Bedford BC - OFFICIAL-Secure

Dear Von Hobbs,

-

### Request pursuant to Freedom of Information Act 2000 – Request No. 18161

I am writing in respect of your recent enquiry for information held by the Council under the provisions of the Freedom of Information Act 2000.

**Under the Freedom of Information Act the authority must state whether or not the information exists and I confirm that we do not hold this information.**

If for whatever reason you are unhappy with our response to your application you are entitled to pursue any dissatisfaction through the Council's Internal Review Procedure. Pursuant to Section 17 (7) of the Act the procedure provided by the Council for dealing with complaints about the determination of this request for information is the Council's FOI Complaints Procedure, a copy of which can be obtained on request or is set out at: <https://www.bedford.gov.uk/council-and-democracy/data-protection-foi-eir/>

Yours sincerely

**Kind Regards**

**Omolara Cornish**

Public Health Officer (Project Support)

Public Health- a shared service across Bedford Borough, Central Bedfordshire & Milton Keynes

Bedford Borough Council, Borough Hall, Cauldwell Street, Bedford, MK42 9AP

Direct Dial: 01234 276880 | Ext: 44880 | Email: [Omolara.Cornish@bedford.gov.uk](mailto:Omolara.Cornish@bedford.gov.uk)

[www.bedford.gov.uk](http://www.bedford.gov.uk)

-

19 October 2021

Director Public Health  
East of England Bedford Borough – Vicky Head (acting/interim)

vicky.head@bedford.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Dear VonHobbs:

**Freedom of Information Act 2000**

Thank you for your information request received on 19/10/2021. This request is being handled under the Freedom of Information Act 2000.

Following a search of our paper and electronic records, I have established that **Brent Council does not hold the information you have requested.**

This information may be held by the NHS.

If you are dissatisfied with the way, in which your request has been handled or the outcome, you may request an internal review within two calendar months of the date of this response by writing to the following address:

Freedom of Information  
Brent Civic Centre  
Engineers Way  
Wembley  
HA9 0FJ

[FOI@brent.gov.uk](mailto:FOI@brent.gov.uk)

If you remain dissatisfied with the handling of your request or internal review, you have a right to appeal directly to the Information Commissioner for a decision. The Information Commissioner can be contacted at:  
The Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. Phone: 0303 123 1113  
Website: [www.ico.org.uk](http://www.ico.org.uk)

I will now close your request as of this date.

Yours sincerely

Dorothy Watson  
FOI and Complaints Investigation Officer

---

The use of Brent Council's e-mail system may be monitored and communications read in order to secure effective operation of the system and other lawful purposes.

Dear Von Hobbs

**Freedom of Information Act 2000**

***Request regarding Covid studies/reports***

I am writing to advise you that, following a search of our paper and electronic records, I have established that the information you requested is not held by Central Bedfordshire Council.

Please quote the reference number 4982869 in any future communications.

If you wish to request a review of this response please contact us.

If you are still dissatisfied with the Council's response after any internal review you have a right of appeal to the Information Commissioner at:

The Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire SK9 5AF.  
Telephone: 01625 545 700

Further information on the Freedom of Information Act 2000 is available through the Information Commissioner's Office website at: [www.ico.org.uk/](http://www.ico.org.uk/)

I will now close your request as of this date.

Yours faithfully

Dear Von Hobbs

## **Freedom of Information Request**

Your request has been considered under the provisions of the Freedom of Information Act. Specifically, you have requested the following information:

*"This is my wish for access to records.*

*Description of Requested Records:*

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any 'COVID-19 virus' (aka 'SARS-COV-2', including any alleged 'variants' i.e. 'B.1.1.7', 'B.1.351', 'P.1') directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.*

*Please note that I am not requesting studies/reports where researchers failed to purify the suspected 'virus' (separate the alleged 'virus' from everything thing else in the patient sample) and instead:*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

*Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a 'virus' requires host cells in order to replicate, and I am not requesting records describing*

*the replication of a 'virus' without host cells. Further, I am not requesting private patient information, or records that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence”.*

The public health team at Croydon Council do not hold any reports/ studies/ records relating to the purification of COVID-19 virus. The Council is not responsible for the handling or processing of biological samples. We are also unaware of any relevant unpublished reports or published peer review papers on the topic matter. A search of electronic clinical journals, such as PubMed and Science Direct, might help you find relevant clinical studies on the topic of interest.

If you are dissatisfied with the way the Council has handled your request under the Freedom of Information Act you may ask for an internal review. This should be submitted to us within 40 working days of this response. You can do this by outlining the details of your complaint by:

Email: [FOI@croydon.gov.uk](mailto:FOI@croydon.gov.uk)

Writing: Information Team  
London Borough of Croydon  
Bernard Weatherill House  
7<sup>th</sup> Floor - Zone C  
8 Mint Walk  
Croydon CR0 1EA

Any requests received after the 40 working day time limit will be considered only at the discretion of the council.

If you are not content with the outcome of the internal review, you have the right to apply directly to the Information Commissioner for a decision. The Information Commissioner can be contacted at:

Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire SK9 5AF

Yours sincerely

19 October 2021

Director Public Health  
London Croydon – Rachel Flowers

**Information Governance/Digital & Customer Services/Corporate Resources/Council House, Corporation Street, Derby, DE1 2FS, [www.derby.gov.uk](http://www.derby.gov.uk)**

To view Derby City Council Privacy Notices please visit [derby.gov.uk/privacy-notice](http://derby.gov.uk/privacy-notice)

Your information request has been dealt with under the Freedom of Information Act 2000.

In accordance with Section 1(1)(a) of the Freedom of Information Act 2000, the Council confirms it **does not hold** any of the information you have specified in your request – please see the response template sent with this letter for more information.

Please note that the Council's process is to send the information request responses by email with a response template and not as a covering letter which may be the process used by other organisations. The Council's duty under the Freedom of Information Act 2000 is to confirm or deny whether we hold the information requested and our response process complies with this obligation.

You have requested a covering letter for this response and we have complied with your preference.

### **Advice**

The Council is not responsible for determining whether any virus/disease exist and whether any tests/treatments used to combat them are effective/harmful to the public. This is the responsibility of the UK Government/National Health Service/Public Health England to determine. As shown by this response, we do not hold this type of information.

As this is the case, we will apply the Section 14(1) Vexatious exemption to any similar information requests you submit asking for evidence about virus/diseases etc.

### **Section 14(1) Vexatious Exemption**

Section 14 of the Freedom of Information Act 2000 (FOIA) allows public authorities to classify requests as vexatious. In such circumstances the Council is not required to deal with your information request.

Section 14(1) of the Freedom of Information Act 2000 (the Act) provides:

#### **"14. Vexatious**

*(1) Section 1(1) does not oblige a public authority to comply with a request for information if the request is vexatious."*

A request can be considered vexatious if it we consider it a Deliberate intention to cause annoyance by asking for the information that would not be held by the Council.

'Vexatious' applies to the request and not the applicant. This protection exists within the legislation to ensure that applicants use their rights to seek information responsibly and public authorities are not wasting valuable time and resources dealing with requests that have no clear purpose.

If you are dissatisfied with the response to your request, you can ask for an internal review under our [FOI & EIR complaints procedure](#) . Please put your appeal reasons in writing and send it within 40 working days to...

Information Governance Officer (FOI)  
Derby City Council  
The Council House  
Corporation Street  
Derby  
DE1 2FS

Telephone 01332 640763 or e-mail [foi@derby.gov.uk](mailto:foi@derby.gov.uk)

You may also apply to the Information Commissioner for a decision under section 50 of the Act but he may decline to deal with your application if you have not followed the Council's complaints procedure first.

Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF  
Telephone: 01625 545 700  
[www.ico.org](http://www.ico.org)

**Please note, the following applies, if the response includes council officers (or other officers) names.**

If you are a company that intends to use the names and contact details of council officers (or other officers) provided for direct marketing, you need to be registered with the Information Commissioner to process personal data for this purpose. You must also check

that the individual (whom you wish to contact for direct marketing purposes) is not registered with one of the Preference Services to prevent Direct Marketing. If they are you must adhere to this preference. You must also ensure you comply with the Privacy Electronic and Communications Regulations (PECR). For more information follow this Link [www.ico.org.uk](http://www.ico.org.uk)

For the avoidance of doubt the provision of council (and other) officer names and contact details under FOI does not give consent to receive direct marketing via any media and expressly does not constitute a 'soft opt-in' under PECR.

Yours sincerely,

*E V Miller*

Principal Information Governance Officer

19 October 2021

Director Public Health  
East Midlands Derby UA – Robin Dewis

Robyn.dewis@derby.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

## Information request - FOI/PHE/10/21/21614

From: Michael Warby <Michael.Warby@hertfordshire.gov.uk>

To:

Date: Friday, October 22nd, 2021 at 20:33

Dear Mr Hobbs,

**Reference number: FOI/PHE/10/21/21614**

On 21<sup>st</sup> October 2021 Hertfordshire County Council received the following request for information from you:

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovineserum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.*

*Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" SARSCoV- 1 or any of the other common cold associated coronavirus's (separate the alleged "virus" from everything thing else in the patient sample) and instead:-*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

### **Clarification of Request**

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.*

13/12/2021

(2799) All mail [REDACTED]

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

Your request for information has been considered under the Freedom of Information Act 2000 and I can confirm that after a discussion with our Director of Public Health, that Hertfordshire County Council does hold any information in relation to your subject matter.

If you have any questions, please do not hesitate to contact me, quoting the reference number on this correspondence. To find out more about Freedom of Information, please visit <http://www.hertfordshire.gov.uk/your-council/work/foi/>

If you are unhappy with the way the County Council has handled your request for information you may request an internal review of the request. This will be carried out by a member of the County Council Legal Services Team, who has had no prior involvement with the request. Requests for an internal review should be sent to the Information Governance Unit at the address above (within 2 months of this correspondence) and should detail in writing your grounds of appeal.

If you are unhappy with the outcome of the internal review you are entitled to ask the Information Commissioner to investigate your complaint. You should write to: FOI/EIR Complaints Resolution, Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF.

Yours sincerely,

Michael

Dear Von Hobbs

**Reference number: FOI/PHE/10/21/21591**

It has come to my attention that you submitted a request to the Director of Public Health requesting the following.

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

I can confirm that Hertfordshire County Council does not hold the information you have requested. However to advise and assist please see below for a list of links that Jim McManus has provided.

The isolation of the Virus has been reported in multiple scientific journals.

[Virus Isolation from the First Patient with SARS-CoV-2 in Korea \(nih.gov\)](#)

[Isolation and Full-Length Genome Characterization of SARS-CoV-2 from COVID-19 Cases in Northern Italy | Journal of Virology \(asm.org\)](#)

[Phenol-chloroform-based RNA purification for detection of SARS-CoV-2 by RT-qPCR: Comparison with automated systems \(plos.org\)](#)

[I study viruses: How our team isolated the new coronavirus to fight the global pandemic \(theconversation.com\)](#)

Not only has the virus been isolated but the genome has been sequenced, something not possible without isolating the virus.

[Severe acute respiratory syndrome coronavirus 2 isolate Wuhan-Hu-1, co - Nucleotide - NCBI \(nih.gov\)](#)

[Severe acute respiratory syndrome coronavirus 2 isolate SARS-CoV-2/hum - Nucleotide - NCBI \(nih.gov\)](#)

[Severe acute respiratory syndrome coronavirus 2 isolate BetaCoV/Wuhan/ - Nucleotide - NCBI \(nih.gov\)](#)

You may also find this useful [Koch's postulates, Covid, and misinformation rabbit holes - The University of Auckland](#)

For further information we recommend asking UKSHA or PHE.

If you have any questions, please do not hesitate to contact me, quoting the reference number on this correspondence. To find out more about Freedom of Information, please visit <http://www.hertfordshire.gov.uk/your-council/work/foi/>

If you are unhappy with the way the County Council has handled your request for information you may request an internal review of the request. This will be carried out by a member of the County Council Legal Services Team, who has had no prior involvement with the request. Requests for an internal review should be sent to the Information Governance Unit at the address above (within 2 months of this correspondence) and should detail in writing your grounds of appeal.

If you are unhappy with the outcome of the internal review you are entitled to ask the Information Commissioner to investigate your complaint. You should write to: FOI/EIR Complaints Resolution, Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF.

19 October 2021

Director Public Health  
East of England Hertfordshire – Jim McManus

Jim.mcmanus@hertfordshire.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

Date: 20/09/2021

Ref no: **GOS-COV-110921-0247**

Thank you for your email of 13/09/2021 where you requested the following information:

*"All studies and/or reports in the possession, custody or control of The Government Office of Science describing the **purification** of any **"COVID-19 virus"** (aka **"SARS-COV-2"**, **including any alleged "variants"** i.e. **"B.1.1.7"**, **"B.1.351"**, **"P.1"**) (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

*Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected "virus" and instead:*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things.*

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.*

*Further, I am **not** requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please also note that my request is **not limited** to records that were authored by The Government Office of Science or that pertain to work done at/by The Government Office of Science. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by The Government Office of Science and relied on as evidence of a disease-causing "virus".*

*If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible."*

## **Response**

Your request has been handled under the Freedom of Information Act 2000 (the Act) and is based on information held.

Under the Act, we are required under section 1(1)(a) to confirm or deny whether the information is held.

I confirm we do not hold the information you have requested.

## **Appeals procedure**

If you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within two months of the date of receipt of the response to your original request and should be addressed to:

Government Office for Science Internal Reviews  
Government Office for Science  
10 Victoria Street  
London  
SW1H 0NN  
Email: [foi.reviews@go-science.gov.uk](mailto:foi.reviews@go-science.gov.uk)

Please remember to quote the reference number above in any future communications.

