FOIP request to Alberta re purification of "SARS-COV-2"

Christine Massey <cmssyc@gmail.com>

Fri, Aug 13, 2021 at 8:17 PM

To: premier@gov.ab.ca, health.minister@gov.ab.ca, deena.hinshaw@gov.ab.ca, health.infoaccess@gov.ab.ca

To:

Jason Kenney, Premier of Alberta
Office of the Premier
Room 307, Legislature Building 10800-97 Avenue
Edmonton, Alberta T5K 2B6
Email: premier@gov.ab.ca

Tyler Shandro, Minister of Health
423 Legislature Building
10800 - 97 Avenue NW
Edmonton, AB Canada T5K 2B6
Email: health.minister@gov.ab.ca

Dr. Deena Hinshaw, Chief Medical Officer of Health
Alberta Health
4fl, 10025 Jasper Ave
Edmonton, Alberta T5J 2N3
Email: deena.hinshaw@gov.ab.ca

Jilliane Jolin, FOIP Coordinator
Alberta Health
19th Floor, Telus Plaza North Tower
10025 Jasper Avenue
Edmonton, AB T5J 1S6
Email: health.infoaccess@gov.ab.ca

Submitted via email to: premier@gov.ab.ca; health.minister@gov.ab.ca; deena.hinshaw@gov.ab.ca; health.infoaccess@gov.ab.ca;

Dear Premier Kenney, Minister Shandro, Dr. Hinshaw and Ms. Jolin,

This is a formal request for access to general records, made under Alberta's *Freedom of Information and Protection of Privacy (FOIP) Act*, as a result of public statements made by Dr. Hinshaw:

*"...I, Dr. Deena Hinshaw, Chief Medical Officer of Health have initiated an investigation into the existence of COVID-19 within the Province of Alberta... **the investigation has confirmed that COVID-19 is present in Alberta**"*

in [CMOH Order 37-2021](#), July 13, 2021, and

"...the investigation has confirmed that COVID-19 is present in Alberta and constitutes a public health emergency as a novel or highly infectious agent that poses a significant risk to public health"

in [CMOH order 06-2021](#), March 11, 2021; [CMOH Order 09-2021](#), April 8, 2021; [CMOH order 34-2021](#), June 30, 2021; [CMOH order 10-2021](#), April 10, 2021.

Kindly advise ASAP how I may go about submitting payment of any required application fee(s).

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Premiere Kenney, Minister Shandro, Dr. Hinshaw or

any of their respective offices/institutions describing the **purification** (i.e. via filtration and ultra-centrifugation) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on millions of sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (i.e. separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format

Electronic files conveyed to me via email, preferably in PDF format; I do not wish for anything to be shipped to me.

Contact Information:

Last name: Massey

First name: Christine

Address:

Phone:

Email: cmssyc@gmail.com

In the event you are unable to provide or cite any such records, or decline to do so, this will further confirm what has already been clear to me for some time: that no past, present or future "COVID-19"-related mandates and restrictions have **any scientific basis** whatsoever, which of course has serious legal implications.

Thank you in advance and best wishes,
Christine Massey, M.Sc.

FOIP request to Alberta re purification of "SARS-COV-2"

Christine Massey <cmssyc@gmail.com>

Tue, Aug 17, 2021 at 10:33 AM

To: Health Info Access <health.infoaccess@gov.ab.ca>

Hello,

With whom am I communicating?

Am I required by the legislation to submit a request to the Dept. of Health through this portal, and am I prohibited by the legislation from using more than 1500 characters for my description of requested records and from using "special characters" and from copying and pasting my description of requested records into the portal?

<https://eservices.alberta.ca/foip-request.html>

The reason I ask is that I have attempted twice now to submit my request through this portal, and was forced to shorten the description of requested records. I refreshed the page, started all over again with a description that is only 1481 characters (including spaces) and I'm still getting this message:

The maximum character limit is 1,500 and you cannot enter any special characters. Do not copy and paste request text in this space.

I do not have time to retype my description into the portal, which seems a bizarre and ridiculous requirement that serves no purpose other than to make things difficult for the requester.

Below is my shortened description that is being rejected by the portal.

All studies and/or reports in possession, custody or control of the Dept describing purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the sample was not 1st combined with any other source of genetic material.

I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- *cultured an unpurified sample, and/or*
- *performed an amplification test on genetic material from an unpurified substance, and/or*
- *fabricated a genome based on sequences detected in an unpurified substance, and/or*
- *produced electron microscopy images of unpurified things.*

I am not requesting records describing the replication of a "virus" without host cells, or private patient info or records that describe a suspected "virus" floating in a vacuum; simply records that describe its purification (i.e. separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

My request includes any study/report matching the above description, i.e: any published peer-reviewed study authored by anyone, anywhere.

If records match the above description & are available in public domain plz provide enough info about each one so that I may identify & access each one with certainty (i.e. title, author(s), date, journal, location. Please provide URLs where possible.

This request has already taken an inordinate amount of time and effort on my part.

Please advise how this request may be submitted to Premiere Kenney, Minister Shandro, Dr. Hinshaw and their respective offices/institutions, with payment, ASAP. This request is an urgent matter of public interest.

Best wishes,
Christine

To: Health Info Access <health.infoaccess@gov.ab.ca>

P.S. The other portal that is linked to the webpage you referred me to requires one to sign up for a "MyAlberta Digital ID", which I do not want. Is a "MyAlberta Digital ID" required by the legislation in order to submit a request to another institution?

https://account.alberta.ca/login?spEntityID=https%3A%2F%2Fportal.foip.alberta.ca%2Fshibboleth&goto=https%3A%2F%2Faccount.alberta.ca%2Fsso%2FSSORedirect%2FmetaAlias%2Fidp3%3FReqID%3D_be0fd50887c4ad07137a66c6b048d832%26index%3Dnull%26acsURL%3Dhttps%253A%252F%252Fportal.foip.alberta.ca%252FShibboleth.sso%252FSAML2%252FPOST%26spEntityID%3Dhttps%253A%252F%252Fportal.foip.alberta.ca%252Fshibboleth%26binding%3Durn%253Aoasis%253Anames%253Atn%253ASAML%253A2.0%253Abindings%253AHTTP-POST

Hello,

This is the Alberta Health FOIP Office. Apologies for not being more clear in the previous email.

The website link that was provided to you is the quickest way to submit your request. On the link that was provided, on the right hand side there is a blue tab that says "begin form".

Click that, and it will bring you the form to fill out your information and request. You shouldn't need a My Alberta Digital ID. After you submit your request it will take you to a secure checkout and you can make payment as a guest instead of using the Digital ID.

For the request text that is over the character count, you can put "Please see my request text submitted to Health.Infoaccess@gov.ab.ca on [DATE] at [TIME]".

Alternatively, you can submit a "request to access information" form (attached) and submit a cheque to our office via mail made payable to the Government of Alberta in the amount of \$25.00 to the address listed in the signature block below.

To submit a request for Dr. Hinshaw, and Minister Shandro that is through our office, Alberta Health Ministry. To submit a request for the Premier's office, you will have to submit your request to Executive Council. Please see the following link:

<https://portal.foip.alberta.ca/citizenportal/app/landing>

I hope this helps, and again, apologies for not providing enough detail in the previous email.

Hello Christine Massey,

Apologies for the delay in processing, we have received your request and have picked up your cheque from the mail. Can we confirm the request text as the following and can you provide a date range in which to search for the records? Once you provide a date range we will send you your file number and details of your request with our office.

"All studies and/or reports in possession, custody or control of the Dept describing purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the sample was not 1st combined with any other source of genetic material.

I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- *cultured an unpurified sample, and/or*
- *performed an amplification test on genetic material from an unpurified substance, and/or*
- *fabricated a genome based on sequences detected in an unpurified substance, and/or*
- *produced electron microscopy images of unpurified things.*

I am not requesting records describing the replication of a "virus" without host cells, or private patient info or records that describe a suspected "virus" floating in a vacuum; simply records that describe its purification (i.e. separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

My request includes any study/report matching the above description, i.e: any published peer-reviewed study authored by anyone, anywhere.

If records match the above description & are available in public domain plz provide enough info about each one so that I may identify & access each one with certainty (i.e. title, author(s), date, journal, location. Please provide URLs where possible. "

Christine Massey <cmssyc@gmail.com>
To: Health Info Access <health.infoaccess@gov.ab.ca>

Mon, Nov 15, 2021 at 3:54 PM

Hello,

Date range: October 1, 2019 - present.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of **Minister Shandro, Dr. Hinshaw or Alberta Health** describing the **purification** of the alleged **“COVID-19 virus”** (aka “SARS-COV-2”, including any alleged “variants”) directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)**.

Clarification of Request:

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- **produced electron microscopy images of unpurified things.**

I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a ‘virus’ without host cells. Nor am I requesting records that describe a strict fulfillment of Koch’s Postulates, or records that describe a suspected “virus” floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Best wishes,
Christine

Dear Christine Massey:

Re: Freedom of Information and Protection of Privacy Act Request

Thank you for your recent request for information submitted to our office on August 13, 2021. We apologize for the delay in responding. Upon further review of your request we have determined that the records you are seeking are held by Alberta Health Services and need to be requested directly from them.

Please visit the link provided below to submit a request for Access to General Information from **Alberta Health Services (AHS)**:

Visit <https://www.albertahealthservices.ca/about/Page13171.aspx>.

To contact Alberta Health Services: **Tel:** 1-877-476-9874; **Fax:** 1-855-935-0646;
Email: privacy@ahs.ca

We have received the cheque you submitted for payment. Please confirm if you would like for us to return the cheque to you or destroy it, because the Government of Alberta cannot accept payments for Alberta Health Services (AHS). As well, we are returning your original documentation as an enclosure.

Sincerely,

Alberta Health FOIP Office

Hello,

With whom am I communicating? Please provide your name, as I require it for my records.

My request is for: "*All studies and/or reports in the possession, custody or control of Minister Shandro, Dr. Hinshaw or Alberta Health*". It has nothing to do with Alberta Health Services.

According to the Ministry's website, it is the **Ministry** that sets policy and direction, not AHS.

And, as stated in my request, it is **Dr. Hinshaw's** name that appears in CMOH orders, claiming to have "*initiated an investigation into the existence of COVID-19 within the Province of Alberta*" and that "*the investigation has confirmed that COVID-19 is present in Alberta*".

Section 10 of the Act states:

"Duty to assist applicants 10(1)

The head of a public body must make every reasonable effort to assist applicants and to respond to each applicant openly, accurately and completely."

Section 12 of the Act states:

"Contents of response 12(1)

In a response under section 11, the applicant must be told

- (a) whether access to the record or part of it is granted or refused,*
- (b) if access to the record or part of it is granted, where, when and how access will be given, and*
- (c) if access to the record or to part of it is refused,*
 - (i) the reasons for the refusal and the provision of this Act on which the refusal is based..."*

I have already waited patiently for **3 months**, and I now require an open, accurate and complete response from Alberta Health that **clearly states** whether or not Alberta Health has any records that match my description, and if so, whether or not access will be provided.

Be advised that all of the communications related to my August 13, 2021 request will be made public within the next few days.

Thank you and best wishes,
Christine

Hello Christine Massey,

Apologies for the confusion below from our office. I would like to confirm that we will be processing your request. As originally worded, your request indicated the information would reside with AHS, however since your amended request text specifically requests records from offices at Alberta Health, we will be processing your request.

I would just like to confirm your request text wording with which to move forward as the following:

"Studies and/or reports in the possession, custody or control of Minister Shandro, Dr. Hinshaw or Alberta Health describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

I am requesting records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

Date range: October 1, 2019-November 22, 2021"

Is this correct? If so, we will begin processing your request and you will receive further communication in regards to your file number and other relevant information for communication with our office.

Thank you,

Jilliane

RE: FOIP Re-Direct to AHS- Correction

Christine Massey <cmssyc@gmail.com>
To: Jilliane Jolin <Jilliane.Jolin@gov.ab.ca>

Fri, Nov 26, 2021 at 12:36 PM

Hello Jilliane,

My original request on August 13 was sent to health.infoaccess@gov.ab.ca over 3 months ago and was for "*All studies and/or reports in the possession, custody or control of Premiere Kenney, Minister Shandro, Dr. Hinshaw or any of their respective offices/institutions*" (see attached).

On Aug 17, someone writing from health.infoaccess@gov.ab.ca stated that "**To submit a request for Dr. Hinshaw, and Minister Shandro that is through our office, Alberta Health Ministry**" and to use a different method for contacting the Premier's office, which I did.

On November 15, I enquired with health.infoaccess@gov.ab.ca as to why the response was taking so long. That same day I was asked by someone from health.infoaccess@gov.ab.ca to **confirm the wording of my request**, which I did, also on that same day (see attached).

I was also asked for a time frame, and I indicated **Date range: October 1, 2019 - present** (see attached).

The next day, someone from health.infoaccess@gov.ab.ca tried to redirect me to AHS, which I explained was inappropriate (see attached).

Why are you now saying that "*As originally worded, your request indicated the information would reside with AHS*"?

Why are you now asking me to confirm the wording and the time frame **again**, when I just did so 11 days ago and have now been waiting for **15 weeks**?

I was told on November 15, after I had already waited for **3 months**:

Apologies for the delay in processing, we have received your request and have picked up your cheque from the mail.

Can we confirm the request text as the following and can you provide a date range in which to search for the records?

Once you provide a date range we will send you your file number and details of your request with our office.

Your office already has the wording of my request, and the time frame October 1, 2019 - present.

Christine

Tue, Nov 30, 2021 at 11:18 AM

Alberta Health received the following request from you on August 17, 2021 to access information under the *Freedom of Information and Protection of Privacy (FOIP) Act*:

Studies and/or reports in the possession, custody or control of Minister Shandro, Dr. Hinshaw or Alberta Health describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

I am requesting records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

Date range: October 1, 2019-November 22, 2021"

We have 30 days under the FOIP Act to respond to your request and will reply to you by **December 30, 2021**, if possible. We will contact you if we require further information.

If you require further clarification, or have any questions concerning this request for information under the FOIP Act, contact Cyd Avendano, FOIP/HIA Advisor, at 780-643-9268 or cyd.avendano@gov.ab.ca.

Kind Regards,

Alberta Health FOIP Office

Alberta Health

Christine Massey <cmssyc@gmail.com>

2021-G-0658 Acknowledgement Letter

Christine Massey <cmssyc@gmail.com>

Tue, Nov 30, 2021 at 1:00 PM

To: Health Info Access <health.infoaccess@gov.ab.ca>, cyd.avendano@gov.ab.ca, Jilliane Jolin <Jilliane.Jolin@gov.ab.ca>

Who sent me this email? Please identify yourself (name and position), if you are someone other than Cyd Avendano, author of the letter you attached.

Please review what you/Cyd have sent me in both the email and letter, and ask yourself if it makes the slightest bit of sense (unless your goal is to stall and obstruct justice even further than your office already has):

*Alberta Health received the following request from you on **August 17, 2021** **We have 30 days** under the FOIP Act to respond to your request and will reply to you by **December 30, 2021**...*

We will contact you if we require further information.

Your office has already taken 3.5 months and I'm still waiting for a response - although the answer is perfectly clear.

Your office has already contacted me **twice** asking me to repeat information I had already provided. I already confirmed the wording and time frame on November 15th. Your office already has all the necessary information.

All of the prior communications are attached, and have been made **public**, and these most recent communications will now be added to the file and also made public.

Best wishes,
Christine

Alberta Health Ministers Office and The Office of the Chief Medical Officer conducted a thorough search for records using the following key words: SARS-COV2, Covid Purification and found no responsive records related to the subject matter you requested.

Under section 65(1) of the Act, you have 60 days from the date of this letter to ask the OIPC to review any matter pertaining to this request. To request a review, provide a completed *Request for Review/Complaint* Form to the following address:

Office of the Information and Privacy Commissioner
410-9925 109 St
Edmonton AB T5K 2J8

This form is available under the Resources tab on the OIPC's website at www.oipc.ab.ca or you can request a copy, and ask any questions about the review process, by calling 1-888-878-4044. When requesting an OIPC review, please provide the following information:

1. the reference number noted at the top of this letter;
2. a copy of this letter; and
3. a copy of your original request for information submitted to Alberta Health.

If you require further clarification, or have any questions concerning this request for information under the FOIP Act, contact Cyd Avendano, FOIP/HIA Advisor, at 780-643-1202 or cyd.avendano@gov.ab.ca.

Sincerely,

Hi Jilliane,

Over 5 months you kept me waiting, only to perform a lame, obviously-inadequate search, as a cover story for the utter lack of proof that "the virus" even exists. You didn't even reference the imaginary virus properly.

These little tricks only reveal the depth of corruption and will **backfire**.

Christine

FOIP request to Premier Kenney & his Office re purification of "SARS-COV-2"

Christine Massey <cmssyc@gmail.com>

Tue, Aug 17, 2021 at 2:21 PM

To: SA FOIP Central Intake <SA.FOIP-CentralIntake@gov.ab.ca>

To:
FOIP Coordinator
Government Services Sector
Service Alberta
7th Floor, Federal Building
9820 - 107 Street
Edmonton, AB
T5K 1E7

Submitted via email to: SA.FOIP-CentralIntake@gov.ab.ca

Dear FOIP Coordinator,

This is a formal request for access to general records, made under Alberta's *Freedom of Information and Protection of Privacy (FOIP) Act*.

I have sent payment of the application fee via mail to the address listed above, by cheque payable to the Government of Alberta.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Premiere Kenney and/or his office/institution describing the **purification** (i.e. via via filtration, ultracentrifugation and chromatography) of any "**COVID-19 virus**" (aka "SARS-COV-2", **including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1"**) directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am **not** requesting studies/reports where researchers **failed to purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on millions of sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (i.e. **separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format

Electronic files conveyed to me via email, preferably in PDF format; I do not wish for anything to be shipped to me.

August 27, 2021

Christine Massey
[REDACTED]

Dear Christine Massey:

Freedom of Information and Protection of Privacy Request

On August 17, 2021, Executive Council received your personal request under the *Freedom of Information and Protection of Privacy Act* (FOIP Act) for a copy of:

All studies and/or reports in the possession, custody or control of Premiere Kenney and/or his office/institution describing the **purification** (i.e. via via filtration, ultracentrifugation and chromatography) of any **"COVID-19 virus"** (aka "SARS-COV-2", **including any alleged "variants"** i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Date Range: not provided.

This request excludes: duplicate records, draft records, email records which are duplicated in the final longest string, records subject to solicitor/client or litigation privilege, records containing third party business information as well as records containing third party personal information.

Your request is too broadly worded and does not provide enough detail to enable Executive Council to identify possible records. Based on the information provided to date, the request does not have sufficient detail to be considered a request under the FOIP Act. We require additional information to enable us to identify the records.

This requirement for additional details is supported by section 7 of the FOIP Act that states:

- 7(1) To obtain access to a record, a person must make a request to the public body that the person believes has custody or control of the record.
- (2) A request must be in writing and must provide enough detail to enable to public body to identify the record.

Executive Council has not opened a file for your request; to proceed with an access request please resubmit your request providing enough detail, such as specific area that would have the records, what type of records, defined subject matter and most likely date range to allow us to search for a record.

The initial fee payment that you provided to us in a cheque will be sent back to you.

If you have any questions, please contact FOIP Coordinator Suzanne Sutherland at Suzanne.Sutherland@gov.ab.ca.

Sincerely,

Sandra L. Boylan
Director of FOIP Services
Government Services Sector

Christine Massey <cmssyc@gmail.com>

FOIP Request - Section 7 Letter

Christine Massey <cmssyc@gmail.com>

Sat, Sep 11, 2021 at 5:02 PM

To: SUZANNE.SUTHERLAND@gov.ab.ca

Cc: Sandra Boylan <sandra.boylan@gov.ab.ca>, EXC FOIP <EXC.FOIP@gov.ab.ca>

Bcc: Patrick King <kingpatrick278@gmail.com>

Dear Ms. Sutherland,

In regards to your letter to me dated August 27, 2021 (attached):

You stated that "*Your request is too broadly worded and does not provide enough detail to enable Executive Council to identify possible records... the request does not have sufficient detail to be considered a request under the FOIP Act. We require additional information...*"

Please note that literally dozens of other Canadian institutions have had no difficulty whatsoever in responding to this same request. And, literally dozens of other institutions outside of Canada have had no difficulty in responding to this same request. Their responses are all publicly available on my website. Your responses will soon be made public here as well:

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

You cited section 7(1) of the Act, stating "*to obtain access to a record, a person must make a request to the public body that the person believes has custody or control of the record*".

Premier Kenney has claimed the existence of a new disease called "COVID-19", allegedly caused by a novel coronavirus. Therefore **I have submitted my request to the public body that I believe has custody or control of the record** (if it exists). No one else on the planet appears to have this record. Therefore I believe that Premier Kenney must have it, if it exists.

You stated "*Executive Council has not opened a file for your request; to proceed with an access request, please resubmit your request providing enough detail, such as a specific area that would have the records...*"

I do not work for the Executive Council and therefore have no idea how the Council's records are organized or what "area" would have the records. **Please cite for me the provision of the Act that requires me to provide this information that I have no way of knowing, and how the public is expected to know, or discover, the "area" of Executive Council that would have specific records.**

You continued: "... what type of records..."

My request reads: "*All studies and/or reports...*" **What further detail do you require from me regarding "what type of records"?**

You continued: "... defined subject matter..."

My request reads:

Description of Requested Records:

*All studies and/or reports in the possession, custody or control of Premiere Kenney and/or his office/institution describing the **purification** (i.e. via filtration, ultracentrifugation and chromatography) of any "**COVID-19 virus**" (aka "SARS-COV-2", **including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1"**) directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic material** (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

Please note that I am **not** requesting studies/reports where researchers **failed to purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on millions of sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (i.e. **separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**.

What further detail do you require from me regarding "defined subject matter"?

You continued: ".most likely date range...".

My request is for records regarding an alleged virus that allegedly was first discovered in January of 2020. **Therefore January 1, 2020 - present would be a rational date range.**

You stated: "the initial fee payment that you provided to us in a cheque will be sent back to you".

Please do not send my cheque back to me. If you do, please cite for me the provision of the Act that allows you to do so.

I am not resubmitting my request.

Kindly advise what further details you require for me, if any.

Best wishes,
Christine Massey, M.Sc.

Peterborough, ON

Dear Christine Massey:

Freedom of Information and Protection of Privacy Request #: EC000-2021-G-102

On September 13, 2021, Executive Council received your request under the *Freedom of Information and Protection of Privacy Act* (FOIP Act) for a copy of:

All studies and/or reports in the possession, custody or control of Premier Kenney and/or his office/institution describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Date Range: January 1, 2020 to present (September 13, 2021).

This request excludes: duplicate records; draft records; email records which are duplicated in the final longest string; records subject to solicitor/client or litigation privilege; records containing third party business information as well as records containing third party personal information.

We will continue to process your request based on the above wording unless you contact us and provide new information.

We have received your payment of the initial \$25.00 fee by Cheque Number 034.

The FOIP Act requires Executive Council to make every reasonable effort to respond to your request not later than 30 days after receiving it unless that time limit is extended under section 14 of the FOIP Act. We will respond on or before October 13, 2021.

If you have any questions, please contact me at Lorna.Bodnar@gov.ab.ca.

All studies and/or reports in the possession, custody or control of Premier Kenney and/or his office/institution describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Date Range: January 1, 2020 to present (September 13, 2021).

This request excludes: duplicate records, draft records, email records which are duplicated in the final longest string, records subject to solicitor/client or litigation privilege, records containing third party business information as well as records containing third party personal information.

A thorough search was conducted by the Premier's Office staff which did not yield any records responsive to your request.

You may ask for a review under Part 5 of the FOIP Act by the Information and Privacy Commissioner (Commissioner). To request a review, you must submit a completed Request for Review form within 60 days from the date of this letter to the Commissioner at Suite 410, 9925 – 109 Street, Edmonton, Alberta, T5K 2J8. The form is available under 'Resources' on the Commissioner's website, www.oipc.ab.ca, or you can call 1-888-878-4044 to request a copy.

Exp. 06/11/2021

MFIPPA request to Chief Zvonko Horvat / Aylmer Police re: "COVID-19 virus" purification

Christine Massey <cmssyc@gmail.com>
To: Chief Zvonko Horvat <zhorvat@aylmerpolice.com>

Fri, Aug 27, 2021 at 8:41 PM

To:

Zvonko Horvat
Aylmer Chief of Police
Aylmer Police Station
20 Beech St. E
Aylmer, ON N5H 3H6

Dear Chief Horvat,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act*.

Please note: this request is very similar to another request that I submitted on May 16, 2021 where I had **specified** purification *via maceration, filtration and use of an ultracentrifuge*. The difference with this new request is that it does **not specify** maceration, filtration and use of an ultracentrifuge; instead it mentions filtration, ultracentrifugation and chromatography by way of an example.

Application Fee

I will mail the \$5 application fee to the address listed above. **Please do not mail my cheque back to me this time. If you have no records, please recall that your 2 options that are in accordance with MFIPPA are to either transfer the request to another institution or state that Aylmer Police Service has no responsive records.** Also, please note that I already have confirmation from Health Canada, Public Health Agency of Canada, Public Health Ontario, the Ontario Ministry of Health, all 5 of the Canadian institutions that have falsely aka fraudulently claimed to have "isolated the virus", and institutions in over 20 countries, that they have no such records.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of yourself, Chief Zvonko Horvat, or Aylmer Police Services describing the **purification** of any **"COVID-19 virus"** (aka **"SARS-COV-2"**, **including any alleged "variants"** i.e. **"B.1.1.7"**, **"B.1.351"**, **"P.1"**) (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was **not** first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is not specifically for records that were authored by yourself or Aylmer Police or that pertain to work done at/by yourself or Aylmer Police. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by yourself or Aylmer Police and relied on as **evidence** of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Ms. Massey,

This letter is in response to your access request under the Municipal Freedom of Information & Protection of Privacy Act received at our office on August 27, 2021.

A search has been conducted and no responsive records were located.

You may request a review of this decision by the Information & Privacy Commissioner, 2 Bloor Street East, Suite 1400, Toronto Ontario, M4W 1A8. Phone number 416-326-3333. There is an appeal fee of \$25.00 for general information or \$10.00 for personal information. Please make your cheque or money order payable to the Minister of Finance. You have 30 days to make this appeal.

I am responsible for this decision. Should you have any questions or concerns, please do not hesitate to contact me via email or 519-773-3146

Sincerely,

Erica Campbell 558

FOI request to Chief Zvonko Horvat / Alymer Police re: "COVID-19 virus" purification

Christine Massey <cmssyc@gmail.com>
To: zhorvat@aylmerpolice.com

Sun, May 16, 2021 at 10:38 AM

May 16, 2021

To:

Zvonko Horvat
Alymer Chief of Police
Alymer Police Station
20 Beech St. E
Aylmer, ON N5H 3H6

Dear Chief Horvat,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act*.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of yourself, Chief Zvonko Horvat, or Alymer Police Services describing the **purification** of any **"COVID-19 virus"** (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" from a patient sample and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere** since December 2019 and relied on by yourself, Chief Zvonko Horvat, as evidence of a disease-causing "virus" circulating in humans and justifying the closure of the Church of God.

Please note that despite the fact that **purification is an essential** (but not sufficient) step in proving the existence of a disease-causing "virus", as of today **58 institutions globally** (including Health Canada and the Public Health Agency of Canada) have all failed to provide or cite any such records, therefore to my knowledge no such records exist and if they do exist I cannot access them until I am provided a citation or URL.

Therefore in the interest of transparency and in accordance with the purposes of *MFIPPA*, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Application Fee

I will mail the \$5 application fee to the address listed above.

FOI request to Chief Zvonko Horvat / Alymer Police re: "COVID-19 virus" purification

Christine Massey <cmssyc@gmail.com>
To: Chief Zvonko Horvat <zhorvat@aylmerpolice.com>

Tue, May 18, 2021 at 11:10 AM

Dear Chief Horvat,

Thank you, I realize this, but I have already FOI'd **20 Canadian institutions** (including 5 that had publicly claimed to have "isolated the virus") and none of them had any record of isolation/purification of this alleged virus from a patient sample by anyone in the world. Their responses are here:

Thus far (May 7, 2021) 20 Canadian institutions have provided their responses: **Public Health Agency of Canada, Health Canada**, the **National Research Council of Canada, Vaccine and Infectious Disease Organization-International Vaccine Centre (VIDO-InterVac)**, **Canadian Institutes of Health Research, Natural Sciences and Engineering Research Council of Canada, Ontario Ministry of Health, Institut National de Sante Publique du Quebec, British Columbia's Provincial Health Services Authority** (2 responses, 1 re "SARS-COV-2, 1 re "the UK variant"), **Vancouver Coastal Health Authority** (re "the UK variant"), **Newfoundland Labrador Department of Health & Community Services, McGill University**, the **City of Toronto**, the **Region of Peel** (Ontario), **KFL&A Public Health** (Kingston, Frontenac, Lennox and Addington, Ontario, re "any variant"), **Grey Bruce Health Services**, the **University of Toronto, Sunnybrook Health Sciences Centre, McMaster University** and **Mount Sinai Hospital** (Toronto) (note that researchers from the last 4 institutions had publicly claimed to have "isolated the virus", as had VIDO-Intervac).

Thirty-eight FOI'd institutions in 14 other countries also all failed to provide or cite any such record.

The typical excuses are that "the virus" is there, but there's too little of it to find, even with an electron microscope! Of course, if they cannot find "the virus" in any patient sample they are only assuming that "it" is there. They say that it's necessary to let "the virus" replicate again, by adding a patient sample to malnourished, poisoned monkey kidney cells that are also contaminated with fetal bovine serum. And when the monkey cells exhibit cytopathic effects, they say that this is proof of "the virus", and they call their man-made concoction "virus isolate".

They also say that viruses can only be found within a cell, which contradicts the claim that "the virus" is transmitted from person to person.

I can tell you with 100% confidence that there is no logical, scientific evidence that this alleged virus actually exists; the tests and diagnoses are 100% fraudulent; people have gotten sick and died as they do every year but not because of a "COVID-19 virus". Hence I am especially concerned about the worldwide harm that is being caused by lockdowns, social distancing, masking, etc.

I'm sorry to bother you, but I do require a proper response to my MFIPPA request. You could either transfer the request to another institution or state that you and Alymer Police Services have no responsive records - I believe those are your only 2 options that are in accordance with MFIPPA.

Thank you and best wishes,

Christine

FOI request to Chief Zvonko Horvat / Alymer Police re: "COVID-19 virus" purification

Christine Massey <cmssyc@gmail.com>

Fri, Jun 4, 2021 at 3:35 PM

To: Chief Zvonko Horvat <zhorvat@aylmerpolice.com>, ecampbell@aylmerpolice.com

Dear Chief Horvat and Ms. Campbell,

Regarding Ms. Campbell's letter to me dated May 26, 2021, which was mailed to my home (see attached) along with my cheque for the *MFIPPA* application fee:

As noted in my last email to Chief Horvat, I do require a proper response to my *MFIPPA* request, and I believe that your only 2 options *that are in accordance with MFIPPA* are to either transfer the request to another institution or state that Aylmer Police Service has no responsive records.

Simply returning an applicant's cheque doesn't appear to be one of your options.

18 ...

