may be considered frivolous or vexatious.

Under section 28(3) of the Act you have the right to ask the Ombudsman to review any decisions made under this request. The Ombudsman may be contacted by email at: info@ombudsman.parliament.nz or by calling 0800 802 602.

Ngā mihi,

Nick Allan
Manager OIA Services

Statement of confidentiality: This e-mail message and any accompanying attachments may contain information that is IN-CONFIDENCE and subject to legal privilege.

If you are not the intended recipient, do not read, use, disseminate, distribute or copy this message or attachments.

If you have received this message in error, please notify the sender immediately and delete this message.

This e-mail message has been scanned for Viruses and Content and cleared by the Ministry of Health's Content and Virus Filtering Gateway

August 26, 2021:

Once again **New Zealand's** crown research institute, the **Institute of Environmental Science and Research (ESR)**, confirms they have no record of the phantom "SARS-COV-2" (including any "variants") purified from any patient sample on the planet, by anyone, anywhere:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/NZ-ESR-2021-08-26-Purification-SARS-COV-2-Variants.pdf>

Please also note that my request is not limited to records that were authored by ESR or that pertain to work done at/by ESR. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by ESR and relied on as evidence of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible."

Our response to your request:

Using the definition of 'purification' that you refer to in your request, ESR does not hold any records describing 'purification' of SARS-CoV-2.

We cannot provide papers that staff in ESR have downloaded or printed which may apply to your request using your definition of 'purification' as the information cannot be made available without substantial collation or research pursuant to section 18(f) of the Act. We have considered section 18A of the Act and consider that even if we were to charge you for the time to check and collate any relevant materials and extend the timeframe of the request, this would still unduly affect our team who are supporting New Zealand's COVID-19 response work.

Your right to seek a review

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 802.

Thank you for your request.

Yours sincerely

Jill Vintiner
Joint General Manager health and Environment Group – Health
ESR

New Zealand's Ministry of Health and NZ's crown research institute, the Institute of Environmental Science and Research admitted they have no records of "SARS-COV-2" isolation: <https://www.fluoridfreepeel.ca/new-zealand-no-record-of-covid-19-virus-isolation-at-the-ministry-of-health-or-the-institute-of-environmental-science-and-research/>

Here are 5 pages of pure gold, evidencing masterful evasion plus stunning incompetence and/or fraud from New Zealand's Ministry of Health. Instead of providing the requests records of "SARS-COV-2" isolation/purification and proof of accurate diagnostic tests, they blathered about genomes and cultures of the never-isolated imaginary virus; stated that PCR tests have been validated around the world and are the gold standard; and cited a February 2020 preliminary report ("The Pathogenicity of SARS-CoV-2 in hACE2 Transgenic Mice") that used the so-called "SARS-COV-2" strain that had been concocted by Zhu et al. and claimed that Koch's Postulates had been fulfilled.

In relation to COVID-19, the RT-qPCR test for viral RNA is considered as 'gold standard'. This test has been validated by several means including as a purified virus. However, the most definitive comparison is when PCR's are sequenced as they are mapped to the SARS-CoV-2 viral genome. This mapping is definitive proof that the test is picking up the target SARS-CoV-2 and no other samples.

No records describing isolation of SARS-COV-2 from a sample not already adulterated with other genetic material, admits New Zealand's Department of the Prime Minister & Cabinet: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/NZ-Prime-Minister-And-Cabinet-Response-scrubbed.pdf>

March 22, 2021, New Zealand's Ministry of Health confirms they still have no record describing purification of "the virus" and hence zero proof of its existence, and they choose to cite fraudulent studies instead (the infamous Harcourt et al. study mentioned above and the Australian paper cited at the top of this page). Full pdf response: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/04/2021-03-22-NZ-MOH-Purification-SARS-COV-2-redacted.pdf>

Response to your request for official information

Thank you for your request under the Official Information Act 1982 (the Act) transferred to the Ministry of Health (the Ministry) on 12 March 2021 for:

"All studies and/or reports in the possession, custody or control of The Department of the Prime Minister and Cabinet describing the purification of "SARS-COV-2" said to have caused disease in humans (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)."

The Ministry does not hold any information relating to your request. Therefore, your request is refused under section 18(g) of the Act, as the information requested is not held by the Ministry, and I have no reason to believe that this information is held by another agency subject to the Act. However, further information that may be of use has been previously provided to you below (refers H202100057 & H202100059):

April 19, 2021, responding to a request that had been forwarded to them by **Prime Minister Jacinda Ardern's Office, the New Zealand Ministry of Health** confirms that no record describing purification of "SARS-COV-2" is

held by the Ministry or by any “agency subject to the Act”. Full pdf response: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/05/2021-04-19-NZ-MOH-Purification-SARS-COV-2-Final-Request-Redacted.pdf>

April 23, 2021 **Prime Minister Jacinda Ardern’s Office, New Zealand**, again confirms they have no record describing purification of “SARS-COV-2” by anyone, anywhere, ever. Full pdf response: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/05/NZ-PMO-23.04.2021-2021-068-Redacted.pdf>

New Zealand’s University of Auckland was disappointingly non-cooperative, the only institution as of October 8th failing to simply admit that they have no such records, opting instead for a sketchy “refusal” of my colleague’s request. Let’s face it, if the University actually had any such records (that no one else on the planet appears have) and they are publicly available, the University of Auckland would have proudly provided links/citations. But they didn’t. <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/Auckland-redacted-FOI-emails.pdf>

New Zealand’s University of Otago, where Professor Miguel Quiñones-Mateu, Ph.D. [claimed months ago](#) to have “isolated the virus”, responded that they too have “no records” describing isolation of SARS-COV-2 from a sample not already adulterated with other genetic material: <https://www.fluoridefreepeel.ca/new-zealands-university-of-otago-claimed-to-have-isolated-covid-19-virus-but-has-no-record-of-it-isolated-from-an-unadulterated-sample-anywhere-on-earth-by-anyone-ever/>

March 30, 2021 New Zealand’s University of Otago confirm they still have no record of “SARS-COV-2” isolation/purification, by anyone anywhere. Full response pdf here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/04/2021-03-30-University-of-Otago-Purification-of-SARS-COV-2-redacted.pdf>

30 March 2021

I write in response to your Official Information Act request of 2 March 2021, which sought: “All studies and/or reports in the possession, custody or control of the University of Otago describing the purification of “SARS-COV-2” said to have caused disease in humans (via maceration, filtration and use of ultracentrifuge; also referred to at times by some people as “isolation”), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)”.

Thank you for clarifying in your email precisely what is out of scope for this request.

I can confirm that the University holds no records which fall within the scope of your request. Accordingly, we decline your request pursuant to section 18(g) of the Act on the basis that the information requested is not held by the University.

September 22, 2021:

New Zealand’s **University of Otago**, where researchers claimed last year ago to have “isolated the virus”, confirmed once again they actually have no record of “SARS-COV-2” isolation/purification, by anyone, anywhere: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/Otago-Sept-22-2021-03-30-University-of-Otago-SARS-COV-2-v3-Redacted.pdf>

October 13, 2021:

New Zealand’s **University of Waikato** confirmed for the requester that they have no record describing purification of the alleged “COVID-19 virus” (or “variants”) from any patient sample on the planet: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/University-of-Waikato-2021-10-13-SARS-COV-2-v3-redacted.pdf>

13 October 2021

Official Information request – SARS-COV-2 and Variants purification by any method

I refer to your information request of 22 September 2021. The University of Waikato (University) has given due consideration to your request as follows:

“All studies and/or reports in the possession, custody or control of The University of Waikato describing the purification of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; foetal bovine serum)”.

The University advises that there is no research being conducted on the COVID-19 virus by any staff member or student of the University, therefore under section 18 (e) of the Official Information Act 1982 the University refuses the request on the basis that the information requested is not held.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Yours sincerely

Jim Mercer
Chief Operating Officer

November 9, 2021

New Zealand Police confirmed for the requester that they have no record (evidence) describing isolation/purification of the alleged Sars-Cov-2 virus or any alleged variant:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/NZ-Police-2021-11-09-SARS-COV-2-v3-redacted.pdf>

9 November 2021

Reference: IR-01-21-30354

[REDACTED]

[REDACTED]

I am writing in response to your request dated 9 October 2021. Your request has been considered pursuant to the Official Information Act 1982 (OIA). Specifically, you requested:

All studies and/or reports in the possession, custody or control of The New Zealand Police describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Police do not hold any information in relation to your request. Therefore, your request is refused pursuant to section 18(g) of the OIA as the information requested is not held.

You have a right under section 28(3) of the OIA to ask the Ombudsman to seek an investigation and review of my decision.

Yours sincerely

Superintendent Barry Taylor
Director: Major Events

Police National Headquarters

180 Molesworth Street, PO Box 3017, Wellington 6140, New Zealand.
Telephone: 04 474 9499. Fax: 04 498 7400. www.police.govt.nz

One of New Zealand's Associate Ministers of Health Jenny Salesa has "no records":
<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/NZ-Ass-Min-Health-Hon-Jenny-Salesa-Response-scrubbed.pdf>

Hon Jenny Salesa

MP for Manukau East

Minister for Building and Construction

Minister of Customs

Minister for Ethnic Communities

Associate Minister of Education

Associate Minister of Health

20 October 2020

Ref: 20-317

Response to your request for official information

Thank you for your request under the Official Information Act 1982 (the Act) to the office of the Associate Minister of Health on 15 October 2020 for:

"All records in the possession, custody or control of the Associate Minister of Health Hon Jenny Salesa describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or*
- the performance of an amplification test (i.e. a PCR test), or*
- the sequencing of something.*

Please also note that my request is not limited to records that were authored by the Associate Minister of Health Hon Jenny Salesa or that pertain to work done by the Associate Minister of Health Hon Jenny Salesa. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the Associate Minister of Health Hon Jenny Salesa has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it)."

This office does not hold any information pertaining to your request. For this reason, I am refusing your request under section 18(e) of the Act, as the information requested does not exist.

Under section 28(3) of the Act you have the right to ask the Ombudsman to review my decision to refuse your request.