If you are not content with the outcome of the internal review, you have the right to apply directly to the Information Commissioner for a decision. The Information Commissioner can be contacted at: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF

Yours sincerely

Government Office for Science

Bartholomeus Lakeman

By email: [request-666330-641ae299@whatdotheyknow.com](mailto:request-666330-641ae299@whatdotheyknow.com)

FOI Reference: FOI2020/06375

22/06/2020

Dear Bartholomeus Lakeman

I refer to your request where you asked:

*"1) Is there an electron micrograph of the pure and fully characterised virus (SARS-CoV-2)?*

*2. What is the name of the primary specialist peer reviewed paper in which said virus is illustrated and its full genetic information described?*

*3. What is the name of the primary specialist peer reviewed paper which provides unequivocal proof that the 'Covid-19' virus is the sole cause of a particular disease?*

*4. Where is (if there is proof of SARS-CoV-2) its antibody test that fulfils the Koch postulates and has a false positive below 30%; that can confirm being infected by SARS-CoV-2?"*

I am writing to advise you that following a search of our paper and electronic records, I have established that the information you requested is not held by the Cabinet Office.

You may wish to try contacting Public Health England at the following link: [FOI@phe.gov.uk](mailto:FOI@phe.gov.uk), who may be able to help you with your request.

If you are unhappy with the service you have received in relation to your request or wish

to request an internal review, you should write to:

Eirian Walsh Atkins  
Cabinet Office  
70 Whitehall  
London  
SW1A 2AS

email: [foi-team@cabinetoffice.gov.uk](mailto:foi-team@cabinetoffice.gov.uk)

You should note that the Cabinet Office will not normally accept an application for internal review if it is received more than two months after the date that the reply was issued.

If you are not content with the outcome of your internal review, you may apply directly to the Information Commissioner for a decision. Generally, the Commissioner cannot make a decision unless you have exhausted the complaints procedure provided by Cabinet Office. The Information Commissioner can be contacted at:

The Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF

Yours sincerely

— Marc Horn 25 July 2020

✓ Delivered

Dear House of Commons,

Please provide a full, accurate and complete list of records held within your office, and or under your authority, describing the isolation of a SARS-COV-2 virus, directly taken from a symptomatic patient of COVID-19 where the sample was not first combined with any other source of genetic material (not limited but by way of example monkey kidney cells, aka vero cells, liver cancer cells) thereby eliminating contamination as a possible alternative source of sampling.

Please note isolation is used in the normally understood meaning of the word – the act of separating a thing from another. I am not referring, and hence not requesting, to isolation meaning the culture of something else, the performance of an amplification test (eg PCR test which only detect mRNA or DNA) or the sequencing of "something".

If any records match the above description and are available to the public elsewhere, please provide enough information so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, and weblink or location where the public may access it).

I remind you full, accurate and complete disclosure is required.

Yours faithfully,

Marc Horn

Dear Mr Horn,

Freedom of Information Request F20-347

Thank you for your request for information as copied below. You have asked for information describing the isolation of a SARS-COV-2 virus.

This information is not held by the House of Commons.

It may help you to understand that the House of Commons is an organisation that forms part of the UK's legislature. Our role it is to make and debate laws, scrutinise the work of the Government and debate the issues of the day. Whilst this may involve carrying out research into those issues, it does not extend to practical scientific investigation. You are seeking information which might instead be held by the Department of Health and Social Care or Public Health England, and therefore you may wish to consider submitting your request under the Freedom of Information Act to them. Contact details can be found at [1]<https://www.gov.uk/government/organisati...> and [2]<https://www.gov.uk/government/organisati...>.

However, it may interest you to know that the House of Commons Library and the Parliamentary Office of Science and Technology have undertaken research on the Covid-19 outbreak, for the purpose of informing Members of Parliament. This has information on the subject in general which you may find helpful and is publicly available at

[3]<https://commonslibrary.parliament.uk/cor...> and

[4]<https://post.parliament.uk/category/anal...>

You may, if dissatisfied with the handling of your request, complain to the House of Commons. Alternatively, if you are dissatisfied with the outcome of your request you may ask the House of Commons to conduct an internal review of any decision regarding your request. Complaints or requests for internal review should be addressed to: Information Rights and Information Security Service, Research & Information Team, House of Commons, London SW1A 0AA or [5][House of Commons request email]. Please ensure that you specify the full reasons for your complaint or internal review along with any arguments or points that you wish to make.

If you remain dissatisfied, you may appeal to the Information Commissioner at Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF, [6][www.ico.gov.uk](http://www.ico.gov.uk).

Yours sincerely,

IRIS Officer  
Information Rights and Information Security

House of Commons, London SW1A 0AA

FOI 3462 Response.pdf

78K [Download](#) [View as HTML](#)

Dear Mr Horn,

Please find attached our response to your request (copied below) to the House of Lords Administration.

You may, if dissatisfied with the treatment of your request, ask the House of Lords to conduct an internal review. This should be addressed to [1][\[email address\]](#) and explain clearly the nature of your complaint in terms of compliance with the Freedom of Information Act 2000. Arrangements will be made for someone who has not been involved in dealing with your request to conduct an internal review within 20 working days.

You should note that we will not normally accept an application for internal review if it is received more than two months after the date our response was sent. Any such request received after this time will only be considered in exceptional circumstances.

If, following this review, you remain dissatisfied with the House's treatment of your request for information you may then take your complaint to the Information Commissioner using the contact details available [2]here.

Please note that due to the Covid-19 pandemic our office is temporarily closed, and the FOI team are currently unable to receive correspondence sent by post.

The Information Commissioner's Office has also advised that their office is closed for the foreseeable future and that they are currently unable to receive correspondence by post.

Yours sincerely,

Kimberley Swift

Information Compliance Team

House of Lords

## List of records describing the isolation of a SARS-COV-2 virus

### Request:

Please provide a full, accurate and complete list of records held within your office, and or under your authority, describing the isolation of a SARS-COV-2 virus, directly taken from a symptomatic patient of COVID-19 where the sample was not first combined with any other source of genetic material (not limited but by way of example monkey kidney cells, aka vero cells, liver cancer cells) thereby eliminating contamination as a possible alternative source of sampling.

Please note isolation is used in the normally understood meaning of the word – the act of separating a thing from another. I am not referring, and hence not requesting, to isolation meaning the culture of something else, the performance of an amplification test (eg PCR test which only detect mRNA or DNA) or the sequencing of “something”.

If any records match the above description and are available to the public elsewhere, please provide enough information so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, and weblink or location where the public may access it).

### Response:

The Freedom of Information Act 2000 (“the FOIA”) provides a right of access, subject to specified exemptions, to recorded information held by a public authority. In the case of the House of Lords, the rights of access apply to recorded information held by the House of Lords Administration.

The House Administration does not hold any information matching the description set out in your request.

Outside the scope of your request, you may be interested in the House of Lords Science and Technology Committee’s current inquiry into the science of COVID-19. Information relating to the inquiry, including oral and written evidence that has been submitted to the Committee, is published on our website here:

<https://committees.parliament.uk/work/293/the-science-of-covid19/>

## Freedom of Information request re "SARS-COV-2" isolation

Dear Freedom of Information Officer,

This is a formal request for access to general records, made under the *Freedom of Information Act, 2000*.

### Description of Requested Records:

All records **in the possession, custody or control of Imperial College London** describing the isolation of **any variant** ("new" or "old") of the alleged "SARS-COV-2" / "COVID-19 virus", directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am using "isolation" in the every-day sense of the word: *the act of separating a thing(s) from everything else*. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something, and/or
- the performance of an amplification test (i.e. a PCR test), and/or
- the sequencing of something.

Please also note that my request is **not limited** to records that were authored by Imperial College London or that pertain to work done at/by Imperial College London. Rather, my request includes any record **matching the above description**, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed **by Imperial College London**.

If any records **match the above description** of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

To: Christine Massey <cmssyc@gmail.com>

Dear Ms Massey,

This is to acknowledge receipt of your request below, made under the Freedom of Information Act. The College will respond to your request by 12 March.

Yours,

**Freedom of Information Team**

[Imperial College London](#)

Freedom of Information request re "SARS-COV-2" isolation, IMPFOI-21-85

IMPFOI <foi@imperial.ac.uk>

Fri, Mar 12, 2021 at 12:07 PM

To: "cmssyc@gmail.com" <cmssyc@gmail.com>

Dear Ms Massey,

Thank you for your Freedom of Information Act request, which was as follows:

*All records in the possession, custody or control of Imperial College London describing the isolation of **any variant** ("new" or "old") of the alleged "SARS-COV-2" / "COVID-19 virus", directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

*Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:*

- ☒ the culturing of something, and/or*
- ☒ the performance of an amplification test (i.e. a PCR test), and/or ☒ the sequencing of something.*

*Please also note that my request is **not limited** to records that were authored by Imperial College London or that pertain to work done at/by Imperial College London. Rather, my request includes any record matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by Imperial College London.*

*If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

Part of your request is asking Imperial College to locate for you and then compile a directory of all scientific papers on the isolation of the COVID-19 virus where the patient sample was not first combined with any other source of genetic material. In addition, you have asked the college for details of "any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by Imperial College London". Imperial College does not hold a directory or document listing every resource on this topic produced by "anyone, ever, anywhere". Neither do we hold a record of every document that has ever been downloaded or printed by staff or students of the College. The Freedom of Information Act provides a right to access existing records held by public authorities; it does not extend to a right to have public authorities create information in order to respond to requests.

Scientific papers on this topic produced by Imperial College or others are generally in the public domain and thus already accessible to you. Information is exempt from the Freedom

of Information Act (Section 21) if it is already reasonably accessible to the requester. You can view Imperial College COVID-19 publications (which will contain references to other published papers where relevant) on our [website](#).

If you are unhappy with the way that we have handled your request, you can ask us to conduct a review. Please make your representation in writing within 40 days of the date you received this response. If you remain dissatisfied with how Imperial College has handled your request, you may then approach the [Information Commissioner's Office](#).

Yours,

**Freedom of Information Team**  
[Imperial College London](#)

To: IMPFOI <foi@imperial.ac.uk>

Fri, Mar 12, 2021 at 12:55 PM

Dear "Team",

Thank you for your response, however it is insufficient and I require further assistance in accordance with the *Freedom of Information Act, 2000*.

Be advised that all responses/nonresponses from the "Team" will be made public.

The response you have provided thus far reflects very poorly on your institution and your "Team" because it either feigns misunderstanding of a perfectly clear and reasonable request (that has already been understood quite perfectly by [dozens of institutions around the world](#)), or it demonstrates gross incompetence and utter lack of intelligence.

In case of the latter: I have **only** requested **existing records** held by public authorities ("*All records in the possession, custody or control of Imperial College London ...*").

There are no separate "*parts*" to my request. The remainder of my **Description of Requested Records** was clarification of my 1 request.

I did not request a "directory" or a "document listing every resource on this topic produced by "anyone, ever, anywhere"", or "a record of every document that has ever been downloaded or printed by staff or students of the College", or that anyone "create information" for me.

As you acknowledge, the Act provides a right to access existing records held by public authorities and exempts information **if it is already reasonably accessible to the requester**. To my knowledge, no responsive records exist; obviously a requester **cannot** reasonably access records when, to their knowledge, those records do not even exist.

Further, I remind you that Section 1 of the Act states:

**General right of access to information held by public authorities.**

*(1) Any person making a request for information to a public authority is entitled —  
(a) to be informed in writing by the public authority whether it holds information of the description specified in the request, and  
(b) if that is the case, to have that information communicated to him.*

Thus the College has a "**duty to confirm or deny**" and you are presently in violation of that duty.

Therefore, I look forward to a response from the College that is in accordance with *the Act*.

Thank you and best wishes,  
Christine

IMPFOI Tue, Mar 16, 9:47 AM

Dear Ms Massey,

I refer to your email below. I manage Freedom of Information Act requests for Imperial College and handle FOI Internal Reviews for the College.

I hope that we will be able to achieve clarity on your request and provide you with any information to which you are entitled. It would be helpful to that process if you could refrain from insulting members of the team. As the author of the request, no doubt it is clear to you what information you wish to access, however, having reviewed your request, it does read to me as if you are asking the College to compile a catalogue of any document that has ever been downloaded or printed by Imperial College staff or students that describes the isolation of the virus. If that was not your intention, perhaps you could take this opportunity to provide some clarification and explain what you are hoping to access? If you could provide more detail about the information that you are hoping to access, the context of your request or your reason for asking, that might help us to conduct a targeted search.

We explained in our response to you that we do not keep records of what material has been printed or downloaded by our staff and students. In order for us to deal with your request in its present form we would need to ask all staff and students at the College whether they had downloaded or printed information on the isolation of the virus and ask them to provide details. As the college has about 20,000 students and 8,000 members of staff that approach is not practical. The exemption at Section 12 of the Freedom of Information Act, which provides that organisations need not respond to Freedom of Information Act requests if it would take more than 18 hours to extract and compile the information requested, would apply.

While your request refers to information held by "Imperial College", I presume the focus would be on information held by academics and researchers in the relevant field, not *any* member of Imperial College staff or the College students. We could approach the relevant academics at the College to ask them if they hold any information within the scope of your request. Our response to your request included a link to the College's pages on our COVID-19 response. Perhaps you could identify with reference to that, the academics or academic discipline/s that would be likely to hold the information that you are seeking?

You may find the Information Commissioner's Office guidance on [how to access information from a public body](#) helpful. You might want to bear in mind that public authorities are not obliged to respond to requests if it would take more than 18 hours to locate, collate or extract the information requested (Section 12, Freedom of Information Act), if responding to the request would cause a public authority an unjustified or disproportionate level of disruption (Section 14) or if the request is for information that is already reasonably accessible (Section 21).