Request to be forwarded

(2) The head of an institution that receives a request for access to a record that the institution does not have in its custody or under its control shall make reasonable inquiries to determine whether another institution has custody or control of the record, and, if the head determines that another institution has custody or control of the record, the head shall within fifteen days after the request is received,

(a) forward the request to the other institution; and

(b) give written notice to the person who made the request that it has been forwarded to the other institution.

Notice by head

19 Where a person requests access to a record, the head of the institution to which the request is made or if a request is forwarded or transferred under section 18, the head of the institution to which it is forwarded or transferred, shall, subject to sections 20, 21 and 45, within thirty days after the request is received,

(a) give written notice to the person who made the request as to whether or not access to the record or a part of it will be given; and

(b) if access is to be given, give the person who made the request access to the record or part, and if necessary for the purpose cause the record to be produced. R.S.O. 1990, c. M.56, s. 19; 1996, c. 1, Sched. K, s. 15.

Contents of notice of refusal

22 (1) Notice of refusal to give access to a record or part under section 19 shall set out,

(a) where there is no such record,

(i) that there is no such record, and

(ii) that the person who made the request may appeal to the Commissioner the question of whether such a record exists; or

(b) where there is such a record,

- (i) the specific provision of this Act under which access is refused,*
- (ii) the reason the provision applies to the record,*
- (iii) the name and position of the person responsible for making the decision, and*
- (iv) that the person who made the request may appeal to the Commissioner for a review of the decision. R.S.O. 1990, c. M.56, s. 22 (1).*

Therefore, I will be re-mailing the cheque to you and look forward to your cooperation in this matter.

Best wishes,
Christine

FOI request to Chief and Calgary Police re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: access@calgarypolice.ca

Mon, Sep 27, 2021 at 9:44 PM

September 27, 2021

To:
Calgary Police Service Access & Privacy Section
Mail Code 640
5111 – 47 St, N.E.
Calgary, AB T3J 3R2
Submitted via email to: access@calgarypolice.ca.

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Freedom of Information and Protection of Privacy Act* due to enforcement by members of Calgary Police Service of unlawful, fraud-based "COVID-19" restrictions.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Chief Mark Neufeld or Calgary Police Service describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere**.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Application Fee:

I will submit a cheque for \$25 by mail, payable to the Calgary Police Service.

Christine Massey

Peterborough, Ontario

Dear Ms. Massey:

Re: *Freedom of Information and Protection of Privacy Act*
Access Request Number: 21-G-2669

The Calgary Police Service Access and Privacy Section received your request for:

All studies and/or reports in the possession, custody or control of Chief Mark Neufeld or Calgary Police Service describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

The Calgary Police Service does not conduct studies or research on this topic as we are a police service and this is a request for medical information. As such, we are returning your general access fee and recommend that you contact Alberta Health Services instead, who may be able to assist you.

If you feel that your request has not been answered completely or if you require further clarification, please contact me.

If you disagree with our response, section 65 of the *Freedom of Information and Protection of Privacy Act* provides that you may ask the Information and Privacy Commissioner to review this decision. You can request a review by writing to the Commissioner at 410, 9925 – 109 Street, Edmonton, Alberta, T5K 2J8.

If you wish to request a review, please provide the Office of the Information and Privacy Commissioner with the following information:

1. The reference number.

2. A copy of this letter.
3. A copy of your original request for information that you sent to Calgary Police Service.
4. A completed *Request for Review Form*, available on the website of the Office of the Information and Privacy Commissioner.

You have 60 days to request a review.

Sincerely,

Sabrina Attwood | Disclosure Analyst | Access and Privacy Section #640
Calgary Police Service | 5111 47 ST NE, Calgary, AB T3J 3R2
T: 403.428.8484 | F: 403.216.5321 | calgarypolice.ca

Submitted via email c/o: access@calgarypolice.ca.

Dear Sabrina,

Regarding your letter to me dated October 7, 2021 (Subject line: ... **Access Request Number 21-G-2669**):**You stated: "... this is a request for medical information."**

That is incorrect. Laboratory purification of very small things in the size range of alleged viruses has nothing to do with the practice of medicine but rather chemistry. Regardless, purification is an essential (but not sufficient) investigative step that is required in order to know that a "virus" actually exists.

Calgary Police have enforced the so-called "emergency legislation" and thus ought to have such records on hand. (Recall that my request was not limited to records **authored** by Calgary Police.)

You stated: "we are returning your general access fee..."

Returning my cheque and refusing to complete my request is not an option that is in accordance with the legislation. Section 12(1) of the **Act** states:

Contents of response 12(1)*In a response under section 11, the applicant must be told:*

- (a) whether access to the record or part of it is granted or refused,*
- (b) if access to the record or part of it is granted, where, when and how access will be given, and*
- (c) if access to the record or to part of it is refused,*
 - (i) the reasons for the refusal and the provision of this Act on which the refusal is based,*
 - (ii) the name, title, business address and business telephone number of an officer or employee of the public body who can answer the applicant's questions about the refusal, and*
 - (iii) that the applicant may ask for a review of that decision by the Commissioner or an adjudicator, as the case may be.*

I require a clear response that is in accordance with the legislation.**You stated: "we... recommend that you contact Alberta Health Services instead."**

Thank you, however I still require a clear response regarding records that are in the possession/custody/control of Calgary Police.

Please note: I and many others have already submitted requests to the Alberta Ministry of Health and over 100 other health and science institutions globally, over 30 of them in Canada (including the 5 Canadian institutions that had publicly claimed to have "isolated the virus"). Every institution thus far has failed to provide or cite even 1 record of the alleged virus having been purified from even 1 patient sample, by anyone, anywhere on the planet. All of the responses are publically available on my website:

FOIs reveal that health/science institutions around the world (116 and counting!) have no record of SARS-COV-2 isolation/purification, anywhere, ever.

Please advise how you intend to remedy having interfered with my request by mailing the application fee back to me.

Thank you and best wishes,
Christine

Access Request 21-G-2669 Response

Calgary Police Service - Access & Privacy <access@calgarypolice.ca>
To: Christine Massey <cmssyc@gmail.com>

Tue, Oct 26, 2021 at 5:19 PM

Good afternoon Ms. Massey:

RE: Access Request 21-G-2669

Thank you for your e-mail dated October 14, 2021, regarding our returning of your general access fee and your request for information regarding records “describing the purification of the alleged Covid-19 Virus”.

Section 12(1) of the *Freedom of Information and Protection of Privacy Act* references how we are to respond to an access request that we have accepted. As mentioned in your letter, you clarified that this was not a request for medical information but rather “laboratory purification” which has to do with chemistry. The Calgary Police Service does not collect records regarding purification of viruses.

You indicated in your e-mail “*Calgary Police have enforced the so-called “emergency legislation” and thus ought to have such records on hand.*” CPS is a law enforcement organization whose role is to enforce legislation. We do not collect or review information with regards to whether a legislation should or should not be enacted - that is the role of law makers. Once a law is enacted, CPS has a duty to enforce that law. As such, we do not have these types of records within our custody and control.

As per section 6(1) of FOIP, an applicant has a right of access to any record in the custody or control of a public body. Since these records are not in the custody or control of the Calgary Police Service, we have returned your application fee as this is not a request for information that the Calgary Police Service has. It is not the practice of the Calgary Police Service to accept the fee for records that are not in our custody or control. Normally, when a request for records is received that does not pertain to Calgary Police Service records, we would transfer the request under section 15(1) to the appropriate public body. In this case, we could not determine which public body would be most appropriate, which is why we advised contacting Alberta Health Services directly.

As per the letter mailed to you on October 7, 2021, please contact the Office of the Information and Privacy Commissioner to request a review if you are dissatisfied with our response.

Sincerely,

Sabrina Attwood | Disclosure Analyst | Access and Privacy Section #640

FOI request to Durham Region Health Dept. re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: foj@durham.ca

Fri, Aug 6, 2021 at 6:07 PM

August 6, 2021

To:
The Regional Municipality of Durham
Access and Privacy Office
Legislative Services Division
605 Rossland Road East, Level 1, P.O. Box 623
Whitby, ON L1N 6A3

Dear Regional Clerk,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act*.

I have already submitted payment of the \$5 application fee via email transfer to payments@durham.ca.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of the Region of Durham Public Health Department describing the **purification** (i.e. via filtration and ultra-centrifugation) of any "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is **not limited** to records that were authored by your institution or that pertain to work done at/by your institution. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by your institution.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Electronic (i.e. pdf) documents sent to me via email; I do not wish for anything to be shipped to me.

Hi Christine,

This email is to acknowledge receipt of your access request submitted August 6, 2021, and your \$5 e-transfer payment. We have assigned your request as file number 2021-171.

The Access and Privacy Office will respond to your request according to the provisions of the

Municipal Freedom of Information and Protection of Privacy Act. If records are retrieved in response to your request, our office will deliver the records to you in an electronic format.

If you have any questions or would like to communicate with someone about your access request, please e-mail the Access and Privacy Office at foi@durham.ca or by phone at (905) 668-7711, ext. 2741.

Have a great day,

Access Request – Decision Letter
Request Number: 2021-171

I am writing regarding your access request made under the *Municipal Freedom of Information and Protection of Privacy Act* (hereafter, 'the Act'), received in full by our office on August 9, 2021.

The Region of Durham undertook all reasonable searches in relation to the information you requested and found no records pertaining to your request.

I am the person responsible for the decision with respect to your request. You may request the Information and Privacy Commissioner (IPC) to review this decision within thirty days from the date of this letter. The IPC's address is Suite 1400, 2 Bloor Street East, Toronto, Ontario, M4W 1A8. The appeal fee is \$25.00 payable by cheque or money order to the Minister of Finance and must be included with your correspondence.

This completes our processing of your request. Should you have any questions, please contact the Access and Privacy Office at (905) 668-7711, ext. 2741 or at foi@durham.ca. We would appreciate you using the above listed access request number in any future correspondence.

FOI request to Grey Bruce Health Services re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com> Wed, Apr 7, 12:01 PM

to FIPPA

April 7, 2021

To:
Grey Bruce Health Services
1800 8th Street East
Owen Sound, Ontario
N4K 6M9

Submitted via email to: FIPPA@gbhs.on.ca

Dear Freedom of Information Officer,

This is a formal request for access to general records, made under the *Freedom of Information and Protection of Privacy Act*.

Since [your FOI webpage](#) does not provide any special instructions on how to submit the \$5 application fee during the "pandemic", I will mail a cheque to the address listed there.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Grey Bruce Health Services describing the **purification** of any "**SARS-COV-2**" aka "COVID-19 virus" (including any "variants") (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or

- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

Clarifications re my request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other small things).

Please also note that my request is **not limited** to records that were authored by Grey Bruce Health Services or that pertain to work done at/by Grey Bruce Health Services. Rather, my request includes any record matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by Administration or Staff at Grey Bruce Health Services and relied on as evidence of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Christine Massey
[REDACTED]

Dear Christine Massey:

This letter is in response to your recent Freedom of Information request.

You requested the information below (insert below is from your written request) within Grey Bruce Health Services

"All studies and/or reports in the possession, custody or control of Grey Bruce Health Services describing the purification of any "SARS-COV-2" aka "COVID-19 virus" (including any "variants") (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- **cultured an unpurified sample or other unpurified substance, and/or**
- **performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or**
- **sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or**
- **produced electron microscopy images of unpurified things."**

We investigated whether anyone in our hospital had conducted research in the areas that you described in your request, or performed any of the procedures and processes that you described. We have concluded that Grey Bruce Health Services has not conducted any research in these areas, and we have not produced any of the studies or reports that you have requested.

If you have any questions or require further assistance, please do not hesitate to contact me.

Sincerely,

Julie Frazer, Manager Health Information & Privacy Officer

Dear Mr. Frazer,

Thank you for your letter dated April 15, 2021 in response to my FIPPA request shown below.

Your response requires some clarification. You've stated that "*we have not produced any of the studies or reports that you have requested*". However my request explicitly stated:

*Please also note that my request is **not limited** to records that were authored by Grey Bruce Health Services or that pertain to work done at/by Grey Bruce Health Services. Rather, my request includes any record matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by Administration or Staff at Grey Bruce Health Services and relied on as evidence of a disease-causing "virus".*

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Does Grey Bruce Health Services have any responsive records, and if not would you please provide a revised letter that states this explicitly in accordance with the Act?

Thank you and best wishes,
Christine

Dear Christine Massey:

This letter is in response to your recent email dated Tuesday April 20, 2021 message. Thank you for your requested clarification. We have consulted all areas of the hospital that would be engaged in this type of activity and confirmed with them that Grey Bruce Health Services has not downloaded or printed any of the types of records that you've described, authored by anyone, or anywhere, and has not relied on them as evidence of a disease-causing "virus".

If you have any questions or require further assistance, please do not hesitate to contact me.

Sincerely,

David Merkle, Chief Privacy Officer

FOI request to Grey Bruce Health Services re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>

Fri, May 7, 2021 at 1:40 PM

To: dmerkley@gbhs.on.ca

Cc: jfrazer@gbhs.on.ca

Dear Mr. Merkley,

Thank you for your clarification letter dated May 4, 2021 in response to my *FIPPA* request re "SARS-COV-2" purification.

Your clarification requires further clarification. You stated that "*Grey Bruce Health Services has not downloaded or printed any of the types of records you've described.....*". However my request explicitly stated:

*Please also note that my request is **not limited** to records that were authored by Grey Bruce Health Services or that pertain to work done at/by Grey Bruce Health Services. Rather, my request includes **any record matching the above description, for example (but not limited to)** any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by Administration or Staff at Grey Bruce Health Services and relied on as evidence of a disease-causing "virus".*

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Does Grey Bruce Health Services have *any* responsive records, and would you please provide a revised letter that states this explicitly in accordance with section 29 (1) of the Act?

Contents of notice of refusal

29 (1) Notice of refusal to give access to a record or a part thereof under section 26 shall set out,

(a) where there is no such record,

- (i) that there is no such record, and
- (ii) that the person who made the request may appeal to the Commissioner the question of whether such a record exists; or

(b) where there is such a record,

- (i) the specific provision of this Act under which access is refused,
- (ii) the reason the provision applies to the record,
- (iii) the name and position of the person responsible for making the decision, and
- (iv) that the person who made the request may appeal to the Commissioner for a review of the decision. R.S.O. 1990, c. F.31, s. 29 (1).

Thank you and best wishes,
Christine

VIA EMAIL TO:

RE: Freedom of Information Request #47-21 - Decision

Dear Sir,

Thank you for your access request and accompanying \$5.00 application fee under the *Municipal Freedom of Information and Protection of Privacy Act* (MFIPPA), which I received on September 17, 2021. You are asking for all records describing the isolation of a SARS-COV-2 virus, directly from a sample taken for a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells). You have further indicated that you are not requesting records where isolation of SARS-COV-2 refers to the culturing of something, or the performance of an amplification test (i.e. a PCR test), or the sequencing of something.

The laboratory test results of residents of Halton Region that have tested positive for SARS-COV-2 have been provided to our Health Department by Public Health Ontario (who is responsible for COVID-19 testing). Although these records describe the testing method used for the SARS-COV-2 virus, according to our Health Department's Director of Infectious Diseases Control all records of positive COVID-19 test results received from Public Health Ontario indicate that patient samples submitted for COVID-19 testing were analysed by means of a PCR test. As such, we have not located any records that are responsive to your request.

Since the testing for COVID-19 is completed by Public Health Ontario, Laboratory Services, you may wish to review the details of PCR testing for COVID-19 on their website at the following web address: <https://www.publichealthontario.ca/en/laboratory-services/test-information-index/covid-19>.

If you would like to receive a formal response from Public Health Ontario as well in respect of your access request, let us know, and we can forward your request to them for handling through their own freedom of information process.

I am responsible for this access decision. Do contact me if you have questions. You may request a review of this decision by the Information and Privacy Commissioner (IPC). The IPC can be reached at: 2 Bloor Street East, Suite 1400, Toronto, ON, M4W 1A8, 1-800-387-0073, www.ipc.on.ca. Please note that you have 30 days from the receipt of this letter to request a review.

Regional Municipality of Halton

HEAD OFFICE: 1151 Bronte Rd, Oakville, ON L6M 3L1

905-825-6000 | Toll free: 1-866-442-5866

In the event you launch an appeal you must provide the IPC with a copy of this decision as well as a copy of your original request for information. Also, an appeal fee applies. For personal information requests, the appeal fee is \$10.00. For all other requests, the appeal fee is \$25.00. You should include the fee, in the form of a cheque or money order made payable to the Minister of Finance with your appeal documentation.

Sincerely,

DocuSigned by:

September 11, 2021

To:
Freedom of Information
Hamilton Police Service
155 King William St.
Hamilton, ON L8R 1A7

Submitted via email, c/o info@hamiltonpolice.on.ca

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act* due to enforcement by members of Hamilton Police Service of unlawful, fraud-based "COVID-19" restrictions.

Please note:

1. Your website states: *"Applicants must also include a photocopy of two pieces of government-issued photo identification with your request."*

I have made many FOI requests under MFIPPA in recent years, including in recent weeks and months, and have never been advised that I must submit copies of any identification whatsoever. Nor am I aware of any provision in MFIPPA that authorizes an institution to require submission of copies of identification.

Therefore, I will only provide you with copies of my identification if you cite for me a new provision in the Municipal Freedom of Information and Protection of Privacy Act that authorizes you to require such.

2. Your website also states that *"Requests must be made in writing by completing the Municipal Freedom of Information and Protection of Privacy Act form and mailing it... requests will not be accepted or fulfilled online"*.

Section 17 (1) of the Act requires a person seeking access to a record to make their request in writing, but not to submit it through the mail.

I am unaware of any provision in MFIPPA that authorizes an institution to require applicants to submit their requests specifically through the mail, and I have successfully submitted literally dozens of MFIPPA requests via email over the years, and in recent months.

Therefore, I will submit my application through the mail, if you cite for me the new provision in the Municipal Freedom of Information and Protection of Privacy Act that authorizes you to require me to.

3. Further, I notice that Hamilton Police Service's Access/Correction Request form (attached) asks for personal information that is inappropriate and unnecessary for a general records request (gender, date of birth). On page 2, the form specifically asks *"Did you... Fill in your date of birth?"*

I will not be providing you my gender or my date of birth, and am curious as to why Hamilton Police Service claims to require such information from someone requesting access to records.

4. Regarding this statement of page 2 of your form: *"Once the application is received, you will hear from the F.O.I. Branch within 30 days or up to 90 days in circumstances where we are required to contact other individuals."*

Sections 19 and 20 of the Act require an institution to make contact within 30 days.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Chief Frank Bergen or Hamilton Police Service describing the **purification** of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic material** (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance; and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance; and/or
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance; and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is **not** specifically for records that were authored by Chief Frank Bergen or Hamilton Police Service, or that pertain to work done at/by Chief Bergen or Hamilton Police Services. Rather, my request includes any record matching the above description, for example (but not limited to): any published study or report authored by anyone, anywhere.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

REQUEST FOR: <input type="checkbox"/> ACCESS TO OWN PERSONAL INFORMATION <input type="checkbox"/> ACCESS TO GENERAL RECORDS <input type="checkbox"/> CORRECTION OF OWN PERSONAL INFORMATION	NAME OF INSTITUTION REQUEST MADE TO: HAMILTON POLICE SERVICE EACH SEPARATE REQUEST MUST BE ACCOMPANIED BY THE \$5.00 APPLICATION FEE: CASH, DEBIT, M/C, VISA AND MONEY ORDERS SHOULD BE MADE PAYABLE TO THE HAMILTON POLICE SERVICE
---	---

LAST NAME APPEARING ON RECORDS <input type="checkbox"/> SAME AS BELOW	
--	--

DETAILS

LAST NAME	FIRST NAME	MIDDLE NAME	GENDER	DATE OF BIRTH
ADDRESS (NUMBER)	STREET	APT./UNIT	MUNICIPALITY	
PROVINCE	POSTAL CODE	AREA	TELEPHONE (DAYS)	AREA TELEPHONE (NIGHTS)

PROVIDE A DETAILED DESCRIPTION OF THE RECORD(S) YOU ARE REQUESTING, INCLUDING: DATES, TYPES OF INCIDENT, LOCATION, INCIDENT NUMBER, NAMES OF INDIVIDUALS INVOLVED, OFFICER'S NAME AND BADGE NUMBER.

NOTE: IF YOU ARE REQUESTING A CORRECTION OF PERSONAL INFORMATION, PLEASE INDICATE THE DESIRED CORRECTION AND, IF APPROPRIATE, ATTACH ANY SUPPORTING DOCUMENTATION.

SIGNATURE	Y Y M M D D
-----------	-------------

FOR OFFICE USE ONLY

IDENTIFICATION VERIFIED BY:	EMPLOYEE #	DATE RECEIVED
REQUEST NUMBER	COMMENTS	

HOW TO FILL OUT THE F.O.I. APPLICATION FORM (Access / Correction Request)

Did you...

* Fill in your date of birth?

* Fill in your full name, address and telephone number?

* Did you clearly describe what you are asking for?

You must be specific and tell us what you want. Do you want a copy of a report? If so, write it down, don't just describe an incident. List all particulars, i.e. date, time, occurrence number, officer's name & badge number, name of other individuals involved, etc.

* Did you read the section starting with "Note"? And did you answer the questions?

* Sign the form.

* Pay your \$5.00 application fee for each request?

Remember, incomplete details on the form or insufficient funds will delay the processing of your request.

Once the application is received, you will hear from the F.O.I. Branch within 30 days or up to 90 days in circumstances where we are required to contact other individuals. Personal information must be picked up at Central Police Station, with proper identification. A further fee may apply at this time. This time frame is legislated by the **Municipal Freedom of Information and Protection of Privacy Act**.

FOR OFFICE USE ONLY:

This form is not intended for use by lawyers or insurance companies. For lawyers or insurance companies, the following is required:

1. cover letter
2. consent (same as used by MVC Clerk)
3. fee

Tue, Sep 14, 2021 at 8:39 AM

Good Morning Christine,

Through Freedom of Information you can make a request to obtain a police report. The application fee is \$5.00, the Request form is attached and our process takes up to 30 days. Please make cheque/money order payable to Hamilton Police Service or some people just include a \$5.00 bill. If you would prefer to pay by credit card please indicate that on the form. Someone will call you to obtain your credit card information once we receive your request in the mail.

Please mail the completed Request form, \$4.00 application fee and as you are making a general request for information, you do not need to provide 2 pieces of ID. As your email stated that you have made previous FOI request I am sure that you are aware of the additional fees for search and preparation of the records that may apply.

Hamilton Police Service
155 King William St.
Hamilton, ON L8R 1A7
Attention: Freedom of Information

Examples of acceptable forms of identification - driver's licence, birth certificate, passport, permanent resident card, work ID, piece of government mail.

Thank you,

----- Original Message -----

Good morning,

This was received in the Internet Inquiries Mailbox for your review. Outside of their complaint about the FOI process, they are wanting documents held by Chief Bergen regarding the COVID-19 virus.

They also sent an email immediately after this advising that they would be sending \$5 via mail. I will forward you it as well.

Respectfully,
Scott

Tue, Sep 14, 2021 at 8:39 AM

Good Morning Christine,

My apologies, I am resending this email as I noticed a typo in the second paragraph, I accidentally had \$4.00 and the application fee is \$5.00 as I am sure you are aware of that from filing previous FOI request. Once again as this is a general request for records you do not need to provide your gender or date of birth. This form is a generic form that is used for both personal or general request and correction of information if needed.

Our process is to submit your request by mail or in person. However, at this time all Hamilton Police Stations are for emergency access only at this time, which is also listed on our Hamilton Police Service website.

Through Freedom of Information you can make a request to obtain a police report. The application fee is \$5.00, the Request form is attached and our process takes up to 30 days. Please make cheque/money order payable to Hamilton Police Service or some people just include a \$5.00 bill. If you would prefer to pay by credit card please indicate that on the form. Someone will call you to obtain your credit card information once we receive your request in the mail.

Please mail the completed Request form, \$5.00 application fee and as you are making a general request for information, you do not need to provide 2 pieces of ID. As your email stated that you have made previous FOI request I am sure that you are aware of the additional fees for search and preparation of the records that may apply.

HAMILTON POLICE SERVICE

155 King William Street, Hamilton, Ontario Canada L8R 1A7 | P 905.546.4925 | F 905.546.3892

File: 21-0773

October 19, 2021

Christine Massey

Peterborough, ON

I am responding to your request for *general* information pursuant to the Municipal Freedom of Information and Protection of Privacy Act, our file #21-0773.

You are being notified that a records search was conducted for *"All studies and/or reports in their possession, custody or control of Chief Frank Bergen or Hamilton Police Service describing the purification of an "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

Please be advised that based on the parameters of your request and after consultation with the relevant stakeholders, the Hamilton Police Service is unable to locate any responsive records to your request.

I am responsible for this decision. If you have any questions, please contact this office at 905-546-4727.

You may appeal this decision within 30 days by writing: The Information and Privacy Commissioner/Ontario, 2 Bloor St. E., Suite 1400, Toronto, ON M4W 1A8. Their telephone number is 416-326-3333 or 1-800-387-0073.

If you decide to appeal this decision, please provide The Information and Privacy Commissioner/Ontario with the following:

- the file number listed at the beginning of this letter
- a copy of this decision letter
- a copy of the original request for information you sent to our institution
- the reasons why you believe the records exist (if the decision was that no records exist)

In addition, you must send an appeal fee to The Information and Privacy Commissioner/Ontario. The appeal fee for a Personal request for information is \$10.00 (\$25.00 for a General request). Please include the fee in your letter of appeal. Appeal fees should be in the form of either a cheque or money order, payable to the Minister of Finance.

Sincerely,

PC Dana Barron #220

Submitted via email to: info@hpeph.ca, poglaza@hpeph.ca

Dear Dr. Piotr Oglaza,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act*.

I did not find information on your website re how to submit the \$5 application fee during the "pandemic". Please advise ASAP, otherwise I will mail a cheque payable to Hastings Prince Edward Public Health, to the address listed above.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of yourself or Hastings Prince Edward Public Health describing the **purification** of any "**SARS-COV-2**" aka "COVID-19 virus" (including any "variants") (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

Clarifications re my request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other small things).

Please also note that my request is **not for private patient information and not limited** to records that were authored by yourself or Hastings Prince Edward Public Health or that pertain to work done at/by Hastings Prince Edward Public Health. Rather, my request includes any record **matching the above description**, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by yourself and relied on as evidence of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Dear Ms. Massey:

Re: Information Inquiry Submitted on April 29, 2021

I am unable to provide a response to your inquiry as we are not in possession of the information you have requested. You may wish to contact the Public Health Lab of Ontario to inquire whether they can provide you with the information you are seeking.

I apologize for the significant delay in responding to this request. As you can imagine, there are significant competing pressures on staff time as we work to respond to numerous inquiries from the public, deliver vaccine clinics throughout the community, continue to manage cases and contacts, and deliver regular public health programs. Your patience is appreciated.

Sincerely,

Piotr Oglaza, MD, CPHI(C), CCFP, MPH, FRCPC

A-2020-000208/BH

All records describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

To clarify, I am requesting all such records that are in the possession, custody or control of Health Canada (for example:downloaded to a computer, printed in hard copy, etc.).

Good morning Christine,

I have tried to call you under the number you provided: (905) 230-4155 but this number does not appear to be in service.

Health Canada has no records for your request; however, PHAC may have. With your permission we would close this present file as abandoned, and open a new one under PHAC at no cost to you. Please let me know as quickly as possible if that is o.k. with you. Below is the comment that our OPIs from HC gave us:

A search of emails, electronic databases and files as well as hard copy materials uncovered no documentation describing the isolation of SARS-COV-2 viruses from patient derived samples. Health Canada is responsible for authorization of health products for use on the Canadian market and in clinical trials. This type of information would not typically be evaluated by Health Canada as part of the authorization of these activities. In addition, Health Canada does not work directly with patient samples or SARS-COV-2 virus as this would require Level 3 containment facilities which are not housed at Health Canada. Information on virus isolation would be best obtained from the Public Health Agency of Canada or the National Research Council.

Kind regards

Barbara Haase

To: "Haase, Barbara (HC/SC)" <barbara.haase@canada.ca>, atip-aiprp@hc-sc.gc.ca

Dear Access to Information and Privacy Coordinator and Ms. Haase,

Thank you for the email and information from Ms. Haase.

My apologies - my phone number has changed to [REDACTED]

Since Health Canada plays a key role in COVID-19 activities and products (i.e. approving "37 clinical trials for potential COVID-19 therapies and vaccines" and authorizing dozens of test kits), and the legitimacy of those activities and products hinge very much on evidence and details regarding the existence of "SARS-COV-2", I do not wish for you to close this present file. I am not abandoning my request.

Please recall the postscript that I submitted along with my records request, and note that my request is not limited to records that were authored by Health Canada or pertain to work done by Health Canada. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that Health Canada has downloaded or printed.

Christine Massey <cmssyc@gmail.com>

Hello again,

We were offering to open a file under PHAC, as we were told by our subject matter experts that they have no documents, but that PHAC may have documents. We proposed to close this present file as ABANDONED and open instead a file with PHAC at no cost to you.

I will return to our experts and ask again that they do another search.

Please clarify what you mean as subtext: The highlighted text below is part of your request. I have repeatedly tried to call you at your new number but have not left a message.

Thank you

Dear Ms. Haase,

Thank you for your quick response.

I prefer that all my official communications with government agencies be in writing.

I would appreciate it if you could open a file with PHAC (and/or NRC) at no cost to me, **but I don't want the present file/request with Health Canada closed**. If need be, I will submit additional requests to PHAC and NRC.

I'm not sure what you mean by "*Please clarify what you mean as subtext: The highlighted text below...*". I don't see anything highlighted.

Thank you in advance and best wishes,

Christine Massey, M.Sc.

Dear Ms. Massey,

Our OPI had come back to state that they have no records. That is why we offered to you to open a new request with PHAC and proposed that you abandoned this present one because the OPI had no records.

I have just gone back to the subject matter expert (OPI) and requested a **second search**. I will get back to you as soon as I have an answer. I have pointed out to the OPI the last sentence of your request which I have highlighted below in your earlier email (see below)

.

Please note that your complete request text is as follows (below) and was as such forwarded to our OPI. If there is anything missing that you have provided to us and we have not added into the text, please let me know.

All records describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- **the culturing of something, or**
- **the performance of an amplification test (i.e. a PCR test), or**
- **the sequencing of something.**

To clarify, I am requesting all such records that are in the possession, custody or control of Health Canada (for example: downloaded to a computer, printed in hard copy, etc.).

Thank you

Dear Access to Information and Privacy Coordinator and Ms. Haase,

I do not want the public record to indicate that I abandoned my request, because I have not abandoned it.

I did not request 2 searches. If a 2nd search is deemed necessary by Health Canada in order to sufficiently respond to my 1 request that was perfectly clear from the beginning, then so be it.

My request included the following (which was not included in Ms. Haase's last email):

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

I look forward to Health Canada's final response in this matter.

Thank you,

Good afternoon,

You will soon receive a final *no records* response from Health Canada.

Please note that Health Canada's role is not to do pure scientific research and discovery. It is to review evidence provided by sponsors in order to make regulatory decisions to approve products and authorize clinical trials. You may wish to contact the sponsors of clinical trials and/or companies in order to get the information you seek.

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All records describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- **the culturing of something, or**
- **the performance of an amplification test (i.e. a PCR test), or**
- **the sequencing of something.**

To clarify, I am requesting all such records that are in the possession, custody or control of Health Canada (for example:downloaded to a computer, printed in hard copy, etc.).

Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request.