Yours sincerely

Hon Jenny Salesa
Associate Minister of Health

Another of New Zealand's Associate Ministers of Health Julie Anne Genter has "no records":
<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/Hon-Julie-Anne-Genter-Response-scrubbed.pdf>

And another of New Zealand's Associate Ministers of Health Peeni Henare has "no records":
<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/Hon-Peeni-Henare-Response-scrubbed.pdf>

Same, "no records" says Bay of Plenty District Health Board, Tauranga Hospital, New Zealand:
<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/Bay-Of-Plenty-District-Health-Board-response-scrubbed.pdf>

October 5, 2021: University of New South Wales, Australia advised that they still have no record of any "COVID-19 virus/variant" having been purified from any patient sample on the planet, by anyone, anywhere:
<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/University-of-New-South-Wales-PACKAGE.pdf>

UNSW Ref: ND7149

5 October 2021

Ms Christine Massey

By email: cmssyc@gmail.com

Dear Ms Massey

Notice of decision in relation to access applications under the **Government Information (Public Access) Act 2009 (NSW) (GIPA Act)**

I refer to your information access application under the GIPA Act dated 1 August 2021 and received as a valid application by the University on 12 August 2021. The scope of your applications was as follows:

All studies and/or reports ... describing the purification (i.e. via filtration and use of an ultracentrifuge) of any "SARS-COV-2" aka "COVID-19 virus" (including any "variants"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting any private health information, or studies/reports where researchers failed to purify the suspected "virus" and instead:

- cultured a patient sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from*
- any unpurified substance, and/or sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or produced electron microscopy images of unpurified things.*

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells. Further, I am not requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe purification of "the virus" (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is not limited to records that were authored by someone at University of New South Wales or that pertain to work done at/by University of New South Wales. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed ... and relied on as evidence of a disease-causing "virus". If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Identification of information requested

I have liaised with the University's Faculty of Medicine and Research Office to attempt to identify information that is held by the University and within the scope of

your request. Based on the specific requirements of your request I have not been able to identify any information that is within the scope of your request.

Authorisation

I am authorised by the Vice-Chancellor (acting as principal officer for the purposes of s 9(3) of the GIPA Act) to make the decision of your access application.

Decision

I have decided, in accordance with s 58(1)(b) of the GIPA Act, that the information requested is not held by the University.

Your rights of review

If you are aggrieved by my decision, you may seek review under Part 5 of the GIPA Act. Your rights for review are outlined in the attached fact sheet from the Information Commissioner – *Your review rights under the GIPA Act*.

If you have any queries about this notice or require further information on your rights of review, please contact me.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Paul Serov".

Paul Serov
Right to Information Officer, UNSW
Encl.

June 16, 2021: University of Western Australia – home of Gates-funded researcher **Christine Carson**, who has spent countless hours on social media this past year insisting "yes the COVID-19 virus has been isolated" – provided/cited zero records of "SARS-COV-2" isolation/purification from a patient sample, by anyone anywhere ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/UWA-Carson-no-records-redacted.pdf>

DECISION

In consideration of the above, I, Jay Guyver, Manager - Information Governance, Governance Directorate have today made the decision that:

In relation to part (A) of your application,

- despite reasonable steps, such as searches and enquiries being made, no documents have been found or surrendered which meet the specific and precise requirements of your scope.
- Enquiries of Dr Carson have yielded no such documents relating to the precise and exact isolation or purification of the virus you talk about, and research she has and is engaged in does not meet the criteria, indeed is specifically excluded by your criteria.

At this next link you will find multiple “no records” FOI responses from Australia’s Department of Health, as recent as October 2021:

<https://www.fluoridefreepeel.ca/australian-dept-of-health-has-no-record-of-covid-19-virus-isolation/>

Australian Government

Department of Health

Department Reference: FOI 3054

NOTICE OF DECISION UNDER SECTION 24A OF THE FREEDOM OF INFORMATION ACT 1982

I refer to your request of 11 September 2021 to the Department of Health (the department) seeking access under the *Freedom of Information Act 1982* (Cth) (the FOI Act) to documents related to COVID-19. Your request is in the following terms:

1. All studies and/or reports in the possession, custody or control of The Australian Department of Health describing the purification of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)

Information about COVID-19

SARS-CoV-2, the virus which causes COVID-19, is real. Multiple scientific studies across the world demonstrate that highly reputable laboratory medicine experts have isolated and sequenced the virus that causes COVID-19, demonstrating that the

virus exists, that it exists in variant forms, that it is different from the influenza virus, and that it causes a disease that has resulted in more than 4.8 million deaths worldwide in just over 21 months.

While the department is not the custodian of the scientific studies establishing the existence of SARS-CoV-2, this research has informed the Australian Government's response to the pandemic. You can find those scientific studies in the public domain.

The department is a government agency and does not conduct scientific studies or laboratory testing for the SARS-CoV-2 in a laboratory. Diagnostic assays using reverse transcriptase polymerase chain reaction (RT-PCR) are conducted by testing laboratories throughout Australia. For more information, please see the Public Health Laboratory Network (PHLN) guidance on laboratory testing for

Same admission from **Australia's Peter Doherty Institute for Infection and Immunity** (which had publicly claimed to have "isolated the virus").

Same admission from **Australia's Commonwealth Scientific and Industrial Research Organisation – CSIRO** ("Australia's national science research agency"), which is [involved in "COVID-19" vaccine trials](https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/CSIRO-Isolation-Response-scrubbed.pdf) using the so-called "SARS-COV-2 isolate" from Doherty Institute:
<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/CSIRO-Isolation-Response-scrubbed.pdf>

7 October 2020

Our ref: FOI 2020/50

FREEDOM OF INFORMATION REQUEST – DECISION FOI2020/50

I refer to your request of 7 September 2020, under which you sought access under the *Freedom of Information Act 1982* (FOI Act) to:

“All records in the possession, custody or control of CSIRO describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

CSIRO has been unable to identify any document relevant to your request. I must therefore refuse access, pursuant to section 24A of the FOI Act on the basis that the document[s] sought do not exist or cannot be found.

March 22, 2021, Australia’s Commonwealth Scientific and Industrial Research Organisation still has no record of any “SARS-COV-2” purified from a patient, by anyone, anywhere:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/04/no-records-CSIRO-SARS-COV-2-Purification-Redacted.pdf>

September 27, 2021:

Australia’s Commonwealth Scientific and Industrial Research Organisation – CSIRO (“Australia’s national science research agency”), which is [involved in “COVID-19” vaccine trials](#) using the so-called “SARS-COV-2 isolate” from Doherty Institute, confirmed that they still have no record of “SARS-COV-2” (including “variants”) purification, by anyone, anywhere:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/2021-09-27-CSIRO-SARS-COV-2-v3-Redacted.pdf>

Decision maker

I am an authorised decision maker under section 23 of the FOI Act. This letter sets out my decision and reasons for the decision in relation to your request.

Decision

Despite an extensive search, CSIRO has been unable to identify any document relevant to your request. I must therefore refuse access, pursuant to section 24A of the FOI Act on the basis that the document[s] sought do not exist or cannot be found.

Searches conducted

Searches were conducted by the Australian Centre for Disease Preparedness (formerly the Australian Animal Health Laboratory) and by other relevant staff and it was confirmed that CSIRO does not hold any documents relevant to the scope of your request. In this regard, CSIRO's research involves virus already isolated from human samples by a non-CSIRO institute.

The next FOI letter shown in the screenshot below is in response to a request that was submitted **on the advice of Australia's Department of Health**, and has come to us via [John Blaid](#). Addressed to Mary-Jane Liddicoat, the formal but undated letter was authored sometime after March 9, 2021 by **Dr. Nick Coatsworth**, Executive Director of Medical Services, [Canberra Health Services](#) (CHS), ACT Government (Government of the Australian Capital Territory).

[When reviewing Coatsworth's response, bear in mind the following facts provided us by Darren Christison, a journalist in Sydney, Australia: "*This is the same Dr Nick Coatsworth who is the 'poster boy' for the Australian government's push to vaccinate everyone until they urinate the poison, and has been a permanent fixture on TV and online in recent months (https://www.youtube.com/watch?v=Aep_RKawTWc). He's also the same Dr Nick Coatsworth who recently, according to The Sydney Morning Herald, 'admonished a "hardcore rump of activist doctors" spreading misinformation and undermining vaccine confidence' (<https://www.smh.com.au/national/former-deputy-chief-doc-warns-australia-must-reopen-borders-prepare-for-the-return-of-covid-19-20210514-p57s1u.html>).*]

Coatsworth admitted that Canberra Health Services holds no records relevant to the topic of isolating (aka purifying) the alleged "SARS-COV-2". His entire letter is here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/04/Australian-Dept-of-Health-March-2021.pdf>

ACT
Government

**Canberra Health
Services**

Our reference: **FOI21-10**

Ms Mary-Jane Liddicoat

Dear Ms Liddicoat

DECISION ON YOUR ACCESS APPLICATION

I refer to your application under section 30 of the *Freedom of Information Act 2016* (FOI Act), received by ACT Health Directorate (ACTHD) and transferred to Canberra Health Services (CHS) on **Tuesday 9 March 2021**. In accordance with section 57 of the FOI Act, the information you are seeking is in their possession.

This application requested access to:

'I am writing to you on advice from the Australian Department of Health (the Department) to seek clarification on information requested in a Freedom of Information (FOI) request that was sent to the Department.

I am therefore writing to you to on initial advice by the Department of Health to confirm whether you do hold the information requested in the original request to the Department, as shown in attachment "FOI 1937" and pasted again below:

"All records in the possession, custody or control of The Department of Health describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient). Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something,*
- or the performance of an amplification test (i.e. a PCR test),*
- or the sequencing of something.*

Please also note that my request is not limited to records that were authored by The Department of Health or that pertain to work done by The Department of Health. My request includes any sort of record, for example (but not limited to) any published peer reviewed study that The Department of Health has downloaded or printed."

I am an Information Officer appointed by the Chief Executive Officer of Canberra Health Services (CHS) under section 18 of the FOI Act to deal with access applications made under Part 5 of the Act. CHS was required to provide a decision on your access application by **Thursday 8 April 2021**.

Decisions

ACT Pathology does not have the ability to isolate the virus from patient samples. I am therefore satisfied that in accordance with section 35(1)(b), CHS does not hold any documents relevant to the scope of your request.

GPO Box 825 Canberra ACT 2601 | phone: 132281 | www.health.act.gov.au

March 19, 2021: **Australian Capital Territory / Canberra Health Services** once again failed to provide / cite any record of "SARS-COV-2" purification from any patient sample on the planet (thus demonstrating that they still have zero proof that "the virus" actually exists). Full communications:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/ACT-Canberra-Health-Services-no-records-package.pdf>

Mar 16 2021: **Western Australia Minister & Department of Health** confirm they have no record of "SARS-COV-2" purification from any patient sample on the planet (and thus zero proof that "the virus" exists), and that PathWest Laboratory Medicine only does the quackery version of "virus isolation". Full communications:

Information Rights <InformationRights@ukhsa.gov.uk>

Wed, Oct 27, 2021 at 3:49 AM

The UK Health Security Agency (UKHSA) has taken responsibility for requests previously addressed to Public Health England (PHE), your request was assessed based on the information held by PHE at the time of receipt.