Yours,  
Anita Hunt

**Christine Massey** <cmssyc@gmail.com>  
To: IMPFOI <foi@imperial.ac.uk>

Tue, Mar 16, 2021 at 7:05 PM

Dear Anita,

Thank you for your message.

I am not expecting anyone to ask 20,000 students and 8,000 members about their download history or to do anything that would take more than 18 hours.

Imperial College London has played a key role in "COVID-19" via the modeling of Professor Neil Ferguson. Also the Deputy Director of National Infection Service and Director of Reference Microbiology Services at Public Health England, Maria Zambon, is a virologist and professor at Imperial College, and she is co-author on the infamous Corman-Drosten paper that is behind most of the "COVID-19" PCR tests performed around the world.

Therefore, a reasonable person might hope and expect that someone on staff at the College would have done their due diligence to ensure that the alleged "deadly virus" does in fact exist (with isolation/purification - as described in my request - being an essential piece of the necessary science) and that responsive records would thus be in the possession, custody or control of the College. However as I explained in my last email, to my knowledge, no such records exist anywhere on the planet. If such records do in fact exist and are held by the College, then I (and many other people around the world) require access to them.

So, you are correct in presuming that the focus would be on information held by academics and researchers in the relevant field, not *any* member of Imperial College staff or the College students.

Since I am not familiar with how your institution or the records of your institutions are organized, and do not even expect that any such records exist, I'm afraid I'm not in a position to advise on how best to conduct a reasonable search at the College. However Professors Ferguson and Zambon would seem a reasonable place to start. If they do not know of any such records then they could advise you on how best to continue with the search or whether there is even any point in continuing.

Thank you and best wishes,  
Christine

Wed, Mar 17, 2021 at 3:15 PM

Dear Anita and the Imperial College London Freedom of Information Team,

You just responded (as shown below this email) to an email thread with the subject line **Re: Freedom of Information request re "SARS-COV-2" isolation, IMPFOI-21-85** that is obviously a discussion of a request that I first submitted to your institution **over a month ago (February 11, 2021)**, and you implied that the email that you responded to is a new request when it clearly is not. You also assigned a new email subject line that indicates a new file number **IMPFOI-21-151** and stated your intention to take yet another month to provide a response to my February 11, 2021 request.

Which provision of the *Freedom of Information Act, 2000* allows for such a handling of a request that is already 5 weeks old?

Be advised once again that all responses/nonresponses from the "Team" will be made public.

Thank you and best wishes,  
Christine

Thu, Mar 18, 2021 at 9:16 AM

Dear Ms Massey,

I apologise that we did not expressly state in our acknowledgement that we would be treating your revised request as a new request.

We replied to your Freedom of Information Act (our re. IMPFOI-21-85) on March 16. Following our correspondence, you have refined your request to focus on information that might be held by Professors Ferguson and Zambon. We regard this as a different request and have recorded it as such, hence the new reference number and timescale.

Yours,

**Anita Hunt**

Thu, Mar 18, 2021 at 5:06 PM

To: IMPFOI <foi@imperial.ac.uk>

Dear Anita,

I'm quite certain that any reasonable person would view our ongoing communications as a discussion of my 1 and only request (which has not changed in any way) and would agree that the College has still not fulfilled its "*duty to confirm or deny*" as per Section 1 of the Act.

Regarding one of the earlier emails from you (or your Team), it is not clear to me why you ever brought up the issue of 20,000 students and 8,000 members of staff. Surely papers downloaded or printed by ICL students are their own business and not subject to the Act.

For future reference, would you please clarify - does the College take the position that anything downloaded or printed **by a student or any staff member** is in the possession, custody or control of the College and hence subject to the Act and potentially responsive to my and other information requests? I ask this because my request specifically asked for "*All records in the possession, custody or control of Imperial College London describing the isolation of any variant ("new" or "old") of the alleged "SARS-COV-2" / "COVID-19 virus" ...*"

And for future reference, is the College in the habit of canvassing 20,000 students and 8,000 members of staff (or, taking the position that it would be necessary to canvass 20,000 students and 8,000 members of staff) in response to records requests as specific as mine?

Or is my request receiving special treatment?

Thank you and best wishes,  
Christine

**IMPFOI** <foi@imperial.ac.uk>  
To: Christine Massey <cmssyc@gmail.com>

Fri, Mar 19, 2021 at 11:25 AM

Dear Ms Massey,

You would be entitled to make a complaint to the Information Commissioner's Office if you believe that the College has not complied with its obligations under the Freedom of Information Act.

I referred to the number of staff and students at the College in order to explain why it would not be possible to deal with your request in its original form within the FOI time -limit.

The College's position on the application of the Freedom of Information Act is determined by the guidance from and decisions of the Information Commissioner's Office and decisions of the courts. Further information on the application of the legislation can be found on the [ICO's website](#).

Imperial College aims to fully comply with our legal obligations in relation to all FOI requests received, we do not give special treatment to any requests.

Yours,

**Anita Hunt**

Dear Anita,

Thank you.

I won't bother making a complaint to the Information Commissioner's Office because I'm quite certain that would be a waste of my time.

What I will do is make our entire communications public and let thinking men and women decide for themselves whether or not "The Team" has handled my records request in a reasonable manner.

Best wishes,  
Christine

19 October 2021

Director Public Health  
London Hammersmith and Fulham – Nicola Lang (acting/interim)

nicola.lang@lbhf.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

## Assessment and care coordination

Hammersmith & Fulham Council  
Town Hall, King Street  
Hammersmith  
London W6 9JU

Reference: 2029609  
Email: [icaseworkinformation@lbhf.gov.uk](mailto:icaseworkinformation@lbhf.gov.uk)  
Date: 20 October 2021

Dear 

## Freedom of Information Act 2000

This request is being handled under the Freedom of Information Act 2000.

I am writing to advise you that, following a search of our paper and electronic records, I have established that the information you requested is not held by London Borough of Hammersmith and Fulham.

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

We do not have any records that relate to your query

Please quote the reference number 2029609 in any future communications.

If you aren't happy with the council's response, please contact H&F within 40 working days of us sending you our response, with details of why you're unhappy.

You can do this by:

- visiting H&F's website: <https://www.lbhf.gov.uk/councillors-and-democracy/complaints>
- emailing [handfintouch@lbhf.gov.uk](mailto:handfintouch@lbhf.gov.uk)
- writing to the Resident Experience team, Hammersmith Town Hall, King Street, London, W6 9JU

Your concerns will be passed to H&F's Information Management Team to consider as an internal review. There's no charge for requesting an internal review.

If you are still dissatisfied with the Council's response after the internal review you have a right of appeal to the Information Commissioner by:

- Writing to the Information Commissioner's Office (ICO), Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF
- Calling their helpline: 0303 123 1113
- Visiting the ICO's website [www.ico.org.uk/concerns/](http://www.ico.org.uk/concerns/)

The ICO are the UK's independent authority set up to uphold information rights in the public interest.

I will now close your request as of this date.

Yours sincerely

Sarah O'Neill  
Business and Project Manager  
Social Care and Public Health

— Marc Horn 25 July 2020

✓ [Delivered](#)

Dear Prime Minister's Office,

Please provide a full, accurate and complete list of records held within your office, and or under your authority, describing the isolation of a SARS-COV-2 virus, directly taken from a symptomatic patient of COVID-19 where the sample was not first combined with any other source of genetic material (not limited but by way of example monkey kidney cells, aka vero cells, liver cancer cells) thereby eliminating contamination as a possible alternative source of sampling.

Please note isolation is used in the normally understood meaning of the word – the act of separating a thing from another. I am not referring, and hence not requesting, to isolation meaning the culture of something else, the performance of an amplification test (eg PCR test which only detect mRNA or DNA) or the sequencing of "something".

If any records match the above description and are available to the public elsewhere, please provide enough information so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, and weblink or location where the public may access it).

I remind you full, accurate and complete disclosure is required.

Yours faithfully,

Marc Horn

## Freedom of Information Request Reference FOI-1360708

Thank you for your request dated 11 September 2021 in which you asked the Department of Health and Social Care (DHSC):

*"All studies and/or reports in the possession, custody or control of The Department of Health and Social Care describing the purification of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

*Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:*

*\* cultured an unpurified sample or other unpurified substance, and/or*

*\* performed an amplification test (i.e. a PCR test) on all the RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*

*\* fabricated a "genome" by editing/assembling/aligning sequences detected in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*

*\* produced electron microscopy images of unpurified things.*

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.*

*Further, I am not requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please also note that my request is not limited to records that were authored by The Department of Health and Social Care or that pertain to work done at/by The Department of Health and Social Care. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by The Department of Health and Social Care and relied on as evidence of a disease-causing 'virus'."*

Your request has been handled under the Freedom of Information Act 2000 (FOIA).

DHSC does not hold the information you have requested. This is because we are not the appropriate authority to contact regarding this matter. However, you may wish to contact the UK Health Security Agency (UKHSA), which may hold information relevant to your request. UKHSA can be contacted via [InformationRights@UKHSA.gov.uk](mailto:InformationRights@UKHSA.gov.uk).

However, outside of the scope of the FOIA, you may be interested in the following information.

The World Health Organisation has compiled a comprehensive database of research information in relation to Coronavirus, which is available at the following link: (Global research on coronavirus disease (COVID-19)):

[Global research on coronavirus disease \(COVID-19\) \(who.int\)](https://www.who.int)

You may also be aware that Go-Science regularly publishes the scientific evidence supporting the UK Government response to Covid-19 on the GOV.UK website at this link:

<https://www.gov.uk/government/organisations/government-office-for-science>

If you are not satisfied with the handling of your request, you have the right to appeal by asking for an internal review. This should be sent to [FreedomOfInformation@dhsc.gov.uk](mailto:FreedomOfInformation@dhsc.gov.uk) or to the address at the top of this letter and be submitted within two months of the date of this letter.

Please remember to quote the reference number above in any future communication.

If you are not content with the outcome of your internal review, you may complain directly to the Information Commissioner's Office (ICO). Generally, the ICO cannot make a decision unless you have already appealed our original response and received our internal review decision. You should raise your concerns with the ICO within three months of your last meaningful contact with us.

The ICO can be contacted at:

[REDACTED]

4 September 2020

Dear [REDACTED]

**Freedom of Information Request Reference FOI-1247803**

Thank you for your request dated 9 August, in which you asked the Department of Health and Social Care (DHSC):

*"All records in the possession, custody or control of The Department of Health and Social Care describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).*

*Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:*

- \* the culturing of something,*
- \* or the performance of an amplification test (i.e. a PCR test),*
- \* or the sequencing of something.*

*Please also note that my request is not limited to records that were authored by the The Department of Health and Social Care or that pertain to work done by The Department of Health and Social Care. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the Department of Health and Social Care has downloaded or printed.*

*If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).*

**Format:**

*Pdf documents sent to me via email; I do not wish for anything to be shipped to me."*

Your request has been handled under the Freedom of Information Act (FOIA).

DHSC does not hold the information you have requested.

You may wish to direct your request to Public Health England (PHE) and the Government Office for Science (Go-Science). FOI requests can be submitted to PHE at [FOI@phe.gov.uk](mailto:FOI@phe.gov.uk), and to Go-Science at [contact@go-science.gov.uk](mailto:contact@go-science.gov.uk).

If you are not satisfied with the handling of your request, you have the right to appeal by asking for an internal review. This should be submitted within two months of the date of this letter and sent to [FreedomOfInformation@dhsc.gov.uk](mailto:FreedomOfInformation@dhsc.gov.uk), or to the address at the top of this letter.

Please remember to quote the reference number above in any future communication.

If you are not content with the outcome of your internal review, you may complain directly to the Information Commissioner's Office (ICO). Generally, the ICO cannot make a decision unless you have already appealed our original response and received our internal review decision. You should raise your concerns with the ICO within three months of your last meaningful contact with us.

The ICO can be contacted at:

Mr Horn  
[request-679704-  
a9f26e86@whatdotheyknow.com](mailto:request-679704-a9f26e86@whatdotheyknow.com)

24 August 2020

Dear Mr Horn,

## **Freedom of Information Request Reference FOI-1243364**

Thank you for your request dated 25 July 2020 in which you asked the Department of Health and Social Care (DHSC):

***Subject: Freedom of Information request - Full, accurate and complete disclosure of SARS-COV-2 virus records***

***Please provide a full, accurate and complete list of records held within your office, and or under your authority, describing the isolation of a SARS-COV-2 virus, directly taken from a symptomatic patient of COVID-19 where the sample was not first combined with any other source of genetic material (not limited but by way of example monkey kidney cells, aka vero cells, liver cancer cells) thereby eliminating contamination as a possible alternative source of sampling.***

***Please note isolation is used in the normally understood meaning of the word – the act of separating a thing from another. I am not referring, and hence not requesting, to isolation meaning the culture of something else, the performance of an amplification test (eg PCR test which only detect mRNA or DNA) or the sequencing of “something”.***

***If any records match the above description and are available to the public elsewhere, please provide enough information so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, and weblink or location where the public may access it). I remind you full, accurate and complete disclosure is required.***

Your request has been handled under the Freedom of Information Act (FOIA).

DHSC does not hold information on the isolation of a SARS-COV-2 virus.

However, outside of the scope of the FOIA, and on a discretionary basis, the following information has been advised to us, which may be of interest. Most infectious diseases are caused by viruses, bacteria or fungi. Some bacteria or fungi have the capacity to grow on their own in isolation, for example in colonies on a petri dish. Viruses are different in that they are what we call “obligate pathogens” – that is, they cannot survive or reproduce without infecting a host. An explainer of these different types of pathogen (disease causing agents) can be found from BMC Biology here: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5648414/>

For some diseases, it is possible to establish causation between a microorganism and a disease by isolating the pathogen from a patient, growing it in pure culture and reintroducing it to a healthy

organism. These are known as “Koch’s postulates” and were developed in 1884. However, as our understanding of disease and different disease-causing agents has advanced, these are no longer the method for determining disease causation. It has long been known that viral diseases cannot be identified in this way as viruses cannot be grown in ‘pure culture’. When a patient is tested for a viral illness, this is normally done by looking for the presence of antigens, or viral genetic code in a host with molecular biology techniques.