Should you have any questions or concerns about the processing of your request, please do not hesitate to contact Barbara Haase, the analyst responsible for this file, either by phone at 613-859-9073, by email at barbara.haase@canada.ca or by fax at 613-941-4541, with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitted-complaint> or by mail to:

Office of the Information Commissioner of Canada
30 Victoria Street
Gatineau, Quebec K1A 1H3

MFIPPA request to KFL&A PH re "SARS-COV-2" isolation

Christine Massey <cms5yc@gmail.com>
To: kieran.moore@kflaph.ca, denisdoyle@kos.net

Sun, Jan 31, 2021 at 3:15

January 31, 2021

To:
Dr. Kieran Moore
KFL&A Public Health
221 Portsmouth Avenue
Kingston, ON
K7M 1V5
kieran.moore@kflaph.ca

Dear Dr. Moore and and Mayor Doyle,

This is an **email follow-up** of a formal request for access to general records that I just submitted via your online portal (as shown in the attached screenshot), made under the *Municipal Freedom of Information and Protection of Privacy Act*, 1990.

Please advise how I may submit the \$5 application fee, as the online portal provided no payment options.

Description of Requested Records:

All records in the possession, custody or control of Dr. Kieran Moore or KFL&A Public Health describing the isolation of **any variant** ("new" or "old") of the alleged "SARS-COV-2" / "COVID-19 virus" (including the alleged "B.1.1.7" variant) alleged to have been detected in KFL&A), directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells or fetal bovine serum).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, and/or
- the performance of an amplification test (i.e. a PCR test), and/or
- the sequencing of something.

Please also note that my request is **not limited** to records that were authored by Dr. Kieran Moore or KFL&A Public Health or that pertain to work done by Dr. Kieran Moore or KFL&A Public Health. Rather, my request includes any record matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere, ever** that Dr. Kieran Moore or KFL&A Public Health has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

to CMSSYC@gmail.com

February 12, 2021

Request Number (M001-21)

Christine Massey

[REDACTED]

[REDACTED]

Dear Christine Massey,

This letter is written in response to your request under the *Municipal Freedom of Information and Protection of Privacy Act* (the Act) for access to general records in the possession, custody or control of Dr. Kieran Moore describing the isolation of any variant of the alleged SARS-COV-2 directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material.

This request is denied in its entirety pursuant to personal privacy section 14 (1) of the Act.

A head shall refuse to disclose personal information to any person other than the individual to whom the information relates.

You may request that this decision be reviewed by the Information and Privacy Commissioner. The Commissioner can be reached at:

2 Bloor Street East

Suite 1400 Toronto, Ontario M4W 1A8

1-800-387-0073

Request for General Records from KFL&A Public Health

Christine Massey <cmssyc@gmail.com>

Fri, Feb 19, 2021 at 3:24 PM

To: "Taggart, Suzette" <Suzette.Taggart@kflaph.ca>, kieran.moore@kflaph.ca, denisdoyle@kos.net

Dear Ms. Taggart, Dr. Moore and Mayor Doyle,

Thank you for your response, however **my request (attached) is not for personal information.**

I explicitly stated in my follow up email to Mayor Doyle and Dr. Moore that my request is for **general records.**

I would be very surprised if a description of methodology used to (allegedly) "*isolate SARS-COV-2*" is entered into any patient record, anywhere. One would expect such a description to be found in a scientific study, or perhaps a government report.

Further, I explicitly stated the following in my request:

*...my request includes any record matching the above description, **for example (but not limited to) any published peer-reviewed study** authored by anyone, anywhere, ever that Dr. Kieran Moore or KFL&A Public Health has downloaded or printed.*

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

It's unclear to me how anyone could interpret such a request as a request for personal information.

Regardless, 14 (1) of the Act does not apply to my request.

Note that we now have formal responses to the same records request from 17 other Canadian institutions (yielding in total zero responsive records). I don't recall any other institution interpreting the request as a request for personal information:

[Public Health Agency of Canada](#), [Health Canada](#), the [National Research Council of Canada](#), [Vaccine and Infectious Disease Organization-International Vaccine Centre \(VIDO-InterVac\)](#), [Canadian Institutes of Health Research](#), [Natural Sciences and Engineering Research Council of Canada](#), [Ontario Ministry of Health](#), [Institut National de Sante Publique du Quebec](#), [British Columbia's Provincial Health Services Authority](#), [Newfoundland Labrador Department of Health & Community Services](#), [McGill University](#), the [City of Toronto](#), the [Region of Peel](#) (Ontario), the [University of Toronto](#), [Sunnybrook Health Sciences Centre](#), [McMaster University](#) and [Mount Sinai Hospital](#) (Toronto) (note that researchers from the last 4 institutions had publicly claimed to have "isolated the virus", as had VIDO-Intervac).
<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

Thus, I look forward to KFL&A Public Health's response to my request, which will be made public in the public interest.

Thank you and best wishes,
Christine

Request Number (M001-21)

Christine Massey

Dear Christine Massey,

This follow up letter is written in response to your email on February 19, 2021 regarding your request for access to general records under the *Municipal Freedom of Information and Protection of Privacy Act* in the possession, custody or control of Dr. Kieran Moore describing the isolation of any variant of SARS-COV-2 directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material. The request includes any record matching the description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere, ever that anyone at KFL&A Public Health has downloaded or printed.

KFL&A Public Health conducted a search for the requested records but did not locate any records related to your request. This request will not be granted as the records do not exist at our agency.

KFL&A Public Health do not have records related to the process of testing COVID-19 samples. If you haven't already, it is recommended that you seek information from Public Health Ontario as they are the lead agency on the process of COVID-19 testing in Ontario.

You may request that this decision be reviewed by the Information and Privacy Commissioner. The Commissioner can be reached at:

Please provide a date or date-range related to the record(s):

Date From: November 1, 2019

Date To: July 17, 2020

Retrieving records takes time. The more specific your request is the more efficiently we will be able to respond. Please include a description of the records (e.g. minutes, letters, reports, emails, etc.). Where appropriate, identify the department(s) and/or individual(s) from whom you are seeking records.

Provide a detailed description of the records requested or the personal information to be corrected (attach additional pages if needed).

All records in the possession, custody or control of McMaster University describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient; fetal bovine serum).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Please also note that my request is not limited to records that:

- were authored by McMaster University researchers, or
- pertain to work done by McMaster University researchers, or
- pertain to work done at McMaster University.

My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that McMaster University has downloaded or printed. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).

cmssyc@gmail.com

Dear Christine:

**Re: Freedom of Information Request 2020-GR-010 (the “Request”)
Freedom of Information and Protection of Privacy Act (RSO 1990)**

1. The Request

I am writing regarding your access request under the *Freedom of Information and Protection of Privacy Act* (hereafter, ‘the Act’) received by our office on July 7, 2020.

We confirm your Request provided as follows:

For the period November 1, 2019 to July 17, 2020:

All records in the possession, custody or control of McMaster University describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient; fetal bovine serum).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or*
- the performance of an amplification test (i.e. a PCR test), or*
- the sequencing of something.*

Please also note that my request is not limited to records that:

- were authored by McMaster University researchers, or*
- pertain to work done by McMaster University researchers, or*
- pertain to work done at McMaster University.*

My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that McMaster University has downloaded or printed. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).

2. Responsive Record

A search has been conducted, and we have found no responsive records to your request. At this time, the research related to this request is in progress, and so no records have been produced at McMaster University.

3. Decision

While our search resulted in no responsive records, we have identified a publication that may be of interest to you:

Banerjee A, Nasir JA, Budyłowski P, et al. Isolation, Sequence, Infectivity, and Replication Kinetics of Severe Acute Respiratory Syndrome Coronavirus 2 [published online ahead of print, 2020 Jun 19]. *Emerg Infect Dis.* 2020;26(9):10.3201/eid2609.201495. doi:10.3201/eid2609.201495

In compliance with the terms of McMaster's subscription to this journal, we cannot provide you with the article. You can find this article here: <https://pubmed.ncbi.nlm.nih.gov/32558639/>

4. Fees

There are no further fees required to complete this process.

5. Party Responsible for Decision

The official responsible for making final access decisions on your request is Ms Andrea Thyret-Kidd, University Secretary and Privacy Officer.

6. Appeal

You may request the Information and Privacy Commissioner to review this decision and fee within thirty days from the date of this letter. The Commissioner's address is Suite 1400, 2 Bloor Street East, Toronto, Ontario, M4W 1A8. A request for appeal must be accompanied by a \$25.00 fee and should include the following:

- the file number assigned to this request (2020-GR-010)
- a copy of this decision letter
- a copy of the original request for information

Sincerely,

Ms Andrea Thyret-Kidd
University Secretary and Designated Head of Institution

Dear Christine:

RE: Freedom of Information Request # 20-03

I am writing regarding your access request under the *Freedom of Information and Protection of Privacy Act* ("FIPPA"), received on July 17, 2020, as follows:

All records in the possession, custody or control of Mount Sinai Hospital describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- *the culturing of something, or*
- *the performance of an amplification test (i.e. a PCR test), or*
- *the sequencing of something.*

*Please also note that my request is **not limited** to records that:*

- *were authored by Mount Sinai Hospital researchers, or*
- *pertain to work done by Mount Sinai Hospital researchers, or*
- *pertain to work done at Mount Sinai Hospital.*

My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that Mount Sinai Hospital has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it.

I have been engaging with our experts at Sinai Health regarding your request. We are not clear on the records that you are requesting, as we are not aware that isolation of a virus in the manner that you have described is possible for any virus; it is not within the scope of current scientific processes.

On this basis, we are not able to process your request as it is currently worded.

We wrote to you on July 30 and August 8, 2020 seeking clarification of your request, however you declined to speak with us and did not provide a substantive response. We would be pleased to assist you in reformulating your request in a way that would allow us to respond.

For your interest, we are pleased to share with you the following articles and pre-prints, which are demonstrative of the research on Sars-Cov-2 being done at Sinai Health:

Jamal AJ, Mozafarihashjin M, Coomes E, et al. Sensitivity of nasopharyngeal swabs and saliva for the detection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) [pub. online ahead of print, 2020 Jun 25]. *Clin Infect Dis*. 2020; ciaa848. <https://doi.org/10.1093/cid/ciaa848>

Christine Massey <cmssyc@gmail.com>

FOI Request #20-03

Christine Massey <cmssyc@gmail.com>

Wed, Aug 26, 2020 at 3:24 PM

To: "McFadden, Jesstina" <Jesstina.McFadden@sinaihealth.ca>

Hello Jesstina,

My apologies for the delay in responding to you. During the last month I moved, then was on vacation, and have been sick with migraines a couple of times.

In response to your query dated August 5th, yes my request is intended for records that include a description of the methods used to "isolate the covid-19 virus". I had in mind scientific research papers, but am open to receiving other types of records that might fit my description.

I am not seeking any private health information.

I am not interested in papers claiming that "the virus" was isolated if they don't include a clear description of the methodology used (since it's impossible to evaluate a claim that doesn't describe the methodology), or papers that involve an adulterated patient sample (i.e. a sample mixed with monkey kidney cells, antibiotics and fetal bovine serum), or papers that claim to have "isolated the virus" but in fact did only other things (i.e. sequencing of supernatant, PCR tests, inoculation of a cell line with something claimed to contain "the virus").

In the pdf letter that you sent me yesterday, you stated that:

"We are not clear on the records that you are requesting, as we are not aware that isolation of a virus in the manner that you have described is possible for any virus; it is not within the scope of current scientific processes. On this basis, we are not able to process your request as it is currently worded."

To my knowledge, there is nothing in the *Freedom of Information and Protection of Privacy Act* requiring a request to conform to current scientific (or in this case, unscientific) processes. And if an institution has no responsive records, they are required under *FIPPA* to state this explicitly.

Nine other institutions, including 6 from Canada, have already responded to the exact same request. None claimed that they were unable to process my request as worded. In fact, the FOI coordinator for Health Canada advised that I also submit my request to the National Research Council and the Public Health Agency of Canada, as worded (which I did). None of the institutions had any responsive records and they simply stated this.

Please be advised that responses from institutions, including any refusals to process my request, are being made public and shared around the world.

Thank you and best wishes,
Christine Massey, M.Sc.

Dear Christine:

RE: Freedom of Information Request # 20-03 – Decision Letter

I am writing regarding your access request under the *Freedom of Information and Protection of Privacy Act* (“FIPPA”), received on July 17, 2020, as follows:

All records in the possession, custody or control of Mount Sinai Hospital describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- *the culturing of something, or*
- *the performance of an amplification test (i.e. a PCR test), or*
- *the sequencing of something.*

*Please also note that my request is **not limited** to records that:*

- *were authored by Mount Sinai Hospital researchers, or*
- *pertain to work done by Mount Sinai Hospital researchers, or*
- *pertain to work done at Mount Sinai Hospital.*

My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that Mount Sinai Hospital has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it.

I have again reviewed your request, as well as your e-mail of August 26, 2020 clarifying the records that you are seeking, with experts at Sinai Health who have significant knowledge and experience in respect of the isolation of viruses as well as SARS-CoV-2. We do not interpret the clarification that you have provided to change the substance of your request.

As set out in my letter of August 25, 2020, isolation of a virus in the manner that you have described is not possible for any virus, including SARS-CoV-2; it is not within the scope of current scientific processes. For this reason, and based on a reasonable search for responsive records, Sinai Health is satisfied that the records you are seeking do not exist.

You may request the Information and Privacy Commissioner to review this decision. The Commissioner can be reached at:

Information and Privacy Commissioner/Ontario
1400 - 2 Bloor Street East
Toronto, Ontario, M4W 1A8

The appeal fee is \$25.00, payable by cheque or money order to the Minister of Finance and must be included with your correspondence. Please note that you have 30 days from the receipt of this letter to request a review by the Commissioner.

Yours very truly,

A handwritten signature in blue ink that reads "Jesstina McFadden".

FOI request to Chief MacCulloch and Niagara Regional Police Service re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: backgroundchecks@niagarapolice.ca

Thu, Oct 7, 2021 at 11:27 PM

October 7, 2021

To:
Information and Privacy Unit
Niagara Regional Police Service
5700 Valley Way
Niagara Falls, Ont., L2E 1X8
Submitted via email c/o: backgroundchecks@niagarapolice.ca

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Freedom of Information and Protection of Privacy Act* due to unlawful and fraud-based "COVID-19" activity by members of the Service.

Please note that contrary to the instructions and form posted on your website, I am not required by the legislation to "show two pieces of government issued identification", or to provide my gender or date of birth, and there is nothing in the legislation that authorizes an institution to reject requests that are submitted via fax or email.

Application Fee

I will mail a cheque for the \$5 application fee to the address listed above, with a note indicating the purpose of the cheque. **Please do not rip up my cheque and mail it back to me as the OPP/Ministry of the Solicitor General chose to do, and please note that any inappropriate handling of my request will be made public.**

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Chief Bryan MacCulloch or Niagara Regional Police Service describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from millions of sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone**,

anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Ms. Christine Massey

Peterborough, ON

Dear Ms. Massey:

I am responding to your request, pursuant to the Municipal Freedom of Information and Protection of Privacy Act (the *Act*), for access to information, our Information and Privacy File No.: 2021-775.

You have requested access to all studies and/or reports in the possession, custody or control of Chief Bryan MacCulloch or Niagara Regional Police Service describing the purification of the COVID-19 virus (also known as "SARS-COV-2"), including any "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells also known as Vero cells; fetal bovine serum).

Please be advised that we have performed a thorough search of our records and have been unable to locate any records responsive to your request.

As there have been no records located, we are e-mailing this letter per your request. Please note that for any future requests, per Niagara Regional Police Service policy, if records exist and are to be provided to you, the Niagara Regional Police Service will require that this information be mailed to you or picked-up by you for privacy reasons.

Should you have any questions with respect to this matter, I may be reached at 905-688-4111, extension 1024560 between the hours of 8:00 am and 4:00 pm, Monday to Friday.

5700 Valley Way • Niagara Falls, ON • L2E 1X8 • Tel: 905-688-4111 • Toll Free: 1-888-668-3911

W W W . N I A G A R A P O L I C E . C A

You may ask the Information and Privacy Commissioner, 2 Bloor Street East, Suite 1400, Toronto, Ontario, M4W 1A8, within 30 days, to review this matter. If you would like to appeal this file, please provide the Commissioner's office with the following:

1. the file number listed at the beginning of this letter;
2. a copy of this decision letter;
3. a copy of the original request for information which you sent to the Niagara Regional Police Service.

In addition, you must send an appeal fee to the Commissioner's office. If your request was for your personal information, the appeal fee is \$10.00. The appeal fee for all other requests for information is \$25.00. Please include the fee in your letter of appeal. Appeal fees should be in the form of either a cheque or money order, made payable to the Minister of Finance. For further information concerning appeals, please contact the Information and Privacy Commissioner at 1-800-387-0073.

Yours truly,

Kristy Paniagua

To: Kristy Paniagua <Kristy.Paniagua@niagarapolice.ca>

Thank you Kristy.

What provision of the legislation authorizes you to demand that records either be picked up in person or sent via snail mail? I am not aware of any.

And given that I specifically stated that I prefer documents to be sent via email, whose "privacy" are you trying to protect?

Best wishes,
Christine

Fri, Oct 15, 2021 at 11:06 AM

To: Christine Massey <cmssyc@gmail.com>

Hi Christine,

Even though it does not apply in this case as there are no responsive records, it is not legislation, it is Niagara Regional Police Service policy. We are unable to send records by way of e-mail as our e-mail system is not encrypted to date.

Kind regards,

Kristy

PROTECTED

Christine Massey, M.Sc.
#221 - 93 George St. S.
Brampton, ON
L6Y 1P4

Dear Christine Massey:

This letter is in response to the request you made to the National Research Council (NRC) under the *Access to Information Act* for records pertaining to:

“All records in the possession, custody or control of the National Research Council of Canada (NRC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- ***the culturing of something, or***
- ***the performance of an amplification test (i.e. a PCR test), or***
- ***the sequencing of something.***

Please also note that my request is not limited to records that were authored by the NRC or that pertain to work done by the NRC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the NRC has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).”

Your request was received by the NRC on June 13, 2020, and your application fee was received and processed on June 19, 2020.

A thorough search of NRC's records has now been completed, and we regret to inform you that no records responsive to your request were identified.

Please note that in the processing of your request, NRC's Access to Information and Privacy (ATIP) Office confirmed that it was not possible to generate a list of publications as specified within the above-cited text. Specific details regarding access to publications by NRC researchers have not been centrally documented by NRC's Human Health Therapeutics Research Centre, nor by the Library team responsible for NRC's electronic collections and journal subscriptions.

If you are not satisfied with this response, you are entitled to file a complaint with the Information Commissioner of Canada within 60 days (<https://www.oic-ci.gc.ca/en/submitting-complaint>) after the day on which you will have received this letter.

Yours sincerely,

2020-07-14

 Maria Krioutchkova

FIPPA request: studies re isolation of SARS-COV-2

Christine Massey <cmssyc@gmail.com>

Thu, May 14, 2020 at 11:19 AM

To: "Babos, John (MOHLTC)" <john.babos@ontario.ca>

Dear John Babos, Manager, Access, Privacy and Corporate Information Unit, Ministry of Health and Long-Term Care,

This is a request for General Information, made under *the Freedom of Information and Protection of Privacy Act (FIPPA)*.

I will mail you my \$5 application fee.

Description of Requested Records:

All records describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead to

- the culturing of something (i.e. the culturing of supernatant in vero cells), or
- the performance of an amplification test (i.e. a PCR test on a patient sample adulterated with an enzyme to release genetic material from cells), or
- the sequencing of something.

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

Format:

Pdf documents sent to me via email; I do not want anything shipped to me.

Contact Information:

Last name: Massey

First name: Christine

Address: #221 - 93 George St. S., Brampton ON L6Y 1P4

Phone: 905-230-4155

Email: cmssyc@gmail.com

Thank you and best wishes,
Christine Massey, M.Sc.

Ms. Christine Massey
221 - 93 George St. S.
Brampton, ON L6Y 1P4

Dear Ms. Massey:

I am replying to your access request made under the *Freedom of Information and Protection of Privacy Act (the Act)*, for the following information:

All records describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to

- the culturing of something (i.e. the culturing of supernatant in vero cells), or
- the performance of an amplification test (i.e. a PCR test on a patient sample adulterated with an enzyme to release genetic material from cells), or
- the sequencing of something.

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

Format:

Pdf documents sent to me via email; I do not want anything shipped to me.

This is to inform you that no responsive records were located. A reasonable search of the ministry was conducted, and no responsive records were found. Dr. David C. Williams, Chief Medical Officer of Health, is responsible for this decision.

.../2

The cost for the search in accordance to Regulation 460 are minimal and have been waived under section 57(4) of *the Act*.

You may wish to contact Public Health Ontario and Sunnybrook Hospital as they may have records responsive to your request. They may be reached at:

Public Health Ontario
661 University Avenue, Suite 1701
Toronto, ON M5G 1M1
privacy@oahpp.ca

Sunnybrook Hospital
Chief Privacy Officer
Sunnybrook Privacy Office
2075 Bayview Avenue, Room G326
Toronto, Ontario M4N 3M5
privacy@sunnybrook.ca

You may request a review of this decision by the Information and Privacy Commissioner 2 Bloor Street East, Suite 1400, Toronto ON M4W 1A8. Please note that you have 30 days from the date of this letter to request a review. In the event that you do seek a review, please provide the Commissioner's Office with:

1. The request file number: A-2020-00064 / RK
2. A copy of this decision letter.
3. A copy of your original request.
4. A cheque or money order in the amount of \$25.00 payable to the Minister of Finance.

If you have any questions, please contact me at 647-201-3015.

Sincerely,

Rachel Kukulewich
Consultant, Access and Privacy

FIPPA request to OPP/MSG re: "COVID-19 virus" purification

Christine Massey <cmssyc@gmail.com>

Wed, Sep 22, 2021 at 1:49 PM

To: foi.solgen@ontario.ca

Cc: opp.commissioners.of@opp.ca

September 22, 2021

To:
Freedom of Information and Protection of Privacy Services
Ministry of the Solicitor General
200 First Avenue West
North Bay, Ontario P1B 3B9
Tel: (705) 494-3080
Fax: (705) 494-3081
Submitted via email to: foi.solgen@ontario.ca

Dear Freedom of Information Officer,

This is a formal request for access to general records, made under Ontario's Freedom of Information and Protection of Privacy Act, due to unlawful activity by members of the Ministry and the Ontario Provincial Police.

Please note that according to the website of the [Ontario Provincial Police](#) (OPP), the OPP is a division of the Ministry of the Solicitor General. However the Access/Correction Request [form](#) that is posted on the OPP's Freedom of Information [webpage](#) is for requests directed to the Ministry of Community Safety and Correctional Services, which is confusing for the public.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of the Ontario Provincial Police or the Ministry of the Solicitor General describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic/biological** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the alleged "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a "virus" without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Application Fee:

I will submit a \$5 cheque by mail, payable to the Minister of Finance.

FIPPA request to OPP/MSG re: "COVID-19 virus" purification

FOI SOLGEN (MAG) <foi.solgen@ontario.ca>
To: Christine Massey <cmssyc@gmail.com>

Wed, Sep 22, 2021 at 2:02 PM

Freedom of Information requests can be made to the **Ministry of the Solicitor General** in writing or online. There is a \$5 application fee to submit a request to this office.

To file a request for information under the Act online, please complete and submit the new online Access or Correction Request form and pay the \$5 application fee when prompted (Visa, Mastercard, Visa Debit or Mastercard Debit). This new online form is accessible on the government of Ontario's website by clicking the following link:

 **FIPPA – Access or Correction Request**

Please note this method does not allow for attachments at this time.

To file a request in writing, please print and fill out the attached form and send, with the \$5 application fee, to the address/fax number on the form. A cheque or money order made out to the Minister of Finance or Visa/Mastercard are acceptable forms of payment. If you want to fax in the request the fee needs to be paid with a credit card (Visa or Mastercard only).

A few points for submitting your request:

- We'll need your full name (including middle name) and date of birth (please enter in the description of records)
- Please indicate the location of the incident (address or town) as well as any other details you have
- Indicate the types of records you're looking for

Please note we cannot accept requests by email at this time.

If you have any questions don't hesitate to call at the number listed below.

Thank you,

Renée St. Jacques

FIPPA request to OPP/MSG re: "COVID-19 virus" purification

Christine Massey <cmssyc@gmail.com>

Wed, Sep 22, 2021 at 2:07 PM

To: "FOI SOLGEN (MAG)" <foi.solgen@ontario.ca>

Dear Renée,

What prevents the Ministry from accepting FOI requests via email?

Does the legislation authorize the Ministry to refuse a request that is submitted via email?

I already indicated that I would mail in my cheque.

Best wishes,
Christine

Christine Massey <cmssyc@gmail.com>
To: "FOI SOLGEN (MAG)" <foi.solgen@ontario.ca>
Bcc: Proulx Gabriel <proulxgabriel@hotmail.com>

Wed, Sep 22, 2021 at 4:45 PM

Dear Renée,

Thank you but you didn't answer my questions.

To my knowledge, under FIPPA a request must be in writing, but is not required to be submitted via any particular method.

What prevents the Ministry from accepting FOI requests via email?

Does the legislation authorize the Ministry to refuse a request that is submitted via email? If so, please cite for me the relevant provision.

New question:

Does the legislation authorize the Ministry to demand that a request and payment be submitted at the same time? If so, please cite for me the relevant provision.

I have successfully submitted literally dozens of requests to other Ontario institutions via email and mailed in my cheque, with no problem or resistance whatsoever.

Please note that all of your responses will be made publicly available as part of my collection of FOI responses re "SARS-COV-2" purification from 107+ institutions globally:

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

Best wishes,
Christine

FIPPA request to OPP/MSG re: "COVID-19 virus" purification

Miller, Wayne (MAG) <Wayne.Miller@ontario.ca>

Thu, Sep 23, 2021 at 9:02 AM

To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Cc: "St. Jacques, Renee (MAG)" <Renee.St.Jacques@ontario.ca>

Good morning Christine;

In response to your questions, please be advised that we do not accept requests by email as it is not a secure method of communication. There is nothing in the legislation that provides for this, however the legislation was written in 1989. I would like to advise that the Information and Privacy Commissioner of Ontario (IPC) has provided direction the Ontario Public Services as a whole about these insecurities. If you wish to discuss this with them, please contact the IPC at:

<https://www.ipc.on.ca/about-us/contact-us/>

As for part two of your question, you are correct in your interpretation of what makes a request. The first part of section 24(1)(a) of the Act states; the request must be in writing. Part (c) of this section is also very clear that payment has to be paid at the time of making the request. I have copied the relevant section of the Act for your review.

24 (1) A person seeking access to a record shall,

(a) make a request in writing to the institution that the person believes has custody or control of the record, and specify that the request is being made under this Act;

(b) provide sufficient detail to enable an experienced employee of the institution, upon a reasonable effort, to identify the record; and

(c) at the time of making the request, pay the fee prescribed by the regulations for that purpose.

Instructions on how to complete an online request can be found at the following address:

<https://www.ontario.ca/page/how-make-freedom-information-request>

I hope this clarifies our position.

FIPPA request to OPP/MSG re: "COVID-19 virus" purification

Christine Massey <cmssyc@gmail.com>

Thu, Sep 23, 2021 at 11:06 AM

To: "Miller, Wayne (MAG)" <Wayne.Miller@ontario.ca>

Cc: "FOI SOLGEN (MAG)" <foi.solgen@ontario.ca>

Bcc: Proulx Gabriel <proulxgabriel@hotmail.com>

Dear Wayne,

Thank you, however I am not concerned with anyone's "position" or "direction", or when the legislation was written, or in wasting time with the IPC right now. I am only interested in what the Ministry is and is not **authorized** to do, and what the Ministry is **required** to do.

You have acknowledged that you / the Ministry are **not** authorized by the legislation to refuse a request simply because it is submitted via email.

Re section 24 (1) (c), it is clearly **not** intended to require payment at the **exact same moment** that the request is submitted. Such a requirement would be bizarre, not in the public interest, and contrary to the purposes and intent of the legislation. Literally thousands of successfully completed FIPPA requests in recent months/years (including many of my own) would never have been completed.

The OPP's FOI [webpage](http://www.mcscs.jus.gov.on.ca/english/about_min/foi/foi.html) cites this Ministry webpage: http://www.mcscs.jus.gov.on.ca/english/about_min/foi/foi.html which states:

*You will need to pay that fee when you submit your request. You can pay by **cheque, money order, credit card (Visa or Master Card) or Visa Debit/Mastercard Debit (online only)**... After you've filled out the form, you can send it in **by mail or by fax**.*

So the OPP and the Ministry are quite willing to accept credit card numbers online, via fax, or by mail, and cheques and money orders, and presumably cash, by mail, and to use email for FOI communications (hence the foi.solgen@ontario.ca email address), and to repeatedly transmit messages that contain my home address via email as you and your colleagues have already done.

The details of my request have already been submitted via email and my cheque is in the mail. Upon arrival of my cheque, the request will be complete and the Ministry will be obligated to process it.

I will **not** be providing my middle name or date of birth despite Renee's strange claim that "*We'll need your full name (including middle name) and date of birth (please enter in the description of records).*"

In addition to a response that is in accordance with FIPPA, I require an explanation as to why requesters such as myself are being directed to provide information that is **not** necessary and the Ministry is **not** authorized to demand.

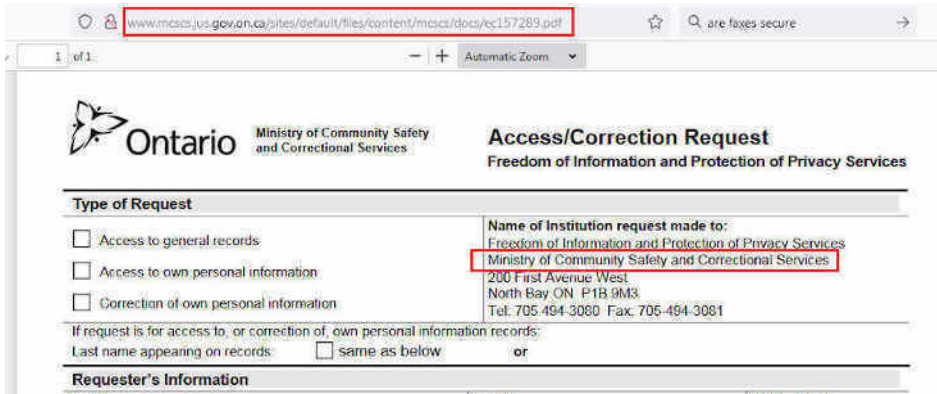

I also require an explanation as to why the OPP's Freedom of Information [webpage](#) directs the public to use an Access/Correction Request [form](#) that is for requests directed to the **Ministry of Community Safety and Correctional Services**.

How do I get my records from the OPP or make a Freedom of Information (FOI) request

All requests for OPP records go through the Freedom of Information (FOI) process. Please see the link below to obtain the FOI Application. You may also visit the Ministry website at http://www.mcscs.jus.gov.on.ca/english/about_min/foi/foi.htm to obtain information on the request process and about the Act.

FOI Application: <http://www.mcscs.jus.gov.on.ca/sites/default/files/content/mcscs/foics/ec157289.pdf>

For more information, please contact the Ministry FOI office:

Best wishes,
Christine

Access or Correction Request

Freedom of Information and Protection of Privacy Act

Personal information contained on this form is collected under the *Freedom of Information and Protection of Privacy Act* and will be used to answer your request.