In accordance with Section 1(1)(a) of the Freedom of Information Act 2000 (the Act), I can confirm that UKHSA does not hold the information as specified by your request.

We have provided information regarding the isolation of Sars-Cov2 that we hold, you may be able to find further sources from other organisations.

Under Section 16 of the Act, a public authority has a duty to provide advice and assistance. Accordingly, we have provided further information below that you may wish to view.

The SARS-CoV-2 virus has been identified by electron microscopy, which uses high resolution to visualise virus particles directly in specimen, as well as culturing in a laboratory. Evidence of the Electron Micrograph is available at the following link: <https://publichealthmatters.blog.gov.uk/2021/02/05/what-do-we-know-about-the-new-covid-19-variants/>

Viruses are not independent living entities. They require a host cell substrate to replicate. Isolation of any virus without any medium therefore is not possible. The medium provides suitable growing environment for the virus in the absence of a human or other host animal. These media and any products added are all sterile and do not contain additional genetic material.

You may be interested in the following information on the COVID-19 variants:

Date 2/10/20
Ref no: GOS-COV-040920-0068

Thank you for your email of 4/9/20 where you requested the following information:

"All records in the possession, custody or control of the Government Office for Science describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Response

We do not hold the information you have requested. This information may be available from DHSC September 20, 2021: **UK's Government Office for Science** confirmed once again "we do not hold the information you have requested", re "SARS-COV-2" (including any "variants") isolation/purification, by anyone, anywhere: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/2021-09-21-Government-Office-of-Science-SARS-COV-2-v3-Redacted.pdf>

Same, from the **UK's Cabinet Office** and the **UK Prime Minister's Office**, in response to a query from Marc Horn. See here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/Cabinet-Office-isolation-FOI2020-10121-Reply.pdf> and here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/Prime-Ministers-Office-FOI-reply-isolation-SARS-COV-2.pdf>

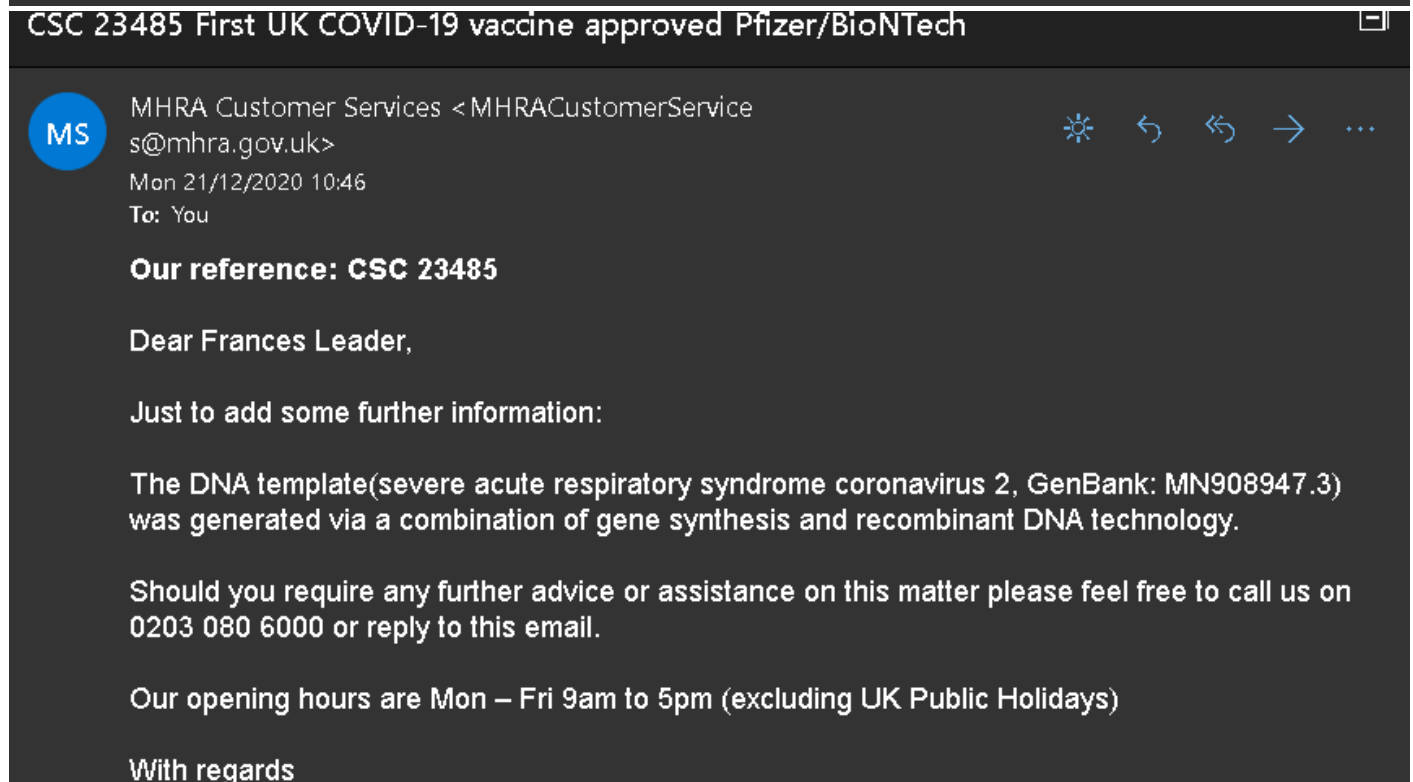

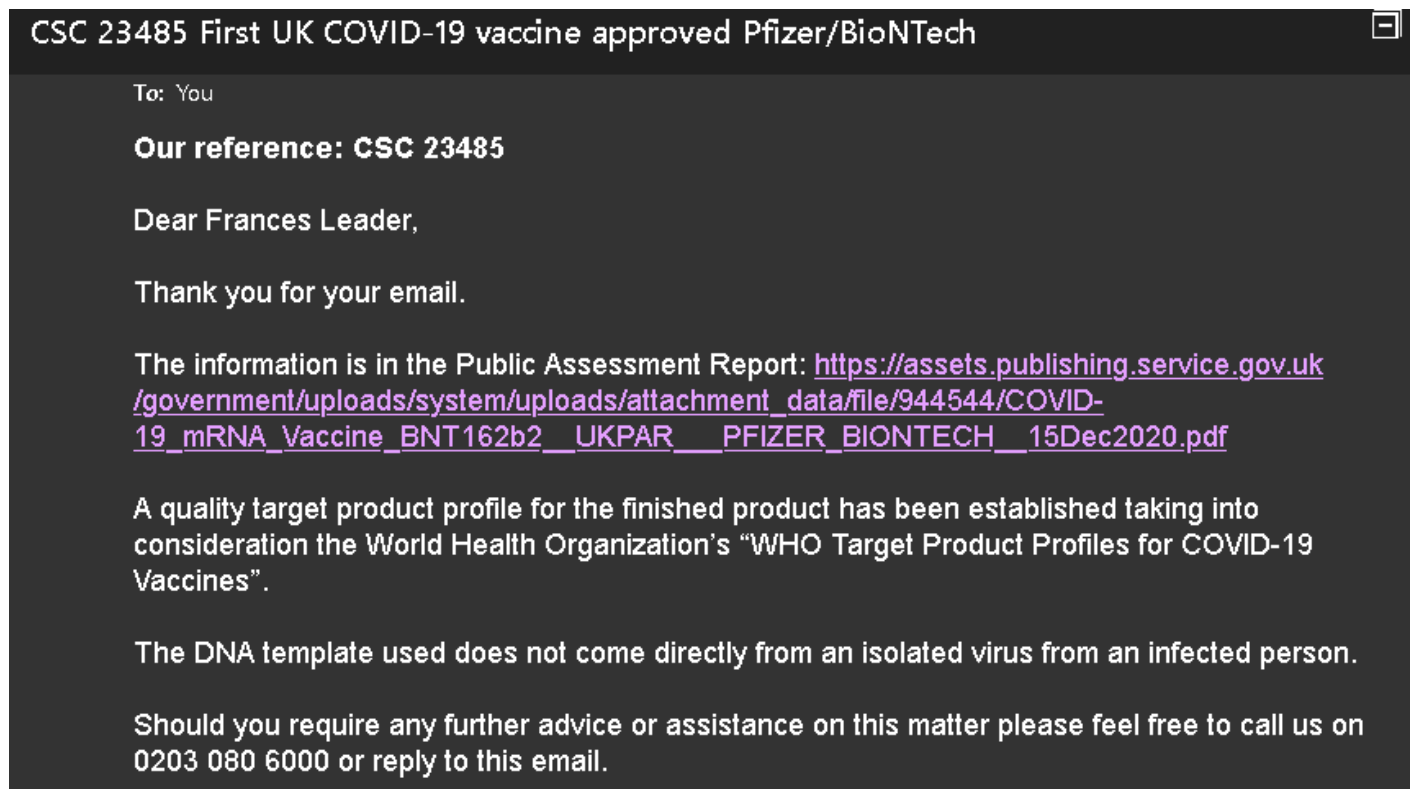

Here is a sketchy FOI reply from the **U.K. Medicines & Healthcare products Regulatory Agency** (obtained by Mr. Athanasios Kandias). The agency provided/cited no records re "SARS-COV-2" isolation. Their response includes an (apparently fraudulent) claim that such records are available in the public domain, but they provided zero links/citations despite having been asked for the location of any such records. Excerpts are shown below. Full response: https://www.whatdotheyknow.com/request/documents_held_showing_sars_cov2_2#incoming-1670059

Pdf: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/UK-Medicines-and-Healthcare-products-Regulatory-Agency-no-isolation-records.pdf>

May 4, 2021: **University of Warwick** (UK) admits that they hold no record describing "SARS-COV-2" purification from a patient sample, by anyone, anywhere, ever: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/05/University-of-Warwick-F352.20-21-May-4-2021.pdf>

Regarding "BNT162b2", the mRNA ingredient in the Pfizer-BioNTech "Covid-19 vaccine", that is allegedly transcribed from the the alleged corresponding genetic template that allegedly encodes the alleged viral spike (S) protein of the alleged "SARS-COV-2 virus", **U.K. Medicines & Healthcare products Regulatory Agency** admitted to investigative journalist Frances Leader that: the genetic template on which it ("BNT162b2") is

based “does not come directly from an isolated virus from an infected person”, rather it “was generated via a combination of gene synthesis and recombinant DNA technology”. The email exchange is available here: <https://hive.blog/proofofbrain/@francesleader/email-exchange-with-mhra-sarscov2-mrna-genomic-sequence-is-synthetic-3rd-edition> and in a pdf here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/01/UK-MHRA-emails-w-FL.pdf>.