If you have any queries in relation to the above discretionary information, we suggest that you may wish to contact the Government Office for Science (Go-Science). FOI requests may be submitted to Go-Science at [contact@go-science.gov.uk](mailto:contact@go-science.gov.uk).

If you are not satisfied with the handling of your request, you have the right to appeal by asking for an internal review. This should be submitted within two months of the date of this letter and sent to [FreedomOfInformation@dhsc.gov.uk](mailto:FreedomOfInformation@dhsc.gov.uk), or to the address at the top of this letter.

Please remember to quote the reference number above in any future communication.

If you are not content with the outcome of your internal review, you may complain directly to the Information Commissioner’s Office (ICO). Generally, the ICO cannot make a decision unless you have already appealed our original response and received our internal review decision. You should raise your concerns with the ICO within three months of your last meaningful contact with us.

The ICO can be contacted at:

Dear Mr Kandias,

## **Freedom of Information Request Reference FOI-1266157**

Thank you for your request dated 25 October 2020 in which you asked the Department of Health and Social Care (DHSC):

***Subject: Freedom of Information request - Documents held showing SARS-COV2 has been isolated and causes COVID-19***

***Under the Freedom of Information Act, I wish to be provided with the following information: All records in the possession, custody or control of DHSC, describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).***

***Please note that I am using isolation in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where isolation of SARS-COV-2 refers \*instead\* to:***

- the culturing of something, or***
- the performance of an amplification test (i.e. a PCR test), or • the sequencing of something.***

***Please also note that my request is not limited to records that were authored by the DHSC or that pertain to work done by the DHSC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the DHSC has downloaded or printed.***

***Please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).***

Your request has been handled under the Freedom of Information Act (FOIA).

DHSC does not hold this information.

However, outside of the scope of the FOIA, and on a discretionary basis, the following information has been advised to us about the isolation of a SARS-COV-2 virus, which may be of interest:

Most infectious diseases are caused by viruses, bacteria or fungi. Some bacteria or fungi have the capacity to grow on their own in isolation, for example in colonies on a petri dish. Viruses are different in that they are what we call “obligate pathogens” – that is, they cannot survive or reproduce without infecting a host. An explainer of these different types of pathogen (disease

causing agents) can be found from BMC Biology here:  
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5648414/>

For some diseases, it is possible to establish causation between a microorganism and a disease by isolating the pathogen from a patient, growing it in pure culture and reintroducing it to a healthy organism. These are known as “Koch’s postulates” and were developed in 1884. However, as our understanding of disease and different disease-causing agents has advanced, these are no longer the method for determining disease causation. It has long been known that viral diseases cannot be identified in this way as viruses cannot be grown in ‘pure culture’. When a patient is tested for a viral illness, this is normally done by looking for the presence of antigens, or viral genetic code in a host with molecular biology techniques.

If you have any queries in relation to the above discretionary information, we suggest that you contact the Government Office for Science (Go-Science). FOI requests may be submitted to Go-Science at [contact@go-science.gov.uk](mailto:contact@go-science.gov.uk).

You may be aware that Go-Science regularly publishes the scientific evidence supporting the UK Government response to Covid-19 on the GOV.UK website at this link

Dear Mr Horn,

Freedom of Information Request F20-353

Thank you for your request for information as copied below. You have asked for records supporting the claim that the SARS-COV-2 virus causes the symptoms of the disease called COVID-19.

Some information is held by the House of Commons in relation to your request.

The House of Commons Library and the Parliamentary Office of Science and Technology have undertaken research on the Covid-19 outbreak, for the purpose of informing Members of Parliament. This includes research about testing for and the transmission of the virus.

However, this information is already available from a public source. This information is exempt from disclosure in accordance with section 21(1) and (2)(a) of the Freedom of Information Act 2000 (FOIA), which removes a public authority from the obligation to provide access to information which is already in the public domain. This is an absolute exemption and the public interest test does not apply.

However, it may help you to know that information relevant to your request can be found at [1]<https://commonslibrary.parliament.uk/cor...> and

[2]<https://post.parliament.uk/category/anal...>

You may, if dissatisfied with the handling of your request, complain to the House of Commons. Alternatively, if you are dissatisfied with the outcome of your request you may ask the House of Commons to conduct an internal review of any decision regarding your request. Complaints or requests for internal review should be addressed to: Information Rights and Information Security Service, Research & Information Team, House of Commons, London SW1A 0AA or [3][House of Commons request email]. Please ensure that you specify the full reasons for your complaint or internal review along with any arguments or points that you wish to make.

If you remain dissatisfied, you may appeal to the Information Commissioner at Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF, [4][www.ico.gov.uk](http://www.ico.gov.uk).

Yours sincerely,

IRIS Officer  
Information Rights and Information Security

House of Commons, London SW1A 0AA

Subject: Freedom of Information request - Full, accurate and complete

Marc Horn 12 August 2020

Delivered

Dear House of Commons,

Please pass this on to the person who conducts Freedom of Information reviews.

I am writing to request an internal review of House of Commons's handling of my FOI request 'Full, accurate and complete disclosure of records showing that the claimed SARS-COV-2 virus causes the symptoms of COVID-19'.

In your response you have claimed to have some of the information, and enclosed 2 links to support your claim. Neither of the links have any information supporting the claimed SARS-CoV-2 virus causes the symptoms of COVID-19.

As requested in my original FOI please provide enough information so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, and weblink or location where the public may access it). I remind you full, accurate and complete disclosure is required.

A full history of my FOI request and all correspondence is available on the Internet at this address:

<https://www.whatdotheyknow.com/request/f...>

Yours faithfully,

Marc Horn

FOI Commons, House of Commons 13 August 2020

**1 Attachment**

image002.png

16K [Download](#)

Dear Mr Horn,

Freedom of Information Request F20-353

Thank you for your request for an internal review, copied below. In the first instance, I thought it may be quicker and more helpful to provide

some additional information about the House's position, rather than undertaking a full review.

You asked the House of Commons for records supporting the claim that the SARS-COV-2 virus causes the symptoms of the disease called COVID-19. We advised you that the only information we held that related to that subject were two briefing papers from the House of Commons Library, for which we provided links. The Library routinely produces these briefings for the purpose of keeping Members up to date on a whole range of subjects.

I am very sorry that these papers did not contain the information you were looking for. They were supplied in good faith, and represent the only information the House of Commons holds on the matter.

The role of the House of Commons is to make laws and to scrutinise the work of the Government. The records we hold directly relate to that role (for example, records of Chamber debates, or minutes of Committee meetings) or to the day-to-day administration of the House services (such as catering menus and staff rotas).

We are not part of the Government, nor do we routinely have access to their documents and records. Where a Government Department commissions scientific studies or research, that information will be held by them. In the case of any research on the SARS-COV-2 virus, we assume that any studies, research or other advice would have been commissioned by the Government's Department of Health and Social Care, so you may wish to request the information from them. Contact details can be found here: [1]<https://www.gov.uk/government/organisati...>

I hope this helps you better understand our position – we simply don't hold the detailed information you seek and this is why. However, if you would still like us to carry out a full review of the House of Commons handling of your request, please let me know, detailing your further complaint.

Yours sincerely,

## WhatDoTheyKnow

#### 1 Attachment

FOI 3464 Response.pdf

79K [Download](#) [View as HTML](#)

Dear Mr Horn,

Please find attached our response to your request (copied below) to the House of Lords Administration.

You may, if dissatisfied with the treatment of your request, ask the House of Lords to conduct an internal review. This should be addressed to [1][\[email address\]](#) and explain clearly the nature of your complaint in terms of compliance with the Freedom of Information Act 2000.

## List of records supporting the claim that the SARS-COV-2 virus causes the symptoms of the disease called COVID-19

### Request:

Please provide a full, accurate and complete list of records held within your office, and / or under your authority, supporting the claim that the SARS-COV-2 virus causes the symptoms of the disease called COVID-19, including but not limited to isolation of SARS-COV-2 virus and its identification method as confirmation.

Please note isolation is used in the normally understood meaning of the word – the act of separating a thing from another. I am not referring to, and hence not requesting, isolation meaning the culture of something else or the performance of an amplification test (eg PCR test which only detect mRNA or DNA) or the sequencing of “something”.

If any records match the above description and are available to the public elsewhere, please provide enough information so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, and weblink or location where the public may access it).

### Response:

The Freedom of Information Act 2000 (“the FOIA”) provides a right of access, subject to specified exemptions, to recorded information held by a public authority. In the case of the House of Lords, the rights of access apply to recorded information held by the House of Lords Administration.

The House Administration does not hold specific records matching the description in your request. However, you may find some relevant information in the oral and written evidence that has been submitted so far to the Science and Technology Committee, which is currently conducting an inquiry into the science of COVID-19. Evidence submitted to the inquiry starts from the premise (which so far as we know is uncontested) that the SARS-COV-2 virus causes the COVID-19 illness. The oral and written evidence is published on our website here:

<https://committees.parliament.uk/work/293/the-science-of-covid19/>

[https://www.whatdotheyknow.com/request/documents\\_held\\_showing\\_sars\\_cov2\\_2\\_incoming-1670059](https://www.whatdotheyknow.com/request/documents_held_showing_sars_cov2_2_incoming-1670059)

 Delivered

Dear Medicines and Healthcare products Regulatory Agency,

As per my recent FOI request to PHS, ref 2020-000133 and another FOI request to Public Health England ref 24/07/hf/872, both PHS and PHE do not hold evidence of the virus, isolated by a deceased patient and in fact, no confirmation of its existence in the UK, at least. Under the FOI act can you please provide:

All records in the possession, custody or control of Medicines and Healthcare products Regulatory Agency, describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers "instead" to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Dear Athanasios Kandas,

RE: REQUEST UNDER THE FREEDOM OF INFORMATION ACT 2000

Thank you for your enquiry which we received on 12 October 2020.

I confirm that your request is now being handled under the Freedom of Information Act and you should receive a reply within 20 working days from our date of receipt.

If you need to contact us again about this request, please quote the reference number above.

Kind Regards,

MHRA Customer Service Centre

Medicines and Healthcare products Regulatory Agency

Report

— MHRA Customer Services, Medicines and Healthcare products Regulatory Agency 5 November 2020

Our ref: FOI 20/404

Our ref: FOI 20/404

Dear Athanasios Kandas,

Thank you for your email of 12 October 2020, in which you requested the following information under the Freedom of Information (FOI) Act 2000:

As per my recent FOI request to PHS, ref 2020-000133 and another FOI request to Public Health England ref 24/07/hf/872, both PHS and PHE do not hold evidence of the virus, isolated by a deceased patient and in fact, no confirmation of its existence in the UK, at least. Under the FOI act can you please provide:

All records in the possession, custody or control of Medicines and Healthcare products Regulatory Agency, describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased (we assume this is meant to say deceased as in sentence above) patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Response: There are no divisions in the Medicines and Healthcare products Regulatory Agency working on isolation of viruses directly from patients, and we therefore hold no records describing this activity.

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers \*instead\* to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

• the performance of an amplification test (i.e. a PCR test), or • the sequencing of something.

Please also note that my request is not limited to records that were authored by the MHRA or that pertain to work done by the MHRA. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the MHRA has downloaded or printed.

Response: this request is for information that is already in the public domain and therefore exempt under section 21 of the FOI Act.

Please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it.

If you have a query about the information provided, please reply to this email.

If you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within two months of the date you receive this response and addressed to: [1][MHRA request email]

Please remember to quote the reference number above in any future communications.

If you were to remain dissatisfied with the outcome of the internal review, you would have the right to apply directly to the Information Commissioner for a decision. Please bear in mind that the Information Commissioner will not normally review our handling of your request unless you have first contacted us to conduct an internal review. The Information Commissioner can be contacted at:

Information Commissioner's Office

## CSC 23485 First UK COVID-19 vaccine approved Pfizer/BioNTech

**From:** frances leader <[franleader@hotmail.co.uk](mailto:franleader@hotmail.co.uk)>

**Sent:** 03 December 2020 16:29

**To:** MHRA Customer Services <[MHRACustomerServices@mhra.gov.uk](mailto:MHRACustomerServices@mhra.gov.uk)>

**Subject:** CSC 23485 First UK COVID-19 vaccine approved Pfizer/BioNTech

Dear Sirs,

As you have approved the Pfizer/BioNTech vaccine for distribution to UK citizens from next week I would appreciate a copy of the Vaccine insert detailing full ingredients, all known side effects & all other medicine safety information which would normally be available with any medication.

A FOIA to Public Health Scotland recommended that you should be able to supply this information as they cannot.

To: MHRA Customer Services

Dear Adam,

You took so long to answer my email I have already seen the docs you offer below. Plus the advice distributed to healthcare professional.

Can you give me any idea of what is in the active ingredient BNT162b2 RNA?

It is not specified anywhere that I have seen.

Thanks for your attention to this matter.

Kind regards,

Fran Leader

Dear Fran Leader,

Thank you for your email. Apologies for the delay in response.  
BNT162b2 RNA is embedded in lipid nanoparticles.

COVID-19 mRNA Vaccine BNT162b2 is highly purified single-stranded, 5'-capped messenger RNA (mRNA) produced by cell-free in vitro transcription from the corresponding DNA templates, encoding the viral spike (S) protein of SARS-CoV-2.

Should you require any further advice or assistance on this matter please feel free to call us on 0203 080 6000 or reply to this email.