Questions about this collection should be directed to the Freedom of Information and Privacy Coordinator at the institution where you make the request.

Many records of public institutions are available to you without making a request under the *Freedom of Information and Protection of Privacy Act*. Contact the Freedom of Information and Privacy (FOIP) Coordinator at the institution that holds the records to determine whether you need to make a formal request.

Section A - Type of Request

Fields marked with an asterisk (*) are mandatory.

Check the box that indicates what you are requesting. (Records that do not contain personal information are general records.)

The FOIP Coordinator will contact you to verify your identity before giving you access to your own personal information or to secure proof that you have authority to act for another person if making a request for another person's personal information records (e.g., power of attorney, guardian or trusteeship order).

Type of Request *

- Access to general records (non-personal information)
- Access to own personal information
- Access to other's personal information by authorized party
- Correction of own personal information

Name of institution request made to *

Ministry of the Solicitor General

Freedom of Information and Privacy Coordinator Contact

Email Address: foi.solgen@ontario.ca

Telephone Number: 705-494-3080

Section B - Requester's Information

Fields marked with an asterisk (*) are mandatory.

Please ensure you have entered your name, mailing address, telephone and email address accurately.

Last Name* First Name*

Mailing Address

Canada U.S.A. International

Unit Number Street Number Street Name PO Box

City/Town* Province* Postal Code*

Telephone Number

Home Mobile Business ext.

Email Address*

Section C - Description of Records or Correction Requested

Fields marked with an asterisk (*) are mandatory.

Provide as much detail as possible about the requested general records, own personal information, other's personal information or correction of own personal information.

If you are requesting access to personal information, provide the name that appears on the records.

If you are requesting a correction of your own personal information, describe the personal information to be corrected. The Ministry of the Solicitor General will contact you with next steps in the process.

Description of Records or Correction Requested*

The description of records or correction that you entered for this FOI eRequest has been removed for the purposes of this email to protect the security of any personal information that may have been included.

The institution that you selected has received the complete copy of the FOI eRequest inclusive of contents you entered in this field.

Time Period of the Records *

Specify the time period for the records as precisely as possible, e.g., from 2008/07/21 to 2009/11/30.

From (yyyy/mm/dd)

To (yyyy/mm/dd)

2019/11/01

2021/10/11

Method of Access *

Check a box to indicate whether you want to examine original documents (which may only be done on site) or receive copies.

Thank you Tracy.

I'm confused by the signature, as the name does not appear to match the name that is provided in print (Wayne Mill vs. Enza Ragone).

Could you please explain this apparent contradiction? And would it be possible to have the letter in pdf format with the name of the person clarified in the letter?

Best wishes,
Christine

Good morning Christine Massey;

Please find attached your decision letter in a PDF version. Regarding the signature please be advised of the following:

The Freedom of Information and Protection of Privacy Act states that the "Head" of the institution is the Minister. Most Ministers have other responsibilities and will delegate their authority to the FOI program coordinator. The Freedom of Information and Protection of Privacy Coordinator for the Ministry of the Solicitor General is Enza Ragone. She is also the delegate for the Ministry of the Attorney General. As the Manager of the FOI office for the Ministry of Solicitor General, Wayne Miller signs the decisions on behalf of the Coordinator, Enza Ragone. This process is not a contradiction and does not affect the validity of the decision being issued. If you have any concerns about the process, you may wish to speak with the Information and Privacy Commissioner of Ontario."

Email: cmssvc@gmail.com

Dear Christine Massey:

SUBJECT: REQUEST NUMBER SOLGEN-A-2021-05173

This letter is in response to your request submitted to the Ministry of the Solicitor General (the Ministry) under the Freedom of Information and Protection of Privacy Act (the Act).

Your request is for access to copies of studies/reports from the Ontario Provincial Police (OPP) and the Ministry of the Solicitor General describing the purification of the alleged "COVID-19" virus directly from a sample taken from a diseased human.

Please be advised that access to the requested records cannot be granted, as the information does not exist. Experienced staff familiar with the record holdings of the Ministry conducted a records search. No responsive records were located.

This access decision was made by the undersigned. You are entitled to appeal this decision within 30 days to:

Information and Privacy Commissioner/Ontario (IPC)
2 Bloor Street East, Suite 1400
Toronto, ON M4W 1A8 (416) 326-3333

Should you decide to file an appeal, please provide the IPC with:

- 1) a copy of this decision letter;
- 2) a copy of your request;
- 3) the reasons why you believe the requested records or additional records exist;
- 4) the mandatory appeal fee of \$25.00 in the form of a cheque or money order made payable to the Minister of Finance.

.../2

Christine Massey
Page two

If you have any questions regarding your request, please contact, Tracy Buttigieg,
Senior Program Analyst & Advisor, at 705-492-6245 or Tracy.Buttigieg@ontario.ca.

Sincerely,

[EXTERNAL EMAIL - use caution when clicking links and opening attachments]

August 27, 2021

To:
Chief Scott Gilbert
Peterborough Police Service
Freedom of Information
P.O. Box 2050
Peterborough, Ontario
K9J 7Y4

Dear Scott Gilbert,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act* due to enforcement by members of Peterborough Police Service of unlawful "COVID-19" restrictions.

Please note: this request is very similar to another request that I submitted on April 28, 2021 where I had **specified** purification *via maceration, filtration and use of an ultracentrifuge*. The difference with this new request is that it does **not** specify maceration, filtration and use of an ultracentrifuge; instead it mentions filtration, ultracentrifugation and chromatography by way of an example.

Application Fee

I will mail the \$5 application fee to the address listed above.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Scott Gilbert or Peterborough Police Service describing the **purification** of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is **not** specifically for records that were authored by Scott Gilbert or Peterborough Police Service or that pertain to work done at/by Scott Gilbert or Peterborough Police Service. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by Scott Gilbert or Peterborough Police Service and relied on as **evidence** of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Ms. Massey:

I am writing regarding your access request under the Municipal Freedom of Information and Protection of Privacy Act (hereafter, 'the Act') received (with payment) by our office on September 08, 2021.

I have reviewed your most recent request and its respective amendments, and I confirm that no responsive records exist.

You may request a review of this decision by the Information and Privacy Commissioner,

2 Bloor Street East, Suite 1400, Toronto, Ontario, M4W 1A8, telephone number (416) 326-3333. There is an appeal fee of \$25.00 for general information or \$10.00 for personal information. Please make your cheque or money order payable to the Minister of Finance. You have 30 days to make this appeal. You may also wish to notify our institution of your intent to appeal.

The Municipal Freedom of Information and Protection of Privacy Act is available online at www.ontario.ca, or can be found through a link on the Peterborough Police Service FOI webpage.

I am responsible for this decision. Should you have any questions or concerns, please do not hesitate to contact me at (705) 876-1122, ext. 213. Thank you.

MFIPPA request to Dr. Salvaterra re purification of "HIV", "Hep B", "Hep C"

Christine Massey <cmssyc@gmail.com>

Thu, Aug 19, 2021 at 5:44 PM

To: rmatheson@peterborough.ca, info@peterboroughpublichealth.ca

August 19, 2021

To:

**Freedom of Information and Privacy Coordinator
City of Peterborough / Peterborough Public Health**

10 Hospital Drive
Peterborough, ON K9J 8M1

and/or

Jackson Square,
185 King Street
Peterborough, ON K9J2R8

Submitted via email to: info@peterboroughpublichealth.ca; matheson@peterborough.ca

Dear Freedom of Information and Privacy Coordinator,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)*.

A failure to respond within 30 days as required under MFIPPA will be interpreted as "no records" and made public.

Application Fee

Tomorrow I will telephone 705-742-7777 ext. 1820 to pay the \$5 application fee.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Dr. Rosana Salvaterra, or any Peterborough Public Health staff member responsible for "clinic inspections", or any member of Peel Public Health's "infectious/transmissible disease" leadership, describing the **purification** (i.e. via filtration, ultracentrifugation and chromatography) of any **"HIV" aka "human immunodeficiency virus" or of any "Hepatitis B virus" or of any "Hepatitis C virus"**, directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. a human or animal cell line; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" from a patient sample and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on alignment/assembly/trimming/editing of thousands/millions of sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting private patient records (or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample,

as per standard laboratory practices for the purification of other very small things).

Please also note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere** since the discovery of each alleged "virus".

In the interest of transparency and in accordance with the purposes of *MFIPPA*, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

K9J 7Y4

Dear Freedom of Information Officer,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act* due to enforcement by members of Peterborough Police Service of unlawful "COVID-19" restrictions.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Chief Scott Gilbert or the Peterborough Police Service leadership describing the **purification** of any "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" from a patient sample and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere since December 2019 and relied on by Chief Scott Gilbert or Peterborough Police Service leadership as evidence of a disease-causing "virus" circulating in humans.

Please note that despite the fact that [purification is an essential](#) (but not sufficient) step in proving the existence of a disease-causing "virus", as of today 54 institutions globally have all failed to provide or cite any such records, therefore to my knowledge no such records exist and if they do exist I cannot access them until I am provided a citation or URL.

Therefore, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

phac.atip-airp.aspc@canada.ca
ATIP-AIPRP@HC-SC.GC.CA

Dear Ms. Richardson,

This is a formal request made under Canada's *Access to Information Act*.**Description of Requested Records:**

All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Please also note that my request is not limited to records that were authored by the PHAC or that pertain to work done by PHAC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that PHAC has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).

- the sequencing of something.

Please also note that my request is not limited to records that were authored by the PHAC or that pertain to work done by PHAC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that PHAC has downloaded or printed.

Good afternoon,

We have tasked the responsive OPI with your request, namely the *Infectious Disease Prevention and Control (IDPC)* who requested further clarification:

- Did you want every employee tasked at the IDPC branch as to whether they have ever downloaded and kept, either electronically or in hardcopy, any study on any subject?
- Please note that information that is public is excluded from the *Access to Information Act* under s. 68(a) <https://laws-lois.justice.gc.ca/eng/acts/A-1/page-12.html#h-955> and will not be provided. (links to the information would be provided where possible).
- Please also provide a date-range for your request

Note that your request is on hold until we have received your clarification.

Tue, Jun 23, 2020 at 5:49 PM

Dear Ms. Haase,

A screenshot of my request is attached.

The sentence highlighted in yellow in your message was a clarification of my request for records "*describing the isolation of a SARS-COV-2 virus...*" and not an additional request for "*any study on any subject*". This is why the highlighted sentence made reference to "*my request*".

So the answer to the question "*Did you want every employee tasked at the IDPC branch as to whether they have ever downloaded and kept, either electronically or in hardcopy, any study on any subject?*" is "**no**". I did not request any study on any subject.

I do not work for PHAC; I have no idea how PHAC or its records are organized. I would hope and expect, as I imagine all Canadians would, that PHAC has an efficient system in place, especially for their records on a topic as critically important as "COVID-19" and the "isolation of SARS-COV-2". I do not know (and am not required to advise on) how PHAC ought to go about identifying the responsive records, if any exist.

I am aware of section 68, and did not ask to be provided any records that are public. I requested: "*If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).*"

Links would also be appreciated and in accordance with my understanding of Part 1, section 4 (2.1) of the act (*Responsibility of government institutions*).

Date range for my request: Jan. 1 2020 until the date of my email request.

Thank you and best wishes,

Christine Massey, M.Sc.

Hello,

Just wanted to let you know, that I am finalizing your request, and submitting it for approval.

We are happy to be able to offer you a new and fast way to receive answers to your inquiries at no additional cost to you. EPOST Connect is a secure messaging service that protects your documents, files and messages (see attached). As a result, your identity and all information sent to our office will be protected, and your privacy rights will be respected at all times under the *Privacy Act*. Once you have created your EPOST Connect account, we ask that you inform our office by email at: phac.atip-aiprp.aspc@canada.ca

Please let me know how you wish to receive the records,

Thank you

Tammy Turpin-Loyer

Dear Tammy,

Thank you for your message.

I am not concerned about having my identity protected. The request that I submitted months ago to PHAC (shown below) was made public long ago and has been shared around the world. PHAC's response will also be made public.

Please note that I made clear in my request that I am **not** interested in records where the word "isolation" has been abused. Should PHAC provide me with irrelevant records (or commentary) that are not responsive to my request, it will reflect poorly on the institution and indicate a lack of competence, and this too will be publicly noted.

Please note that I also made clear in my request that I prefer **pdf documents sent to me via email**; I do not wish for anything to be shipped to me (or to use EPOST).

Thank you and best wishes,
Christine

Dear Ms. Richardson,

This is a formal request made under Canada's *Access to Information Act*.

Description of Requested Records:

All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Please also note that my request is not limited to records that were authored by the PHAC or that pertain to work done by PHAC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that PHAC has downloaded or printed.

Clarification:

Date range of request is January 1, 2020 until June 15, 2020

Enclosed please find records responsive to your request. You will note that portions of the records are withheld from disclosure pursuant to sections 19 and 20 of the Act. For ease of reference, a copy of the Act may be found at <https://laws-lois.justice.gc.ca/eng/acts/a-1/> which provides a description of the redaction(s) applied.

Should you have any questions or concerns about the processing of your request please do not hesitate to contact Tammy Turpin-Loyer, the analyst responsible for this file, by email at tammy.turpin-loyer@canada.ca with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitted-complaint> or by mail to:

We are now offering epost Connect™ services

The Public Health Agency of Canada's Access to Information and Privacy (ATIP) Office is now offering requesters an alternative way to receive responses to requests submitted under the *Access to Information Act* and the *Privacy Act*. EPOST Connect is a service that allows you to receive documents digitally in a safe, secure and timely manner. And there is **no cost to you!**

New to epost? Simply:

- 1) open a free account at www.epost.ca, and then
- 2) send us an email at phac.atip-aiprp.aspc@canada.ca to let us know that you wish to receive a response to your request through the epost Connect interface. Please include the email address linked to your epost account and reference the request number in your response.

Already have an epost account? Simply send us an email at phac.atip-aiprp.aspc@canada.ca and include the information noted above.

Once you have registered for this service and notified us of your interest in receiving responses via epost, we will send you an email when our response is ready for you to access.

EPOST Connect is a secure messaging service that offers protection for your documents, files and messages under the *Canada Post Corporation Act* and the Criminal Code of Canada. This means you can be sure that any information being shared remains secure and supports compliance with federal privacy regulations.

For more information about how epost Connect works, please visit:

<https://www.canadapost.ca/web/en/pages/epost/default.page>

Attachments: 20200220 - 145354 Scan.pdf; Fig1.pptx

Hi Yan,

The package has been picked up by FedEx. The tracking number is 808209522519.

For p.2 I don't know. We still have not been able to get to the PCR . I would think it should be either the same titer as p.1 or higher. So 15ul to 30ul in a T75 should be enough. And we just setup plates today to do the titration.

To make p.2 I had 1ug/ml of TPCK trypsin in the media (DMEM, 2% FBS, P/S) during the virus absorption, removed the inoculum after 1hr and replaced with fresh media containing 2% FBS, penn/strep and 1ug/ml TPCK trypsin (so the same media as the adsorption). You are correct. We did NOT perform centrifugation or high trypsin when we used p.1 to make p.2. Just a normal infection procedure (except with the addition of 1ug/ml TCPK trypsin).

I attached a figure from our grant. The CPE and RT-PCR on p.1 is in there. Obvious differences between the sensitivity of the primers (although, we used one concentration of primer/probes, and not the suggested concentrations that was suggested).

Hope this helps. And I hope everything is fine with the samples we sent. We still need to do some verification but I figured since p.1 looks like SARS-CoV-2 (because of the PCR) and CPE was on-time and as expected for p.2 that we would ship to you now instead of waiting to make sure everything is as expected. Certainly we will let you know if we come across any results that are not consistent with what we expect.

Thanks

Hi [REDACTED]

I forgot to mention that we would need the waybill number in case there is some problem with the delivery.

As you indicated that you will send 2x 1 ml p2 and 100 ul P1. How much of P2 would you recommend to use for infecting a T75 flask? We also like to confirm that concentration of trypsin you are using now when you pass the virus (16 ug/ml or 1ug/ml). As we understand, the centrifugation will not be required to pass the virus. By the way, do you know the CT value for P1 and P2 virus?

Thank you so much for your help,

Yan

Summary: Respiratory samples from COVID-19 patients with ≥ 8 days of symptoms and a SARS-CoV-2 E gene RT-PCR Ct value ≥ 24 may predict lack of infectivity of those patients in a clinical and community context.

Accepted Manuscript

Abstract

Background: RT-PCR has become the primary method to diagnose viral diseases, including SARS-CoV-2. RT-PCR detects RNA, not infectious virus, thus its ability to determine duration of infectivity of patients is limited. Infectivity is a critical determinant in informing public health guidelines/interventions. Our goal was to determine the relationship between E gene SARS-CoV-2 RT-PCR cycle threshold (Ct) values from respiratory samples, symptom onset to test (STT) and infectivity in cell culture.

Methods: In this retrospective cross-sectional study, we took SARS-CoV-2 RT-PCR confirmed positive samples and determined their ability to infect Vero cell lines.

Results: Ninety RT-PCR SARS-CoV-2 positive samples were incubated on Vero cells. Twenty-six samples (28.9%) demonstrated viral growth. Median TCID₅₀/ml was 1780 (282-8511). There was no growth in samples with a Ct > 24 or STT > 8 days. Multivariate logistic regression using positive viral culture as a binary predictor variable, STT and Ct demonstrated an odds ratio for positive viral culture of 0.64 (95% CI 0.49-0.84, p<0.001) for every one unit increase in Ct. Area under the receiver operating characteristic curve for Ct vs. positive culture was OR 0.91 (95% CI 0.85-0.97, p<0.001), with 97% specificity obtained at a Ct of >24.

Conclusions: SARS-CoV-2 Vero cell infectivity was only observed for RT-PCR Ct < 24 and STT < 8 days. Infectivity of patients with Ct >24 and duration of symptoms >8 days may be low. This information can inform public health policy and guide clinical, infection control and occupational health decisions. Further studies of larger size are needed.

Keywords: SARS-COV-2, COVID-19, RT-PCR, infectivity, public health

Introduction

The emergence of SARS-CoV-2, the causative agent of COVID-19, represents a public health emergency of historic proportion. The global containment efforts have had broad societal and economic impacts. Policy decisions to relax public health measures will require a better understanding of duration of infectivity. This information will also impact infection control practices and occupational health.

To date, the diagnosis of COVID-19 has relied on the detection of SARS-CoV-2 through molecular detection. While this method is both rapid and highly sensitive, there are important limitations. Several studies describe the persistence of SARS-CoV-2 RNA within different body sites (1,2). It is known from other viruses that viral RNA can persist beyond infectivity (3,4). As a result, demonstration of *in vitro* infectiousness on cell lines is a more informative surrogate of viral transmission. The ability of viral culture to inform infectivity is an important aspect of diagnostics but its use is hampered by its difficult and labour-intensive nature. This is further complicated by the need for containment level 3 facilities in the case of SARS-CoV-2. In a recent cohort study of nine patients, no virus could be recovered beyond 7 days post symptom onset (1). This important study is limited by the small number of patients examined and the fact that all nine cases are linked, therefore the data may represent a unique viral subpopulation. Here we add to the existing body of literature by presenting viral culture results on a larger cross-sectional group of patients, compared to PCR data and time of symptom onset.

Methods

SARS-CoV-2 RT PCR cycle threshold values and symptom onset to test

All samples in this study were obtained to support routine care and surveillance of the public health response in the province of Manitoba, Canada. All suspect COVID-19 cases had SARS-CoV-2 RT-PCR performed on nasopharyngeal (NP) or endotracheal (ETT) samples at Cadham Provincial Laboratory (CPL), the public health laboratory.

NP swabs and ETT specimens in viral transport media were stored at 4°C for 24-72 hours until they were tested for the presence of SARS-CoV-2 RNA using real-time RT-PCR targeting a 122nt portion of the Sarbecovirus envelope gene (E gene) (5). Fifty-five microliters of RNA were extracted from 200 µL of a respiratory specimen using the Ambion AM1836 RNA kit (Thermofisher) paired with the Kingfisher Flex instrument (Thermofisher). The 20 µL reactions, comprised of Taqman Fast Virus One-step master mix and 5 µL of RNA, were cycled for 5 min@ 50°C, 20 sec@ 95°C followed by 40 cycles of 5 sec@ 95°C and 30 sec @ 58°C on a Biorad CFX96 thermal cycler. RT-PCR results were analyzed with the CFX manager software (version 3.1).

Through public health and epidemiology/surveillance and laboratory records, date of symptom onset was determined. Time from symptom onset to RT-PCR, or symptoms to test (STT), was calculated based on laboratory records. For all positive samples, the cycle threshold (Ct) was obtained. The study was performed in accordance with protocol HS23906 (H2020:211), approved by the University of Manitoba Research Ethics Board.

Tissue Culture Infectious Dose 50% (TCID50) Assay

Samples were stored at -80°C for between 2 to 4 weeks before being processed for culture. Viral titers of patient samples were determined through TCID50 assays inside a biocontainment level 4 laboratory (BSL4). Briefly, Vero cells (ATCC: CCL-81), maintained in Modified Eagles Medium (MEM) supplemented with 5% Fetal Bovine Serum (FBS), 1% penicillin/ streptomycin (P/S), $0.5\ \mu\text{g}/\text{mL}$ Amphotericin B and 1% L-glutamine, were seeded into 96 well plates (Thermo Scientific, 167008) at 70% confluency. Using dilution blocks, patient samples were serially diluted 10-fold from 10^{-1} to 10^{-8} in MEM supplemented with 2% FBS, 1% Penicillin/Streptomycin, $0.5\ \mu\text{g}/\text{mL}$ Amphotericin B and 1% L-glutamine. Dilutions were placed onto the Vero cells in triplicate and incubated at 37°C with 5% CO_2 for 96 hours. Following incubation of 4 days, cytopathic effect (CPE) was evaluated under a microscope and recorded. TCID50 and TCID50/mL were calculated using the Reed and Muench method previously described (6)

Statistical Methods

Data are presented as mean \pm standard deviation for normally distributed data and as median [Interquartile range] for non-normally distributed data. P values are reported as two tailed. All statistical analysis was performed with Stata V14.2 (College Station, Texas, USA). Between group comparisons were performed using a Students t test or Mann-Whitney test. Normality was assessed using the Kolmogorov-Smirnov test, and logistic regression was performed with robust standard errors.

Results

A total of 90 samples were analyzed. Median age of the patients sampled was 45 (30-59). Forty nine percent of our samples were from males. SARS-CoV-2 was successfully cultivated from 26 (28.9%) of the samples. The samples included in this study included those positive for SARS-CoV-2 by RT-PCR from day of symptom onset (Day 0) up to 21 days post symptom onset. Within this range of samples, positive cultures were only observed up to day 8 post symptom onset (Figure 1). Median Ct count of all samples was 23 (IQR 17-32). The median TCID50/ml was 1780 (282-8511). Positive culture samples had a significantly lower Ct when compared to culture negative samples (17 [16-18] vs 27 [22-33], $p < 0.001$, Figure 2). Symptom to test time was also significantly lower in culture positive vs. culture negative samples (3 [2-4] vs. 7 [4-11], $p < 0.001$, Figure 2).

Multivariate logistic regression using positive culture as a predictor variable (binary result) and STT, age and gender as independent variables showed Ct as being significant (OR 0.64 95% CI 0.49-0.84, $p < 0.001$). This implies that for every one unit increase in Ct, the odds of a positive culture decreased by 32%. Increasing symptom to test time was also significantly associated with a negative culture (OR 0.63, 95% CI 0.42-0.94, $p = 0.025$). For every one day increase in STT, the odds ratio of being culture positive was decreased by 37%. Receiver operating characteristic curves constructed using Ct vs. positive culture showed an area of 0.91 (95% CI 0.85-0.97, $p < 0.001$) with 97% specificity obtained at a Ct of greater than 24. Similarly, STT vs. positive culture showed an area of 0.81 (95% CI 0.0.73-0.90, $p < .001$), with 96% specificity at > 8 days. The probability of successfully cultivating SARS-CoV-2 on Vero cell culture compared to STT is demonstrated in Figure 3. The probability of obtaining a positive viral culture peaked on day 3 and decreased from that point.

Discussion

PCR and other nucleic amplification (NA) strategies have surpassed viral culture as the gold standard viral diagnostic, because of their wider application, higher sensitivity, rapid performance, and ability for field deployment. A major drawback to PCR and other diagnostic approaches (including other NA, serology, antigen detection) is that they all fail to determine virus infectivity: PCR sensitivity is excellent but specificity for detecting replicative virus is poor (13). Our study utilized a cross-sectional approach to correlate COVID-19 symptom onset to specimen collection with SARS-CoV-2 E gene RT-PCR and virus viability as determined by cell culture.

These results demonstrate that infectivity (as defined by growth in cell culture), is significantly reduced when RT-PCR Ct values are greater than 24. For every 1 unit increase in Ct, the odds ratio for infectivity decreased by 32%. The high specificity of Ct and STT suggests that Ct values greater than 24, along with duration of symptoms greater than 8 days may be used in combination to determine duration of infectivity in patients. Positive cell culture results in our study were most likely between days one and five. This finding is consistent with existing literature (1,2).

This study is the first to report a large enough data set that demonstrates a link between *in vitro* viral growth, Ct value and STT.

These results have implications for clinical care, infection prevention and control and public health. These data can be used to efficiently target case finding efforts by better defining the period of maximal transmission risk. This will be of particular importance in the maintenance phase of the response, where case finding efforts to rapidly interrupt chains of transmission will be essential. Isolation of COVID-19 cases in the community is typically recommended for at least ten days after symptom onset. Our data supports this approach. Jurisdictions across Canada and the US are recommending a variety of strategies to discontinue isolation of hospitalized COVID-19 cases (7-12). Clinical criteria including 14 days from symptom onset or 72 hours symptom free (whichever is

longer) are being used in some while other jurisdictions are using two negative NP RT-PCR results 48 hours apart after 14 days of symptoms. Our data supports the former approach since RT-PCR positivity persists significantly beyond infectivity; the alternative approach may lead to unnecessary isolation, and use of PPE and testing resources. The qualitative reporting of results of SARS-CoV-2 RT-PCR as positive or negative is sufficient for diagnosis but may be supplemented by Ct, a semi-quantitative value, as well as time of symptom onset to guide infection control, public health and occupational health decisions.

Our study has important limitations. First, our study utilized a single SARS-CoV-2 gene target (E gene). Though other gene targets may offer greater specificity, SARS-CoV-2 E-gene is more consistently used in both laboratory-developed tests (LDT) and commercial assays. The testing criteria in Manitoba had sufficient pre-test probability to make the likelihood of a false positive remote. In addition, the first 71 of 90 samples were confirmed using the described protocol with CDC N1-gene target (14). Second target confirmation was discontinued at that time based on being satisfied with testing criteria and assay sensitivity to accurately identify true COVID-19 cases. Reagent supply also played a role. Second, the recall bias of symptom onset is possible, but this likely would have been equally distributed between those who were culture positive and negative. Third, the infectivity of certain individual cases and the accuracy of our culture assay may have unique variations. Though some individuals in our cross-sectional study would be considered immunocompromised, patients with these conditions could have prolonged shedding of infective SARS-CoV-2 and may not be fully represented here. Few children have been diagnosed with COVID-19 in our province (Median age of positive PCR = 45 [30-59]). With other respiratory viruses, children may have prolonged shedding. Finally, our patient numbers remain small and larger studies are needed to establish Ct criteria that reliably correlates with loss of infectivity and that utilize additional SARS-CoV-2 gene targets.

In conclusion, the SARS-CoV-2/COVID-19 pandemic represents a dynamic situation where decisions and policy must be guided by evidence. Our study showed no positive viral cultures with a Ct greater than 24 or STT greater than 8 days. The odds of a positive culture were decreased by 32% for each unit increase in Ct. This data, if confirmed, may help guide isolation, contact tracing, and testing guidelines.

Hi Tammy,

I've only received 1 email from you today, with a letter attached. I've received no records.

Thanks,

Christine

Accepted Manuscript

Figure Legends:

Figure 1: SARS-CoV-2 viral dynamics as expressed by E gene RT-PCR Cycle threshold (Ct) value and cell culture TCID₅₀/mL, over time (days). Squares represent Ct values while triangles reflect TCID₅₀.

Figure 2: SARS-CoV-2 E gene RT-PCR Cycle Threshold (Ct) values and symptom to test time (STT) in samples that were culture positive (Ct +, STT +), or negative (Ct -, STT -). Positive SARS-CoV-2 culture samples had a significantly lower Ct when compared to culture negative samples (17 [16-18] vs 27 [22-33], $p < 0.001$). Symptom to test time was also significantly lower in culture positive vs. culture negative samples (3 [2-4] vs. 7 [4-11], $p < 0.001$).

Figure 3: Comparison of symptom onset to test (days) to the probability of successful cultivation on Vero cells and SARS-CoV-2 E gene RT-PCR Cycle threshold (Ct) value. Ct values are represented by the line graph with circles. Probability of SARS-CoV-2 culture is shown by the bar graph.

Subject: RE: propagate VIDO viral culture isolate (COVID-19 virus)

Hi Yan,

Thanks for the information , it is very helpful.

Can the working dilution, (1mg/ml) be stored at 4 C or should it be frozen at -20 C ?

Also, in order to get 1 ug/ml solution, I am figuring that I have to use only 1 ul of this solution per ml of the working solution? So, if I am making up 20ml then I only need 20ul?

Thank you,

[REDACTED]

Subject: RE: propagate VIDO viral culture isolate (COVID-19 virus)

Hi [REDACTED]

If you like , you can double up on this amount (50 ul virus plus 2ml medium)to ensure sufficient cell coverage in the flask.

For 50 mg TPCK trypsin, you could first dissolve in 50 ml medium (1 mg/ml), then, you can use it to prepare working solution.

Hope this will be helpful.

Yan

Cc: Bastien, Nathalie (PHAC/ASPC) <nathalie.bastien@canada.ca>
Subject: RE: propagate VIDO viral culture isolate (COVID-19 virus)

Hi Dr. Li,

I have a question for you regarding the virus propagation. When we perform the 1 hour incubation with the following dilution:

50ul virus plus 950ul MEM+2%FBS+penn/strep+ 1ug/ml of TPCK trypsin for 1 hr, my question is :

Would this volume be enough to cover the whole 72 cm flask surface? It is a total of 1.0 ml volume , is this sufficient?
Is there any need for us to possibly double up on this amount, to ensure sufficient cell coverage in the flask?
Is there a quick formula for preparing the 1ug/ml TPCK solution, I just want to double check with my calculation to ensure we're using the proper concentration , we have received T1426 TPCK, so it would be the same .

Thanks so much,

[REDACTED]

Subject: RE: propagate VIDO viral culture isolate (COVID-19 virus)

H [REDACTED]

Here is how we propagate a viral stock:

We culture Vero E6 cells in MEM+10%FBS+Penn/strep at 37C/5%CO2 in T75 flask. When cells grow to 80-90% confluence, cells were infected with 50ul virus plus 950ul MEM+2%FBS+penn/strep+ 1ug/ml of TPCK trypsin for 1 hr. Then inoculum was removed and replaced with 20 ml of fresh MEM+2%FBS+penn/strep+ 1ug/ml of TPCK trypsin. CPE showed up at day 3 postinfection.

TPCK trypsin is from Sigma. Cat#: T1426-50mg. It is lyophilized. We directly dissolve it in MEM.