No EM photos of purified “SARS-COV-2”, no peer reviewed paper with the genome of purified “SARS-COV-2”, no proof that “the virus” causes “COVID-19”, etc — says UK’s Cabinet Office in response to the queries shown below from Bartholomeus Lakeman; full letter here: <https://www.whatdotheyknow.com/request/>

22/06/2020

Dear Bartholomeus Lakeman

I refer to your request where you asked:

“1) Is there an electron micrograph of the pure and fully characterised virus (SARS-CoV-2)?

2. What is the name of the primary specialist peer reviewed paper in which said virus is illustrated and its full genetic information described?

3. What is the name of the primary specialist peer reviewed paper which provides unequivocal proof that the ‘Covid-19’ virus is the sole cause of a particular disease?

4. Where is (if there is proof of SARS-CoV-2) its antibody test that fulfils the Koch postulates and has a false positive below 30%; that can confirm being infected by SARS-CoV-2?”

I am writing to advise you that following a search of our paper and electronic records, I have established that the information you requested is not held by the Cabinet Office.

No records re isolation of “SARS-COV-2” from an unadulterated sample, says the **UK’s House of Commons**, in response to a query from Marc Horn: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/House-of-Commons-FOI-reply-isolation-SARS-COV-2.pdf>

Same, from the **UK’s House of Lords**, in response to a query from Marc Horn: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/House-of-Lords-FOI-reply-isolation-SARS-COV-2.pdf>

Central Bedfordshire Council confirmed for Yvonne Hobbs they have no record describing purification of “SARS-COV-2” from any patient sample on the planet, by anyone, ever: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/Central-Bedfordshire-Council-PACKAGE-redacted.pdf>

Von Hobbs **Email:** accesstoinfo@centralbedfordshire.gov.uk
 Our ref: 4982869
 Date: 27 October 2021

Dear Von Hobbs

Freedom of Information Act 2000

Request regarding Covid studies/reports

I am writing to advise you that, following a search of our paper and electronic records, I have established that the information you requested is not held by Central Bedfordshire Council.

Please quote the reference number 4982869 in any future communications.

Croydon Council confirmed for Yvonne Hobbs they have no record describing purification of “SARS-COV-2” from any patient sample on the planet, by anyone, and no records proving a causal link between “Sars-Cov-2” and the suspected infectious disease Covid-19:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/Croydon-Council-PACKAGE-redacted.pdf>

Derby City Council in the UK confirmed for Yvonne Hobbs that they have no record of any “SARS-COV-2” having been purified from a patient sample, by anyone on the planet:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2022/01/Derby-City-Council-PACKAGE-redacted.pdf>

Hertfordshire County Council in the UK confirmed for Yvonne Hobbs that they have no record of any “SARS-COV-2” having been purified from a patient sample, by anyone on the planet (see page 22, 23):

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/Hertfordshire-County-Council-many-and-sc2-PACKAGE-redacted.pdf>

October 19, 2021: **East Midlands – Leicestershire County Council** in the UK confirmed for the requester that they have no record of any “COVID-19 virus/variant” purified from any patient sample, by anyone, anywhere on the planet – and thus zero evidence of “its” existence:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2022/01/East-Midlands-Leicestershire-%E2%80%93-Mike-Sandys-SARS-CoV-2-PURIFICATION-FOI-RESPONSE-v2.pdf>

Unfortunately, we do not hold the information you have requested.

With regards to reports published in medical journals / databases, we would suggest searching for the relevant reports online.

Your request has been handled under the Freedom of Information Act 2000.

If you are not happy with how we've dealt with your request, you can complain and ask us to review our decision. If this is the case, please email foi@leics.gov.uk or write to us at the above address, quoting the FOI Request Number. We will usually only be able to consider complaints about requests if they are submitted to us within two months (from the date of this letter).

Further information about your rights to information is available from the Information Commissioner's Office at:

Address: Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF
Telephone: 0303 123 1113
Website: www.ico.org.uk

Kind regards,

FOI Team
Leicestershire County Council

Chris Tambini, Director of Corporate Resources

www.leics.gov.uk

October 25th, 2021: **Bedford Borough Council** in England confirmed for Yvonne Hobbs that they have no record of "SARS-COV-2" purification, by anyone on the planet:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/Bedford-Borough-Council-PACKAGE-redacted.pdf>

October 25th, 2021: **Brent Council** in England confirmed for Yvonne Hobbs that they have no record of "SARS-COV-2" purification, by anyone on the planet, and no records proving a causal link between the imaginary virus and "covid-19":

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/Brent-Council-PACKAGE-redacted.pdf>

October 30, 2021:

Suffolk County Council in England confirmed for Yvonne Hobbs that they have no record of “SARS-COV-2” purification, by anyone on the planet, and no records proving a causal link between the imaginary virus and (PCR results packaged as) “covid-19”.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Suffolk-County-Council-PACKAGE-redacted.pdf>

Freedom of Information – Response – 21103

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultra- centrifugation and chromatography) of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to purify the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am not requesting records describing

the replication of a “virus” without host cells.

Further, I am not requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe

its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide ‘interest’ and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible

Suffolk County Council do not hold this information.

October 20, 2021:

Public Health London Hammersmith and Fulham in the UK confirmed for the requester that they have no record of any “COVID-19 virus/variant” purified from any patient sample by anyone, anywhere on the planet, and no record proving a causal link between the alleged virus and “COVID-19” – and thus zero evidence of “its” existence:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/London-Hammersmith-and-Fulham-PACKAGE-redacted.pdf>

Reference: 2029609
Email: icaseworkinformation@lbhf.gov.uk
Date: 20 October 2021

Dear 

Freedom of Information Act 2000

This request is being handled under the Freedom of Information Act 2000.

I am writing to advise you that, following a search of our paper and electronic records, I have established that the information you requested is not held by London Borough of Hammersmith and Fulham.

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

We do not have any records that relate to your query

Please quote the reference number 2029609 in any future communications.

If you aren't happy with the council's response, please contact H&F within 40 working days of us sending you our response, with details of why you're unhappy. You can do this by:

- visiting H&F's website: <https://www.lbhf.gov.uk/councillors-and-democracy/complaints>
- emailing handfintouch@lbhf.gov.uk
- writing to the Resident Experience team, Hammersmith Town Hall, King Street, London, W6 9JU

Your concerns will be passed to H&F's Information Management Team to consider as an internal review. There's no charge for requesting an internal review.

October 28, 2021:

Brighton and Hove City Council in England confirmed for Yvonne Hobbs that they have no record of "SARS-COV-2" purification by anyone on the planet:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-SARS-COV-2-PACKAGE-redacted.pdf>

Our response:

In processing your request we liaised with colleagues within Public Health as they would hold the information in relation to your request were this information to be held by the council.

We can confirm that the information you have requested is not held by the council.

The council does not hold any documents describing the purification of any Covid-19 virus, including variants.

(Click here to see a series of "COVID-19" FOI requests submitted by Marc Horn to various agencies: https://www.whatdotheyknow.com/user/marc_horn)

Same, from **Public Health Scotland** in response to Athanasios Kandias: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/PH-Scotland-RESPONSE-2020-000133.pdf>

Date 7 October 2020]
Our Ref 2020-000133
Enquiries to phs.foi@nhs.net

Dear Athanasios Kandas

Freedom of Information Reference: 2020-000133

I refer to your request of 9 September 2020 under the above legislation for information about:

All records in the possession, custody or control of Public Health Scotland, describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

*Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers *instead* to:*

- the culturing of something, or*
- the performance of an amplification test (i.e. a PCR test), or*
- the sequencing of something.*

Please also note that my request is not limited to records that were authored by the PHS or that pertain to work done by the PHS. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the PHS has downloaded or printed.

I am writing to advise you that following a search of our records, I have established that under Section 17(1) of the Freedom of Information (Scotland) Act 2002, Public Health Scotland (PHS) does not hold the information you requested.

PHS has not been involved in any studies where methods of isolation described have been performed. Such studies may have been performed in a number of Universities but PHS is not aware of any specific studies to be able to direct you to them for more information.

If you have any questions please contact me on phs.foi@nhs.net.

If you are unhappy with our response to your request, you do have the right to request us to review it. Your request should be made within 40 working days of receipt of this correspondence, and we will reply within 20 working days of receipt.

1 South Gyle Crescent, Edinburgh EH12 9EB

Glasgow office: 5 Cadogan Street, Glasgow G2 6QE

Same, for the 2nd time from **Public Health Scotland** in response to my colleague in NZ: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/Public-Health-Scotland-Response-2020-000158.pdf>

September 10, 2021: **Public Health Scotland** confirmed once again, this time for Richard Anthony, that they have no purified sample of the alleged "COVID=19 virus/variants" and know of no one in Scotland who does, and they equated isolation/purification with meaningless, unscientific monkey cell culturing. Pdf: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/Scotland-PH-FOI-2021-000848-2.pdf>

Date 10 September 2021
Our Ref 2021-000848
Enquiries to phs.foi@phs.scot

Dear Richard Anthony

Freedom of Information Reference: 2021-000848

Thank you for your request for information dated 17 August 2021

Following a search of our records I write to advise you of the following responses to your questions.

"May I please know if Public Health Scotland has any actual material samples of purified SarsCoV2 virus and all related variants? I do not mean an in silico computer generated genome sequence. I mean actual material samples of purified viruses."

Response

Public Health Scotland (PHS) does not hold the information you requested. This is a formal notice that Section 17(1) - Information not held applies to your request, under the Freedom of Information Scotland Act (2002).

Additional Information

I can advise that it is not the remit of Public Health Scotland to undertake viral culture. Information is publicly available that the SARS-CoV-2 has been isolated and can be accessed on the Centers for Disease Control and Prevention website I include a web link [here](#). **Harcourt et al. study = monkey cell fraud!**

"If you do have these samples can you please tell me, what isolation and purification steps were taken to achieve this?"

Response

Public Health Scotland (PHS) does not hold the information you requested. This is a formal notice that Section 17(1) - Information not held applies to your request, under the Freedom of Information Scotland Act (2002).