Our opening hours are Mon – Fri 9am to 5pm (excluding UK Public Holidays)

Email: foicases@mail.brighton-hove.gov.uk  
Date: 28 October 2021

Dear Von Hobbs

### **Freedom of Information Act 2000**

Thank you for your request for information to Brighton & Hove City Council ('the council') that was received on 21 October 2021. We have now processed your request and our response is below.

#### **Your request:**

##### ***Description of Requested Records:***

***All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any 'COVID-19 virus' (aka 'SARS-COV-2', including any alleged 'variants' i.e. 'B.1.1.7', 'B.1.351', 'P.1') directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.***

***Please note that I am not requesting studies/reports where researchers failed to purify the suspected 'virus' (separate the alleged 'virus' from everything thing else in the patient sample) and instead:***

- cultured an unpurified sample or other unpurified substance, and/or***
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or***
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or***
- produced electron microscopy images of unpurified things in a cell culture.***

**Clarification of Request**

***For further clarity, please note I am already aware that according to virus theory a 'virus' requires host cells in order to replicate, and I am not requesting records describing the replication of a 'virus' without host cells.***

***Further, I am not requesting private patient information, or records that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).***

***Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.***

***If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.***

**Our response:**

In processing your request we liaised with colleagues within Public Health as they would hold the information in relation to your request were this information to be held by the council.

We can confirm that the information you have requested is not held by the council.

The council does not hold any documents describing the purification of any Covid-19 virus, including variants.

Please quote the reference number **9510317** in any future communications.

If you are dissatisfied with the handling of your request, you have the right to ask for an Internal Review. Internal Review requests should be submitted within 40 working days of the date of receipt of this response and should be addressed to:

[foicases@mail.brighton-hove.gov.uk](mailto:foicases@mail.brighton-hove.gov.uk)

or by post to the address at the top of this letter.

If you are still dissatisfied with the Council's response after the Internal Review you have a right of appeal to the Information Commissioner at:

The Information Commissioner's Office

Wycliffe House

Water Lane

Wilmslow

Cheshire SK9 5AF.

Telephone: 0303 123 1113

Website: [www.ico.org.uk](http://www.ico.org.uk)

We will now close your request as of this date.

Yours sincerely

Information Governance Team

*Please note that due to the current Coronavirus (Covid 19) pandemic, we are unable to respond to or receive telephone calls or hard copy correspondence. Please contact us via email should you have any queries.*

Dear Requester

### **Request under the Freedom of Information Act 2000 (the Act)**

The council has considered your request which was received on 21 October 2021 and our response to your questions is shown below.

#### **Request 1:**

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of "Zika virus" directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between the "virus" and the suspected infectious disease.*

*Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything thing else in the patient sample) and instead:-*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- *fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- *produced electron microscopy images of unpurified things in a cell culture.*

Safer, cleaner, ambitious  
**Nottingham**  
A city we're all proud of

## *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records "describing the purification of "Zika virus" directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material". In addition the council does not hold any studies, reports or records "proving a causation between the "virus" and the suspected infectious disease". Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

## **Request 2:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of "HIV" aka "human immunodeficiency virus", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between the "virus" and the suspected infectious disease.

Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged “virus” from everything else in the patient sample) and instead:-

- cultured an un-purified sample or other un-purified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any nonpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any non-purified substance, and/or
- produced electron microscopy images of un-purified things in a cell culture.

#### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am not requesting records describing the replication of a “virus” without host cells.

Further, I am not requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records “describing the purification of "HIV" aka "human immunodeficiency virus", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material”. In addition the council does not hold any studies, reports or records “proving a causation between the "virus" and the suspected

infectious disease". Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

### **Request 3:**

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "Ebola virus" said to have caused disease in humans (i.e. the "Ebola virus", "Sudan virus", "Taï Forest virus", "Bundibugyo virus"), directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between the "virus" and the suspected infectious disease.*

*Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything else in the patient sample) and instead:-*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty*

*(i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records “describing the purification of any "Ebola virus" said to have caused disease in humans, directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material”. In addition the council does not hold any studies, reports or records “proving a causation between the "virus" and the suspected infectious disease”. Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

#### **Request 4:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of " polio "virus", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between the "virus" and the suspected infectious disease.

Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged “virus” from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

#### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am not requesting records describing the replication of a “virus” without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records "describing the purification of polio "virus", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material". In addition the council does not hold any studies, reports or records "proving a causation between the "virus" and the suspected infectious disease". Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

#### **Request 5:**

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of " MERS (Middle East Respiratory Syndrome) "virus", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between the "virus" and the suspected infectious disease.*

*Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything thing else in the patient sample) and instead:-*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- *fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- *produced electron microscopy images of unpurified things in a cell culture.*

#### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records "describing the purification of MERS (Middle East Respiratory Syndrome) "virus", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material". In addition the council does not hold any studies, reports or records "proving a causation between the "virus" and the suspected infectious disease". Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

#### **Request 6:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration

and ultracentrifugation and chromatography) of a "virus" addressed by any vaccine on either the childhood or adult U.K. "immunization schedule", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between the "virus" and the suspected infectious disease.

Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

#### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this

would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records “describing the purification of a "virus" addressed by any vaccine on either the childhood or adult U.K. "immunization schedule", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material”. In addition the council does not hold any studies, reports or records “proving a causation between the "virus" and the suspected infectious disease”. Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

### **Request 7:**

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of a "measles virus", directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between "measles virus" and the suspected infectious disease.*

*Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "measles virus" (separate the alleged “virus” from everything else in the patient sample) and instead:-*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- *fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- *produced electron microscopy images of unpurified things in a cell culture.*

### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am not requesting records describing the replication of a “virus” without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records “describing the purification of a “measles virus”, directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material”. In addition the council does not hold any studies, reports or records “proving a causation between “measles virus” and the suspected infectious disease”. Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

### **Request 8:**

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of “HPV” aka “Human Papillomavirus”, directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between “HPV” aka “Human Papillomavirus” and the suspected infectious disease.*

*Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected “Human Papillomavirus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:-*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- *fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*

- *produced electron microscopy images of unpurified things in a cell culture.*

### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am not requesting records describing the replication of a “virus” without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records “describing the purification of “HPV” aka “Human Papillomavirus”, directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material”. In addition the council does not hold any studies, reports or records “proving a causation between “HPV” aka “Human Papillomavirus” and the suspected infectious disease”. Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

### **Request 9:**

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of “influenza virus”, directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving a causation between “influenza virus” and the suspected infectious disease.*

*Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected “influenza virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:-*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- *fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- *produced electron microscopy images of unpurified things in a cell culture.*

#### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am not requesting records describing the replication of a “virus” without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records “describing the purification of “influenza virus”, directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material”. In addition the council does not hold any studies, reports or records “proving a causation between “influenza virus” and the suspected infectious disease”.

Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

### **Request 10:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of SARS-COV-1, as well as any of the other common cold associated coronavirus's directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and proving the causation link between Sars-Cov-1 and the suspected infectious disease.

Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" SARSCoV-1 or any of the other common cold associated coronavirus's (separate the alleged "virus" from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

#### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

In accordance with section 1 (1) of the Act the council has a duty to confirm whether it holds the information of the description specified in the request, and if that is the case, to have the information communicated to the requester.

Whilst the Act gives you the right to request any recorded information held by a public authority, Nottingham City Council does not have to answer your question if this would mean creating new information or giving an opinion or judgment that is not already recorded.

Nottingham City Council does not hold any studies, reports or records “describing the purification of SARS-COV-1, as well as any of the other common cold associated coronavirus’s directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material”. In addition the council does not hold any studies, reports or records “proving the causation link between Sars-Cov-1 and the suspected infectious disease”. Therefore, under section 1 of the Act the requested information cannot be provided, as it is not held by the council.

You are free to use any information supplied for your own personal use. If the information provided is marked as published under an [Open Government Licence](#) you are free to reuse it, subject to the licence terms. However, if the information is not published under an Open Government Licence and you wish to reuse it, for example, by publishing the information or issuing copies to the public you are required to request permission for re-use of this information under the Re-use of Public Sector Information Regulations 2005 (RPSI). Your RPSI request must be in writing and include your name and address for correspondence, and specify the information you want to re-use and the purpose you intend to use it for.

If you are unhappy with the response provided or with the handling of your request, you can ask for an internal review in writing stating the reasons for your dissatisfaction. Your request for an internal review should be made to the council within forty working days of the date of this letter. Please quote reference IG-15574 in all communications.

You can contact the Freedom of Information Team either by email: [FOI@nottinghamcity.gov.uk](mailto:FOI@nottinghamcity.gov.uk) or writing to the **Freedom of Information Team, Information Compliance, Legal & Governance, 2<sup>nd</sup> Floor, Loxley House, Station Street, Nottingham, NG2 3NG.**

If you remain unhappy after receiving the response to your initial complaint you can request an independent review from the Information Commissioner's Office at **FOI/EIR Complaints Resolution, Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF**. You may also contact the Information Commissioner's Office by telephone on 01625 545745 or by email at [mail@ico.gsi.gov.uk](mailto:mail@ico.gsi.gov.uk).

Yours sincerely

Mr Von Hobbs  

Dear Mr Hobbs

**Records Request**

Thank you for your letter dated 21<sup>st</sup> October 2021 requesting access to records.

Public Health at Rotherham Metropolitan Borough Council does not possess, have custody or control of any studies and/or reports and/or records describing the purification of Zika virus, HIV, Ebola virus, polio virus, MERS virus, any viruses addressed by UK vaccination schedule including measles, HPV and influenza, or SARS-CoV-1.

If you require any further information please do not hesitate to contact me.

Yours sincerely

Ben Anderson  
Director of Public Health

19 October 2021

Director Public Health  
East of England Suffolk (covers Waveney) – Stuart Keeble

stuart.keeble@suffolk.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

## **Freedom of Information – Response – 21103**

### *Description of Requested Records:*

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultra-centrifugation and chromatography) of any “COVID-19 virus” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.*

*Please note that I am not requesting studies/reports where researchers failed to purify the suspected “virus” (separate the alleged “virus” from everything else in the patient sample) and instead:*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am not requesting records describing*

*the replication of a “virus” without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe*

*its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide ‘interest’ and that more than 100 institutions other have no virus isolate this is for publick record/evidence.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

**Suffolk County Council do not hold this information.**

[Redacted]

The UK Health Security Agency (UKHSA) has taken responsibility for requests previously addressed to Public Health England (PHE), your request was assessed based on the information held by PHE at the time of receipt.

In accordance with Section 1(1)(a) of the Freedom of Information Act 2000 (the Act), I can confirm that UKHSA does not hold the information as specified by your request.

We have provided information regarding the isolation of Sars-Cov2 that we hold, you may be able to find further sources from other organisations.

Under Section 16 of the Act, a public authority has a duty to provide advice and assistance. Accordingly, we have provided further information below that you may wish to view.

The SARS-CoV-2 virus has been identified by electron microscopy, which uses high resolution to visualise virus particles directly in specimen, as well as culturing in a laboratory. Evidence of the Electron Micrograph is available at the following link: <https://publichealthmatters.blog.gov.uk/2021/02/05/what-do-we-know-about-the-new-covid-19-variants/>

Viruses are not independent living entities. They require a host cell substrate to replicate. Isolation of any virus without any medium therefore is not possible. The medium provides suitable growing environment for the virus in the absence of a human or other host animal. These media and any products added are all sterile and do not contain additional genetic material.

You may be interested in the following information on the COVID-19 variants:

[Redacted]  
To: Information Rights <InformationRights@ukhsa.gov.uk>

Greetings,

I can confirm that UKHSA does not hold the information as specified by your request.

You confirmed that SARS-COV-2 has never been isolated and purified directly from a human. You have confirmed that the UKHSA does not have direct proof of the existence of SARS-COV-2.

Without direct evidence of the existence of SARS-COV-2, all additional information provided is nothing more than speculation if not fraudulent information.

A demonstration of scientific fraud is where virologists redefine the word isolation to mean mixture (cell culture). Virologists never isolate SARS-COV-2 as they would be able to provide a purification score if they did so and of course you would have provided me with records (see my FOIA).

This image does not show purified anything. You cannot make any claims about what is in this photo other than there seems to be dead and dying cell material. Also, this image has been photoshopped as EM's are black and white. And furthermore, the red dots could be ANYTHING (EV, Exosomes, etc).

They require a host cell substrate to replicate. Isolation of any virus without any medium therefore is not possible.

If viruses existed, YOU should be able to isolate and purify viruses directly from humans, plants, and animals as we do with other nano-meter sized particles such as bacterial phages and exosomes. Common methods for isolating and purifying such nano-meter sized particles are:

- Ultra Centrifugation
- Ultra Filtration
- Immunoaffinity / Chromatography
- Precipitation

Virologists' cell culture experiments are not valid methods of purification. Because a virologists' cell culture is a mixture of foreign host cells, plus toxic chemicals (anti-anti), RNA containments (FBS), and starvation (reduced nutrient solution).

Regarding [A Novel Coronavirus from Patients with Pneumonia in China, 2019](#),

- Does not purify SARS-COV-2 directly from patient samples
- Uses UTM onto the patient samples contaminating the samples before the experiment even begins
- Uses the same fraudulent cell culture experiment as other virologists
- **Does not have valid controls which disqualifies this paper as valid science**
- EM photos are not of purified SARS-COV-2 (confirmed by the author).