Subject: propagate VIDO viral culture isolate (COVID-19 virus)

Hi Nathalie,

I just have a few questions for you re. the COVID -19 virus propagation.

ATIA - 19(1)

We have re-passed Vero 76 cells in EMEM with FBS, Pen Strep and Fungizone added, and they are currently starting to grow. We are not familiar with this media, as we don't use it as our primary media for the PRNT West Nile assay.

1. Your current procedure states that TPCK Trypsin (1ug/ml) , is added to the inoculum . We don't use this TPCK at all, can you provide me with the supplier and Catalogue number for this trypsin? Is it in lyophilized or liquid form? From what I see in the procedure, this same concentration of TPCK is then used for the 3 day incubation, should this incubation also be done at 37 C ?
2. After the CPE is observed at 3 days, do we have to perform any freeze-thaw cycles, or is the virus primarily in the 20 mls of media that we have added after the 1 hour incubation?
3. Is it necessary to use this supernatant, and repeat this procedure in order to amplify the growth of virus?

Thanks very much,

2020-Our file: PHAC-A-2020-000110 / TTL

2020-12-07

Christine Massey
21 Keystone Avenue
Toronto, Ontario
M4C 1G9

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Please also note that my request is not limited to records that were authored by the PHAC or that pertain to work done by PHAC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that PHAC has downloaded or printed.

Clarification:

Date range of request is January 1, 2020 until June 15, 2020

Enclosed please find records responsive to your request. You will note that portions of the records are withheld from disclosure pursuant to sections 19 and 20 of the Act. For ease of reference, a copy of the Act may be found at <https://laws-lois.justice.gc.ca/eng/acts/a-1/> which provides a description of the redaction(s) applied.

Should you have any questions or concerns about the processing of your request please do not hesitate to contact Tammy Turpin-Loyer, the analyst responsible for this file, by email at tammy.turpin-loyer@canada.ca with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitting-complaint> or by mail to:

Office of the Information Commissioner of Canada

We are now offering epost Connect™ services

The Public Health Agency of Canada's Access to Information and Privacy (ATIP) Office is now offering requesters an alternative way to receive responses to requests submitted under the *Access to Information Act* and the *Privacy Act*. EPOST Connect is a service that allows you to receive documents digitally in a safe, secure and timely manner. And there is **no cost to you!**

New to epost? Simply:

- 1) open a free account at www.epost.ca, and then
- 2) send us an email at phac.atip-aiprp.aspc@canada.ca to let us know that you wish to receive a response to your request through the epost Connect interface. Please include the email address linked to your epost account and reference the request number in your response.

Already have an epost account? Simply send us an email at phac.atip-aiprp.aspc@canada.ca and include the information noted above.

Once you have registered for this service and notified us of your interest in receiving responses via epost, we will send you an email when our response is ready for you to access.

EPOST Connect is a secure messaging service that offers protection for your documents, files and messages under the *Canada Post Corporation Act* and the Criminal Code of Canada. This means you can be sure that any information being shared remains secure and supports compliance with federal privacy regulations.

For more information about how epost Connect works, please visit:

To: "Turpin-Loyer, Tammy (HC/SC)" <tammy.turpin-loyer@canada.ca>

Hi Tammy,

Thank you for the dated letter, however there is still a problem with it. The letter states that responsive records are enclosed.

I've gone through both of the pdf attachments that contain the records and there is nothing in them that is responsive to my request.

The manuscript and emails discuss exactly what I stated in my request that I am not interested in: mixing patient samples (adulterating them) with genetic material, specifically monkey kidney (aka "Vero") cells and fetal bovine serum (FBS); and PCR tests; the emails also mention sequencing.

There is no description anywhere of what I requested: separating a thing (the alleged "SARS-COV-2") from everything else in a patient sample.

I don't even see the word "isolate" (or "isolation", or "purify" or "purification") anywhere, except in the manuscript where it appears **only in the context of isolating people**, not a virus (the [published version](#) of the paper is searchable.) (And note the admission on page 1: "**RT-PCR detects RNA, not infectious virus**").

All references here to "the virus" are absurd and fraudulent and based on wild, unscientific assumptions.

No one has looked for or found "the virus". They simply assumed (based on PCR tests that are utterly incapable of determining the presence of an intact virus) that patient samples contained "the virus"; they then adulterated the samples with genetic material and toxic drugs, then irrationally blamed "the virus" for harm to the monkey kidney cells.

This is a typical example of what I call "fraudulent monkey business", the only difference being that the manuscript and emails do not even make a fraudulent claim (that I can see) of having isolated (or "purified") any virus.

[Also note that the samples were stored in "viral transport media" for 1-3 days before the PCR testing was even begun. The [CDC's SOP for such](#) includes fetal bovine serum and toxic drugs. Thus in all likelihood, the samples in this study were contaminated with genetic material before any investigation even began.]

These records have nothing to do with isolation of a virus (as per the every day meaning that I indicated in my quest); they are not responsive to my request.

Thank you for your efforts, but I require an accurate response from PHAC indicating that they have "no responsive records".

Our file: PHAC-A-2020-000110 / TTL

Christine Massey
21 Keystone Avenue
Toronto, Ontario
M4C 1G9

Dear Christine Massey:

This is in follow-up to our response, December 28, 2020 to your request made under the *Access to Information Act* (the Act) for the following information:

All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that {I am} using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. {I am} not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Please also note that {my} request is not limited to records that were authored by the PHAC or that pertain to work done by PHAC. {My} request includes any sort of record, for example (but not limited to) any published peer-reviewed study that PHAC has downloaded or printed.

Clarification:

Date range of request is January 1, 2020 until June 15, 2020

As requested, The Public Health Agency of Canada has further discussed with the program area and requested clarification of the records that were provided in response to the request above.

Your request has resulted in a "No Records Exist", because of the way that you have formulated your request. The isolation of the virus is not completed without the use of another medium, therefore we have no records that would show this process taking place. It is important to understand the following: The gold standard assay used to determine the presence of intact virus in patient samples is viral isolation in cell culture. With this

assay, if virus is present in the patient sample, it will multiply and produce visible cytopathic effects, which means that infected cells demonstrate visible changes. Additionally, the detection of an increase in the genetic viral material by PCR further confirms that intact virus is present in the patient sample, since increasing viral genetic material necessitates replication of the viral within the cell culture. This technique was successfully used to confirm that intact SARS-COV-2 was present in Canadian patient samples as evidenced in the material provided. In the case of SARS-COV-2 isolation, Vero cells combined with minimal essential medium (MEM) were used because they are essential to support viral replication and cell growth. This combination supports the growth of other coronavirus types and was successful in the case of SARS-CoV-2 as well

Should you have any questions or concerns about the processing of your request, please do not hesitate to contact Tammy Turpin-Loyer, the analyst responsible for this file, by email at tammy.turpin-loyer@canada.ca with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. Dear Access to Information and Privacy Coordinator,

This is a formal request for records made under the *Access to Information Act (R.S.C., 1985, c. A-1)*.

Last week, the U.K. Secretary of State for Health and Social Care Matt Hancock stated that:

"Over the last few days, thanks to our world class genomic capability in the UK, we have identified a new variant of coronavirus which may be associated with the faster spread in the southeast of England. Initial analysis suggests that this variant is growing faster than the existing variants. We've currently identified over a thousand cases of this variant, predominantly in the south of England, although cases have been identified in nearly 60 different local authority areas and numbers are increasing rapidly. Similar variants have been identified in other countries over the last few months. We've notified the World Health Organization about this new variant, and Public Health England is working hard to continue its expert analysis ... I must stress at this point that there is currently nothing at this point to suggest that this variant is more likely to cause serious disease and the latest clinical advice is that it's highly unlikely that this mutation would fail to respond to a vaccine but it shows we've got to be vigilant and follow the rules and everyone needs to take personal responsibility not to spread this virus."

<https://twitter.com/talkRADIO/status/1338510584275460099>

On December 20, 2020 Minister of Health Patty Hajdu [tweeted](#):

"This afternoon, @JustinTrudeau and I are meeting with our colleagues and officials from the Incident Response Group to discuss the genetic variant of the virus that causes COVID-19 identified in the United Kingdom."

Description of Requested Records:

All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) that:

- describe the isolation of the [alleged] *genetic variant of the [alleged] virus that [allegedly] causes [the alleged disease referred to as] COVID-19 [allegedly] identified in the United Kingdom*, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; fetal bovine serum).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation" refers instead to:

- the culturing of something, or
 - the performance of an amplification test (i.e. a PCR test), or
 - the sequencing of something.
-
- describe the **discovery (not manufacture / fabrication / creation / assembly / alignment / trimming / mapping)** of the alleged genome for this alleged particular *new variant of coronavirus*;
 - describe how this alleged *new variant of coronavirus* relates to the alleged "SARS-COV-2";
 - include **any** additional analysis/investigation into this alleged "*new variant*".

Please note that my request is **not** limited to records that were authored by agents of PHAC, or to records that pertain to work done by agents of PHAC; it includes **any** sort of record, authored by anyone, anywhere, ever.

If any records match the above descriptions of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. author; title; date; publisher); please provide URLs where possible.

Format:

URLs and/or pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Contact Information:

Last name: Massey

First name: Christine

Address: 21 Keystone Avenue, Toronto ON M4C 1G9

Phone: 905-965-6254

Email: cmssyc@gmail.com

Application Fee:

I will submit a \$5 cheque by mail, payable to the Receiver General for Canada.

Proof of Right:

Please find a copy in the attached "BC" jpg file.

Thank you in advance and best wishes,
Christine Massey, M.Sc.

Our file: PHAC-A-2020-000393 / TTL

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

Description of Requested Records:

“All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) that: · describe the isolation of the [alleged] genetic variant of the [alleged] virus that [allegedly] causes [the alleged disease referred to as] COVID-19 [allegedly] identified in the United Kingdom, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; fetal bovine serum). Please note that {I} am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. {I} am not requesting records where "isolation" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.
- describe the discovery (not manufacture / fabrication / creation / assembly / alignment / trimming / mapping) of the alleged genome for this alleged particular new variant of coronavirus;
- describe how this alleged new variant of coronavirus relates to the alleged "SARS-COV-2";
- include any additional analysis/investigation into this alleged "new variant".

Please note that my request is not limited to records that were authored by agents of PHAC, or to records that pertain to work done by agents of PHAC; it includes any sort of record, authored by anyone, anywhere, ever.

If any records match the above descriptions of requested records and are currently available to the public elsewhere, please provide enough information

about each record so that I may identify and access each record with certainty (i.e. author; title; date; publisher); please provide URLs where possible”.

Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request.

Your request has resulted in a “No Records Exist”, because of the way that you have formulated your request. The isolation of the virus variant is not completed without the use of another medium, therefore we have no records that would show this process taking place. It is important to understand the following: The gold standard assay used to determine the presence of intact virus in patient samples is viral isolation in cell culture. With this assay, if virus is present in the patient sample, it will multiply and produce visible cytopathic effects, which means that infected cells demonstrate visible changes. Additionally, the detection of an increase in the genetic viral material by PCR further confirms that intact virus is present in the patient sample, since increasing viral genetic material necessitates replication of the viral within the cell culture. This technique was successfully used to confirm that intact SARS-COV-2 was present in Canadian patient samples. In the case of SARS-COV-2 isolation, Vero cells combined with minimal essential medium (MEM) were used because they are essential to support viral replication and cell growth. This combination supports the growth of other coronavirus types and was successful in the case of SARS-CoV-2 as well.

Should you have any questions or concerns about the processing of your request, please do not hesitate to contact Tammy Turpin-Loyer, the analyst responsible for this file by email at tammy.turpin-loyer@canada.ca, with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitting-complaint> or by mail to:

Office of the Information Commissioner of Canada
30 Victoria Street
Gatineau, Quebec K1A 1H3

To: "Turpin-Loyer, Tammy (HC/SC)" <tammy.turpin-loyer@canada.ca>

Hello Tammy,

Thank you, but are you sure this response is accurate? The request was not only for records of isolation/purification, but any analysis whatsoever of "the variant".

All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) that:

6/24/2021

Access to Info request to PHAC re alleged "new COVID-19 variant" <https://mail.google.com/mail/u/0?ik=80b5ba0454&view=pt&search=all>

- describe the isolation of the [alleged] *genetic variant of the [alleged] virus that [allegedly] causes [the alleged disease referred to as] COVID-19 [allegedly] identified in the United Kingdom*, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells, fetal bovine serum).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

- describe the **discovery (not manufacture / fabrication / creation / assembly / alignment / trimming / mapping)** of the alleged genome for this alleged particular *new variant of coronavirus*;
- describe how this alleged *new variant of coronavirus* relates to the alleged "SARS-COV-2";
- include **any** additional analysis/investigation into this alleged "*new variant*".

Christine

Dear Christine Massey:

This is in follow-up to our initial response to your request made under the *Access to Information Act* (the Act) for the following information:

“All records in the possession, custody or control of the Public Health Agency of Canada (PHAC) that: · describe the isolation of the [alleged] genetic variant of the [alleged] virus that [allegedly] causes [the alleged disease referred to as] COVID-19 [allegedly] identified in the United Kingdom, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; fetal bovine serum). Please note that {I} am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. {I} am not requesting records where "isolation" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.
- describe the discovery (not manufacture / fabrication / creation / assembly / alignment / trimming / mapping) of the alleged genome for this alleged particular new variant of coronavirus;
- describe how this alleged new variant of coronavirus relates to the alleged "SARS-COV-2";
- include any additional analysis/investigation into this alleged "new variant".

Please note that {my} request is not limited to records that were authored by agents of PHAC, or to records that pertain to work done by agents of PHAC; it includes any sort of record, authored by anyone, anywhere, ever. If any records match the above descriptions of requested records and are currently available to the public elsewhere, please provide enough information about each record so that {I} may identify and access each record with certainty (i.e. author; title; date; publisher); please provide URLs where possible”.

As further clarified, June 24, 2021, “The request was not only for records of isolation/purification, but any analysis whatsoever of "the variant". Three bullets from the original request were highlighted and an additional search was requested for: ·

- describe the discovery (not manufacture / fabrication / creation / assembly / alignment / trimming / mapping) of the alleged genome for this alleged particular new variant of coronavirus;
- describe how this alleged new variant of coronavirus relates to the alleged "SARS-COV-2";
- include any additional analysis/investigation into this alleged "new variant".

In response to your request, please find attached the records released in full. In addition as requested, please find below URLs for records **matching the above descriptions of requested records and that are currently available to the public for ease of access:**

1. Describe the **discovery (not manufacture/fabrication/creation/assembly/alignment/trimming/mapping)** of the alleged genome for this alleged particular new variants of coronavirus.
Within the scope of 'discovery' of the [B.1.1.7 \(Alpha\)](#) variant in Canada, following release of the first identified genome for B.1.1.7 on the global genomics lineage platform [PANGO from a sample on 7 February 2020](#), NML identified a small number of isolated cases. The sample came from patient nasopharyngeal swab that tested positive for COVID-19 by [PCR test](#) and was then went for whole-genomic sequencing. Standard techniques for genome sequencing were used. There are 21 identifiable genomic differences between the B.1.1.7 (Alpha) variant and the original Wuhan-1 reference genome. The whole B.1.1.7 (Alpha) "family" of variants now has, on average, approximately 38 mutations from that original Wuhan-1 reference genome.
2. Describe how this alleged new variant of coronavirus relates to the alleged "SARS-COV-2"
Copies of the Wuhan-1 and the first Canadian B.1.1.7 (Alpha) sequences can be provided. Sequence data tracing the evolution of the SARS-CoV-2 virus, including Canadian samples as well as globally, are published on [GISAID](#).
3. Include **any** additional analysis/investigation into this alleged "new variant"
There were no specific additional analyses related to the 'discovery' of B.1.1.7 (Alpha) in Canada at that time. Since the [declaration of B.1.1.7 \(Alpha\) as a Variant of Concern by the WHO on 18 December 2020](#), PHAC has gathered clinical case and laboratory data as part of its routine public health responsibility for evaluation of epidemiological factors associated with this and other variants, including severity, transmissibility, immune response, and vaccine effectiveness. Analyses such as these have been incorporated into the modelling reports provided to the public throughout the pandemic, including those on [COVID-19 daily epidemiology update](#) and linked to from this site.

Should you have any questions or concerns about the processing of your request, please do not hesitate to contact Tammy Turpin-Loyer, the analyst responsible for this file, either by phone at 613-698-6021, by email at tammy.turpin-loyer@hc-sc.gc.ca, with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitting-complaint> or by mail to:

Office of the Information Commissioner of Canada

Underlined text below are public links that are provided in a separate document

A-2020-000393

In response to the request, these links were also provided for the information that is available to the public:

"Please see the attached rec form and documents pertaining to this request. The text below describes the text attachments.

Attached are the original Wuhan-1 genome used as reference and the first B.1.1.7 (Alpha) genome sequenced in Canada from 7 February 2021. They are provided as simple text files for ease of accessibility.

The revised request text provides public links that may be of interest to the requestor.

The ATI request is specific to 'discovery' and as such we can provide information on the first example of B.1.1.7 (Alpha) identified in Canada. This isolated case was not particularly noteworthy at the time. Extracting the information about this sample and the data generated from it is relatively straightforward. Case specific information on the sample is Protected-B, e.g. identifiable information on the patient. We are interpreting additional analyses that relate to the characteristics of an identified variant rather than to its discover to be out of scope.

On the three questions, we would propose the following responses:

1. Describe the **discovery (not manufacture/fabrication/creation/assembly/alignment/trimming/mapping)** of the alleged genome for this alleged particular new variants of coronavirus.

Within the scope of 'discovery' of the B.1.1.7 (Alpha) variant in Canada, following release of the first identified genome for B.1.1.7 on the global genomics lineage platform PANGO from a sample on 7 February 2020, NML identified a small number of isolated cases. The sample came from patient nasopharyngeal swab that tested positive for COVID 19 by PCR test and was then went for whole-genomic sequencing. Standard techniques for genome sequencing were used. There are 21 identifiable genomic differences between the B.1.1.7 (Alpha) variant and the original Wuhan-1 reference genome. The whole B.1.1.7 (Alpha) "family" of variants now has, on average, approximately 38 mutations from that original Wuhan-1 reference genome.

2. Describe how this alleged new variant of coronavirus relates to the alleged "SARS-COV-2"

Copies of the Wuhan-1 and the first Canadian B.1.1.7 (Alpha) sequences can be provided. Sequence data tracing the evolution of the SARS-CoV-2 virus, including Canadian samples as well as globally, are published on GISAIID.

3. Include **any** additional analysis/investigation into this alleged "new variant"

There were no specific additional analyses related to the 'discovery' of B.1.1.7 (Alpha) in Canada at that time. Since the declaration of B.1.1.7 (Alpha) as a Variant of Concern by the WHO on 18 December 2020, PHAC has gathered clinical case and laboratory data as part of its routine public health responsibility for evaluation of epidemiological factors associated with this and other variants, including severity, transmissibility, immune response, and vaccine effectiveness. Analyses such as these have been incorporated into the modelling reports provided to the public throughout the pandemic, including those on COVID-19 daily epidemiology update and linked to from this site.

PHAC A-2020-000393/TTL Response

Christine Massey <cmssyc@gmail.com>

Sun, Sep 12, 2021 at 8:31 PM

To: "Turpin-Loyer, Tammy (HC/SC)" <tammy.turpin-loyer@hc-sc.gc.ca>

Thank you Tammy.

I notice that the only **records** provided are copies of electronic "genomes" for the alleged original "Wuhan-1 virus" and the alleged "first" Canadian "Alpha variant".

The final page of the response package contains some very vague notes that were clearly written in response to my request, but no pre-existing records.

At the top of the final page of the response package, a text box was inserted that reads "*underlined text below are public links that are provided in a separate document.*" Both the response letter and the release package have sections that are coloured and/or underlined, and they look like hyperlinks but there are no **live** hyperlinks in the documents (with the exception of a live link to the website of the Office of the Information Commissioner), and there are no other documents. Was this by design or accident? If by accident, may I have corrected versions of these documents with live links, and any other documents that I was meant to receive?

Also, the notes state that "*NML identified a **small number** of isolated cases*". Does PHAC have no records stating what that "small number" is?

The note continues: "*The sample [SINGULAR] came from patient nasopharyngeal swab that tested positive for COVID-19 by PCR test and was then went for whole-genomic sequencing.*" Am I to understand that **only 1 patient sample** has been classified as positive for the alleged "Alpha variant" via "whole-genomic" sequencing?

The note continues: "*Standard techniques for genomic sequencing were used*". Does this mean that PHAC has no records that actually **describe the specific methodology** that was used?

I would expect PHAC to have record(s):

- explaining how the patient sample was selected for "genomic sequencing";
- stating whether the patient sample was stored in virus transport medium (which often contains fetal bovine serum and toxic drugs) prior to the "sequencing", and
- describing the source of the genetic material that used to create the "genome" (i.e. was the total RNA extracted from the patient sample "soup" of genetic material, or was the patient sample cultured with monkey cells and fetal bovine first and then the total RNA extracted from that soup?), and
- containing the specific "genomic sequencing" protocol that was implemented.

I have not requested/expected/wanted any identifiable patient information, only records describing methodology and/or including analysis of the alleged variant and/or comparisons with the alleged original "virus".

The note stating that analyses relating to the characteristics of "an identified variant" were considered out of scope makes no sense to me.

Thanks and best wishes,
Christine

Ontario Agency for Health Protection and Promotion aka Public Health Ontario (PHO)
480 University Avenue
Suite 300
Toronto ON
M5G 1V2
privacy@oahpp.ca

Dear Freedom of Information and Privacy Coordinator,

This is a Freedom of Information Request for Access to General Records, made under *FIPPA*.

Description of Requested Records:

All records in the possession, custody or control of the Ontario Agency for Health Protection and Promotion aka Public Health Ontario (PHO) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Please also note that my request is not limited to records that were authored by PHO or that pertain to work done by PHO. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study downloaded or printed by PHO.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Contact Information:

Last name: Massey

First name: Christine

Address: #221 - 93 George St. S., Brampton ON L6Y 1P4

Phone: 905-965-6254

Email: cmssyc@gmail.com

Application Fee:

I will submit a \$5 cheque by mail.

Thank you in advance and best wishes,
Christine Massey, M.Sc.
Brampton ON L6Y 1P4

Fwd: Access to Info Request to PHO: studies re isolation of SARS-COV-2

Christine Massey <cmssyc@gmail.com>

Thu, Oct 1, 2020 at 12:29 PM

To: privacy@oahpp.ca

Dear FOI coordinator,

I am looking forward to PHO's response to my request submitted on July 16, and just wanted to update you with my new address for your records (although I prefer email communication and don't want anything shipped to me):

21 Keystone Avenue
Toronto ON
M4C 1G9

Cheers and thank you,
Christine

RE: Your Access Request No. 2020-08

Ilone Harrison <Ilone.Harrison@oahpp.ca>
To: Christine Massey <cmssyc@gmail.com>

Thu, Jun 3, 2021 at 1:04 PM

Dear Ms. Massey,

Thank you for following up with Public Health Ontario (PHO) about your request for:

All records in the possession, custody or control of the Ontario Agency for Health Protection and Promotion aka Public Health Ontario (PHO) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or*
- the performance of an amplification test (i.e. a PCR test), or*
- the sequencing of something.*

Please also note that my request is not limited to records that were authored by PHO or that pertain to work done by PHO. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study downloaded or printed by PHO.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).

Public Health Ontario recognizes that Freedom of Information (FOI) processes are an important service and a right for Ontarians, but in these extraordinary circumstances, public health and safety are of utmost importance. During the COVID-19 pandemic response, our ability to process FOI requests is directly impacted and we continue to experience delays related to:

- the conduct of full and comprehensive searches for records by program areas which may be prioritizing critical COVID-19 response activities in connection with the emergency;
- our ability to conduct reviews of those responsive records that have already been received from program

areas; and

- conducting necessary consultations with third parties or other institutions that may be prioritizing work related to COVID-19 or may be operating at a reduced capacity.

We will continue to make reasonable efforts to process incoming and existing requests. However, please be advised that your request may take longer than normal to process. We will try our best to keep you updated on the progress of your request.

Throughout the pandemic, PHO has published a wide range of resources related to COVID-19. In the interim, you may wish to review these resources. Please visit our [main COVID-19 webpage](#) to access them.

Please contact me if you have any questions.

Yours truly,

Ilone M. Harrison *FIP CIPM CIPP/C CIAPP-P*

Subject: Re: FIPPA request to OAHPP/PHO re "vaccine" consent, outcome tracking

Dear Ilone and Ms. Geiger,

Thank you, my \$5.00 application fee payable to Public Health Ontario is in the mail, addressed to [661 University Avenue](#).

Also, almost a year ago, on **July 16, 2020**, I emailed another request to PHO, asking for records describing the purification of "SARS-COV-2" from any patient sample in the world. I mailed in a \$5 cheque the following day. A screenshot of the request has been posted on my website for many months:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/07/FOI-to-PHO-isolation-July-16-2020-2.jpg>

On October 1, 2020 I advised PHO via email of my address change, for your records, and indicated that I still preferred email communication and still didn't want anything shipped to me, as had been stated in my request. A screenshot of that email is attached.

According to my bank, PHO cashed the cheque for that request on **October 30, 2020**. A screenshot of the cheque and the date of transaction, from my online banking, is attached.

I've still never received any response whatsoever to this request.

I have moved again since, but still prefer email communication and do not want anything shipped to me. Is PHO ever going to provide their response to that request?

Thank you, best wishes,

Christine

Your Access Request No. 2020-08

Ilone Harrison <Ilone.Harrison@oahpp.ca>
To: Christine Massey <cmssyc@gmail.com>

Wed, Aug 4, 2021 at 10:47 AM

Dear Ms. Massey,

I am writing to you in connection with your request for access to information, specifically for:

All records in the possession, custody or control of the Ontario Agency for Health Protection and Promotion aka Public Health Ontario (PHO) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, or*
- the performance of an amplification test (i.e. a PCR test), or*
- the sequencing of something.*

Please also note that my request is not limited to records that were authored by PHO or that pertain to work done by PHO. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study downloaded or printed by PHO.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).

The type of work described in your request is not done by Public Health Ontario (PHO) and there are no records at PHO that are responsive to your request.

PHO performs testing for SARS-CoV-2 virus, the virus that causes COVID-19, but the work that PHO does has been excluded from your request as per paragraph 2. Information about PHO's COVID-19 testing is available on our website:

- [Coronavirus Disease 2019 \(COVID-19\) – PCR](#)
- [Coronavirus Disease 2019 \(COVID-19\) – Serology](#)
- [COVID-19 Virus Variant of Concern \(VoC\) Surveillance — see SARS-CoV-2 \(COVID-19 Virus\) Variant of Concern \(VoC\) Surveillance](#)

FIPPA section 50(1) allows you to appeal this decision, within 30 days, to the Information and Privacy Commissioner of Ontario (IPC). The IPC's contact information is:

2 Bloor Street East

[Suite 1400](#)

Toronto, Ontario

[M4W 1A8](#)

Telephone: (416) 326-3333 (Toll Free: 1-800-387-0073)

If you decide to appeal, you should provide a copy of your original request and this decision letter. You will also need to send the IPC an appeal fee of \$25.00, by cheque or money order payable to the Minister of Finance.

Please do not hesitate to contact me for clarification or to discuss any aspect of your request or this decision.

Yours truly,

Ilone M. Harrison *FIP CIPM CIPP/C CIAPP-P*

Freedom to Info Request: studies re isolation of SARS-COV-2

Christine Massey <cmssyc@gmail.com>

Tue, May 19, 2020 at 5:57 PM

To: FOI@peelregion.ca, ZZG-RegionalClerk <ZZG-Regionalclerk@peelregion.ca>

May 19, 2019

Kathryn Lockyer, Regional Clerk
Regional Municipality of Peel
Office of the Regional Clerk
10 Peel Centre Dr., 5th Floor, Suite A
Brampton, ON
L6T 4B9

Dear Kathryn,

This is a request for General Information, made under *the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)*.

Description of Requested Records:

All records in the possession, custody or control of the Region of Peel (for example: downloaded to a computer, printed in hard copy, etc.) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead only to:

- the culturing of something, and/or
- the performance of an amplification test (i.e. a PCR test), and/or
- the sequencing of something.

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

Cc: ZZG-RegionalClerk <ZZG-Regionalclerk@peelregion.ca>, "Lockyer, Kathryn" <Kathryn.Lockyer@peelregion.ca>, Patrick.Brown@brampton.ca, "Medeiros, Martin - Councillor" <martin.medeiros@brampton.ca>, bart.danko@peelregion.ca

Bcc: Vaccinechoicecanada Info <info@vaccinechoicecanada.com>, david.crowe@theinfectiousmyth.com, Liesa Cianchino <mistma.consulting.inc@live.com>

Hello "jc",

Thank you for your message.

For clarity and so that I can be certain that this is a legitimate response (since I have never received such a vague FOI response in all the years I've been submitting FOI requests, and it seems strange and suspicious to receive an official response from a government agency that does not specify to whom it is addressed or the specific matter being discussed or the name of the sender), would you please indicate what request you have referred to?

Specifically, please indicate:

- the name of the person who requested the records,
- the date of the request,
- the description of the records that were requested, and,
- your name.

I have submitted more than 1 request to the Region of Peel (both pertaining to "COVID19") in just the last few weeks. So you can understand my bewilderment. Right now I have no idea which of those requests you might be addressing, if either.

Thank you and best wishes,
Christine Massey

ZZG-FOI <zzg-foi@peelregion.ca>

Fri, Jun 12, 2020 at 2:36 PM

To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Good Afternoon,

Thank you for your email. During the current COVID-19 environment we have revised our process to eliminate the use of any personal information where we can as to minimize the associated risks, this includes removing the requesters name and the nature of the request from our email correspondence. We differentiate requests by referencing the file number associated with your request (20-130).

That being said, we can take your email as consent to share this information with you via email.

Request 20-130 was submitted by Christine Massey, by email on May 19, 2020. The \$5.00 application was received on May 28, 2020. The description of the request is as follows:

“All records in the possession, custody or control of the Region of Peel (for example: downloaded to a computer, printed in hard copy, etc.) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead only to:

- the culturing of something, and/or
- the performance of an amplification test (i.e. a PCR test), and/or
- the sequencing of something.

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

If you have any further questions, please don't hesitate to contact foi@peelregion.ca

Kind Regards,

Jenna Charlton

FOI request to Chief Ramer / Toronto Police re: "SARS-COV-2 purification"

Christine Massey <cmssyc@gmail.com>
To: officeofthechief@torontopolice.on.ca

Fri, Aug 27, 2021 at 8:54 PM

August 27, 2021

To:
Chief James Ramer,
Toronto Police Service
Access & Privacy Section, RMS
40 College Street
Toronto ON M5G 2J3

Dear Chief Ramer,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act* due to enforcement by members of Toronto Police Service of unlawful "COVID-19" restrictions.

Please note: this request is very similar to another request that I submitted on April 16, 2021 where I had **specified** purification *via maceration, filtration and use of an ultracentrifuge*. The difference with this new request is that it does **not** specify maceration, filtration and use of an ultracentrifuge; instead it mentions filtration, ultracentrifugation and chromatography by way of an example.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Chief Ramer or Toronto Police Services describing the **purification** of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is **not** specifically for records that were authored by Chief Ramer or Toronto Police Services or that pertain to work done at/by Chief Ramer or Toronto Police Services. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere that has been downloaded or printed by Chief Ramer or Toronto Police Services and relied on as **evidence** of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Good Morning,

We received a payment of \$5.00 in our office today as we have no letter of direction as you have submitted only the fee, we are unable to

process. Processing of the request will commence upon receipt of the request. Please submit an Access/Correction Request form found @ www.torontopolice.on.ca/aps). I

have attached the form for your convenience, also we need a photocopy of two pieces of valid government-issued identification, at least one with a photograph and signature

is required; for example a driver's licence or a passport.