Additional Information

It is not the remit of PHS to undertake viral culture. However information on the culture process of SARS CoV-2 is available to Public Health Scotland. Note that this is published by labs who carry out the process. I include the following web links

- [COVID-19 research repository](#) **fraudulent monkey cell cultures & isolation/purification**
- [WHO global research on Coronavirus](#)

"If you do not have these do you know of any laboratories who do have them here in Scotland."

Response

Public Health Scotland does not hold the information you requested. This is a formal notice that Section 17(1) - Information not held applies to your request, under the Freedom of Information Scotland Act (2002).

Additional Information

I can advise that that your request would be more appropriately addressed to University of Glasgow, you can contact them via foi@qia.ac.uk.

Scottish Information Commissioner's website:

For information I include a link to the Regulator's [website](#).

If you are unhappy with our response to your request, you do have the right to request us to review it. Your request should be made within 40 working days of receipt of this correspondence, and we will reply within 20 working days of receipt. The review will be undertaken by a reviewer who was not involved in the original decision-making process. The reviewer can be contacted as follows:

The FOI Reviewer
Public Health Scotland
Gyle Square
1 South Gyle Crescent
Edinburgh
EH12 9EB
Email: PHS.FOI@phs.scot

If our decision is unchanged following a review and you remain dissatisfied with this, you then have the right to make a formal complaint to the Scottish Information Commissioner within 6 months of receipt of our review response. You can do this by using the Scottish Information Commissioner's Office online appeals service at www.itspublicknowledge.info/Appeal. If you remain dissatisfied with the Commissioner's response, you then have the option to appeal to the Court of Session on a point of law.

Public Health Wales provided Dr. Janet Menage a sketchy excuse for not properly assisting with her request (Dr. Menage has submitted a complaint to the PHW 'Corporate Complaints' team); see PHW's response here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/Puplic-Health-Wales-453-Isolation-of-Sars-COV-2.pdf>

Freedom of Information request to Public Health Wales

FOI Reference:

FOI 453

Date request received

06 October 2020

Thank you for your recent request. Public Health Wales has not produced any of the above mentioned material. Any records that may be in possession of Public Health Wales would be material that is already in the public domain, which we would decline to supply under Section 21 of the Freedom of Information Act.

Under our duty to assist, we would ordinarily be willing to provide links or advise where you may be able to find such documentation if we held it within our systems, however the information above would prove to be too wide in terms of search parameters for us to identify any records with certainty that we hold.

Here is a 2nd & more recent dodgy response from **Public Health Wales** yielding no record, or citation of any record, of "SARS-COV-2" isolation/purification done by anyone, anywhere, ever. <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/12/PHWales.pdf>

Below is a screenshot of a Freedom of Information response to Mr. James McCumiskey, author of *The Latest Conspiracy: The Biomedical Paradigm*, from the University College Dublin, explaining that **[Ireland's National Virus Reference Laboratory has no records describing "how the Novel Coronavirus was purified"](#)**. Click the link for more details.

Mr James McCumiskey
By email: jl_mccumiskey@yahoo.ie

22 June 2020

Reference: FOI12_1_544 Internal Review

Dear Mr McCumiskey,

I refer to your application for an internal review under the Freedom of Information Act 2014 of a decision by Ms Debbie Scanlan, dated 22 May 2020, concerning item 1 of your request for access to records of the National Virus Reference Laboratory (NVRL), as follows: *"1) I am looking for a scientific paper, which demonstrates how the Novel Coronavirus was purified? Surely, if the NVRL is able to detect the Novel Coronavirus, it should also be able to demonstrate how it is purified?"*

In the original decision, Ms Scanlan refused part 1 of your request on grounds that the University do not hold records to answer your request (Section 15 (1) (a)).

I have now conducted an internal review in accordance with Section 21 of the Act. I wish to inform you that I affirm the original decision.

The University's position is that matters of academic debate cannot be conducted under FOI and we would not regard academic research material as administrative records of an FOI body that would make them available for release under the legislation. The NVRL have advised that they do not culture live SARS-CoV-2 or purify SARS CoV 2 antigens. They detect SARS-CoV-2 RNA in diagnostic samples, as per the PCR assay that was shared with you previously. As such, there are no relevant records held and no further searches that may be taken for records that would provide an answer to your query. Section 15 (1) (a) of the FOI applies.

The University is committed to its obligations under the Act to provide requesters with access to records held by it and with reasons for its decisions that affect them. In this case, we regret that we cannot assist you further.

Under the Act, the University is required to advise you of your right, following receipt of your internal review decision, to make a further review application by writing to the Information Commissioner, 18 Lower Leeson Street, Dublin 2.

Yours sincerely,

Mr Julian Bostridge
Director of Legal Services

December 23, 2020:

Ireland's Health Service Executive (HSE) informed Mr. Robert Pye that they have no record describing isolation/purification of "SARS-COV-2" from any patient sample, by anyone, anywhere (I believe this is the

response reported on by Gemma O’Doherty last year – I finally obtained a copy):
<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/12/Ireland-HSE-PACKAGE.pdf>

Following consultation with my colleagues, both from the scientific and medical areas of HPSC can confirm that we would hold no records in relation to your request. These are the reasonable steps I have taken to ascertain the whereabouts or existence of such records and unfortunately I must inform you that having undertaken these searches we were unable to locate the records in question. I am satisfied that all reasonable steps have taken to locate the records you have requested and must refuse therefore your request under Section 15.1(a) of the FOI Act 2014.

Statens Serum Institut, Denmark told Alex Holmsted that (translation): “*The Statens Serum Institut can state that we have now carried out a journal search for documentation that has convinced the Statens Serum Institut about the real existence of SARS-CoV-2, the alleged cause of COVID19 and moreover, we have in some other way tried to locate relevant documents. Statens Serum Institut can note that we are not in possession of the requested documents...*”
https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/Denmark-The-Statens-Serum-Institut-SARS-COV-2-FOI-reply-Afgoerelse_Alex_Holmstedt_SAG_20-08162__1_.pdf

Related video: **Denmark health officials** became indignant and defensive during a press conference when asked by journalist Kristofer Krarup about the FOI responses from their own institutions indicating they have zero proof of “the virus”:

<https://www.bitchute.com/video/AiwB5h4VCnTH/>

April 2020: In response to a query from to Dr. Kevin Corbett, **Public Health England** admitted using fake virus material to evaluate “COVID-19” tests, that the gold standard is not isolated virus, and more: <https://www.fluoridefreepeel.ca/public-health-englands-answers-to-covid-19-testing-questions/>

Subject: OFFICIAL: RE: Data request

From: WNCov.virology <WNCov.virology@phe.gov.uk>

Date: 28-Apr-20, 17:45

CC: Maria Zambon <Maria.Zambon@phe.gov.uk>, WNCov.virology <WNCov.virology@phe.gov.uk>

OFFICIAL

Professor Zambon asked that we respond to your request for data, as below.

i) RT-PCR tests –

- the gold standard for PCR tests is not virus isolation
- PCR tests are developed using synthetic transcripts; field use data are not widely available yet

No records re isolation of “SARS-COV-2” from an unadulterated sample, **Public Health England** told Andrew Johnson, a Technology Tutor at a UK University: <https://www.whatdotheyknow.com/request/679566/response/1625332/attach/html/2/872%20FOI%20All%20records%20describing%20isolation%20of%20SARS%20COV%202.pdf.html>. This is Andrew’s write-up on his FOI request: <https://cvpandemicinvestigation.com/2020/08/phe-has-no-real-evidence-that-sars2-cov2-causes-covid-19-chromosome-8-blood-plasma-treatment-and-more/>.

Months ago, the **StandUpX Science Committee** published an open letter dated June 22, 2020 to the British Prime Minister, Boris Johnson. Below is a screenshot from their letter, demanding scientific proof of the alleged “COVID-19 virus”. (Their entire letter can be viewed and/or downloaded here: <https://kevinpcorbett.com/onewebmedia/Signed%20StandUpX%20definitive.pdf>)

Therefore, we demand that by July 22nd 2020, Public Health England must:

1. Produce independently peer reviewed scientific evidence proving that the Covid-19 virus has been isolated and purified in the reference laboratories run by Public Health England under the leadership of Professor Zambon (Imperial College London/SAGE member) ignoring the instructions not to do so issued by the World Health Organisation.
2. Produce independently peer reviewed scientific evidence proving that Covid-19 virus causes disease using all of the Koch Postulates.

If the United Kingdom Government’s own health agency - Public Health England – CANNOT show independent and peer-reviewed proof that a virus exists which causes COVID-19 then the Government must DECLARE THERE IS NO SUCH VIRUS AND CEASE MEASURES AGAINST SOMETHING WHICH DOES NOT EXIST, including producing a vaccine and the Government’s Track+Trace policy.

StandUpX Committee member Piers Corbyn also made the demand verbally outside the headquarters of the UK government; video footage of the demand is available at this url (**not** the embedded video below – that is a different video featuring Peirs Corbyn; WordPress would not embed the footage of the demand for some reason, so please click on this url to see the demand, not on the image below): <https://youtu.be/4FpuzGBa36c>

Below is footage of Piers Corbyn calling out the UK government for the non-isolation of their theoretical “SARS-COV-2 virus”. <https://www.bitchute.com/embed/1eDDh3eqFPAJ/?feature=oembed#?secret=fSiAIVe09M>
ERRATUM: In the description underneath the video (on the bitchute page) the authors of the publication on the Drosten PCR test are referred to as ‘Drosten et al’ when it should read ‘Croman et al’.

StandUpX has a petition entitled “*If there’s no proof the virus exists end all Lockdowns/Masks/Trax/Vax actions*“. If you can tell the difference between isolation and fraudulent monkey business, please consider signing it, here: <https://www.gopetition.com/petitions/if-theres-no-proof-the-virus-exists-end-all-lockdownsmaskstraxvax-actions-2.html>

In April StandUpX committee member Dr. Kevin Corbett MSc PhD (@KPCResearch on Twitter) published a paper describing issues around the non-isolation of the theoretical SARS-COV-2 virus. Below is a screenshot from his paper entitled “**WHERE IS THE EVIDENCE FOR THE EXISTENCE OF THE ‘NOVEL CORONAVIRUS’, ‘SARS-CoV-2’, AND THE ACCURACY OF THE TESTS?’**”, which you may access here: <https://kevinpcorbett.com/onewebmedia/WHERE%20IS%20THE%20EVIDENCE%20FOR%20THE%20EXISTENCE%20OF%20THE%20GORONAVIRUS%20FINAL2.pdf>

Ogenstad et al (2020) are clearly admitting that no purified infectious ‘novel Coronavirus’ (‘SARS-Cov-2’) has ever been adequately demonstrated as coming from patients (e.g. see Huang et al 2020). The implication is that the ‘novel Coronavirus’ RNA/antibodies whose veracity are assumed by PHE/FDA may not actually prove to be ‘viral’ but could represent other phenomena. For example some scientists like Andrew Kaufman (Kaufman, 2020) suggest these may be ‘exosomes’, whilst others point to numerous confounding process artefacts (Schierwater et al 2009), or due to the laboratory ‘quality processes’ which appear remarkably open to errors and misinterpretation (Bustin and Nolan 2017). Until the proper research is suitably undertaken (and reproduced) regulators cannot scientifically claim that the tests are accurate.