If virologists did valid control experiments, they would discover they could produce CPE in cell cultures without the alleged virus. Actually, Enders did a valid control in his first cell culture experiment and he wrote the following from 'Propagation in Tissue Cultures of Cytopathogenic Agents from Patients with Measles. (21073):

**As control antigens, fluids were taken from uninoculated cultures maintained under the same conditions as well as fluids from cultures of the agent producing changes superficially similar to those caused by the measles agents and which are mentioned below. These ma-**

Clearly, he was able to reproduce CPE in his control by just doing the process. Since his control output was the same as his experimental output, he clearly was not able to demonstrate the effects of the alleged measles virus (as his cell culture experiment would only be inference not causation). So instead of realizing his virus hypothesis was invalid, he stopped doing control experiments.

At this point in history, it is obvious that viruses do not exist according to science. This has happened throughout history. The best example is the misunderstanding of scurvy. I highly suggest that the UKHSA reads the [history of scurvy](#) to discover what happens when scientists and medical doctors have a flawed understanding of microbiology.

Viruses do not exist scientifically. Therefore, all measures that the UK government is taking are based on a 150 year assumption which we can rightfully throw away. You are unnecessarily hurting everyone by instilling fear in them, summarily removing their rights, and coercing them into an unnecessary and harmful treatment which is morally reprehensible.

It should be your highest priority to check the sources and read the papers asking critical questions. You obviously failed and have provided me with bad science.

Regards

Dear 

I am writing in response to your request dated 19/10/2021. This has been dealt with under the Freedom of Information Act 2000.

**You asked for the following information:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

**The Council's response to your specific questions is set out below:**

Kirklees Council do not hold any information relating to your request.

If you are not content with the handling of your request, you have the right to ask for an internal review. Requests for internal reviews should be submitted **within 2 months of**

**the date of receipt of the response to your original request** and should be addressed to the Monitoring Officer, 1<sup>st</sup> Floor, Civic Centre 3, Market Street, Huddersfield HD1 2EY. Alternatively, you can send an email to: [monitoring.officer@kirklees.gov.uk](mailto:monitoring.officer@kirklees.gov.uk).

Please remember to quote the reference number above in any future communications.

If you are not content with the outcome of any review you have the right under section 50 of the 2000 Act to apply to the Information Commissioner for a decision as to whether your request for information has been dealt with in accordance with the requirements of the Act. The Information Commissioner's website is at [www.ico.org.uk](http://www.ico.org.uk) and gives more information about the role and duties of the Commissioner. The ICO telephone helpline on 0303 123 1113 or 01625 545745 is available between 9am and 5pm, Monday to Friday.

Yours sincerely

Dear [REDACTED]

**Freedom of Information Act 2000**

Thank you for your request for information under Freedom of Information Act 2000 received 19 October 2021.

**Your request states:**

*Description of Requested Records:*

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any 'COVID-19 virus' (aka 'SARS-COV-2', including any alleged 'variants' i.e. 'B.1.1.7', 'B.1.351', 'P.1') directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.*

*Please note that I am not requesting studies/reports where researchers failed to purify the suspected 'virus' (separate the alleged 'virus' from everything thing else in the patient sample) and instead:*

- *cultured an unpurified sample or other unpurified substance, and/or*

🎬 performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or

🎬 fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or

🎬 produced electron microscopy images of unpurified things in a cell culture.

### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a 'virus' requires host cells in order to replicate, and I am not requesting records describing the replication of a 'virus' without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

### **The Council's Response**

We have detailed below the information that is being released to you.

Public Health for the City and Hackney do not hold the information requested. This information can be obtained from individual laboratories in the UK Health Security Agency by email [enquiries@ukhsa.gov.uk](mailto:enquiries@ukhsa.gov.uk).

To make information access requests including Freedom of Information (FOI) requests, Environmental Information Regulations (EIR) requests and data subject access requests (SAR) to UKHSA, please email [InformationRights@UKHSA.gov.uk](mailto:InformationRights@UKHSA.gov.uk).

Please quote the reference number **5440345** in any future communications.

### **Appeals & Complaints Procedure**

If you are dissatisfied with this response and wish to request an internal review, please write to the Information Management Team as a reply to this message.

Your request should be submitted to us within 40 working days of receipt by you of this response. Any request received after this time will only be considered at the discretion of the Council.

If you are still dissatisfied with the Council's response after the internal review you have a right of appeal to the Information Commissioner at:

<https://ico.org.uk/global/contact-us/email/>

Telephone: 0330 123 1113

We will now close your request as of this date.

Yours faithfully

Dear Mr/Ms [REDACTED]

### **Freedom of Information Request ENQ-519547-N4Q5W0**

I refer to your request for information dated 19<sup>th</sup> October 2021.

You asked for:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Our response:

Information relating to the medical and scientific analysis of the Covid-19 virus is not held by Norfolk County Council. The Council's Public Health remit extends only to those measures and activities required in discharge of responsibilities as directed by the Secretary of State, and our response to the covid-19 pandemic is predicated on guidance issued by Public Health England (now The UK Health Security Agency).

Under section 11 of the Health and Social Care Act 2012, the Secretary of State for Health has a duty to "take such steps as the Secretary of State considers appropriate for the purpose of protecting the public in England from disease or other dangers to health". By virtue of the Local Authorities (Public Health Functions and Entry to Premises by Local Healthwatch Representatives) Regulations 2013 local authorities have a statutory duty to carry out certain aspects of the Secretary of State's duty to protect the public.

You may wish to redirect your enquiries to the UK Health Security Agency [enquiries@ukhsa.gov.uk](mailto:enquiries@ukhsa.gov.uk) If you want to information access requests including Freedom of Information (FOI) requests, Environmental Information Regulations (EIR) requests and data subject access requests (SAR) to UKHSA, please email [InformationRights@UKHSA.gov.uk](mailto:InformationRights@UKHSA.gov.uk)

If you are dissatisfied with our handling of your request, you have the right of appeal through the Council's internal review procedure by setting out the grounds of your appeal in writing to:

[foi@norfolk.gov.uk](mailto:foi@norfolk.gov.uk)

or Information Compliance Team

County Hall

Martineau Lane

Norwich

An appeal should be submitted within 40 working days of the date of this notice and should be identified as "FOI Appeal".

If you are dissatisfied after pursuing the complaints procedure, you may apply to the Information Commissioner under Section 50 of the Act for a decision whether your request for information has been dealt with in accordance with the requirements of Part I of the Act. Refer to the ICO Website at: <https://ico.org.uk/concerns/> for advice on how to report a concern. Or you can write to them at:

FOI Reference: 6400369  
Email: [foi@rbkc.gov.uk](mailto:foi@rbkc.gov.uk)  
Date: 28 October 2021

Dear [REDACTED]

**Freedom of Information Act 2000**

Thank you for your recent request to the Council. You asked to be provided with the following information:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any 'COVID-19 virus' (aka 'SARS-COV-2', including any alleged 'variants' i.e. 'B.1.1.7', 'B.1.351', 'P.1') directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to purify the suspected 'virus' (separate the alleged 'virus' from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance,
- and/or performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance,
- and/or fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

**Clarification of Request**

For further clarity, please note I am already aware that according to virus theory

a 'virus' requires host cells in order to replicate, and I am not requesting records describing the replication of a 'virus' without host cells.

Further, I am not requesting private patient information, or records that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for public record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

## **Response**

This request is being handled under the Freedom of Information Act 2000.

I am writing to advise you that, following a search of our paper and electronic records, I have established that the information you requested is not held by Royal Borough Kensington and Chelsea.

No one in the organisation is able to respond to this FOIR. It is very much about research data/information, which is not held by any departments within the council.

Please quote the reference number 6400369 in any future communications.

If you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within two months of the date of receipt of the response to your original letter and should be addressed to:

Information Management Team  
The Royal Borough of Kensington and Chelsea  
The Town Hall, Hornton Street, London W8 7NX  
Email: [foi@rbkc.gov.uk](mailto:foi@rbkc.gov.uk)

If you are still dissatisfied with the Council's response after the internal review you have a right of appeal to the Information Commissioner at:

The Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire SK9 5AF  
Telephone: 0303 123 1113  
Website: [www.ico.org.uk](http://www.ico.org.uk)

I will now close your request as of this date.

Yours faithfully

Public Health

---

Hello Christine, 🌻

Response to WILTSHIRE FOI SARS-CoV-2 request--i have gone back again citing the original request and that they comply with all the requests submitted.

Also attached my original requests for reference.

[REDACTED]

19 October 2021

Director Public Health  
South West Wiltshire UA – Kate Blackburn

kate.blackburn@wiltshireua.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

## RE: 202101091 DH - Studies describing the purification of any "COVID-19 virus"

From: InformationGovernance@wiltshire.gov.uk <InformationGovernance@wiltshire.gov.uk>

To: [REDACTED]

Date: Monday, November 1st, 2021 at 08:51

Dear [REDACTED]

### Freedom of Information Request Case ID 202101091

Thank you for your request for information received on 22 October 2021 in which you asked for the following information:

#### *Description of Requested Records:*

*All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.*

*Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything else in the patient sample) and instead:*

- ? cultured an unpurified sample or other unpurified substance, and/or*
- ? performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- ? fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- ? produced electron microscopy images of unpurified things in a cell culture.*

Under the Freedom of Information Act 2000 (the Act) the Council is obliged to:

- Let you know whether we hold the information you have requested
- Provide you with the requested information, if held, (subject to any exemptions to disclosure that may apply)

I can confirm that following searches the council does not hold the information you requested; this may be something that the [World Health Organisation](#) or [UK Health Security Agency](#) could help with.

If you are dissatisfied with the response to your request you can ask for a review of the handling of your request for information. Details of the complaints procedure are below

Best wishes,

#### **Daniella Heard**

Information Governance Officer

Wiltshire Council | County Hall | Bythesea Road | Trowbridge | BA14 8JN

Email: [InformationGovernance@wiltshire.gov.uk](mailto:InformationGovernance@wiltshire.gov.uk) | Web: [www.wiltshire.gov.uk](http://www.wiltshire.gov.uk)

Tel: 0300 456 0100 (Customer Services)

#### **Freedom of Information Complaints and Review Procedure**

Any person who has requested information from Wiltshire Council which has been dealt with under the Freedom of Information Act is entitled to make a complaint and request an internal review of the handling of their request if they are dissatisfied with the response they have received.

Requests for review of a Freedom of Information requests should be made, in writing, which includes email, to:

Freedom of Information and Records Lead

Information Governance Team

Legal and Governance

Wiltshire Council

[InformationGovernance@wiltshire.gov.uk](mailto:InformationGovernance@wiltshire.gov.uk)

Please include the Case ID number, the date of your request and details of why you are asking for a review. Requests for a review should be brought to our attention within 40 calendar days of our response to your request.

Any request for a review will be acknowledged in writing confirming the reasons for the review. The review will be allocated to someone who is independent of the original decision. The person conducting the review will set a target date for a response with the intention to complete the review within 20 working days. In more complex cases the review may take up to 40 working days.

The reviewer will conduct a full review of the handling of the request for information and the decisions taken, including decisions taken about where the public interest lies in respect of exempt information where applicable. The review enables a re-evaluation of the case taking into account any matters raised by the requester.

On completion of the review the reviewer will contact the requester with the result of the review. If the requester is still dissatisfied with the council's handling of their request they should contact the Information Commissioners Office (ICO). The ICO can be contacted using the following details:

Information Commissioners Office  
Wyldiffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF  
Tel: 0303 123 1113 (local rate)  
01625 545 745 (national rate)  
Email: [casework@ico.org.uk](mailto:casework@ico.org.uk)

**Enviados:** Lunes, 3 de Mayo 2021 16:26:04

**Asunto:** Solicitud de REGISTROS DEL SARS-COV-2

**Esta es una solicitud formal de acceso a registros generales,  
realizada bajo la Ley N° 18.381 Derecho de Acceso a la  
Información Pública**

**Descripción de los registros solicitados:**

Todos los estudios y / o informes en posesión, custodia o control de los informes y registros que describan la **purificación** de cualquier "**virus COVID-19**" (incluidos "B.1.1.7", "B.1.351", "P.1" y cualquier otra "variante") (mediante maceración, filtración y uso de una ultracentrífuga; también a veces por algunas personas como "aislamiento") , directamente de una muestra tomada de un ser humano enfermo, donde la muestra del paciente NO SE combinó primero con ninguna otra fuente de material **genético** (es decir, células de riñón de mono, también conocidas como células Vero; suero fetal bovino) .

Tenga en cuenta que no estoy solicitando estudios / informes donde los investigadores **no pudieron purificar** el "virus" sospechoso y en su lugar:

- cultivado una muestra no purificada u otra sustancia no purificada, y / o
- realizó una prueba de amplificación (es decir, una prueba de PCR) en todo el ARN de una muestra de paciente o de un cultivo celular, o en material genético de cualquier sustancia no purificada, y / o
- Secuenció el ARN total de una muestra de paciente o de un cultivo celular o de cualquier sustancia no purificada , y / o
- produjo imágenes de microscopía electrónica de cosas no purificadas en un cultivo celular.

Para mayor claridad, tenga en cuenta que ya soy consciente de que, según la teoría del virus, un "virus" requiere células huésped para replicarse, y **no** solicito registros que describan la **replicación** de un "virus" sin células huésped.

Además, yo **no** estoy solicitando los registros de pacientes privados o registros que describen un supuesto "virus" flotando en el vacío; Simplemente solicito registros que describan su **purificación** ( **separación** de todo lo demás en la

muestra del paciente, según las prácticas estándar de laboratorio para la purificación de otras cosas pequeñas).

Tenga en cuenta también que mi solicitud **no se limita** a los registros que fueron creados por o en cualquiera de los organismos, instituciones antes nombradas o que pertenecen al trabajo realizado en / por ellos . Más bien, mi solicitud incluye cualquier registro que coincida con la descripción anterior, por ejemplo (pero no limitado a) cualquier estudio revisado por pares publicado y escrito por cualquier persona, en cualquier lugar, alguna vez. que haya sido descargado o impreso por los antes citados y se haya utilizado como evidencia de un "virus" causante de enfermedades.