Hello,

With whom am I communicating? Please provide your name.

My request was submitted on August 27th, see attached. It was made under the *Municipal Freedom of Information and Protection of Privacy Act*.

Please cite the provision in the legislation that requires me to provide you with a photocopy of two pieces of "valid government-issued identification, at least one with a photograph and signature". I am aware of no such requirement.

Best wishes,
Christine Massey, M.Sc.

Christine Massey

Peterborough, ON

Dear Christine Massey:

RE: "All studies and/or records in the possession, custody or control of Chief Ramer or Toronto Police Services describing the purification of any COVID-19 virus...."

I am responding to your access request, our file no.: 21-2451 received by our office on September 13th, 2021. Please be advised that under the provisions of *Municipal Freedom of Information and Protection of Privacy Act* (the Act), the time limit for a response is 30 days (which would be October 13th, 2021). We wish to advise you that the time has been extended in accordance with Section 20 of the Act for an additional 60 days. The new due date for a response will be December 12th, 2021.

The reason for the extension is that the request necessitates a search through a large number of records, and meeting the time limit would unreasonably interfere with the operations of the institution.

The Coordinator is responsible for this decision.

If you have any questions regarding your request, please contact Analyst J. Madaleno at (416) 808-7846.

You may request a review of this decision by the Information and Privacy Commissioner, 2 Bloor Street East, Suite 1400, Toronto, Ontario, M4W 1A8. You have 30 days to make this appeal.

If you would like to appeal this decision, please provide the Commissioner's office with the following:

- 1) The file number listed at the beginning of this letter.
- 2) A copy of this decision letter.
- 3) A copy of the original request for information which you sent to this institution.

In addition, you must send an appeal fee to the Commissioner's office. If your request was for personal information, the appeal fee is \$10.00. The appeal fee for all other requests for information is \$25.00. Please include the fee in your letter of appeal in the form of either a cheque or a money order, made payable to the Minister of Finance.

Yours truly,

Mr. P. McGee
Coordinator

To: Jacklyn Madaleno-Nicolaou <Jacklyn.Madaleno-Nicolaou@torontopolice.on.ca>

Dear Jacklyn,

Thank you for the response.

I am confused by it though, because last year I received a [response](#) from Toronto Police within less than 6 weeks.

And since 116 institutions globally (34 of them Canadian) have [already failed](#) to locate even 1 responsive record, it seems highly unlikely that Chief Ramer or TPS will locate any such records in their possession.

And if the Chief or TPS do have responsive records that no one else on the planet appears able to find, I would think that such highly prized and sought-after possessions would be at their fingertips. There is a 1.5 million Euro reward for them, after all: <https://www.samueleckert.net/isolate-truth-fund/>

Are TPS's records so wildly unorganized that another 60 days is really necessary?

Thank you and best wishes,
Christine

Good Morning Christine,

I have processed your access to information request under the Municipal Freedom of Information and Protection of Privacy Act, our file 21-2451.

As you previously provided consent, please find in the link below our decision letter in response to your request.

Should you have any questions or concerns please don't hesitate to contact me, email is preferred.

Regards,

From: Christine Massey <cmssyc@gmail.com>

Dear Christine Massey:

RE: "All studies and/or reports in the possession, custody or control of Chief Ramer or Toronto Police Services describing the purification of any 'COVID-19 virus' (aka 'SARS-COV-2', including any alleged 'variants' i.e. 'B.1.1.7', 'B.1.351', 'P.1') (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)..."

I am responding to your request for access to information under the *Municipal Freedom of Information and Protection of Privacy Act* (the Act) our file number 21-2451.

Please be advised that based on the parameters of your request, correspondence was received from the relevant stakeholders indicating that the information you are seeking access is not in the possession, custody or control of the Toronto Police Service. Access cannot be provided as we are unable to locate any records responsive to your request.

You may wish to contact Toronto Public Health, for any information in their care and control related to COVID-19.

If you have any questions regarding your file, please contact Analyst J. Madaleno at (416) 808-7846 or jacklyn.madaleno@torontopolice.on.ca.

You may request a review of this decision* by writing to: The Information and Privacy Commissioner/Ontario, 2 Bloor Street East, Suite 1400, Ontario, M4W 1A8, telephone (416) 326-3333 or toll free 1-800-387-0073. You have 30 days to make this appeal.

Christine Massey <cmssyc@gmail.com>

RE: FW: APS File No.: 21-2451

Christine Massey <cmssyc@gmail.com>

Tue, Oct 19, 2021 at 11:24 AM

To: Jacklyn Madaleno-Nicolaou <Jacklyn.Madaleno-Nicolaou@torontopolice.on.ca>

It is there now.

Regarding the suggestion to contact Toronto Public Health, I have done so already. No one in Canada or the planet has the required information to prove the existence of the theoretical virus.

Thus far (October 18, 2021) 35 Canadian institutions have provided their responses: [Public Health Agency of Canada](#) (and another from [Public Health Agency of Canada](#), this one re the alleged “UK variant” aka “B.1.1.7” aka “Alpha”), [Health Canada](#) (and another from [Health Canada](#)), the [National Research Council of Canada](#), [Vaccine and Infectious Disease Organization-International Vaccine Centre \(VIDO-InterVac\)](#), [Canadian Institutes of Health Research](#), [Natural Sciences and Engineering Research Council of Canada](#), [Public Health Ontario](#), [Ontario Ministry of Health](#), [Alberta Premier Jason Kenney, his Office and Executive Council](#), [Institut National de Sante Publique du Quebec](#) (another from [Public Health Quebec](#)), [British Columbia’s Ministry of Health](#) (re “the UK variant”), [British Columbia’s Centre for Disease Control](#), [British Columbia’s Provincial Health Services Authority](#) (2 responses, 1 re “SARS-COV-2”, 1 re the alleged “B.1.1.7” aka “Alpha variant” aka “UK variant”), [Vancouver Coastal Health Authority](#) (re “B.1.1.7” aka “Alpha variant” aka “UK variant”), [Newfoundland Labrador Department of Health & Community Services](#), [New Brunswick’s Department/Ministry of Health](#), [McGill University](#), [University of Ottawa](#), the [City of Toronto](#), [Toronto Police](#), [Halton Region](#), the [Region of Peel](#) (Ontario), [Region of Durham](#) (Ontario); [KFL&A Public Health](#) (Kingston, Frontenac, Lennox and Addington, Ontario, re “any variant”), [Grey Bruce Health Services](#), [Grey Bruce Health Unit](#), [Niagara Regional Police Service](#), [Peterborough Public Health \(Ontario\)](#), [Peterborough Police Service](#) (Ontario) (another from [Peterborough Police](#)), [Aylmer Police Service](#) (Ontario) (and another from [Aylmer Police](#)), [Hastings Prince Edward Public Health](#) (Ontario), the [University of Toronto](#), [Sunnybrook Health Sciences Centre](#), [McMaster University](#) and [Mount Sinai Hospital](#) (Toronto) (note that researchers from the last 4 institutions had publicly claimed to have “isolated the virus”, as had VIDO-Intervac).

FOIs reveal that health/science institutions around the world (117 and counting!) have no record of SARS-COV-2 isolation/purification, anywhere, ever – Fluoride Free Peel

April 16, 2021

To:

Toronto Police Service
Access & Privacy Section, RMS
40 College Street
Toronto ON M5G 2J3

Dear Freedom of Information Officer,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act* due to enforcement by members of Toronto Police Service of unlawful "COVID-19" restrictions.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Toronto Police Service describing the **purification** of any "**COVID-19 virus**" (including "B.1.1.7", "B.1.351", "P.1" and any other "variant") (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" from a patient sample and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- sequenced the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other small things).

Please also note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere since December 2019 and relied on as evidence of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Ms. Christine Massey

Dear Ms. Massey:

Subject: City of Toronto Access Request Number 2020-01757

I am replying to your access request under the *Municipal Freedom of Information and Protection of Privacy Act*.

You have requested access to all records in the possession, custody or control of Dr. Eileen de Villa, Toronto Public Health or any Department or Staff Member of the City of Toronto, describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Staff of Toronto Public Health has conducted a search for the requested records. This decision reflects the results of their search.

Decision

Toronto Public Health staff has advised that despite a thorough search, they were unable to locate any records related to your request. Access therefore, cannot be granted as the records do not exist.

Staff further advised that they do not have records related to the process of testing samples, as this is a function of Public Health Ontario. If you have not already, you may wish to reach out to staff of Public Health Ontario for further information.

Right to appeal our decision

You may ask for a review within 30 days as of the date of this decision by contacting: The Registrar, Information and Privacy Commissioner/Ontario, 2 Bloor Street East, Suite 1400, Toronto, Ontario, M4W 1A8, telephone: 416-326-3333, or toll free 1-800-387-0073.

Ms. Christine Massey

December 21, 2020

If you choose to appeal, please provide the Commissioner with the following:

- the request number assigned to your request;
- a copy of this decision letter;
- a copy of your original request;
- the appeal fee for general records is \$25, payable by cheque or money order to the Minister of Finance.

For more information, you may wish to visit the IPC's website:
<http://www.ipc.on.ca/english/Home-Page/>

Should you have any questions, please contact **Zoë Cliff, Access and Privacy Officer**, at **416-392-9692** or zoe.cliff@toronto.ca.

Yours truly,

John Elvidge

August 16, 2021

To:
Tracy Lachance
Director, Access to Information and Chief Privacy Officer
University of Ottawa |
Office of the Vice-President
613-562-5800 ext. 1667
550 Cumberland (M409) Ottawa ON K1N 6N5

Submitted via email to: tlachanc@uOttawa.ca

Dear Ms. Lachance,

This is a formal request for access to general records, made pursuant to the *Freedom of Information and Protection of Privacy Act*.

A cheque payable to the University of Ottawa for the \$5.00 application fee will be submitted via mail to the Access to Information and Privacy Office, 550 Cumberland, Room M407, Ottawa, ON K1N 6N5.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of the University of Ottawa's President, Faculties, Vice-Chancellor, Senate, Officers, Executive Board, Secretary, or any health or science department head at the University of Ottawa, describing the **purification** of any "**COVID-19 virus**" (aka "**SARS-COV-2**", including any alleged "**variants**" i.e. "**B.1.1.7**", "**B.1.351**", "**P.1**") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please also note that my request is **not limited** to records that were authored by/at your institution or that pertain to purification done by/at your institution. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study **authored by anyone, anywhere, ever** that has been downloaded or printed by the University of Ottawa's President, Faculties, Vice-Chancellor, Senate, Officers, Executive Board, Secretary, or any health or science department head and relied on as evidence of a disease-causing "virus".

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Via email: cmssyc@gmail.com

Dear Mrs. Massey,

**Re: Final Decision
University of Ottawa File A2021-13**

Further to your request for information pursuant to the *Freedom of Information and Protection of Privacy Act* received at the University of Ottawa on August 26, 2021, I am writing to inform you of my decision.

A search was conducted in the areas identified in your request for responsive records.

Access to your request cannot be provided as there are no such records. This decision is made in accordance with paragraph 29(1)(a) of the *Freedom of Information and Protection of Privacy Act*.

I have decided to waive all fees related to this request pursuant to Section 8 of Ontario Regulation 460.

I am responsible for making this decision.

You may ask for a review of this decision within 30 days of receiving this letter by writing to: The Information and Privacy Commissioner (IPC)/Ontario, 2 Bloor Street East, Suite 1400, Toronto, Ontario, M4W 1A8, Telephone: (416) 326-3333 or toll-free 1-800-387-0073.

If you decide to request a review of this decision, please provide the Commissioner's office with the following:

- the file number listed at the beginning of this letter;
- copy of this decision letter; and
- a copy of the original request for information you sent to the University.

In addition, you must send an appeal fee to the Commissioner's office. If your request was for your personal information, the appeal fee is \$10.00. The appeal fee for all other requests for information is \$25.00. Please include the fee with your letter of appeal – appeal fees should be in the form of either a cheque or money order, payable to the Minister of Finance.

rafael.eskenazi@utoronto.ca

Dear Mr. Eskenazi,

This is a request for General Information, made under *the Freedom of Information and Protection of Privacy Act (FIPPA)*.

Description of Requested Records:

All records in the possession, custody or control of the Dalla Lana School of Public Health or any other department of the University of Toronto (for example: downloaded to a computer, printed in hard copy, etc.) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead only to:

- the culturing of something, and/or
- the performance of an amplification test (i.e. a PCR test), and/or
- the sequencing of something.

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

rafael.eskenazi@utoronto.ca

Dear Mr. Eskenazi,

This is a request for General Information, made under *the Freedom of Information and Protection of Privacy Act (FIPPA)*.

Description of Requested Records:

All records in the possession, custody or control of the Dalla Lana School of Public Health or any other department of the University of Toronto (for example: downloaded to a computer, printed in hard copy, etc.) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead only to:

- the culturing of something, and/or
- the performance of an amplification test (i.e. a PCR test), and/or
- the sequencing of something.

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access

Sunnybrook Freedom of Information Office: FOI Request

Cutler, Jeffrey <jeffrey.cutler@sunnybrook.ca>
To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Wed, Jun 17, 2020 at 4:38 PM

Dear M. Massey,

I am contacting you regarding your access request that was originally submitted to the University of Toronto. Upon review, the University of Toronto transferred the request to Sunnybrook Health Sciences Centre pursuant to section 25(2) of the *Freedom of Information and Protection of Privacy Act*, because the University considers that Sunnybrook has a greater interest in any responsive records.

Please find attached a notice letter informing you of a time extension to respond to your request.

As per your instructions to the University of Toronto, I am communicating with you via email and sending a PDF copy of the letter.

Sincerely,

Jeffrey Cutler, LL.B., CIPP/C

Privacy and Freedom of Information Coordinator, Sunnybrook Health Sciences Centre

2075 Bayview Ave., Toronto ON M4N 3M5

Tel: (416) 480-6100 x 85046

Notice of Time Extension

June 17, 2020

Request Number 2020-0004

Christine Massey
#221 – 93 George St. S.
Brampton, ON L6Y 1P4

Dear Ms. Massey:

I am contacting you regarding your access request under the *Freedom of Information and Protection of Privacy Act* (the Act) as submitted to the University of Toronto on May 18, 2020. On June 2, 2020, the University transferred the request to Sunnybrook Health Sciences Centre (Sunnybrook) after determining that Sunnybrook had a greater interest in the responsive records.

If you have not already submitted \$5.00 application fee to the University of Toronto, I ask that it be provided to Sunnybrook immediately.

To confirm, you requested access to the following:

All records in the possession, custody or control of the Dalla Lana School of Public Health or any other department of the University of Toronto (for example: downloaded to a computer, printed in hard copy, etc.) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead only to:

- *the culturing of something, and/or*
- *the performance of an amplification test (i.e. a PCR test), and/or*
- *the sequencing of something.*

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

A request under the Act usually must be answered within 30 calendar days, however section 27 (enclosed) allows for time extensions under certain circumstances. The time limit for answering your request has been extended for an additional 30 days to July 17, 2020. Because consultations with a person outside the institution are necessary to comply with the request, Sunnybrook cannot reasonably be completed within the time limit. You may request that our decision to extend the time limit be reviewed by the Information and Privacy Commissioner. The Commissioner can be reached at:

Information and Privacy Commissioner/Ontario
2 Bloor Street East, Suite 1400
Toronto, Ontario M4W 1A8
Canada

Please note that you have 30 days from the receipt of this letter to request a review from the Commissioner.

Please contact me at 416-480-6100, ext. 85046 if you have any questions. We would appreciate you using the Request number FOI -2020-0004 assigned to your request in any further correspondence.

Sincerely,

Jeff Cutler
Privacy and FOI Coordinator

Freedom of Information and Protection of Privacy Act, R.S.O. 1990

Extension of time

27 (1) A head may extend the time limit set out in section 26 for a period of time that is reasonable in the circumstances, where,

(a) the request is for a large number of records or necessitates a search through a large number of records and meeting the time limit would unreasonably interfere with the operations of the institution; or

(b) consultations with a person outside the institution are necessary to comply with the request and cannot reasonably be completed within the time limit.

Notice of extension

(2) Where a head extends the time limit under subsection (1), the head shall give the person who made the request written notice of the extension setting out,

(a) the length of the extension;

(b) the reason for the extension; and

(c) that the person who made the request may ask the Commissioner to review the extension.

Decision to the Requester Regarding an Access Request

VIA EMAIL

July 14, 2020

Request Number 2020-0004

Christine Massey
#221 – 93 George St. S.
Brampton, ON L6Y 1P4

Dear Ms. Massey:

I am responding to your request for access to records under *the Freedom of Information and Protection of Privacy Act* as submitted to the University of Toronto on May 18, 2020. On June 2, 2020, the University transferred the request to Sunnybrook Health Sciences Centre (Sunnybrook) after determining that Sunnybrook had a greater interest in the responsive records. We received the \$5.00 application fee on July 8, 2020.

You requested access to the following information:

All records in the possession, custody or control of the Dalla Lana School of Public Health or any other department of the University of Toronto (for example: downloaded to a computer, printed in hard copy, etc.) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead only to:

- *the culturing of something, and/or*
- *the performance of an amplification test (i.e. a PCR test), and/or*
- *the sequencing of something.*

[If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).]

A search has been conducted by Sunnybrook's Freedom of Information and Privacy Office for records responsive to your request. No records corresponding to your request were identified. Consequently, the file is closed.

You may request this decision be reviewed by the Information and Privacy Commissioner of Ontario within 30 days of receipt of this letter. The Commissioner can be reached at:

Information and Privacy Commissioner/Ontario
Suite 1400, 2 Bloor Street East
Toronto, ON M4W 1A8
Telephone: 416 326-3333, 1-800-387-0073 (within Ontario).

The Commissioner will require a copy of your original request, a copy of this decision letter and an appeal fee in the amount of \$25.00, payable to the Minister of Finance.

Please contact me at 416-480-6100 ext. 85046 with any questions.

Sincerely,

Jeffrey Cutler
Privacy and Freedom of Information Coordinator

Sunnybrook Freedom of Information Office: FOI Request 2020-0004

Christine Massey <cmssyc@gmail.com>

Wed, Jul 15, 2020 at 12:26 PM

To: "Cutler, Jeffrey" <jeffrey.cutler@sunnybrook.ca>

Thank you very much, Mr. Cutler.

I've never had an FOI request forwarded before, so I'm uncertain how to interpret the letter. The request was specific to U of T. Since it was forwarded to Sunnybrook, does the response indicate that U of T has no responsive records, or that Sunnybrook has none? Or that neither has any?

Thanks and best wishes,
Christine

Cutler, Jeffrey <jeffrey.cutler@sunnybrook.ca>
To: Christine Massey <cmssyc@gmail.com>

Wed, Jul 15, 2020 at 1:07 PM

Hello M. Massey,

In determining whether to transfer the request, the University of Toronto would have searched for and identified any responsive records. No responsive records were identified by them. A search by Sunnybrook also did not identify any responsive information. In summary, neither Sunnybrook nor the University of Toronto identified any responsive records.

Please contact me if you wish to discuss.

Sincerely,

Jeffrey Cutler, LL.B., CIPP/C

via email: cmssyc@gmail.com

Dear Ms. Massey,

Re: Access to Information Request 2020-006

Thank you for your access to information request received DATE, requesting access to:

All records in the possession, custody or control of the Vaccine and Infectious Disease Organization-International Vaccine Centre (VIDO-InterVac) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- *the culturing of something, or*
- *the performance of an amplification test (i.e. a PCR test), or*
- *the sequencing of something.*

Please also note that my request is not limited to records that were authored by the VIDO-InterVac or that pertain to work done by the VIDO-InterVac. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the VIDO-InterVac has downloaded or printed.

This is to advise you that the record(s) you wish to access do not exist. For your information, this notification has been provided pursuant to clause 7(2)(e) of *The Local Authority Freedom of Information and Protection of Privacy Act*. If you would like to request a review of this decision, you may do so by completing a "Request for Review" form and forwarding it to the Saskatchewan Information and Privacy Commissioner within one year of this notice. Your completed form can be sent to 503-1801 Hamilton Street, Regina, Saskatchewan, S4P 4B4 or webmaster@oipc.sk.ca. This form is available from this office or online at www.oipc.sk.ca.

If you have questions or concerns, please contact the writer at rayelle.johnston@usask.ca.

Sincerely,

Rayelle Johnston

Thu, Oct 28, 2021 at 4:21 PM

Dear Ms. Massey:

This is in response to your request under the Access to Information Act, which was received by this office on October 26, 2021, for:

All studies/reports in possession, custody or control of RCMP describing purification of "COVID-19 virus?? (aka "SARS-COV-2??, including any alleged "variants") (ie: via filtration, ultracentrifugation and chromatography) directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material. Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: -cultured something, and/or -performed an amplification test (i.e. a PCR test), and/or -fabricated a "genome", and/or -produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate and am not requesting records describing replication of a "virus" without host cells, or private patient records, but simply records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). My request includes any such study/report authored by anyone, anywhere. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it) with URLs where possible.

In order to process your request we require additional information:

- **Location:** Provide a specific location (city and/or detachment) you wish to have searched. The RCMP has numerous autonomous units and in many instances the investigative information is strictly available from the unit conducting the investigation.
- **Timeframe:** Please specify a timeframe (start and end date) for the records you are seeking.

You may send this to the undersigned via e-mail.

Your file will remain open in our office for the next 30 days. If we have not received a response by **November 29, 2021**, this file will be closed.

Please be advised that you are entitled to lodge a complaint with the Information Commissioner concerning the processing of your request within 60 days of receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint should be addressed to:

Office of the Information Commissioner of Canada
30 Victoria Street, 7th Floor
Gatineau, Quebec K1A 1H3

<https://www.oic-ci.gc.ca/en/submitting-complaint>

Should you wish to discuss this matter further, please contact the undersigned at ATIPB@rcmp-grc.gc.ca. Please quote the file number appearing on this letter.

Thu, Oct 28, 2021 at 6:37 PM

To: ATIPB <ATIPB@rcmp-grc.gc.ca>

Dear Ms. Saebnoori-Zhang,

Re: **Location**: I have no idea how the RCMP's records are organized, and I have zero insight into where the requested records might be located and no idea how the public could be expected to know such things, nor am I required to under the legislation. However I request that you begin by asking **Brenda Lucki, RCMP Commissioner** since she has made the following claim:

"Choosing to ignore mandatory isolation and quarantine orders is not only against the law, it's also putting citizens, first responders, health professionals and the most vulnerable at risk of exposure to the virus. Collectively, everyone in Canada has a role to play to ensure compliance with isolation and physical distancing measures."

Brenda Lucki, RCMP Commissioner

<https://www.rcmp-grc.gc.ca/en/news/2020/rcmp-role-enforcing-the-federal-quarantine-act>

Please also ask **all 6 Deputy Commissioners**, and whoever is ultimately responsible for the RCMP's "COVID-19" Public Statements, Broadcasts for Employees and media releases, i.e.: <https://www.rcmp-grc.gc.ca/en/covid-19>; <https://www.rcmp-grc.gc.ca/en/news/2020/non-medical-masks-rcmp-employees>, and:

*...we can confirm that the RCMP has dealt with its first six cases of COVID-19...We are also mindful that not all persons who are COVID-19 symptomatic are tested, but that **all such members are subject to self-isolation**. As with other departments and agencies, the RCMP will continue to report to Public Health on these matters and will rely on the reporting found at canada.ca/covid19.*

<https://www.rcmp-grc.gc.ca/en/news/2020/rcmp-national-statement>

If any "autonomous units" of the RCMP are considered as separate institutions for the purposes of the Access to Information Act, please advise where the public can find contact information for their autonomous ATIP coordinators, as I am aware of no such autonomous coordinators. My request was submitted via the ATIP portal (<https://atip-airpr.tbs-sct.gc.ca/en/Home/Welcome>) and no autonomous units of the RCMP were included in the list of institutions.

Re: **Timeframe**: November 1, 2019 until the date the search is commenced.

Thank you and best wishes,
Christine

Access to Information Act Request A-2021-08921

ATIPB <ATIPB@rcmp-grc.gc.ca>
To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Fri, Oct 29, 2021 at 2:33 PM

Good day Ms. Massey,

This letter is with regard to your *Access to Information Act* request received October 26, 2021 for:

All studies/reports in possession, custody or control of RCMP describing purification of "COVID-19 virus?? (aka "SARS-COV-2??, including any alleged "variants") (ie: via filtration, ultracentrifugation and chromatography) directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material. Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: -cultured something, and/or -performed an amplification test (i.e. a PCR test), and/or -fabricated a "genome", and/or -produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate and am not requesting records describing replication of a "virus" without host cells, or private patient records, but simply records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). My request includes any such study/report authored by anyone, anywhere. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it) with URLs where possible.

A review of your request indicates that another government institution, Health Canada, has greater interest in the records in question. Your request has therefore been transferred to that institution with their agreement to process the request under *Access to Information Act*. All future correspondence and communications relating to this request should be directed to and will be received from;

Ms. Cynthia Richardson

Thank you, but I can assure you that the information is **not** held by Health Canada. I already have 2 FOI responses from them confirming this, attached.

As of today, myself and others have obtained FOI responses from **38 Canadian institutions**; all of them are publicly available. No one has been able to provide or cite any such record.

Public Health Agency of Canada (and another from **Public Health Agency of Canada**, this one re the alleged "UK variant" aka "B.1.1.7" aka "Alpha"; and another from **Public Health Agency of Canada** re any alleged virus/variant), **Health Canada** (and another from **Health Canada**), the **National Research Council of Canada**, **Vaccine and Infectious Disease Organization-International Vaccine Centre (VIDO-InterVac)**, **Canadian Institutes of Health Research**, **Natural Sciences and Engineering Research Council of Canada**, **Public Health Ontario**, **Ontario Ministry of Health**, **Ontario Ministry of the Solicitor General and Ontario Provincial Police**, **Alberta Premier Jason Kenney, his Office and Executive Council**, **Calgary Police Service**, **Institut National de Sante Publique du Quebec** (another from **Public Health Quebec**), **British Columbia's Ministry of Health** (re "the UK variant"), **British Columbia's Centre for Disease Control**, **British Columbia's Provincial Health Services Authority** (2 responses, 1 re "SARS-COV-2", 1 re the alleged "B.1.1.7" aka "Alpha variant" aka "UK variant"), **Vancouver Coastal Health Authority** (re "B.1.1.7" aka "Alpha variant" aka "UK variant"), **Newfoundland Labrador Department of Health & Community Services**, **New Brunswick's Department/Ministry of Health**, **McGill University**, **University of Ottawa**, the **City of Toronto**, **Toronto Police** (and another from **Toronto Police**), **Halton Region**, **Hamilton Police Service** (Ontario), the **Region of Peel** (Ontario), **Region of Durham** (Ontario); **KFL&A Public Health** (Kingston, Frontenac, Lennox and Addington, Ontario, re "any variant"), **Grey Bruce Health Services**, **Grey Bruce Health Unit**, **Niagara Regional Police Service**, **Peterborough Public Health (Ontario)**, **Peterborough Police Service** (Ontario) (another from **Peterborough Police**), **Aylmer Police Service** (Ontario) (and another from **Aylmer Police**), **Hastings Prince Edward Public Health** (Ontario), the **University of Toronto**, **Sunnybrook Health Sciences Centre**, **McMaster University** and **Mount Sinai Hospital** (Toronto) (note that researchers from the last 4 institutions had publicly claimed to have "isolated the virus", as had VIDO-Intervac).

Globally we have responses from **127 institutions in over 25 countries**, all publicly available:
<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

Every institution has failed to provide or cite even 1 record describing the isolation aka purification of the alleged "COVID-19 virus" directly from a patient sample that was not first adulterated with other sources of genetic material. (Those other sources are typically monkey kidney aka "Vero" cells and fetal bovine serum).

And, even after culturing, virologists never purify an alleged virus and sequence it, or characterize it, or study it with controlled experiments to see if it actually spreads disease from host to host. They simply irrationally declare that they have "isolated the virus", when nothing could be further from the truth.

Without the crucial step of isolation/purification having been performed (from many patients, followed by characterization, sequencing and controlled experiments), **there is no way to claim scientifically that the alleged "novel coronavirus" actually exists.**

Without the isolation/purification step having been performed and followed by all other necessary steps, all claims of the alleged "virus" are **nothing but wild speculation backed only by fraudulent science, fraudulent tests and fraudulent diagnoses.**

Virologists do not employ the scientific method when claiming to have "isolated a virus". Instead, they starve and poison cell lines and irrationally attribute harm (that they themselves cause) to "the virus".

Their so-called "virus isolates" are in fact concoctions that they themselves created: a patient sample mixed with fetal bovine serum, a cell line (typically monkey kidney cells in the case of "SARS-COV-2") and toxic drugs. Their concoctions have never been shown to contain any "virus".

They extract all of the genetic material (RNA in the case of "SARS-COV-2") from a patient sample or from a cell culture concoction, make wild assumptions and have a computer program fabricate a so-called "genome" from millions of sequences (allegedly) detected in their concoction.

They point at electron microscopy images of particles in their cell culture concoctions and insist "that's the virus". The particles just happen to look like other known, non-viral particles and have not been shown to have originated from the patient sample. The particles are never purified, sequenced, characterized or studied with controlled experiments. They are never shown to be a disease-spreading "virus".

No one on the planet has any proof or compelling evidence for the existence of the alleged "virus". No one has a purified sample of "it".

Virology is weaponized pseudoscience.

Attached is an **EVIDENCE PACKAGE.**

The RCMP had better start investigating this and hold accountable all of the politicians and public health officials who have terrorized the public for the last 2 years over a purely theoretical, imaginary "virus", and put an end to the fraud-based kill shots and other "COVID-19" crimes against humanity.

I require that you forward this email to the OPP Commissioner.

Best wishes,
Christine Massey, M.Sc.

Dear Christine Massey,

Please note that upon reviewing your Access to Information Act request, our office realized that the Royal Canadian Mounted Police would not be the correct department to address this request based on our mandate and the wording of your request. As outlined in section 8(1) Access to Information Act and given the mandate of Health Canada, our organization reached out to Health Canada on October 29, 2021 to see if they would accept the transfer in order for them to see if they had any responsive records to your request. On October 29, 2021, Health Canada agreed to accept the transfer of this Access to Information Act request. Once the transfer was accept, our file was subsequently closed in accordance with the Access to Information Act. Any further queries should be directed to Health Canada.

Respectfully,

Megan

Wed, Nov 3, 2021 at 10:40 AM

Dear Ms. Massey,

The following is to acknowledge receipt of your online Access to Information request, pursuant to the *Access to Information Act* (the Act), for the following information:

All studies/reports in possession, custody or control of RCMP describing purification of "COVID-19 virus (aka "SARS-COV-2, including any alleged "variants") (ie: via filtration, ultracentrifugation and chromatography) directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material. Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: -cultured something, and/or -performed an amplification test (i.e. a PCR test), and/or -fabricated a "genome", and/or -produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate and am not requesting records describing replication of a "virus" without host cells, or private patient records, but simply records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). My request includes any such study/report authored by anyone, anywhere. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it) with URLs where possible.