Guess “**WHO**” advised **Public Health England (and the rest of the world) not to isolate “the virus” as a routine diagnostic procedure, and “WHO” encourages the conflation of isolation with culturing?** See the screenshots below from page 4 of the Interim Guidance document dated March 2, 2020 “*Laboratory testing for coronavirus disease 2019 (COVID-19) in suspected human cases*” kindly provided by Dr. Corbett of StandUpX: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/WHO-COVID-19-laboratory-2020.4-eng.pdf> and page 8 of the *Diagnostic testing for SARS-CoV-2 Interim guidance 11 September 2020* <https://canucklaw.ca/wp-content/uploads/2021/01/WHO-2019-nCoV-laboratory-September-11-2020-Guidelines.pdf>

Laboratory testing for coronavirus disease 2019 (COVID-19) in suspected human cases

Laboratories with limited experience in testing for COVID-19 virus are encouraged to work with laboratories with more experience with this pathogen to have their initial test results confirmed and to improve their own performance.

Viral culture

Virus isolation is not recommended as a routine diagnostic procedure.

Viral isolation

Virus isolation is not recommended as a routine diagnostic procedure. All procedures involving viral isolation in cell culture require trained staff and BSL-3 facilities. A thorough risk assessment should be carried out when culturing specimens from potential SARS-CoV-2 patients for other respiratory viruses because SARS-CoV-2 has been shown to grow on a variety of cell lines [183].

Update, October 1, 2020: My colleague in New Zealand recently received a “no records” response from **Public Health England** – identical to the “no records” response above that was already provided to Andrew Johnson. You may access this 2nd response from PHE here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/Public-Health-England-scrubbed.pdf>

Update November 1, 2020: Marc Horn also queried **Public Health England** for records describing “SARS-COV-2 isolation” from a sample not unadulterated with additional genetic material. Response: no records. <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/PHE-FOI-reply-re-SARS-COV-2-isolation.pdf>

Another “no records” FOI response from **Public Health England** dated **November 3, 2020**, in response to a request from Athanasios Kandias for records (re SARS-COV-2 isolation) held by the **National Biological Standards Board**.

https://www.whatdotheyknow.com/request/701311/response/1669071/attach/2/1740%20FOI%20NIBSC%20records%20on%20SARS%20COV%202.pdf?cookie_passthrough=1 (Preserved here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/PHE-1740-FOI-NIBSC-no-records-SARS-COV-2-isolation.pdf>)

No records supporting the claim that the alleged “SARS-COV-2 virus” causes “COVID-19” symptoms says **Public Health England**, in response to a query from Marc Horn. Note that PHE cited 3 publicly available studies, none involving isolation of “SARS-COV-2” from a sample not unadulterated with additional genetic material. <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/PHE-FOI-reply-re-SARS-COV-2-isolation-and-causation-of-COVID-19.pdf>

September 7, 2021:

Public Health England failed once again to cite any record of “SARS-COV-2” purification:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/PHE-Sept-7-2021-PACKAGE.pdf>

I am using "isolation" in the everyday sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-CoV-2" refers instead to:

*-the culturing of something, or
-the performance of an amplification test (i.e a PCR test), or -the sequencing of something.*

To conclude, I am requesting all such records that are in the possession, custody or control of Public Health England (for example: downloaded to a computer, printed in hard copy, etc.).

Response

In accordance with Section 1(1)(a) of the FOI Act, PHE can confirm that it does not hold the information you have requested.

Viruses are not independent living entities. They require a host cell substrate to replicate.

1

PHE's microbiology teams use the term "isolation" to mean culture in the laboratory. It is used sometimes interchangeably to mean isolation from a patient or clinical material – but usually implies that the organism has been grown in culture. An organism is identified by looking for its unique genetic material in a clinical sample and further identification is refined and confirmed by whole genome sequencing.

The Virus Reference Laboratory at PHE, Colindale, London has grown the virus, SARS-CoV-2. The virus culture method has been published in the following peer-reviewed paper: <https://www.eurosurveillance.org/content/10.2807/1560->

September 20: **Public Health England** confirmed for Yvonne Hobbs that it does not hold any information re purification of any "COVID-19 virus" or "variants".

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/PH-England-PACKAGE-redacted.pdf>

**Public Health
England**

Protecting and improving the nation's health

By email

[Redacted email address]

Our ref: 18/09/21/ag/1345

Dear Yvonne Hobbs,

Re: Covid-19

Public Accountability Unit
Wellington House
133-155 Waterloo Road
London SE1 8UG

www.gov.uk/phe

20 September 2021

Thank you for your request received on 18 September 2021 addressed to Public Health England (PHE). In accordance with Section 1(1)(a) of the Freedom of Information Act 2000 (the Act), I can confirm that PHE does not hold the information you have specified.

Request

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultra-centrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or***
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or***
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or***

produced electron microscopy images of unpurified things in a cell culture

In accordance with Section 1(1)(a) of the FOI Act, PHE can confirm that it does not hold the information you have requested.

Viruses are not independent living entities. They require a host cell substrate to replicate.

September 28, 2021:

Public Health England confirmed that they still have no record of "SARS-COV-2" (including "variants") purification, by anyone, anywhere:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/Public-Health-England-SARS-COV-2-v3-Redacted-2021-09-28.pdf>

July 27, 2021: In England, the **Pennine Acute National Health Service Trust** and the **Salford Royal National Health Service Foundation Trust** disclosed in FOI responses:

- that they have in total zero records re "SARSCov2" satisfying Koch's Postulates (and yes, we know that a strict application of Koch's would not be possible, even if the imaginary "virus" actually existed; note that these institutions provided plenty of unrequested data but no records whatsoever re "virus" isolation/purification);
- PCR tests have been run with up to 42 cycles;
- <10 children died within 28 days of a positive covid test;
- "cause of death is not recorded in our clinical systems". Full response:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/NCA-FOI-11135-package.pdf>

Response – Salford Royal Foundation Trust

1. I would like to know the number of cycles you have been using on PCR (Polymerase Chain Reaction) test as standard and if that number has ever been changed at anytime for whatever reason.

The Trust uses the following Commercial CE IVD assays - Hologic Panther, Cepheid, BD Max, Abbott Alinity, Abbott M2000 and AusDiagnostics Hi-Plex. The number of thermal cycles across all the platforms in use varies slightly and the maximum is 42; the parameters for all these assays are available from the commercial suppliers. The Trust does not alter them for any reason.

2. I would also like to know how many children under the age of 16 have been logged as a death from SARSCov2 without any underlying health issues.

There were no children under the age of 16 who died within 28 days of a positive COVID-19 test result.

3. And can you tell me if you have any records of SARSCov2 going through Koch's Postulates.

The Trust has not recorded any cases going through Koch's Postulates.

No records supporting the claim that the alleged “SARS-COV-2 virus” causes “COVID-19” symptoms, says the UK’s **House of Commons**, in response to a query from Marc Horn: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/UK-House-of-Commons-FOI-reply-re-COVID19-causation.pdf>

No records supporting the claim that the alleged “SARS-COV-2 virus” causes “COVID-19” symptoms, says the UK’s **House of Lords**, in response to a query from Marc Horn: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/UK-House-of-Lords-FOI-reply-re-COVID19-causation.pdf>

Britain’s Health and Safety Executive confirmed for Athanasios Kandias on November 3, 2020 that they hold no information relating to isolation of “SARS-COV-2”.

https://www.whatdotheyknow.com/request/documents_held_showing_sars_cov2_3

(Preserved here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/Health-and-Safety-Executive.pdf>).

Here is an exasperating email exchange between myself and **Imperial College London**, home of the disgraced “COVID-19” modeller Professor Neil Ferguson and Public Health England’s Deputy Director of National Infection Service and Director of Reference Microbiology Services, British virologist, Professor **Maria Zambon** FMedSci FRCPath. The College clearly has no records describing “SARS-COV-2” isolation/purification but is unwilling to admit such:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Imperial-College-London-FOI-exchange-SARS-COV-2-isolation-updated.pdf>

We explained in our response to you that we do not keep records of what material has been printed or downloaded by our staff and students. In order for us to deal with your request in its present form we would need to ask all staff and students at the College whether they had downloaded or printed information on the isolation of the virus and ask them to provide details. As the college has about 20,000 students and 8,000 members of staff that approach is not practical. The exemption at Section 12 of the Freedom of Information Act, which provides that organisations need not respond to Freedom of Information Act requests if it would take more than 18 hours to extract and compile the information requested, would apply.

Kepa Ormazabal submitted a Freedom of Information request to **Spain's Ministry of Health** for bibliographic records of studies describing "SARS-COV-2" isolation/purification (*"the term "isolation" is used in the sense given by the Real Academia Espanola Dictionary"*); the Ministry's response yielded no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/03/Spain-Ministry-of-Health-isolation-request-reply-w-translation.pdf>

September 8, 2021: **Spain's Ministry of Health** provided an uber-evasive response to an organization called Liberum, re isolation/purification, characterization, culturing etc. of the alleged COVID-19 virus. Here are the actual questions posed by Liberum (provided by a member), with an (automated) English translation, and the responses also with an (automated) English translation. The Ministry's total evasion re purification, and their admission that they don't even bother with bogus monkey cell cultures, speaks volumes:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/Spain-Ministry-of-Health-Liberum-request-PACKAGE.pdf>

On genomic sequencing of the virus you can consult the following link:

[https://www.mscbs.gob.es/profesionales/saludPublica/ccayes/alertasActual/nCov/documentos/Integracion de la secuenciacion genomica-en la vigilancia del SARS-CoV-2.pdf](https://www.mscbs.gob.es/profesionales/saludPublica/ccayes/alertasActual/nCov/documentos/Integracion%20de%20la%20secuenciacion%20genomica-en%20la%20vigilancia%20del%20SARS-CoV-2.pdf)

The Ministry of Health does not have a SARS-CoV-2 culture for testing, and it does not have a registry of laboratories with culture and isolation capacity for testing.