Tenga en cuenta que a pesar del hecho de que la [purificación es un paso esencial](#) (pero no suficiente) para probar la existencia de un "virus" que causa una enfermedad, hasta la fecha, 53 instituciones en todo el mundo no han proporcionado o citado tales registros, por lo tanto, a mi conocimiento no existen tales registros y si existen no puedo acceder a ellos hasta que se me proporcione una cita o URL.

Por lo tanto, si algún registro **coincide con la descripción anterior de los registros solicitados** y está actualmente disponible para el público en otro lugar, proporcione suficiente información sobre cada registro para que pueda identificar y acceder a cada uno con certeza (es decir, título, autor (es), fecha, revista, donde el público pueda acceder a ella). Proporcione las URL siempre que sea posible.

Consejo Directivo del Instituto de Investigaciones Biológicas Clemente Estable

**ASUNTO:** la solicitud de acceso a información pública, presentada por la Sra. María Bettina Gallo, al amparo de la Ley 18.381 de Acceso a la Información Pública.

**OBJETO:** La Sra. María Bettina Gallo determina el objeto de la solicitud en su derecho a conocer acerca de *"Todos los estudios y / o informes en posesión, custodia o control de los informes y registros que describan la **purificación** de cualquier **"virus COVID-19"** (incluidos "B.1.1.7", "B.1.351", "P.1" y cualquier otra "variante") (mediante maceración, filtración y uso de una ultracentrífuga; también a veces por algunas personas como "aislamiento"), directamente de una muestra tomada de un ser humano enfermo, donde la muestra del paciente NO SE combinó primero con ninguna otra fuente de material **genético** (es decir, células de riñón de mono, también conocidas como células Vero; suero fetal bovino)"*

**FUNDAMENTO LEGAL:** El acceso a la información pública es un derecho de todas las personas, con arreglo al artículo 3º de la Ley 18.381.

Que la Unidad Ejecutora 011 "Instituto de Investigaciones Biológicas Clemente Estable" es un sujeto obligado por la Ley 18.831 a brindar información que se sea considerada pública con arreglo a los artículos 4 y 5 de la citada.

Que en aplicación del principio de informalismo a favor del administrado el Consejo Directivo de la Unidad Ejecutara va a procesar la presente solicitud ya que la misma debió presentarse por escrito en la forma establecida por el artículo 13 de la Ley 18.381.

**INFORME:** De acuerdo a lo hasta aquí expresado el Consejo Directivo de la Unidad Ejecutora 011 "Instituto de Investigaciones Biológicas Clemente Estable" informa que no se trabaja con el virus vivo y que no se realizó la purificación del virus COVID en ninguna de sus variantes.

para mí ▾

11:56 (hace 14 minutos)

Sra. María Bettina Galo Viegas:

Desde Decanato de Facultad de Química – UdelaR acusamos recibo del correo electrónico enviado por Ud. e informamos que al mismo le faltan algunos datos de los exigidos en el Art. 13 de la ley 18.381 para considerarse una solicitud viable en ese marco, en especial número de documento de identidad y domicilio del solicitante (Se transcribe dicho artículo al final de este mensaje).

Sin perjuicio de ello, de acuerdo a las consultas realizadas, desde ya se informa a la solicitante que la Facultad de Química – UdelaR no ha efectuado estudios de aislamientos de virus SARS-COV 2.

"Art 13.- (De la solicitud y sus requisitos).- Toda persona física o jurídica interesada en acceder a la información pública en poder de los sujetos obligados por la presente ley, deberá hacerlo mediante solicitud escrita ante el titular del organismo. En dicha solicitud deberá constar:  
A) La identificación del solicitante, su domicilio y forma de comunicación.  
B) La descripción clara de la información requerida y cualquier dato que facilite su localización.  
C) Y, opcionalmente, el soporte de información preferido, sin constituir este último una obligación para el organismo."

Agradecemos confirmación de este mensaje.

Atentamente,

Prof. Dr. Alvaro W. Mombrú  
Decano  
Facultad de Química - UdelaR

A DIRECCIÓN GENERAL DE SECRETARÍA

*Exp. Ref. N° 12/001/3/2902/2021*

Por solicitud de acceso a la información pública la Sra. María Galo solicita: "Descripción de los registros solicitados: *"Todos los estudios y / o informes en posesión, custodia o control de los Centros para el Control y la Prevención de Enfermedades del MSP y/o PRIVADOS integrantes o no del GACH -sin excepción- a cargo de la Pandemia Covid19, UDELAR, Facultad de Ciencias, Facultad de Química, Facultad de Medicina y el Departamento de Genética de la Facultad de Medicina, la Agencia para Sustancias y cualquier otra dependencia público o privado, o público-privada (Laboratorios de investigación): QUE describan la purificación de cualquier "virus COVID-19 " (incluidos "B.1.1.7", "B.1.351", "P.1" y cualquier otra "variante") (mediante maceración, filtración y uso de una ultracentrífuga; también a veces por algunas personas como "aislamiento") , directamente de una muestra tomada de un ser humano enfermo, donde la muestra del paciente NO SE combinó primero con ninguna otra fuente de material genético (es decir, células de riñón de mono, también conocidas como células Vero; suero fetal bovino). Tenga en cuenta que no estoy solicitando estudios /informes donde los investigadores no pudieron purificar el "virus" sospechoso y en su lugar:*

- *cultivado una muestra no purificada u otra sustancia no purificada, y / o*
- *realizó una prueba de amplificación (es decir, una prueba de PCR) en todo el ARN de una muestra de paciente o de un cultivo celular, o en material genético de cualquier sustancia no purificada, y / o*
- *Secuenció el ARN total de una muestra de paciente o de un cultivo celular o de cualquier sustancia no purificada, y / o*
- *produjo imágenes de microscopía electrónica de cosas no purificadas en un cultivo celular.*

*Para mayor claridad, tenga en cuenta que ya soy consciente de que, según la teoría del virus, un "virus" requiere células huésped para replicarse, y no solicito registros que describan la replicación de un "virus" sin células huésped.*

*Además, yo no estoy solicitando los registros de pacientes privados o registros que describen un supuesto "virus" flotando en el vacío; Simplemente solicito registros que*

*describan su purificación (separación de todo lo demás en la muestra del paciente, según las prácticas estándar de laboratorio para la purificación de otras cosas pequeñas). Tenga en cuenta también que mi solicitud no se limita a los registros que fueron creados por o en cualquiera de los organismos, instituciones antes nombradas o que pertenecen al trabajo realizado en / por ellos . Más bien, mi solicitud incluye cualquier registro que coincida con la descripción anterior, por ejemplo (pero no limitado a) cualquier estudio revisado por pares publicado y escrito por cualquier persona, en cualquier lugar, alguna vez que haya sido descargado o impreso por los antes citados y se haya utilizado como evidencia de un "virus" causante de enfermedades. Tenga en cuenta que a pesar del hecho de que la purificación es un paso esencial (pero no suficiente) para probar la existencia de un "virus" que causa una enfermedad, hasta la fecha, 53 instituciones en todo el mundo no han proporcionado o citado tales registros, por lo tanto, a mi conocimiento no existen tales registros y si existen no puedo acceder a ellos hasta que se me proporcione una cita o URL. Por lo tanto, si algún registro coincide con la descripción anterior de los registros solicitados y está actualmente disponible para el público en otro lugar, proporcione suficiente información sobre cada registro para que pueda identificar y acceder a cada uno con certeza (es decir, título, autor (es), fecha, revista, donde el público pueda acceder a ella). Proporcione las URL siempre que sea posible."*

La Ley N° 18.381 en su artículo 13 exige que las solicitudes de información deben ser claras respecto a la información que se solicita. Los términos de lo consultado, no logran ser comprendidos en su cabalidad, lo cual dificulta dar respuesta a lo peticionado. Las solicitudes deben establecer con precisión a qué información se solicita acceder, no a qué información no se solicita acceder. Tampoco corresponde en esta vía ingresar en discusiones sobre las opiniones del peticionante.

En segundo lugar, corresponde aclarar que el Ministerio de Salud Pública no es custodio, ni de estudios ni de informes de otras instituciones y organismos, como lo son la UDELAR o el GACH, donde la interesada debería dirigir sus consultas.

Sí es posible afirmar, que de acuerdo a lo informado por la Dirección de Laboratorios del Ministerio, la muestra del paciente contiene genes de las células de la persona que se realiza el hisopado y de contener virus, contienen genes del virus, en este caso SARS

CoV2 y que su purificación se realiza a través de un proceso automatizado que utiliza reactivos y perlas magnéticas donde se separa el ARN del virus, que es el que se busca.

En virtud de lo expuesto, corresponde dar respuesta al peticionante en los términos del presente informe.

## *Dirección General de Secretaría*

**VISTO**: la solicitud de información pública efectuada por la Sra. María Bettina Galo Viegas, al amparo de lo dispuesto por la Ley N° 18.381 de 17 de octubre de 2008;

**RESULTANDO**: que la peticionante solicita información sobre: i) todos los estudios y/o informes en posesión, custodia o control de los Centros para el Control y la Prevención de Enfermedades del M.S.P. y/ o privados integrantes o no del Grupo Asesor Científico Honorario (GACH), sin excepción, a cargo de la pandemia Covid-19, UDELAR, Facultad de Ciencias, Facultad de Química, Facultad de Medicina y el Departamento de Genética de la Facultad de Medicina, la Agencia para Sustancias y cualquier otra dependencia público o privado, o público-privada (Laboratorios de investigación); y ii) información sobre cada registro que describan la purificación de cualquier “virus- COVID -19” para poder identificar y acceder a cada uno con certeza;

**CONSIDERANDO**: I) que en merito a lo informado por la División Servicios Jurídicos, corresponde acceder a lo peticionado con excepción de la información solicitada que no se ajusta a los requisitos normativos, debiendo existir una descripción clara de la información requerida, así como cualquier dato que facilite su localización, rigiendo para ello lo dispuesto en el artículo 13 de la Ley N° 18.381 de 17 de octubre de 2008;

II) que de acuerdo a lo dispuesto por el artículo 16 de la citada disposición legal, el acto que resuelva la petición debe emanar del jerarca máximo del Inciso o quien posea facultades delegadas al efecto;

**ATENTO**: a lo precedentemente expuesto y a lo establecido por Resolución Ministerial N° 38/991 de 22 de enero de 1991;

**LA DIRECCIÓN GENERAL DE SECRETARÍA**

**en ejercicio de las atribuciones delegadas**

**RESUELVE:**

- 1º) Autorízase el acceso a la información en forma parcial, en referencia a la solicitud efectuada por la Sra. María Bettina Galo Viegas, al amparo de lo dispuesto por la Ley N° 18.381 de 17 de octubre de 2008.
- 2º) Notifíquese a la parte interesada a través de Secretaría de la Dirección General de Secretaría. Pase al Departamento de Comunicaciones para su publicación en la página web Institucional. Cumplido, archívese.

TO THE GENERAL DIRECTORATE OF THE SECRETARIAT  
Exp. Ref. N ° 12/001/3/2902/2021

Upon request for access to public information, Mrs. María Galo requests:

“Description of the requested records:

“All studies and / or reports in possession, custody or control of the Centers for Disease Control and Prevention of the MSP and / or PRIVATE members or not of the GACH -without exception- in charge of the Covid19 Pandemic, UDELAR, Faculty of Sciences, Faculty of Chemistry, Faculty of Medicine and the Department of Genetics of the Faculty of Medicine, the Agency for Substances and any other public or private, or public-private agency (Laboratorios de research): THAT describe the purification of any "COVID-19 viruses" (including "B.1.1.7", "B.1.351", "P.1" and any other "variant") (by maceration, filtration and use of an ultracentrifuge; also sometimes by some people like "isolation"), directly from a sample taken from a sick human being, where the patient sample was NOT first combined with any other source of genetic material (i.e. monkey kidney cells, also known as cells Vero; fetal bovine serum).

Please note that I am not requesting studies / reports where the researchers were unable to purify the suspected "virus" and instead:

- cultured a non-purified sample or other non-purified substance, and / or
- performed an amplification test (that is, a PCR test) on all RNA from a patient sample or cell culture, or genetic material from any non-purified substance, and / or
- Sequenced total RNA from a patient sample or from a cell culture or from any non-purified substance, and / or
- produced electron microscopy images of unpurified things in a culture mobile.

For the sake of clarity, note that I am already aware that according to the theory of

virus, a "virus" requires host cells to replicate, and I do not request records that describe the replication of a "virus" without host cells.

Also, I am not requesting private patient records or records that describe a supposed "virus" floating in a vacuum; I simply request records that describe its purification (separation from everything else in the patient sample, according to standard laboratory practices for purification of other things little).

Also note that my request is not limited to records that were created by or in any of the agencies, institutions named above or that belong to the work done in / by them. Rather, my request includes any record that matches the description above, for example (but not limited to) any peer-reviewed study published and written by any person, anywhere, ever that has been downloaded or printed by the cited above and has been used as evidence of a "virus" that causes diseases.

Note that despite the fact that purification is a step essential (but not sufficient) to prove the existence of a "virus" that causes a disease, to date, 53 institutions worldwide have not provided or cited such records, therefore, to my knowledge there are no such records and if they exist I cannot access them until a quote or URL is provided to me. For the

Therefore, if any record matches the previous description of the requested records and is currently available to the public elsewhere, please provide enough information about each record so that you can identify and access each one with certainty (i.e. title, author (s), date, journal, where the public can access her). Provide URLs whenever possible. "

Law No. 18,381 in its article 13 requires that requests for information must be clear regarding the information requested. The terms of what was consulted, no manage to be fully understood, which makes it difficult to respond to what petitioned. Requests must establish precisely what information is requests to access, not what information is not requested to access. Nor does it correspond to In this way, enter into discussions about the opinions of the petitioner.