This request was transferred to us in error as you clearly indicated that you were seeking records under the custody or control of the RCMP. We have already received two similar requests under your name for PHAC, one of which you have already received a response (PHAC-A-2020-000110).

I apologize for the inconvenience.

Please do not hesitate to contact me if you have any questions,

Talia Payant

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All studies/reports in possession, custody or control of RCMP describing purification of “COVID-19 virus (aka “SARS-COV-2, including any alleged “variants”) (ie: via filtration, ultracentrifugation and chromatography) directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material. Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: -cultured something, and/or -performed an amplification test (i.e. a PCR test), and/or -fabricated a "genome", and/or -produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate and am not requesting records describing replication of a "virus" without host cells, or private patient records, but simply records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). My request includes any such study/report authored by anyone, anywhere. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it) with URLs where possible.

Since you are seeking records under the custody or control by the RCMP, your file is closed under Health Canada.

Should you have any questions or concerns about the processing of your request, please do not hesitate to contact Vanoushka Alexis, the analyst responsible for this file, by

phone at 613-219-0574, by email at Vanoushka.alexis@hc-sc.gc.ca or by fax at 613-941-4541, with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitting-complaint> or by mail to:

Office of the Information Commissioner of Canada

Christine Massey <cmssyc@gmail.com>
To: ATIPB <ATIPB@rcmp-grc.gc.ca>

Wed, Nov 3, 2021 at 12:51 PM

Dear Megan,

Health Canada confirmed this morning that:

"This request was transferred to us in error as you clearly indicated that you were seeking records under the custody or control of the RCMP."

See attached. The ball is back in your court.

And, regardless of what is happening with my FOI request, I still require you to forward the **EVIDENCE PACKAGE** that I provided you, to the RCMP Commissioner.

Best wishes,
Christine

Access to Information Act request A-2021-09261 Acknowledgment

ATIPB <ATIPB@rcmp-grc.gc.ca>
To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Mon, Nov 8, 2021 at 2:59 PM

****Please note that in light of the current events related to COVID-19, our capacity to process requests is limited, as well, the capacity of personnel involved in the retrieval of records and/or provision of representations is similarly affected. This has an impact on our ATIP operations. Our apologies for the delay in completing your request. We thank you in advance for your considerations and understanding.**

Dear Ms. Massey:

Due to administrative error we are reopening this request and there is a new ATIP number. Please refer to the above number when contacting ATIP. This is to acknowledge receipt of your request under the *Access to Information Act*, which was received by this office on November 8, 2021, for:

All studies/reports in possession, custody or control of RCMP describing purification of "COVID-19 virus?? (aka "SARS-COV-2??, including any alleged "variants") (ie: via filtration, ultracentrifugation and chromatography) directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material. Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: -cultured something, and/or -performed an amplification test (i.e. a PCR test), and/or -fabricated a "genome", and/or -produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate and am not requesting records describing replication of a "virus" without host cells, or private patient records, but simply records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). My request includes any such study/report authored by anyone, anywhere. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it) with URLs where possible.

We are undertaking the necessary search of our records.

The Royal Canadian Mounted Police is committed to assisting you with your request. In order to do so, an extension of 30 days beyond the 30-day statutory time limit is required. This extension is being taken in accordance with paragraph 9(1)(a) of the Act. The extension is required due to a large volume of records and because meeting the original time limit would unreasonably interfere with operations. A description of paragraph 9(1)(a) can be found at: <http://laws-lois.justice.gc.ca/eng/acts/A-1>.

Please be advised that you are entitled to lodge a complaint with the Information Commissioner concerning the processing of your request within 60 days of receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint should be addressed to:

Office of the Information Commissioner of Canada
30 Victoria Street, 7th Floor
Gatineau, Quebec K1A 1H3

<https://www.oic-ci.gc.ca/en/submitting-complaint>

Should you wish to discuss this matter further, please contact us at ATIPB@rcmp-grc.gc.ca. Please quote the file number appearing on this letter.

Regards,

Ms. Christine MASSEY

[REDACTED]
Peterborough, Ontario [REDACTED]

Dear Ms. Massey:

This is in response to your request under the *Access to Information Act*, which was received by this office on November 8, 2021, to obtain:

All studies/reports in possession, custody or control of RCMP describing purification of "COVID-19 virus?? (aka "SARS-COV-2??, including any alleged "variants") (ie: via filtration, ultracentrifugation and chromatography) directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material. Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: -cultured something, and/or -performed an amplification test (i.e. a PCR test), and/or -fabricated a "genome", and/or -produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate and am not requesting records describing replication of a "virus" without host cells, or private patient records, but simply records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). My request includes any such study/report authored by anyone, anywhere. If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it) with URLs where possible.

Based on the information provided, a search for records was conducted with our **Chief Human Resources Office and Specialized Policing Services**. Unfortunately, we were unable to locate records which respond to your request. However, you may wish to make a separate Access to Information request with Health Canada. They are located at the following address:

Cynthia Richardson
Access to Information and Privacy Coordinator
Holland Cross, Tower B
7th Floor, Suite 700, Room 741
1600 Scott Street, Address locator: 3107A
Ottawa, Ontario K1A 0K9

They can also be reached by email at: Atip-Aiprp@hc-sc.gc.ca or by phone at: 613-954-9165

The *Access to Information Act* has established the right of applicants to access federally maintained records. If this particular matter concerned another police department, they may have information of interest to you. The *Access to Information Act* does not authorize the RCMP to search files or to disclose information belonging to other police forces.

Please be advised that you are entitled to lodge a complaint with the Information Commissioner concerning the processing of your request within 60 days of receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint should be addressed to:

Office of the Information Commissioner of Canada
30 Victoria Street, 7th Floor
Gatineau, Quebec K1A 1H3

<https://www.oic-ci.gc.ca/en/submitted-complaint>

Should you wish to discuss this matter further, you may contact Ms. Megan Groh at ATIPB@rcmp-grc.gc.ca. Please quote the file number appearing on this letter.

Request A-2021-09261 - Response

Christine Massey <cmssyc@gmail.com>
To: ATIPB <ATIPB@rcmp-grc.gc.ca>

Thu, Nov 18, 2021 at 6:39 PM

Thank you Megan.

Since the RCMP, and in fact no one on the planet (including the institutions that fraudulently claimed to have "isolated the virus"), has a shred of proof that "the virus" exists, please advice what the RCMP intends to do about this. Has an investigation been initiated? The people have been terrorized for almost 2 years now.

Best wishes,
Christine

FIPPA request to Dr. Kevin Smith & UHN re SARS-COV-2 purification

Christine Massey <cmssyc@gmail.com>
To: FOI@uhn.ca

Mon, Oct 11, 2021 at 2:58 PM

October 11, 2021

FIPPA Coordinator
University Health Network
190 Elizabeth Street
R. Fraser Elliott Building, 2nd floor
Toronto, ON
M5G 2C4

Submitted via email to: FOI@uhn.ca

Dear FIPPA Coordinator,

This is a formal request for access to general records, made under the Freedom of Information and Protection of Privacy Act (FIPPA/the Act)

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Dr. Kevin Smith or any "COVID-19" leaders/decision-makers at University Health Network describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Contact Information:

Last name: Massey
First name: Christine
Address: [REDACTED]

Phone [REDACTED]
Email: cmssyc@gmail.com

Application Fee:

I will submit a \$5 cheque by mail, payable to UHN.

Thank you in advance and best wishes,
Christine Massey, M.Sc.

Christine Massey

Peterborough ON

Via email: cmssyc@gmail.com

Request Number 2021-011:

Dear Ms. Massey:

This is in response to your access request for information under *the Freedom of Information and Protection of Privacy Act*, (FIPPA), for records related to studies describing the purification of the COVID-19 virus.

Dr. Kevin Smith and other leaders and decision-makers were contacted and asked to review their records. We were not able to locate any records responsive to your request. Please note, staff of our Research Department confirmed that studies of this kind are not being conducted at UHN.

The decision as above has been made by Kevin Smith, President and CEO, University Health Network.

You may request a review of this decision within 30 days by contacting the Information and Privacy Commissioner. The Commissioner can be reached at:

Information and Privacy Commissioner/ Ontario
Suite 1400, 2 Bloor Street East
Toronto, ON M4W 1A8
Telephone: 416 326-3333, 1-800-387-0073 (within Ontario).

Please do not hesitate to contact me if you have any questions. We would appreciate you using the request number assigned to the request in any correspondence.

Sincerely,

Ron Ward, Manager Privacy Operations/
Freedom of Information Coordinator

University Health Network
Toronto General Hospital
190 Elizabeth Street, 2nd Floor
Toronto, Ontario M5G 2C4

Request label FOI to Patented Medicine Prices Review Board re SARS-COV-2 purification

Request description All studies/reports in possession/custody/control of Chairperson Mitchell Levine, Vice-Chairperson Mélanie Bourassa or the Patented Medicine Prices Review Board describing the purification of the alleged "SARS-COV-2" (including any alleged "variants") directly from a sample taken from a diseased human where the sample was not 1st combined with any other source of genetic material (i.e. monkey kidney cells = Vero cells; fetal bovine serum). I am NOT requesting studies/reports where researchers failed to purify the suspected "virus" and instead: - cultured something, and/or - performed an amplification test (i.e. PCR), and/or - fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or - produced electron microscopy images of unpurified things. I know that according to virus theory a "virus" requires host cells in order to replicate. I am NOT requesting records that describe replication of a 'virus' without cells, a strict fulfillment of Koch's Postulates, a suspected "virus" floating in a vacuum or private patient info. I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things), authored by anyone, anywhere. If such records are in the public domain, please cite enough info about each so that I may identify and access each one with certainty, with URLs if possible.

Format of request Electronic copy (The institution may provide the records via Email, CD or DVD depending on size)

Dear Ms. Massey,

This is further to your request made under the *Access to Information Act* for:

"All studies/reports in possession/custody/control of Chairperson Mitchell Levine, Vice-Chairperson Mélanie Bourassa or the Patented Medicine Prices Review Board describing the purification of the alleged "SARS-COV-2" (including any alleged "variants") directly from a sample taken from a diseased human where the sample was not 1st combined with any other source of genetic material (i.e., Monkey kidney cells = Vero cells; fetal bovine serum). I am NOT requesting studies/reports where researchers failed to purify the suspected "virus" and instead: - cultured something, and/or - performed an amplification test (i.e., PCR), and/or - fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or - produced electron microscopy images of unpurified things. I know that according to virus theory a "virus" requires host cells in order to replicate. I am NOT requesting records that describe replication of a 'virus' without cells, a strict fulfillment of Koch's Postulates, a suspected "virus" floating in a vacuum or private patient info. I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things), authored by anyone, anywhere. If such records are in the public domain, please cite enough info about each so that I may identify and access each one with certainty, with URLs if possible."

After consultation with each department within the Patented Medicine Prices Review Board, we have determined that no such documents exist.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself to this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitting-complaint> or by mail to:

Office of the Information Commissioner of Canada 30

FOI request to Dalhousie University re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: FOIPOP@dal.ca

Mon, Nov 15, 2021 at 12:57 PM

November 15, 2021

Heather Casavechia
FOIPOP Coordinator
Dalhousie University
Room 225, Henry Hicks Academic Administration Building
PO Box 15000
Halifax, Nova Scotia B3H 4R2
Submitted via email to: FOIPOP@dal.ca

Dear Ms. Casavechia,

This is a formal request for access to general records, made under Nova Scotia's *Freedom of Information and Protection of Privacy (FOIPOP) Act*.

Description of Requested Records:

1. All studies and/or reports in the possession, custody or control of Dalhousie University's President, Vice-Presidents, Associate and Assistant Vice-Presidents, Vice-Provosts, Deans, Department Chairs, Board of Governors, Senate, Dalhousie Advisory Council, any health or science department head at Dalhousie University, any of the men or women serving in those positions or any of the men or women responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses, describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of my request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere**.

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study/record that (in the opinion the man or woman ultimately responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses) proved the existence of "SARS-COV-2" in Wuhan, China.

If any records match the above descriptions of requested records and are currently available in the public domain, please

provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Electronic (i.e. pdf) documents sent to me via email; I do not wish for anything to be shipped to me.

Application Fee:

I will mail a check for \$5 to the address listed above.

Contact Information:

Last name: Massey

First name: Christine

Address: [REDACTED] Peterborough, Ontario, Canada [REDACTED]

Good morning,

Thank you for your Email. In order to move forward with your request, please submit a completed [application form](#). You can send the completed form back to this email address.

Please note Dalhousie has 30 days in which to answer your request, and the timeline will not begin until both the application form and the application fee has been received by the FOIPOP office. I understand you have mailed the application fee already so I will keep an eye open for it here.

Thank-you,

Brenda Williams, LIT, CIAPP-C (she/her)

Tue, Nov 16, 2021 at 9:16 AM

Good Morning Ms. Williams,

Could you please cite a provision in Nova Scotia's *Freedom of Information and Protection of Privacy (FOIPOP) Act* that authorizes an institution to dismiss a request on the grounds that it is not presented in a specific form? I am aware of no such provision.

Best wishes,
Christine

Tue, Nov 16, 2021 at 10:07 AM

Hi Christine,

Great question. The regulations of our FOIPOP act prescribe the forms applicable to the act. You can view the regulations [here](#). Form 1 is the form which allows application for access to information. We have simply adopted this form into something more accessible for requesters, you will see it is similar but specific to Dalhousie instead of the generic form.

However, not all information asked for on the form is strictly necessary to make an application. We do not require a mailing address unless you wish to receive your correspondence and information release via mail. Same with phone number, we do not require that unless you wish for us to call you. There is also a spot for a fax # on the Form 1 – again not required unless you wish to receive correspondence via fax. And finally, if you are submitting the form electronically you do not need to sign it in the traditional way.

Hope this helps!

FOI request to Dalhousie University re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: Dalhousie Info Access & Privacy <foipop@dal.ca>

Tue, Nov 16, 2021 at 11:19 AM

Dear Ms. Williams,

It seems that the answer to my question is "no", you cannot cite a provision in Nova Scotia's *FFO/POP Act* that authorizes an institution to dismiss a request on the grounds that it is not presented in a specific form, because there is no such provision.

The regulation reads:

Application for access to records

- 3 (1) An application
 - (a) must state that the application is made pursuant to the Act;
 - (b) **may be** in Form 1.

Therefore, I require you to accept the request that I have already submitted via email.

Best wishes,

Christine

Dear Christine Massey,

RE: Dalhousie University FOIPOP Request # FOIPOP-2021-486 – Decision Letter

Your complete application for access to information under the *Nova Scotia Freedom of Information and Protection of Privacy Act* (the Act) was received by Dalhousie's Privacy Office on **November 24, 2021**. You requested the following information:

"1. All studies and/or reports in the possession, custody or control of Dalhousie University's President, Vice-Presidents, Associate and Assistant Vice-Presidents, Vice-Provosts, Deans, Department Chairs, Board of Governors, Senate, Dalhousie Advisory Council, any health or science department head at Dalhousie University, any of the men or women serving in those positions or any of the men or women responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses, describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study/record that (in the opinion the man or woman ultimately responsible for the demand that anyone provide proof of "vaccination" or "testing" in order to access Dalhousie University campuses) proved the existence of "SARS-COV-2" in Wuhan, China. If any records match the above descriptions of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible."

Dalhousie University has completed a full search for responsive records; and we have found that there are **no records** in the custody and control of Dalhousie University that are **responsive to your request**.

LEGAL COUNSEL OFFICE

Henry Hicks Academic/Administration Building, Room 225 | 6299 South Street | PO Box 15000 | Halifax NS B3H 4R2 | Canada
902.494.2184 | dal.ca/legal
DAL.CA

Under the Act Dalhousie has thirty (30) days to respond to your request. As such, you can expect a response on or before **December 23, 2021** If you have any questions, please feel free to contact us.

Kind regards,

Brenda Williams
Access and Privacy Specialist
FOIPOP@dal.ca

*** Request description (maximum 1500 characters) (required)**

Error 1: Please enter no more than 1500 characters.

Please describe your request. We'd encourage you to include specific details such as subject matter of the request, date or date ranges, types of records (emails, reports, briefing notes, presentations) and desired file type (PDF, DOC, etc), if applicable. Details about your request helps us to respond more quickly.

All studies/reports in possession, custody or control of PHAC describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "virus" directly from a sample taken from a diseased human host, where the sample was not first combined with any other source of genetic material (i.e. a cell line; fetal bovine serum).

I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome", and/or
- produced electron microscopy images of unpurified things.

I know that according to virus theory a "virus" requires host cells in order to replicate. I am not requesting records describing replication of a "virus" without host cells, records describing a suspected "virus" floating in a vacuum, a strict fulfillment of Koch's Postulates, or private patient records.

I simply request records that describe purification of an alleged "virus" (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

(0 characters remaining)

*** Request format (required)**

How would you prefer to receive your request?

- Electronic copy (The institution may provide the records via Email, CD or DVD depending on size)
- Paper copy

Peterborough, Ontario

[REDACTED]

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All studies/reports in possession, custody or control of PHAC describing the purification of any "virus" directly from a sample taken from a diseased human host, where the sample was not first combined with any other source of genetic material (i.e. a cell line; fetal bovine serum). I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: - cultured something, and/or - performed an amplification test (i.e. PCR), and/or - fabricated a "genome", and/or - produced electron microscopy images of unpurified things. I know that according to virus theory a "virus" requires host cells in order to replicate. I am not requesting records describing replication of a "virus" without host cells, records describing a suspected "virus" floating in a vacuum, a strict fulfillment of Koch's Postulates, or private patient records. I simply request records that describe purification of an alleged "virus" (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). My request includes any study/report matching the above, authored by anyone, anywhere. If any records match the above description and are available to the public elsewhere, please provide enough info about each one so that I may identify and access it with certainty (i.e. title, author(s), date, journal, URL where possible).

Your request has resulted in a "No Records Exist", because of the way that you have formulated your request. The isolation of a virus cannot be completed without the use of another medium, therefore we have no records that would show this process taking place. It is important to understand the following: The gold standard assay used to determine the presence of intact virus in patient samples is viral isolation in cell culture. With this assay, if virus is present in the patient sample, it will multiply and produce visible cytopathic effects, which means that infected cells demonstrate visible changes.

Canada

.../2

Additionally, the detection of an increase in the genetic viral material by PCR further confirms that intact virus is present in the patient sample, since increasing viral genetic material necessitates replication of the viral within the cell culture.

Should you have any questions or concerns about the processing of your request, please do not hesitate to contact Christine N. Smith, the analyst responsible for this file, either by phone at 613-862-6063 or by email at christinen.smith@hc-sc.gc.ca, with reference to our file number cited above.

Please be advised that you are entitled to complain to the Office of the Information Commissioner of Canada concerning the processing of your request within 60 days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint can be made online at: <https://www.oic-ci.gc.ca/en/submitting-complaint> or by mail to:

Office of the Information Commissioner of Canada
30 Victoria Street
Gatineau, Quebec K1A 1H3

FOI request to University of Waterloo re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: fippa@uwaterloo.ca, melissa.holst@uwaterloo.ca

Mon, Nov 15, 2021 at 12:25 PM

November 15, 2021

Melissa Holst
Information & Privacy Administrator and Administrative Assistant
Submitted via email to: melissa.holst@uwaterloo.ca

Kathy Winter
Privacy Officer
Submitted via email to: fippa@uwaterloo.ca

Dear Ms. Holst and Ms. Winter,

This is a formal request for access to general records, made under the *Freedom of Information and Protection of Privacy Act*.

Description of Requested Records:

1. All studies and/or reports in the possession, custody or control of Associate Professor Michael Palmer (Chemistry) and/or the University of Waterloo's President, Faculties, Vice-Chancellor, Senate, Officers, Executive Board, Secretary, Office of the University Counsel or any health or science department head at the University of Waterloo describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of my request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere**.

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study/record that, in the opinion of Associate Professor Michael Palmer, proved the existence of "SARS-COV-2" in Wuhan, China.

If any records match the above descriptions of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

 **Decision Letter UW21-22.pdf**
253K

21 December 2021

Christine Massey
[REDACTED]
Peterborough, ON [REDACTED]

Dear Ms. Massey,

Re: Access Request No. UW21-22

Freedom of Information and Protection of Privacy Act (the Act) Request for Information

On 15 November 2021, my office received your request for access to information. On 22 November 2021, we then received your \$5 application fee by mail—which formalizes your request.

I have assessed your request under the Act and would like to advise that it is denied because the Act does not apply to it. That is, as per Section 65(8.1)(a) research exclusion, *a record respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution is excluded from access under the Act.*

This decision has been made by Karen Jack, Secretary of the University. You may ask for a review of this decision within 30 days of receiving this letter by writing to: The Information and Privacy Commissioner/Ontario, 2 Bloor Street East, Suite 1400, Toronto, ON, M4W 1A8. If you decide to request an appeal of this decision, please provide the Commissioner's office with the following: a copy of this decision letter, a copy of the original request for information you sent to our institution, and a \$25.00 cheque or money order payable to the Minister of Finance.

Sincerely,

Kathy Winter

Dear Kathy,

Thank you for your letter, however I find it unsatisfactory and require clarification.

You have stated that my request "*is denied because the Act does not apply to it. That is, as per Section 65(8.1)(a) research exclusion, a record respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution is excluded from access under the Act.*"

Please note that section 29 (1) of the Act states:

Contents of notice of refusal***29 (1) Notice of refusal to give access to a record or a part thereof under section 26 shall set out******(a) where there is no such record,******(i) that there is no such record...******(b) where there is such a record,******(i) the specific provision of this Act under which access is refused,******(ii) the reason the provision applies to the record,*****With regard to the 1st part of my request** (for records describing purification):

All 41 Canadian institutions (including Public Health Agency of Canada) that were previously queried with the same request admitted to having no such records. All 100 additional institutions from over 25 additional countries also failed to provide or cite any such records. No one on the planet appears to have any record of the alleged virus having been purified from any patient sample even though purification from **many** patient samples would be necessary to prove the existence of a deadly virus circulating in humans. (All of the previous responses are publicly available on my website: <https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>.)

If the University of Waterloo also has no such records, then:

- the exception under 65(8.1)(a) is nonsensical and irrelevant because a nonexistent record is not respecting or associated with anything, and
- section 29(1) requires you to state that there is no such record.

And if the University of Waterloo does have such a record, **then there is some possibility that the alleged deadly virus actually exists**, in which case you need to disclose the record(s) posthaste, as per section 11(1):

Obligation to disclose***11 (1) Despite any other provision of this Act, a head shall, as soon as practicable, disclose any record to the public or persons affected if the head has reasonable and probable grounds to believe that it is in the public interest to do so and that the record reveals a grave environmental, health or safety hazard to the public.***

Therefore please clarify whether or not the University holds any such record, and if the University does please provide access to it immediately.

With regard to the 2nd part of my request (for the first published study/record that, in the opinion of Associate Professor Michael Palmer, proved the existence of "SARS-COV-2" in Wuhan, China):

(Recall that this part of my request only applies if the University of Waterloo has no records describing purification.)

If the University of Waterloo also has no records that, in Michael Palmer's opinion, proved the existence of "SARS-COV-2" in Wuhan, then once again:

- the exception under 65(8.1)(a) is nonsensical and irrelevant because a nonexistent record is not respecting or associated with anything, and
- section 29(1) requires you to state that there is no such record.

And, if the University of Waterloo does hold records that, in Michael Palmer's opinion, proved the existence of "SARS-COV-2" in Wuhan, then you need to disclose the record(s) posthaste, as per section 11(1).

Best wishes,
Christine

FOI request to Woodstock Police Service re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>

Thu, Nov 4, 2021 at 9:05 PM

To: dlongworth@woodstockpolice.ca, rwilkinson@woodstockpolice.ca

November 4, 2021

To:
Information and Privacy Unit
Woodstock Police Service
615 Dundas St. Woodstock,
ON N4S 1E1 Canada

Submitted via email c/o: Chief Daryl Longworth (dlongworth@woodstockpolice.ca); Deputy Chief Rod Wilkinson (rwilkinson@woodstockpolice.ca)

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act* as a result of unlawful, fraud-based "COVID-19" activity by men and women working for the Woodstock Police Service.

Application Fee

I will mail a cheque for the \$5 application fee to the address listed above, with a note indicating the purpose of the cheque.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Daryl Longworth (serving as Chief); Rod Wilkinson (serving as Deputy Chief) or Woodstock Police Service describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Peterborough, ON ██████████

RE: FOI-2021-00071

I am responding to your request for access to information pursuant to the Municipal Freedom of Information & Protection of Privacy Act, received by this office November 18, 2021.

Following a thorough search by our records department for records relating to:

*"All studies and/or reports in the possession, custody or control of Daryl Longworth (serving as Chief); Rod Wilkinson (serving as Deputy Chief) or Woodstock Police Service describing the **purification** of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)."*

you are hereby notified that a search concluded that no responsive records exist.

I am responsible for this decision. If you have any questions, please contact this office at 519-421-2800 ext 2251.

You may request a review of the decision by the Information and Privacy Commissioner, 2 Bloor Street East, Suite 1400, Toronto, ON M4W 1A8. You have thirty (30) days to make this appeal.

In the event that you wish to launch an appeal, please provide the Commissioner's Office with the request number, which we have assigned to your request, a copy of this decision letter, and a copy of the original request for information, which you sent to us.

In additional, you must send an Appeal Fee to the Commissioner's office. If your request was a personal request the fee is \$10.00. The fee for all other requests is \$25.00. Please include the fee in your letter for appeal. Appeals fees should be in the form of either a cheque or money order, payable to the Minister of Finance.

Yours truly,
WOODSTOCK POLICE SERVICE

Attn: Freedom of Information Unit
2485 North Service Road West
Oakville, Ontario L6M 3H8
Submitted via email c/o: secretary@haltonpoliceboard.ca, info@hrps.on.ca

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)*.

Note: The Access / Correction [Request form](#) posted on your [website](#) asks for **date of birth**, and states: "**HRPS Staff: Please ensure ALL fields are filled in below....Requester's government-issued photo I.D. viewed and photocopied. Attach photocopy of requester's I.D. to this form.**"

If you cite for me provisions in *MFIPPA* that authorize the (wo)man serving as head of an institution to reject a request for general records on the basis that government-issued photo I.D. has not been provided, viewed and photocopied, and/or that date of birth has not been provided, I will consider providing them.

I am aware of no such provision.

Application Fee

I will mail a cheque for the \$5 application fee to the address listed above, with a note indicating the purpose of the cheque.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Stephen J. Tanner (serving as Chief) or Roger Wilkie (serving as Deputy Chief of District Operations) or Jeff Hill (serving as Deputy Chief of Regional Operations) or Halton Regional Police Service describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please

provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Shantz, Amanda <Amanda.Shantz@haltonpolice.ca>
To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Thu, Dec 9, 2021 at 1:02 PM

Good afternoon Christine,

Your two emails were forwarded to me by the Halton Regional Police Service Board.

To address your question regarding identification, the majority of our requestors are personal requestors; we need to confirm their identification to ensure that the Service has confirmed the applicant's identity before we release their personal (and often very sensitive) information to them.

Since your requests are not for personal information, you do not need to provide a copy of your identification.

Please include our application form with your two cheques for \$5 (or one cheque for \$10); if you do not wish to scribe your emails onto each application, you are more than welcome to attach copies of your two emails to the applications.

Regards,

Amanda Shantz (*she/her*)

FOI request to Halton Police Service re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: Amanda.Shantz@haltonpolice.ca

Thu, Dec 9, 2021 at 1:24 PM

Hi Amanda,

Thank you for the clarification. This should be made clear on your website and in the form though, otherwise it is confusing and misleading for anyone else submitting a request for general records. I'm sure I'm not the only one submitting such requests.

My cheques are already in the mail, and you already have the text of my requests.

If you cite for me a provision in the legislation that authorizes an institution head to reject a request because a form has not been provided, I will consider mailing you a form.

If you cite for me a provision in the legislation that authorizes an institution head to reject a request because the text was not mailed in, I will consider mailing you the text.

I am aware of no such provisions, and have successfully submitted literally dozens of requests under the same legislation, with the text sent via email and payment sent through the mail.

Thank you and best wishes,
Christine

Hello,

Your message says "Please see the attached decision letter." but there is no attachment of any kind.

If you work for Halton Police, please send me the attachment as I have nothing to do with an organization called "Kiteworks", have no idea what it is, and am not comfortable clicking on a link that will go to some unknown website.

Best wishes,

Christine

One Vision One Mission One Team

January 21, 2021

Christine Massey, M.Sc.

██████████
Peterborough, Ontario ██████████

Re: Our File: 21-1225

Dear Christine Massey:

I am in receipt of your request for information pursuant to the *Municipal Freedom of Information & Protection of Privacy Act*, received by this office from the Halton Regional Police Service Board December 8, 2021.

You have requested *All studies and/or reports in the possession, custody or control of Stephen J. Tanner (serving as Chief) or Roger Wilkie (serving as Deputy Chief of District Operations) or Jeff Hill (serving as Deputy Chief of Regional Operations) or Halton Regional Police Service describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

Pursuant to your request a search for such records was sent from FOI Coordinator, Amanda Shantz to Information and Records Manager, Shannon King. Ms. King confirmed our Service does not hold any records in regards to your request. Therefore no records exist.

I am responsible for this decision.

You may request a review of this decision by the Information and Privacy Commissioner, 2 Bloor Street East, Suite 1400, Toronto, Ontario M4W 1A8. Telephone 416-326-3333 or toll free 1-800-387-0073. You have 30 days to make this appeal. In the event that you wish to launch an appeal, please provide the Commissioner's office with a copy of this decision letter. In addition, you must send a \$25.00 appeal fee for general information to the Commissioner's office. Please include the fee in your letter of appeal. Appeal fees should be in the form of a cheque or money order, payable to the Minister of Finance.

FOI request to Sudbury Police Service re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>
To: gsps.mail@gsps.ca

Wed, Dec 8, 2021 at 1:23 PM

December 8, 2021

To:
Freedom of Information Coordinator
Greater Sudbury Police Service
190 Brady Street
Sudbury, Ontario
P3E 1C7
T: 705-675-9171
Submitted via email c/o: gsps.mail@gsps.ca

Dear FOI Coordinator,

This is a formal request for access to general records, made under the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)*.

Note: Your website states:

*"Individuals wishing to request information under the Municipal Freedom of Information and Protection Personal Privacy Act **must do so by providing one piece of identification (must include full name, date of birth, photograph and signature), application fee (\$5.00), and the completed Freedom of Information Request Form. All requests must include your name, full address, date of birth, and telephone number... Please bring the completed form, personal identification and application fee to Police headquarters."***

If you cite for me provisions in *MFIPPA* that authorize the (wo)man serving as head of an institution to reject a request for general records on the basis that identification, date of birth, photograph and signature are not provided, I will consider providing those items.

If you cite for me a provision in *MFIPPA* that authorizes the (wo)man serving as head of an institution to reject a request for general records on the basis that a completed form, personal identification and application fee were not delivered in person to police headquarters, I will consider driving 5+ hours from Peterborough to Sudbury to do so.

I am aware of no such provisions.

Application Fee

I will mail a cheque for the \$5 application fee to the address listed above, with a note indicating the purpose of the cheque.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of Sheilah Weber (serving as Deputy Chief), Sharon Baiden (serving as Chief Administrative Officer), Paul Pedersen (serving as Chief) or Greater Sudbury Police Service describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome" from millions of sequences (allegedly) detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Dear Ms. Massey

Your request for information pursuant to the ***Municipal Freedom of Information and Protection of Privacy Act*** has been received and reference number 2021-0061 has been assigned.