In relation to the SARS-COV-2 diagnostic tests, and in general, with issues related to the SARS-Cov-2 pandemic, the Ministry of Health works with the aforementioned documents, which are updated according to epidemiological need, to enable decision-making in relation to the management of the pandemic, and the dissemination of information to third parties that can use it in their specific environments. In this sense, the most conceptual and definitional issues remain more in academic and teaching environments, with the Ministry of Health playing a more secondary role and not acting on these issues in its power.

Finally, the evaluation of patients in relation to their state of health, be it COVID-19 or another disease or pathology, is the responsibility of the reference health professionals. The tests, by themselves, are not usually sufficient to determine disease, requiring an expert evaluation of the person who has been tested. Either way, the case definition can be found at the following link:

September 15, 2021: here is a report from Spain discussing an apparent class action lawsuit demanding proof of "the virus, in the form of a sample to be subjected to independent verification:

https://digitalwarriors.uk/great-news-out-of-spain/?fbclid=IwAR376xHErLyVCZRCruYC_60spufsBPnb0a-4GknQluYjE4cqZcwVhdelZ_o

The Director of the European Centre for Disease Prevention and Control, **Andrea Ammon**, has admitted to having no documentation, even for the ECDC's methodology to prove that a virus exists, let alone proof of SARS-COV-2: <https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/DOCUMENT-REQUEST-ECDC-AND-RESPONSE.pdf>

Stockholm, 16 September 2020
Our ref.: DPR-2020-OUT-3176-KEEIKh

Dear Mr [REDACTED],

Re: Your application for access to documents – Ref 20-3696

We refer to your email dated 31 August 2020 in which you make a request for access to documents, registered on 1 September 2020 under the above mentioned reference number, and your follow up email on 2 September 2020 that has been handled under the same reference number as well.

We regret to inform you that no documents were found that would correspond to the description given in your application.

Indeed, as specified in Article 2(3) of Regulation 1049/2001, the right of access as defined in that Regulation applies only to existing documents in the possession of the institution.

According to the website of **Slovenia's University of Ljubljana**, their **Faculty of Medicine** has been [involved in](#) "...implementation of the latest molecular diagnostic procedures; an attempt to isolate the virus *in cell cultures* [oxymoron], which is a precondition for testing anti-viral agents and vaccines...". The Faculty formally admitted on November 30, 2020 to having no record (even obtained from others) of "SARS-COV-2" isolation or proving a causal link to "COVID-19"; also that 40 PCR cycles have been used across Slovenia since the beginning of testing. The Faculty's original response and an English translation are available here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/01/FOI-reply-Slovenia-University-of-Ljubljana-re-isolation.pdf>

Prosilka v 3. točki zahteva posredovanje znanstvenih dokazov o izolaciji virusa Sars-Cov-2 v skladu s Kochovimi postulati ter posredovanje študije, ki bi dokazala vzročno zvezo med Sars-Cov-2 in domnevno nalezljivo boleznijo Covid-19. UL MF Inštitut za mikrobiologijo in imunologijo znanstvene študije, ki bi izpeljala dokaz o izolaciji virusa Sars-Cov-2 v skladu s Kochovimi postulati, ni izvajal. UL MF Inštitut za mikrobiologijo in imunologijo prav tako ni izvedel znanstvene študije, ki bi dokazovala vzročno zvezo med Sars-Cov-2 in domnevno nalezljivo boleznijo Covid-19. Organ tako z zahtevanim dokumentom ne razpolaga, zaradi česar je bilo potrebno glede 3. točke zahteve odločiti, kot izhaja iz izreka tega sklepa.

More recently, **Slovenia's Ministry of Health** stated that they had no records re "SARS-COV-2" purification, PCR tests, etc. and transferred an FOI request to the **Institute of Microbiology and Immunology (IMI) at the**

Univerisoy of Ljubljana. The IMI eventually admitted in February 2021 that they have no records re “virus” purification and that PCR tests have been conducted using up to 40 cycles. Both letters are here: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/05/Slovenian-Dept-Health-transfers-to-IMI-at-U-of-Ljubljana-no-isolation-40-PCR-CT.pdf>

And more recently still, **Slovenia’s National Laboratory for Health, Environment & Food (Nacionalnega laboratorija za zdravje, okolje in hrano, NLZOH** – “the central and largest Slovenian public health laboratory that handles environmental protection, diagnostic and public health microbiological activities, chemical and microbiological analyses of different types of samples, and also performs research activities”) failed to provide or cite any record of “SARS-COV-2” purification or proof of existence, despite an intervention by the Information Commissioner. NLZOH also cited a “business secret” in responses re queries re PCR testing. <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/Slovenia-Lab-package-w-translations.pdf>

July 9, 2021: **Slovenia’s main medical centre – Univerzitetni klinični center Ljubljana, UKCLJ (University Medical Centre Ljubljana)** – provides/cites zero records of “SARS-COV-2” isolation/purification but nevertheless claims Koch’s Postulates are fulfilled, and cites typical “monkey business” papers: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/Slovenia-UKCLJ-request-response-redacted.pdf>

K vprašanju pod zaporedno številko 3 se posreduje povezavo:
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7184405/pdf/ciaa325.pdf>
In pojasnilo: podajamo referenco, iz katere je razvidno, da SARS-CoV-2 izpolnjuje Kochove postulate. Vlagatelju ob tem pojasnjujemo, da je Koch s svojim sodelavcem Henlejem postulate objavil, precej preden so bili odkriti virusi. Kasneje so, predvsem v luči spoznanj virologije, Kochovi postulati bili prilagojeni novim odkritjem. Ne vemo sicer, kaj vlagatelj pojmuje pod pojmom “papir”, domnevamo, da gre za neposrečen prevod angleškega izraza “paper”, ki v tem primeru pomeni članek.

December 22, 2021:

Argentina’s National Administration of Laboratories and Health Institutes “Dr. Carlos Malbrán” is described as “a decentralized public body dependent on the Ministry of Health”, and is a [Collaborating Center on Antimicrobial Resistance Surveillance](#) with guess “WHO”.

Monica Tous (“Virology Department Head”) responded to Edgar Horacio Russo’s request for records describing “SARS-COV-2” purification with a letter about PCR “tests”, “sequencing” of RNA soups, oxymoronic “virus isolation” attempts in monkey cell cultures, and this gem: “*The LNR does not handle the use of the electron microscope.*”

Upon appeal it was admitted “*there are NO records of what was requested under the specified conditions since viral purification is not performed*” (see p 16, 21):

<https://www.fluoridefreepeel.ca/wp-content/uploads/2022/01/Argentina-Natl-Admin-of-Labs-and-Health-Institutes-PACKAGE-not-redacted.pdf>

2.pdf), a partir de confirmar el resultado detectable, dependiendo del valor de CT, se lleva a cabo la extracción de ácidos nucleicos y el RNA extraído es enviado a la Plataforma de Genómica donde se realiza el intento de secuenciación de genoma completo utilizando protocolos establecidos y estandarizados. Los resultados obtenidos son analizados y están disponibles en la página del Ministerio de Salud (<https://www.argentina.gob.ar/coronavirus/informes-diarios/igilancia-genomica>). La técnica de microscopía electrónica no se utiliza como método diagnóstico de rutina para la detección de SARS-CoV-2. El LNR no maneja el uso del microscopio electrónico”.

Por último agregó “(...) Además de la caracterización genómica, el laboratorio lleva a cabo el intento de aislamiento viral en cultivos celulares, a partir de muestras clínicas. Para ello, las muestras son filtradas previamente con filtros para jeringa de 0.22 µm y se infectan en cultivos de células VERO (células epiteliales del riñón de un mono verde africano). El efecto citopático se confirma mediante RT-PCR en tiempo real o por inmunofluorescencia. El LNR no lleva a cabo técnicas que permitan fabricar genomas”.

No obstante ello, el señor RUSSO consideró que la respuesta no se ajustaba a lo solicitado manifestando que “(...) El LNR afirma que no lleva a cabo técnicas que permitan fabricar genomas, pero eso es lo que hace, aunque es mi culpa por no definir mejor lo que quiero decir con “fabricar”. Por “fabricar” quiero decir *inventar, mapear, secuenciar un espacio genoma creado arbitrariamente a partir de secuencias genómicas, donde un software decide arbitrariamente cómo y dónde se ensamblan*. El LNR afirma que “realiza el intento de secuenciación de genoma completo” a partir de “el RNA extraído” de una muestra impura con resultado PCR positivo”. En virtud de ello, el día 7 de diciembre de 2021 presenté ante esta AAIP un reclamo en los términos del artículo 15 de la Ley N° 27.275, que dio origen a las presentes actuaciones.

En cumplimiento de la Resolución AAIP 4-E/2018, mediante NO-2021-119677532-APN-DPIP#AAIP se requirió al sujeto obligado la remisión de los antecedentes del caso y toda otra documentación y/o información que se considerase relevante para la resolución del reclamo.

En respuesta a dicha requisitoria, mediante NO-2021-122264216-APN-INEIA#ANLIS el sujeto obligado amplió su respuesta en la que aclaró “(...) NO se tienen registros de lo solicitado en las condiciones especificadas dado que no se realiza purificación viral. Las metodologías utilizadas son las que se citan en la nota NO-2021-117551442-APN-INEIA#ANLIS del 3 de diciembre del corriente año”.

Atento a lo expuesto es que corresponde ajustarse a lo previsto en el Criterio N° 3 aprobado por Resolución AAIP N° 48 del 27 de julio de 2018, según el cual se procederá al archivo de todo reclamo cuando “1. b-El reclamo hubiese sido iniciado por respuesta incompleta o insatisfactoria y el organismo ampliar la información oportunamente brindada, o fundare debidamente la denegatoria”.

De no estar de acuerdo el requirente con la información recibida podrá iniciar un nuevo reclamo por ser distintos los motivos que originaron el presente.

Ante ausencia del titular de la AAIP y a los efectos de garantizar el normal desenvolvimiento del organismo, de conformidad con lo dispuesto por la Resolución AAIP N° 30 del 14 de mayo de 2018, se ha encomendado la atención del despacho y la resolución de los asuntos concernientes a la competencia del titular de la AGENCIA DE ACCESO A LA INFORMACIÓN PÚBLICA, en el señor Director Nacional de Protección de Datos Personales, Dr. Eduardo Hermin CIMATO, delegándose la firma correspondiente.

Notifíquese el presente al reclamante conjuntamente con la NO-2021-122264216-APN-INEIA#ANLIS, y al MINISTERIO DE SALUD a través de su Responsable de acceso a la información pública.

result”. By virtue of this, on December 7, 2021, he presented before this AAIP a claim under the terms of article 15 of Law No. 27.275, which gave rise to these proceedings.