Please find enclosed a copy of your request for ease of reference, received by this office on December 14, 2021.

Following a thorough search for the records you have requested, you are hereby notified that the search concluded that no records exist.

You may request a review of this decision within 30 days of receiving this letter by writing to: The Information and Privacy Commissioner/Ontario, 2 Bloor Street East, Suite 1400, Toronto, Ontario, M4W 1A8, Telephone (416) 326-3333 or toll free 1-800-387-0073.

If you decided to request a review of this decision, please provide the Commissioner's office with the following:

- 1) The file number referenced at the top of this letter;
- 2) A copy of this decision letter;
- 3) A copy of your original request for information sent to our institution;
- 4) The reason why you believe the records exist (if the decision was that no records exist).

C. Massey
2021-0061

In addition, you must send an appeal fee to the Commissioner's office. If your request was for your personal information, the appeal fee is \$10.00. The appeal fee for all other requests for information is \$25.00. Please include the fee in your letter of appeal. Appeal fees should be in the form of either a cheque or money order and made payable to the Minister of Finance.

Yours truly

Mon, Jan 10, 2022 at 8:51 AM

Hi Camille,

What was your purpose in sending me back my email request almost a month after I filed it? Was this your way of acknowledging the request?

And will you be providing the response soon, since more than a month has now passed, as per section 19 of the legislation?

Notice by head

19 Where a person requests access to a record, the head of the institution to which the request is made or if a request is forwarded or transferred under section 18, the head of the institution to which it is forwarded or transferred, shall, subject to sections 20, 21 and 45, within thirty days after the request is received,

(a) give written notice to the person who made the request as to whether or not access to the record or a part of it will be given; and

(b) if access is to be given, give the person who made the request access to the record or part, and if necessary for the purpose cause the record to be produced.

R.S.O. 1990, c. M.56, s. 19; 1996, c. 1, Sched. K, s. 15.

Lastly, why does the [SPS website](#) tell the public things that are not true regarding MFIPPA requests?

"Individuals wishing to request information under the Municipal Freedom of Information and Protection Personal Privacy Act must do so by providing one piece of identification (must include full name, date of birth, photograph and signature), application fee (\$5.00), and the completed Freedom of Information Request Form. All requests must include your name, full address, date of birth, and telephone number... Please bring the completed form, personal identification and application fee to Police headquarters."

Best wishes,
Christine

Mon, Jan 10, 2022 at 9:01 AM

My apologies Camille, I lost track of where we were at. Yes I do have the final response, thank you.

Will the false information that is currently posted on the [SPS website](#) be corrected, or will it remain?

*"Individuals wishing to request information under the Municipal Freedom of Information and Protection Personal Privacy Act **must do so by providing one piece of identification (must include full name, date of birth, photograph and signature), application fee (\$5.00), and the completed Freedom of Information Request Form. All requests must include your name, full address, date of birth, and telephone number... Please bring the completed form, personal identification and application fee to Police headquarters."***

Best wishes,
Christine

To: "Lapierre, Camille" <Camille.Lapierre@gspcs.ca>

MFIPPA does not require individuals wishing to request information to provide one piece of identification with full name, date of birth, photograph and signature, or to fill out a form, or to show up at police headquarters.

ID might be required for requests involving **personal** information, but not for general requests, and forms are not required, nor date of birth nor appearing at headquarters.

Submitted via email to: g.gauthier@exec.uoguelph.ca, univsec@uoguelph.ca, fippa@uoguelph.ca,

Dear Genevieve and Kristin,

This is a formal request for access to general records, made under the *Freedom of Information and Protection of Privacy Act*.

Note: your website states: "Please note that requests received by electronic mail are not accepted since the legislation requires that requests be authenticated by an original signature; as a result, originals of the completed form are needed to proceed with a request and requests received by electronic mail cannot be processed without receipt of the original in hard copy format."

If you cite for me a provision in the [legislation](#) that evidences your claim above, I will consider downloading, printing, filling out and signing a hard copy form, placing it in an envelope, purchasing and affixing a stamp, walking to a mailbox and placing the envelope in the mailbox, so that you may "authenticate" my request when it reaches you days later.

I am aware of no such provision.

If you are unable to cite such a provision, kindly remove your false and misleading claim that causes confusion, misinformation and undue hardship for the public, from your website.

Please advise how you "authenticate" signed, hard copy requests, so that I may make an informed decision as to whether or not I would wish to proceed as per your demand, if you are able to cite such a provision.

I have successfully submitted literally dozens of FOI requests via email under the same legislation over the years and never once been advised of, or heard of, such a claim or provision.

Description of Requested Records:

1. All studies and/or reports in the possession, custody or control of:

- Dr. Byram W. Bridle (Department of Pathobiology, Ontario Veterinary College and One Health Institute, at University of Guelph), "COVID-19 vaccine" developer, and/or
- Dr. Bridle's fellow "COVID-19 vaccine" developing colleagues at the University of Guelph;
- University of Guelph's President, Vice-Presidents, Associate and Assistant Vice-Presidents, Vice-Provosts, Deans, Department Chairs, Board of Governors, Senate, Advisory Council, any health or science department head at University of Guelph, and/or

- any of the men/women serving in those positions, and/or
- any of the men/women responsible for the demand that anyone provide private health information (proof of so-called "vaccination") or "receive an approved exemption request", in order to access University campuses or University-managed facilities

describing the **purification** of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic material** (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of my request:

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe **replication** of a "virus" without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere.**

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study(s)/report(s) that (in the opinion of Dr. Bridle and the man or woman ultimately responsible for the demand that anyone provide proof of so-called "vaccination" in order to access the University's campuses and facilities) proved the existence of "SARS-COV-2" in Wuhan, China.

If any records match the above descriptions of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Format:

Electronic (i.e. pdf) documents sent to me via email; I do not wish for anything to be shipped to me.

Application Fee:

I will mail a check for \$5 to the address listed above.

Contact Information:

Last name: Massey

First name: Christine

Address: [REDACTED] Peterborough, Ontario, Canada [REDACTED]

Phone: [REDACTED]

Email: cmssyc@gmail.com

University of Guelph FIPPA Request 2021-012

FIO & Protection Privacy Act <privacy@uoguelph.ca>
To: Christine Massey <cmssyc@gmail.com>

Wed, Jan 19, 2022 at 12:15 PM

Hi Christine,

I hope this email finds you well.

We received your \$5.00 application fee and can now begin processing your request for information.

In order to proceed I do need some clarification from you.

1. Scope of request: your request as written includes the following groups of people to conduct searches in response to your request:
 - a. Byram Bridle
 - b. Covid-19 Vaccine developers
 - c. President, Vice-Presidents, Associate and Assistant Vice-Presidents, Vice-Provosts, Deans, Department Chairs, Board of Governors, Senate, Advisory Council, any health or science department head
 - d. Any of the men/women serving in the above positions
 - e. Any of the men/women responsible for the demand that anyone provide personal health information...

The University of Guelph Senate and Board of Governors consists of over 180 members, which does not include all Associate and Assistant Vice-Presidents, "advisory council" members, etc. I am also unaware of who the "COVID-19 vaccine developers" are and how many of them there could be.

The *Freedom of Information and Protection of Privacy Act* stipulates a user-pay principle (s.57) which would be calculated for each individual conducting searches for responsive information, which as you can imagine the resulting fees could be quite large solely on the basis that the Senate and Board of Governors alone includes over 180 individuals.

Please clarify/confirm the individuals that you would like included in the scope of your request. If the fee estimate is larger than \$100.00, the University may require a 50% deposit before further action is taken to process the request.

2. Records requested:

Currently I'm unclear what University of Guelph records you are seeking. For additional context, the *Act* applies only to records that are within the custody and control of the institution which allows the University to make decisions about the disclosure of the record, meaning records that may be in the possession of an employee does not necessarily mean the University has them in its custody and control to manage through the request process. Further, the *Act* allows institutions to exempt information that is already publicly available, meaning publicly available records are not provided through the formal request process.

Are you seeking records related to research conducted at the University of Guelph that meets the description you have provided? Are you seeking communications between named individuals at the University that include information that meets the description that you have provided? Or are you seeking records relative to the decision of the University to impose a vaccination mandate and collection of proof of vaccination data?

I think it may be helpful for us to chat over the phone so that I can better understand the nature of your request and to ensure it is well articulated to those who will need to conduct searches for responsive information.

All the best,

Kristin

University of Guelph FIPPA Request 2021-012

Christine Massey <cmssyc@gmail.com>
To: FIO & Protection Privacy Act <privacy@uoguelph.ca>

Thu, Jan 27, 2022 at 7:31 PM

Hi Kristen,

I sent in my cheque over a month ago, and the 30 days for responding has already passed.

I realize that the Act only applies to records in the possession, custody or control of the University. I specified people who work at the University, but don't expect you to seek out records that are not in the possession, custody or control of the University.

I realize that the Act allows institutions to exempt information that is already publicly available, which is why I stated:

If any records match the above descriptions of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

My email also stated: "Please note that my request includes **any study/report** matching the above description". I did not specify records related to research conducted at the University of Guelph, or communications between named individuals at the University, or records relative to the decision of the University to impose a "vaccination" mandate etc.

Below are "no records" responses from 6 other Canadian universities, 5 of them in Ontario and subject to the same legislation as University of Guelph. None of them charged me anything over and above the \$5 application fee.

[McGill University](#)
[University of Ottawa](#)
[University of Waterloo](#)
[Dalhousie University](#)
[University of Toronto](#)
[McMaster University](#)

Below are "no records" responses from 40 more Canadian institutions. None of them charged me anything over and above the \$5 application fee.

Canadian institutions have provided their responses: [Public Health Agency of Canada](#) (and another from [Public Health Agency of Canada](#), this one re the alleged "UK variant" aka "B.1.1.7" aka "Alpha"; and another from [Public Health Agency of Canada](#) re any alleged virus/variant, and another from [Public Health Agency of Canada](#) re ANY type of alleged virus at all), [Health Canada](#) (and another from [Health Canada](#); and another from [Health Canada](#)), the [National Research Council of Canada](#), [Vaccine and Infectious Disease Organization-International Vaccine Centre \(VIDO-InterVac\)](#), [Canadian Institutes of Health Research](#), [Natural Sciences and Engineering Research Council of Canada](#), [Patented Medicine Prices Review Board Canada](#), [Royal Canadian Mounted Police \(RCMP\)](#), [Public Health Ontario](#), [Ontario Ministry of Health](#) (and another from [Ontario Ministry of Health](#) re "delta variant", [University Health Network](#), [Ontario Ministry of the Solicitor General and Ontario Provincial Police](#), [Alberta Ministry of Health](#), [Alberta Premier Jason Kenney, his Office and Executive Council](#), [Calgary Police Service](#), [Institut National de Sante Publique du Quebec](#) (another from [Public Health Quebec](#)), [British Columbia's Ministry of Health](#) (re "the UK variant"), [British Columbia's Centre for Disease Control](#), [British Columbia's Provincial Health Services Authority](#) (2 responses, 1 re "SARS-COV-2", 1 re the alleged "B.1.1.7" aka "Alpha variant" aka "UK variant"), [Vancouver Coastal Health Authority](#) (re "B.1.1.7" aka "Alpha variant" aka "UK variant"), [Newfoundland Labrador Department of Health & Community Services](#), [New Brunswick's Department/Ministry of Health](#), the [City of Toronto](#), [Toronto Police](#) (and another from [Toronto Police](#)), [Halton Region](#), [Hamilton Police Service](#) (Ontario), the [Region of Peel](#) (Ontario), [Region of Durham](#) (Ontario); [KFL&A Public Health](#) (Kingston, Frontenac, Lennox and Addington, Ontario, re "any variant"), [Grey Bruce Health Services](#), [Grey Bruce Health Unit](#), [Niagara Regional Police Service](#), [Peterborough Public Health \(Ontario\)](#), [Peterborough Police Service](#) (Ontario) (another from [Peterborough Police](#)), [Aylmer Police Service](#) (Ontario) (and another from [Aylmer Police](#)), [Woodstock Police Service](#) (Ontario), [Sudbury Police Service](#) (Ontario), [Hastings Prince Edward Public Health](#) (Ontario), [Sunnybrook Health Sciences Centre](#), and [Mount Sinai Hospital](#) (Toronto) (note that researchers from the last 4 institutions had publicly claimed to have "isolated the virus", as had VIDO-Intervac).

In total, 164 institutions in 30 countries have all failed to provide or cite even 1 such record:
<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

So it's quite clear that no one else on the planet has any such record.

Any competent man or woman at University of Guelph should either 1) realize that they don't have any such record either, and thus not bother wasting time looking for one, or 2) realize they have something immensely important to the entire world, in which case it should be at their fingertips and take no time at all to locate.

If any additional fee is required for some strange reason, since the results are of public importance and related to a public health matter, I would be seeking a waiver of the fee.

So please go ahead with the request as is.

Thank you and best wishes,
Christine

Christine Massey

Via email: cmssyc@gmail.com

Dear Christine,

On December 9, 2021, we received your request for information under the *Freedom of Information and Protection of Privacy Act (FIPPA)*, as follows:

Description of Requested Records:

1. *All studies and/or reports in the possession, custody or control of:*

- *Dr. Byram W. Bridle (Department of Pathobiology, Ontario Veterinary College and One Health Institute, at University of Guelph), "COVID-19 vaccine" developer, and/or*
- *Dr. Bridle's fellow "COVID-19 vaccine" developing colleagues at the University of Guelph;*
- *University of Guelph's President, Vice-Presidents, Associate and Assistant Vice-Presidents, Vice-Provosts, Deans, Department Chairs, Board of Governors, Senate, Advisory Council, any health or science department head at University of Guelph, and/or*
- *any of the men/women serving in those positions, and/or*
- *any of the men/women responsible for the [demand](#) that anyone provide private health information (proof of so-called "vaccination") or "receive an approved exemption request", in order to access University campuses or University-managed facilities*

describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of my request:

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- *cultured something, and/or*
- *performed an amplification test (i.e. PCR), and/or*

- *fabricated a genome from sequences detected in an impure substance, and/or*
- *produced electron microscopy images of unpurified things.*

I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and am not requesting records that describe replication of a "virus" without host cells. Nor am I requesting records that describe a strict fulfillment of Koch’s Postulates, or records that describe a suspected “virus” floating in a vacuum, or private patient information.

I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study(s)/report(s) that (in the opinion of Dr. Bridle and the man or woman ultimately responsible for the demand that anyone provide proof of so-called "vaccination" in order to access the University's campuses and facilities) proved the existence of "SARS-COV-2" in Wuhan, China.

If any records match the above descriptions of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

On January 12, 2022, the Privacy Office received the mandatory \$5.00 application fee to activate your request for response.

Section 65(8.1)(a) of the Act stipulates the Act does not apply “to a record respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution”. Accordingly, the request for any study/report described above is considered outside of the scope of the Act. You may ask for a review of this decision within 30 days of receiving this letter by writing to: Registrar, Information and Privacy Commissioner/Ontario, 2 Bloor Street East, Suite 1400, Toronto, Ontario M4W 1A8, Telephone (416) 326-3333 or toll free 1-800-387-0073.

If you decide to request a review of this decision, please provide the Commissioner’s office with the following: the file number listed at the beginning of this letter; a copy of this decision letter; and, a copy of the original request for information you sent to the institution.

In addition, you must send an appeal fee to the Commissioner's office. Please include the fee with your letter of appeal – appeal fees should be in the form of either a cheque or money order, payable to the Minister of Finance.

Sincerely,

A handwritten signature in cursive script, reading "Genevieve Gauthier-Chalifour".

Cc. Kristin Ingoldsby, Assistant University Secretary & Privacy/Judicial Officer

University of Guelph FIPPA Request 2021-012

Christine Massey <cmssyc@gmail.com>
To: FIO & Protection Privacy Act <privacy@uoguelph.ca>

Fri, Feb 11, 2022 at 10:51 AM

Hi Kirstin,

The response is nonsensical and not in accordance with the legislation.

It states that: "*the Act stipulates the Act does not apply "to a record respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution". Accordingly, the request for any study/report described above is considered outside of the scope of the Act.*"

There is nothing in my request that specifies records respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution.

It's ridiculous to suggest that all laboratory work is conducted or proposed by an employee of an educational institution or by a person associated with an educational institution.

And, the section cited is clearly not intended for application to **imaginary, theoretical** records.

All 48 Canadian institutions (including Public Health Agency of Canada) that were previously queried with the same request admitted to having no such records. All 118 additional institutions from over 25 additional countries also failed to provide or cite any such records. No one on the planet appears to have any record of the alleged virus having been purified from any patient sample even though purification from **many** patient samples would be necessary to prove the existence of a deadly virus circulating in humans. (All of the previous responses are publicly available on my website: <https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>.)

If the University also has no such records, then:

- the exception under 65(8.1)(a) is nonsensical and irrelevant because a nonexistent record is not respecting or associated with anything, and
- section 29(1) requires Genevieve to state that there is no such record.

Contents of notice of refusal

29 (1) Notice of refusal to give access to a record or a part thereof under section 26 shall set out

- (a) **where there is no such record,**
(i) **that there is no such record...**

If the University does have such a record, **then there is some possibility that the alleged deadly virus actually exists**, in which case she needs to disclose the record(s) posthaste, as per section 11(1):

Obligation to disclose

11 (1) Despite any other provision of this Act, a head shall, as soon as practicable, disclose any record to the public or persons affected if the head has reasonable and probable grounds to believe that it is in the public interest to do so and that the record reveals a grave environmental, health or safety hazard to the public.

Best wishes,
Christine

Submitted via email to: melissa.holst@uwaterloo.ca

Kathy Winter
Privacy Officer
Submitted via email to: fippa@uwaterloo.ca

Dear Ms. Holst and Ms. Winter,

This is a formal request for access to general records, made under the *Freedom of Information and Protection of Privacy Act*.

Description of Requested Records:

1. All studies and/or reports in the possession, custody or control of Associate Professor Michael Palmer (Chemistry) and/or the University of Waterloo's President, Faculties, Vice-Chancellor, Senate, Officers, Executive Board, Secretary, Office of the University Counsel or any health or science department head at the University of Waterloo describing the **purification** of the alleged "**COVID-19 virus**" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of my request:

Please note that I am **not** requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am **not** requesting records that describe **replication** of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records that describe a suspected "virus" floating in a vacuum, or private patient information.

I simply request records that describe **purification** (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, **authored by anyone, anywhere**.

2. If the University is unable to provide or cite any such records as described above, then please provide the first published study/record that, in the opinion of Associate Professor Michael Palmer, proved the existence of "SARS-COV-2" in Wuhan, China.

If any records match the above descriptions of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Christine Massey

Peterborough, ON

Dear Ms. Massey,

Re: Access Request No. UW21-22
Freedom of Information and Protection of Privacy Act (the Act) Request for Information

On 15 November 2021, my office received your request for access to information. On 22 November 2021, we then received your \$5 application fee by mail—which formalizes your request.

I have assessed your request under the Act and would like to advise that it is denied because the Act does not apply to it. That is, as per Section [65\(8.1\)\(a\)](#) research exclusion, *a record respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution is excluded* from access under the Act.

This decision has been made by Karen Jack, Secretary of the University. You may ask for a review of this decision within 30 days of receiving this letter by writing to: The Information and Privacy Commissioner/Ontario, 2 Bloor Street East, Suite 1400, Toronto, ON, M4W 1A8. If you decide to request an appeal of this decision, please provide the Commissioner's office with the following: a copy of this decision letter, a copy of the original request for information you sent to our institution, and a \$25.00 cheque or money order payable to the Minister of Finance.

Sincerely,

Kathy Winter

Kathy Winter, Ph.D., C.Psych.

FOI request to University of Waterloo re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>

Tue, Dec 21, 2021 at 7:09 PM

To: Group Freedom of Information and Privacy Protection <fippa@uwaterloo.ca>

Dear Kathy,

Thank you for your letter, however I find it unsatisfactory and require clarification.

You have stated that my request "*is denied because the Act does not apply to it. That is, as per Section 65(8.1)(a) research exclusion, a record respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution is excluded from access under the Act.*"

Please note that section 29 (1) of the Act states:

Contents of notice of refusal***29 (1) Notice of refusal to give access to a record or a part thereof under section 26 shall set out******(a) where there is no such record,******(i) that there is no such record...******(b) where there is such a record,******(i) the specific provision of this Act under which access is refused,******(ii) the reason the provision applies to the record,*****With regard to the 1st part of my request** (for records describing purification):

All 41 Canadian institutions (including Public Health Agency of Canada) that were previously queried with the same request admitted to having no such records. All 100 additional institutions from over 25 additional countries also failed to provide or cite any such records. No one on the planet appears to have any record of the alleged virus having been purified from any patient sample even though purification from **many** patient samples would be necessary to prove the existence of a deadly virus circulating in humans. (All of the previous responses are publicly available on my website: <https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>.)

If the University of Waterloo also has no such records, then:

- the exception under 65(8.1)(a) is nonsensical and irrelevant because a nonexistent record is not respecting or associated with anything, and
- section 29(1) requires you to state that there is no such record.

And if the University of Waterloo does have such a record, **then there is some possibility that the alleged deadly virus actually exists**, in which case you need to disclose the record(s) posthaste, as per section 11(1):

Obligation to disclose***11 (1) Despite any other provision of this Act, a head shall, as soon as practicable, disclose any record to the public or persons affected if the head has reasonable and probable grounds to believe that it is in the public interest to do so and that the record reveals a grave environmental, health or safety hazard to the public.***

Therefore please clarify whether or not the University holds any such record, and if the University does please provide access to it immediately.

With regard to the 2nd part of my request (for the first published study/record that, in the opinion of Associate Professor Michael Palmer, proved the existence of "SARS-COV-2" in Wuhan, China):

(Recall that this part of my request only applies if the University of Waterloo has no records describing purification.)

If the University of Waterloo also has no records that, in Michael Palmer's opinion, proved the existence of "SARS-COV-2" in Wuhan, then once again:

- the exception under 65(8.1)(a) is nonsensical and irrelevant because a nonexistent record is not respecting or associated with anything, and
- section 29(1) requires you to state that there is no such record.

And, if the University of Waterloo does hold records that, in Michael Palmer's opinion, proved the existence of "SARS-COV-2" in Wuhan, then you need to disclose the record(s) posthaste, as per section 11(1).

Best wishes,
Christine

FOI request to University of Waterloo re: "SARS-COV-2" purification

Christine Massey <cmssyc@gmail.com>

Thu, Jan 6, 2022 at 7:20 PM

To: Group Freedom of Information and Privacy Protection <fippa@uwaterloo.ca>

Dear Kathy,

As I explained on December 21, 2021, you have cited **65(8.1)(a) which does not apply to nonexistent records.**

Exception

(8.1) This Act does not apply,

(a) to a record respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution;

Nonexistent records are obviously **not** "*respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution*", because **they don't exist and therefore are not associated with anything.**

I'm pretty sure that 65(8.1)(a) is not an exemption for imaginary, hypothetical records. It certainly isn't indicated as such.

And even if it were an exemption for imaginary, hypothetical records, I made 100% clear from the beginning that "**my request includes any study/report matching the above description, authored by anyone, anywhere.**" My request is **not** only for records "*respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution*"; it says **nothing whatsoever** about records "*respecting or associated with research conducted or proposed by an employee of an educational institution or by a person associated with an educational institution*". Plenty of laboratories are capable of purifying particles in the same size range as the alleged "virus" and "variants" without **any** involvement from an employee of an educational institution or a person associated with an educational institution.

But again, I'm **pretty sure** that 65(8.1)(a) is not an exemption for imaginary, hypothetical records.

And I remind you, the Act makes perfectly clear how requests for nonexistent records are to be handled:

Contents of notice of refusal

29 (1) Notice of refusal to give access to a record or a part thereof under section 26 shall set out,

(a) where there is no such record,

(i) that there is no such record, and

(ii) that the person who made the request may appeal to the Commissioner the question of whether such a record exists; or

(b) where there is such a record,

(i) the specific provision of this Act under which access is refused,

(ii) the reason the provision applies to the record,

- (iii) the name and position of the person responsible for making the decision, and
- (iv) that the person who made the request may appeal to the Commissioner for a review of the decision. R.S.O. 1990, c. F.31, s. 29 (1).

Thus far, you have not provided a coherent response, and I do require a clear, coherent response that is in accordance with the Act.

Here are examples of coherent responses that **are** in accordance with the Act, from other institutions that are subject to the exact same legislation and responded to the exact same request; perhaps you will find them helpful:

[Public Health Ontario](#),
[Ontario Ministry of Health](#) (and another from [Ontario Ministry of Health](#) re “delta variant”,
[University Health Network](#),
[Ontario Ministry of the Solicitor General and Ontario Provincial Police](#),
[McGill University](#),
[University of Ottawa](#),
[University of Waterloo](#),
[Dalhousie University](#),
[University of Toronto](#),
[Sunnybrook Health Sciences Centre](#),
[McMaster University](#),
[Mount Sinai Hospital](#) (Toronto).

All of these institutions stated, as per section 29(1)(a)(i), that they have no such record.

I look forward to your cooperation in this matter, and your clear, coherent response that is in accordance with the Act.

Best wishes,
Christine

records required under MFIPPA: proof of alleged outbreaks

Christine Massey <cmssyc@gmail.com>

Mon, Mar 7, 2022 at 4:44 PM

To: info@peterboroughpublichealth.ca, Larry Stinson <lstinson@peterboroughpublichealth.ca>

March 7, 2022

To:
Freedom of Information
Peterborough Public Health Jackson Square,
185 King Street Peterborough, Ontario [K9J 2R8]

Sent via email to: info@peterboroughpublichealth.ca; lstinson@peterboroughpublichealth.ca

Dear Freedom of Information Clerk:

Note: twice my email to info@peterboroughpublichealth.ca has bounced back, hence I am copying Larry Stinson this time.

I require copies of records, as per the *Municipal Freedom of Information and Protection of Privacy Act* (MFIPPA).

Application Fee

The \$5 application fee will be delivered to the address listed above.

Background

On February 16, 2022, Thomas Piggott, the man who acts as Medical Officer of Health, Peterborough Public Health **tweeted** the following claim:

*I've lived through SARS in 2003, we quickly forgot.
I've lived through H5N1 in 2005 & since, we quickly forgot.
I've lived through H1N1 in 2009, we quickly forgot.
I've lived through MERS in 2012, we quickly forgot.
I've lived through Ebola in 2014, we quickly forgot.*

Description of Requested Records:

All studies / reports in the possession, custody or control of Thomas Piggott or anyone else acting at Peterborough Public Health, that describe anyone on Earth finding and **purifying** (i.e. via via filtration, ultracentrifugation and chromatography) **any of the 5 alleged "viruses" listed above by Thomas Piggott** directly from the bodily fluids of any diseased human where the bodily fluids were not first combined with any other source of **genetic** material (i.e. a human or animal cell line; fetal bovine serum).

Please note that I do **not** require and do **not** want studies/reports where researchers failed to **purify** an alleged "virus" from a sick human's bodily fluid and instead:

- cultured an unpurified substance (i.e. bodily fluid) in a malnourished cell line, added toxic drugs, watched for cytopathic effects and called that "virus isolation", and/or
- performed an unreliable amplification test (i.e. a PCR test), that can only detect sequences and **not** "viruses", on the soup of genetic material extracted from a patient's bodily fluid or from monkey/cow/human cell culture supernatant, and/or
- fabricated an in silico (computer) sequence ("genome") from millions of sequences unreliably detected in the soup of total RNA extracted from a patient's bodily fluid or from a monkey/cow/human cell culture, and/or
- produced electron microscopy images of unpurified particles in a monkey/cow/human cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and that a strict application of Koch's Postulates would not be possible even if theoretical "viruses" existed. I

do not require or want records describing the replication of an alleged "virus" without host cells, or fulfillment of Koch's Postulates, or a suspected "virus" floating in a vacuum, or private patient records.

I simply require records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I require any study/report matching the above details, **authored by anyone, anywhere**, since the alleged discovery of these alleged "viruses".

In the interest of transparency and in accordance with the purposes of *MFIPPA*, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Should it prove impossible to provide any such study (since none exist), then please provide or cite a study (maximum 3 studies) that, according to Thomas Piggott, proves the existence of any of the above "viruses". (This must include proof that the alleged particle/"virus" actually exists and was identified/characterized, actually circulated and replicated in many humans, and actually caused the spread of the disease in question via natural modes of exposure - animal experiments will be accepted).

Format:

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

records required under MFIPPA: proof of alleged outbreaks

Christine Massey <cmssyc@gmail.com>

Tue, Mar 8, 2022 at 10:49 AM

To: info@peterboroughpublichealth.ca, Larry Stinson <lstinson@peterboroughpublichealth.ca>

p.s. To clarify: where I wrote "*animal experiments will be accepted*" - this applies to experimental proof of disease causation.

Also, please add "SARS-COV-2" to the list of alleged viruses for which I require records of purification, since Thomas Piggott claims to have lived through "COVID-19" also.

RE: MFIPPA Request, dated March 6, 2022, and March 7, 2022, and March 8, 2022: File No: 2022-03

Dear Ms. Massey:

In response to your request under the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)* for:

From email received March 6, 2022, at 5:59 p.m.: *"All studies / reports in the possession, custody or control of the man who acts as "Medical Officer of Health", Thomas Piggott, the man who acts as "Director of Operations", Larry Stinson, or anyone else acting for Peterborough Public Health, that describe anyone on Earth finding and purifying (i.e. via filtration, ultracentrifugation and chromatography) the alleged "SARS-COV-2" (the alleged "COVID-19" virus), or any alleged variant thereof, directly from the bodily fluids of any diseased human where the bodily fluids were not first combined with any other source of genetic material (i.e. a human or animal cell line; fetal bovine serum).*

Please note that I do not require and do not want studies/reports where researchers failed to purify an alleged "virus" from a sick human's bodily fluid and instead:

- cultured an unpurified substance (i.e. bodily fluid) in a malnourished cell line, added toxic drugs and watched for cytopathic effects, and/or*
- performed an amplification test (i.e. a PCR test) on the soup of genetic material extracted from a patient's bodily fluid or from a monkey/cow/human cell culture, and/or*
- fabricated an in silico (computer) sequence ("genome") from millions of sequences unreliably detected in the soup of total RNA extracted from a patient's bodily fluid or from a monkey/cow/human cell culture, and/or*
- produced electron microscopy images of unpurified particles in a monkey/cow/human cell culture.*

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and that a strict application of Koch's Postulates would not be possible even if theoretical "viruses" existed. I do not require or want records describing the replication of a "virus" without host cells, or fulfillment of Koch's Postulates, or a suspected "virus" floating in a vacuum, or private patient records. I simply require records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I require any study/report matching the above details, authored by anyone, anywhere, since the alleged discovery of the alleged "virus".

In the interest of transparency and in accordance with the purposes of MFIPPA, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible."

and

From email received March 7, 2022, at 4:44 p.m.: *"All studies / reports in the possession, custody or control of Thomas Piggott or anyone else acting at Peterborough Public Health, that describe anyone on Earth finding and purifying (i.e. via via filtration, ultracentrifugation and chromatography) any of the 5 alleged "viruses" listed above (SARS, H5N1, H1N1, MERS, Ebola) by Thomas Piggott directly from the bodily fluids of any diseased human where the bodily fluids were not first combined with any other source of genetic material (i.e. a human or animal cell line; fetal bovine serum).*