In compliance with Resolution AAIP 4-E/2018, through NO-2021-119677532-APN-DPIP#AAIP, the obliged subject was required to submit the background of the case and all other documentation and / or information that is considered relevant to the resolution of the claim.

In response to said request, through NO-2021-122264216-APN-INEIA#ANLIS the obliged subject expanded its answer in which it clarified “(...) there are NO records of what was requested under the specified conditions since viral purification is not performed. The methodologies used are those cited in note NO-2021-117551442-APNINEIA#ANLIS of December 3 of the current year”.

In view of the foregoing, it is appropriate to comply with the provisions of Criterion No. 3 approved by AAIP Resolution No. 48 of July 27, 2018, according to which all claims will be filed when “1. b-The claim had been initiated due to incomplete or unsatisfactory response and the agency expands the information previously provided, or it duly substantiates the denial”.

If the applicant does not agree with the information received, he may initiate a new claim because of being different the reasons that originated the present.

In the absence of the head of the AAIP and in order to ensure the normal functioning of the agency, in accordance with the provisions of AAIP Resolution No. 30 of May 14, 2018, the National Director of Personal Data Protection, Dr. Eduardo Hernán CIMATO, has been entrusted

June 18, 2021: **Argentina’s Ministry of Health** strongly suggested in an FOI response to Ana Maria Daverede (re the meaningless “COVID-19” PCR tests) that they too have no record of “the virus” having been purified. In point 4 they mention “**by not having viral isolates available ...**” (Also in point 9: “*does not serve to discriminate carriage, infection, disease, contagiousness, transmissibility ...*”)

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/07/Argentina-no-aislamiento-del-sarscov.pdf>

VIDEO: Admiten que no existe el coronavirus: Develan la gran farsa

<https://canal7salta.com/2021/06/24/argentina-video-admiten-que-no-existe-el-coronavirus-develan-la-gran-farsa/>

Hall of Shame

On February 15, 2021 Kepa Ormazabal submitted an FOI request re isolation/purification of the phantom “virus” to the **Basque Country (Spain) Office of the President and Department of Health** and all dependent institutions.

Months later Kepa wrote:

“According to the law, they have 30 days to respond; 60 if the question is especially complex. Today is May 2nd and I have not heard from them.”

[Zuzenean] 2021/009739 - Buzón de Euskadi.eus - aislamiento sars-cov2

De <Zuzenean-No-Reply@euskadi.eus>
Destinatario [REDACTED]
Fecha 15.02.2021 15:27

**Datos de la solicitud**

Datos personales: Kepa Ormazabal Sanchez

Correo electrónico: [REDACTED]

Número de expediente: 2021/009739

Tipo de solicitud: Información

Asunto: aislamiento sars-cov2

Texto:

Solicito se me proporcione toda la información que conste en Lehendakaritza, el Departamento de Salud y en cualquier organismo dependiente de ellos sobre registros bibliográficos científicos, en cualquier soporte, que describan el aislamiento del virus SARS-Cov2 directamente a partir de muestras tomadas de pacientes diagnosticados de covid-19. Mi solicitud no se refiere a registros bibliográficos científicos basados en muestras que hayan sido mezcladas con otras fuentes de material genético, como, por ejemplo, células de riñón de simio o células de hígado canceroso. Nótese que se usa el término "aislamiento" en el sentido que le da el diccionario la Real Academia Española de "dejar algo solo y separado de otras cosas" o "separar un elemento o un cuerpo de una combinación o del medio en que se halla, generalmente para identificarlo o analizarlo?". Por tanto, no estoy solicitando registros bibliográficos científicos sobre cultivos celulares, ni resultados de amplificación de material genético (ya sea por técnica PCR u otras) ni secuenciaciones de material genético.

No es necesario contestar a este mensaje. Atenderemos su petición en el menor plazo posible.

Mensaje enviado a kepa.ormazabal@bizkaia.eu. Si usted no ha realizado la consulta, por favor, [elimine la solicitud](#).

Atentamente

On March 30, 2021 Kepa Ormazabal submitted another FOI request re isolation/purification of the phantom “virus” to the **flagship of Spanish research, Consejo Superior de Investigaciones Científicas /Higher Council of Scientific Research** (the image below indicates the reception of the request by the institution). Months later Kepa writes: “*Again, they have not responded and, therefore, their silence is refusing access to the information they may hold in regards to my question.*”

“The CSIC and the Basque government are public institutions and, therefore, must comply with the Ley de transparencia, buen gobierno y acceso a la información pública/Law of transparency, good governance and access to public information. Article 20.4 of this law states that, if after 30 days there has been no response from the public

administration, this silence is to be understood as meaning that the request to access the public information solicited has been refused.”

REGISTRO ELECTRONICO

Estimado/a Sr./Sra. KEPA MIRENA ORMAZABAL

Su solicitud de registro con número de registro REGAGE21e00003676931 en fecha 31/03/2021 12:37:05, va a ser tramitada por la oficina de registro Registro General del Consejo Superior de Investigaciones Científicas.

Puede consultar el estado de su solicitud en Carpeta Ciudadana en <https://sede.administracion.gob.es/carpeta/recAre/consulta.html> [1]

La Carpeta Ciudadana es un portal web que le permite, de una forma sencilla y sin tener que registrarse, conocer los asuntos que sean de su interés en relación con las Administraciones Públicas, por ejemplo el estado de sus expedientes, las notificaciones y comunicaciones que reciba o las solicitudes presentadas a través del Registro electrónico. Puede acceder a Carpeta ciudadana en la dirección <https://sede.administracion.gob.es/carpeta>.

Back-Up FOI Repositories and a Tiny Url

This collection of FOI responses is being kindly backed up by a friend, here: <https://jumpshare.com/b/05F75HqalwFSRBB8Axsw>

and they have backed up the compilation pdfs here:

Part 1

<https://jmp.sh/xB2sb9P>

Part 2

<https://jmp.sh/p8QFqDK>

Part 3

<https://jmp.sh/neIBywO>

Part 4

<https://jmp.sh/RMCCCjZ>

And someone kindly made this easy-to-remember tiny URL for the FOI collection – it re-directs to the page you are currently on:

So “What The Hell Is Going?”

At this point you might be scratching your head and wonder what on Earth is going on. If so, the collection of resources on the page linked below will reveal the fraud behind the fake pandemic known as “COVID-19”, as explained by various experts. The focus here is on the isolation/purification issue, the fake “genomes” and meaningless PCR tests that are at the heart of it all.

And finally, some interviews and speeches of my own...

Most recently: My interview with Mike Adams “the Health Ranger” of [NaturalNews](#) and founder of [Brighteon.com](#):

<https://www.brighteon.com/cdf766f0-15a2-4502-911c-946e6ef8c6dd>

Video: Thursday August 26 2021: **My interview with common law teacher Christopher James of [A Warrior Calls](#)**

<https://www.bitchute.com/video/u0Y75IQGIPvo/>

Video: October 20, 2021: **Christine Massey & Dr. Kevin Corbett** discuss the missing proof of the existence of ‘SARS-CoV-2’ :
<https://rumble.com/vo1evl-where-is-the-evidence-for-the-existence-of-sars-cov-2-covid-virus.html>

August 10, 2021: **DOES THE ‘VIRUS’ EXIST? HAS SARS-COV-2 BEEN ISOLATED?**

Audio: October 1, 2021: **The Worldwide Hunt for SARS-CoV-2: Christine Massey Interview about her Freedom of Information Law responses — Eric F. Coppolino of Planet Waves FM:**
<https://planetwaves.fm/worldwide-hunt-for-sars-cov-2/>

August 20, 2021: **Atlantic Underground with Guests Patrick King and Christine Massey**
https://odysee.com/@AtlanticUndergroundPodcast:6/Atlantic-Underground-Podcast-Episode-64-zoom_0:9

October 2021: **Dr. Bill Smith** and I joined **Brian Lupo** of **Cann Con Community** to discuss the **isolation/purification** issue, and the “**covid**” injections:
<https://canncon.locals.com/post/1203533/some-incredible-information-on-covid-and-the-vaccines>

In early December 2020, Kevin J. Johnston invited me to discuss the FOI documents on his weekly podcast:
<https://www.bitchute.com/video/ruvRPMZtSCTI/>

On November 28, 2020 I gave a speech at **The Line Canada**’s anti-lockdown protest; it begins at the 19 minute mark in this video:

In April 2021 I did a short impromptu interview with **Lockdown Radio**, at a protest in my new hometown of Peterborough Ontario (7 minutes, audio only):
<https://www.youtube.com/watch?v=FHi1pofmCkQ>

On November 26, 2020 at a protest in Toronto, I was given a spur-of-the-moment opportunity to deliver a **message to the Canadian government re their handing of “COVID-19”**, via the mainstream media. Enjoy:

If you would like to receive email updates re new FOI responses, let me know at christinem@fluoridefreepeel.ca.
(Proton has banned me from sending any more emails, permanently, without any warning whatsoever.)

Twitter has “permanently” [banned me!](#)
So connect with me on FB: <https://www.facebook.com/chris.mass.9440/>

Donations are greatly appreciated

My work on this project have been self-funded up until November 10, 2021 and my resources are running low!

If you would like to financially support my work, emails transfers would be gratefully accepted.

Please use either of the following email addresses to donate:

cmssyc@gmail.com, or

christinem@fluoridefreepeel.ca

No need to send a security code/question, as I am set up for auto-deposit. But **please also send me an email** to let me know you donated, so that I can thank you – otherwise I won't receive your contact info to say thanks!

Thank you so much.

Why Many Don't Buy the Theory That Viruses CAUSE Disease

The problem is with HOW virologists do lab work...

- ❶ Virologists take samples of stuff (like snot) from a sick patient. Then...
- ❷ They add it to monkey, cow or even aborted baby cells. Then...
- ❸ They starve and poison the cell mixture. Then...
- ❹ They see cells dying and take still life photos with an electron microscope and conclude that a virus killed the cells. **The problem?**

They (1) **ASSUME** that there were viruses in the patients' sample and (2) they **BELIEVE** that the virus (which they only assume was there) **CAUSES** the cells to die.

In reality, the infected cells and tissues die BECAUSE they were starved and poisoned by the virologists themselves because of the method they used to do the experiment in their lab.

"The death of the tissue and cells takes place in the exact same manner when no "infected" genetic material is added at all. Virologists have apparently not noticed this fact."¹ - Stefan Lanka