Secondly, it is appropriate to clarify that the Ministry of Public Health is not custodian, neither of studies nor of reports of other institutions and organizations, as They are the UDELAR or the GACH, where the interested party should direct their inquiries.

Yes, it is possible to affirm that according to the information provided by the Laboratories Directorate from the Ministry, the patient's sample contains genes from the person's cells that swabbing is performed and if they contain viruses, they contain virus genes, in this case SARS CoV2 and that its purification is carried out through an automated process that uses reagents and magnetic beads where the RNA of the virus is separated, which is what it is looking for.

By virtue of the foregoing, it is the responsibility of the petitioner to respond in the terms of this report.

General Directorate of Secretariat

SEEN: the request for public information made by Mrs. María Bettina Galo Viegas, under the provisions of Law No. 18,381 of 17 October 2008;

RESULTING: that the petitioner requests information on: i) all the studies and / or reports in possession, custody or control of the Centers for the Control and Prevention of Diseases of the MSP and / or private members or not of the Honorary Scientific Advisory Group (GACH), without exception, in charge of the Covid-19 pandemic, UDELAR, Faculty of Sciences, Faculty of Chemistry, Faculty of Medicine and the Department of Genetics of the Faculty of Medicine, the Agency for Substances and any other public or private, or public-private agency (Research laboratories); and ii) information on each record that describe the purification of any "COVID-19 viruses" in order to identify and access each one with certainty;

CONSIDERING:

I) that based on the information provided by the Division Legal Services, it corresponds to access the request with the exception of the requested information that does not conform to regulatory requirements, there must be a clear description of the required information, as well as any data that facilitates its location, governing for this the provided in Article 13 of Law No. 18,381 of October 17, 2008;

II) that in accordance with the provisions of article 16 of the aforementioned legal provision, the act that resolves the petition must emanate from the maximum hierarchy of the subsection or whoever has powers delegated to that effect;

ATTENTION: to the foregoing and to what is established by Ministerial Resolution No. 38/991 of January 22, 1991;  
001-3-2902-2020 PARTIAL RESPONSE ACCESS TO INFORMATION MARIA BETTINA GALO - MJB.pdf

# *Ministerio de Salud Pública*

## *Dirección General de Secretaría*

**VISTO:** la solicitud de información pública efectuada por la Sra. María Bettina Galo Viegas, titular de la cédula de identidad N° xxxxxxxx, al amparo de lo dispuesto por la Ley N° 18.381 de 17 de octubre de 2008;

**RESULTANDO:** que la peticionante solicita información sobre: **1)** cantidad de infectados por el virus de la influenza (gripe) en cualquiera de sus variantes, en los años 2015, 2016, 2017, 2018, 2019, 2020 y 2021, detallados por año; **2)** cantidad de ingresos por gripe y cualquier patología asociada a todos los CTI del Uruguay detallado por años; **3)** cantidad de fallecidos en cada uno de esos años por el virus de la influenza y todas sus variantes (gripe); **4)** cantidad de fallecidos por Sars-Cov.2 /Covid 19 en 2020 y 2021, detallados por años y meses; **5)** cantidad de vacunados en total, desde el comienzo de la vacunación contra el Sars-Cov.2 /Covid 19, detallando qué vacuna se dio, edad, sexo, departamento del domicilio y de la vacunación; **6)** cantidad de ingresos a CTI pos vacunación, indicando edad, sexo, dosis, vacuna dada y efecto adverso presentado; **7)** cantidad de positivos Covid pos vacunación, detallando edad, sexo, dosis y vacuna dada; **8)** cantidad de fallecidos pos vacunas, indicando sexo, edad, vacuna inoculada, dosis y efectos adversos que lo llevan a la muerte; **9)** sobre el RT-PCR: **9.1-** cuántos hisopados RT-PCR se han practicado desde el comienzo de la declaración de pandemia en Uruguay; **9.2-** a qué CT se realizaron los PCR desde el comienzo de la declaración de pandemia; **9.3-** a qué valor fueron adquiridos los Kit RT-PCR y a qué empresas, detallando país de origen; **9.4-** qué otros análisis se practican sobre la base de los PCR para determinar Covid 19; **10)** los estudios serológicos que se practican determinan la cantidad de anticuerpos contra el Sars-Cov.2 que tiene cada persona, esto significa que efectivamente la persona tiene inmunidad contra el SarsCov.2/Covid19; **11)** cuántos pacientes en Uruguay han dejado de ser atendidos a raíz del Covid19, motivos y patologías; **12)** que tratamiento se instruye al paciente con un RT-PCR positivo a Covid 19 en los centros de salud; **13)** existen en el mundo

otros tratamientos que se han investigado, publicado y corroborado por pares, que no son las vacunas Covid 19, se han estudiado para tratamientos contra el Covid: Ivermectina, Dióxido de Cloro, etc. y si la respuesta es no, por qué causa? **14)** quienes son todas las personas afectadas al GACH directa o indirectamente; **15)** quienes son las personas afectadas al tratamiento de la Pandemia en el Ministerio de Salud Pública, detallando especialidad, conocimiento, experiencia en patologías relacionadas; **16)** método por el que se aprueban las vacunas en general y en particular las de terapias génicas contra el Covid 19 en Uruguay; **17)** quiénes son los responsables de determinar en Uruguay la eficacia y seguridad de las vacunas Covid 19 y **18)** el Sars-Cov.2 ha sido aislado, secuenciado y purificado según método científico para elementos pequeños en Uruguay? si la respuesta es sí, indicar por quién, documentación al respecto, publicación, corroborado por pares (quiénes);

**CONSIDERANDO:** I) que se ha entendido necesaria una prórroga para recabar la información respectiva;

II) que corresponde en consecuencia prorrogar el plazo que alude el Artículo 15 de la Ley N° 18.381, a regir a partir del vencimiento del original;

**ATENTO:** a lo precedentemente expuesto y a lo establecido por Resolución Ministerial N° 38/991 de 22 de enero de 1991;

### **LA DIRECCIÓN GENERAL DE SECRETARÍA**

en ejercicio de las atribuciones delegadas

### **RESUELVE:**

- 1º) Prorrógase el plazo que refiere el Artículo 15 de la Ley N° 18.381 de 17 de octubre de 2008, en referencia a la solicitud de la Sra. María Bettina Galo Viegas, titular de la cédula de identidad N° xxxxxxxxx, por el máximo legal a partir del vencimiento del plazo original.
- 2º) Notifíquese a la parte interesada a través de Secretaría de la Dirección General de Secretaría. Cumplido, pase a la Dirección General de la Salud.

A DIRECCIÓN GENERAL DE SECRETARÍA

Exp. Ref. N° 3/3590/2021.-

Mediante acceso a la información pública, María Bettina Galo Viegas solicita la siguiente información:

- 1. Cantidad de infectados por el Virus de la Influenza (Gripe) en cualquiera de sus variantes en los años 2015, 2016, 2017, 2018 , 2019, 2020, 2021, detallados por año.**

Los datos se obtienen de la vigilancia centinela de infecciones respiratorias agudas graves (IRAG) en seis prestadores de salud hasta 2019 y ocho a partir de 2020 ubicados en todo el territorio nacional.

Tabla 1. Número de casos de influenza detectados en los centros de vigilancia centinela de IRAG. Uruguay, 2015-2021 (hasta semana epidemiológica 24).

Año	Número de casos
2015	40
2016	53
2017	117
2018	57
2019	47
2020	3
2021 (hasta SEPI 24)	0

Fuente: Departamento de Vigilancia en Salud.

- 2. Cantidad de ingresos por Gripe y cualquier patología asociada a todos los CTI del Uruguay detallado por años.**

Consultadas la Dirección General del Sistema Nacional de Salud y la División Epidemiología, se responde que no se cuenta con dicha información discriminada.

- 3. Cantidad de muertos en cada uno de esos años por el virus de la Influenza y todas sus variantes (Gripe)**

Fallecidos por Influenza (gripe) y Neumonía viral no especificada y Neumonía no especificada:

*Dpto de Estadísticas Vitales - DIGESA - MSP***Referencias Influenza [gripe] y neumonía (CIE 10: J09–J18)****Influenza (gripe)**

J09 -debida a virus de la influenza aviar identificado (Influenza A o H1N1)

J10- debida a otro virus identificado (Influenza B)(Parainfluenza)(gripe AH3)

J11- debida a virus no identificado (gripe)

**Neumonías**

J12.9 - viral no especificada

J18.9 - Neumonía no especificada

Causa	2015	2016	2017	2018	2019	2020
J09	0	9	2	8	7	1
J10	1	2	0	1	2	0
J11	2	5	5	3	4	0
J129	1	5	0	1	3	0
J189	1054	1278	1032	1024	1135	769

El Ministerio de Salud Pública no cuenta a la fecha con la información referente al año 2021, en la medida que el año se encuentra en curso y por ende sus resultados no están disponibles.

Se adjunta además enlace al siguiente informe: "Vigilancia de la Mortalidad por todas las causas Enero a julio 2015-2020" <https://www.gub.uy/ministerio-salud-publica/sites/ministerio-salud-publica/files/documentos/noticias/Informe%20preliminar%20de%20mortalidad%20global%20enero-julio.pdf>

#### **4. Cantidad de muertos por Sars-Cov.2 /Covid19 en 2020 y 2021, detallados por años y meses.**

El Ministerio de Salud Pública publica todos los datos disponibles sobre fallecimientos a través de los boletines epidemiológicos, disponibles en <https://www.gub.uy/ministerio-salud-publica/tematica/boletines-epidemiologicos> y también en la APP Coronavirus.

De cualquier forma, existe una revisión posterior a cargo de un comité de técnicos de la Dirección General de la Salud, cuyo último informe disponible (correspondiente a fines del año 2020) surge del siguiente enlace:

<https://www.gub.uy/ministerio-salud-publica/comunicacion/noticias/informe-epidemiologico-sobre-mortalidad-covid-19-del-31-diciembre-2020>

**5. Cantidad de Vacunados en total desde el comienzo de la Vacunación contra el Sars-Cov.2 /Covid19. Detallando qué vacuna se dio, edad, sexo, departamento del domicilio y de la Vacunación.**

Se cuenta a la fecha con la información que se adjunta, en función del departamento de vacunación (corresponde destacar que no se cuenta con departamento de domicilio).

NA: No aplica.

La vacuna de AstraZeneca se aplica a partir de los 90 días de la primera dosis.

El registro de departamento depende del sitio de la vacunación.

**6. Cantidad de ingresos a CTI post vacunación, indicar detalladamente edad, sexo, dosis y vacuna dada, y qué efecto adverso presentaron.**

Toda la información disponible a la fecha surge de los informes preliminares que pueden obtenerse del siguiente enlace:

<https://www.gub.uy/ministerio-salud-publica/comunicacion/noticias/tercer-estudio-efectividad-vacunacion-anti-sars-cov-2-uruguay-30-junio-2021>

Del mismo surgen todos los ingresos por COVID-19, con todas las variables requeridas, con excepción de la discriminación por sexo.

En relación al informe de efectos adversos, está siendo elaborado y será publicado a la brevedad.

**7. Cantidad de positivos Covid post vacunación, detallando edad, sexo, dosis y vacuna dada.**

Toda la información disponible a la fecha se encuentra en el siguiente informe:

<https://www.gub.uy/ministerio-salud-publica/comunicacion/noticias/tercer-estudio-efectividad-vacunacion-anti-sars-cov-2-uruguay-30-junio-2021>

**8. Cantidad de muertos pos vacunas, indicando sexos, edades, vacunas inoculadas, a qué dosis fallecen y efectos adversos que lo llevan a la muerte.**

Toda la información disponible a la fecha se encuentra en el siguiente informe:

<https://www.gub.uy/ministerio-salud-publica/comunicacion/noticias/tercer-estudio-efectividad-vacunacion-anti-sars-cov-2-uruguay-30-junio-2021>

No hay fallecimientos reportados en los cuales se haya demostrado que la vacuna COVID-19 es la causa de fallecimiento como efecto adverso.

**9. 1. SOBRE EL RT-PCR: 91. Cuántos Hisopados RT-PCR se han practicado desde el comienzo de la declaración de pandemia en Uruguay.**

La información surge del siguiente enlace <https://www.gub.uy/sistema-nacional-emergencias/pagina-embedida/visualizador-casos-coronavirus-covid-19-uruguay>

**9. 2.A qué CT se realizaron los PCR desde el comienzo de la declaración de pandemia.**

El Ministerio de Salud Pública no discrimina por CT. El valor del CT de cada kit de reactivo para interpretar el resultado de la PCR está establecido por el fabricante del kit.

**9. 3.A qué valor fueron adquiridos los Kit RT-PCR y a qué empresas, detallar país de origen.**

Se adjunta información remitida por el Departamento de Adquisiciones y Suministros:

Insumo	<b>Determinación SARS COVID x PCR en tiempo real</b>
Marca	GeneFinder - Elitech Group

Marca	Thermo Scientific Superscript
Pais de Origen	No surge de los antecedentes
Precio unitario	<b>\$ 180.987,00 (Iva 22 % Incluido)</b>
Proveedor	<b>TAGACA S.R.L.</b>
Fecha de compra	29/07/2020

**9. 4. Qué otros análisis se practican sobre la base de los PCR para determinar Covid19?**

No logra comprenderse la pregunta, por lo cual no es posible responder la misma.

**10. Los estudios serológicos que se practican determinan la cantidad de anticuerpos contra el Sars-Cov.2 que tiene cada persona, esto significa que efectivamente la persona tiene inmunidad contra el Sars-Cov.2/Covid19?**

La respuesta a la siguiente pregunta (y a otras de interés) surgen del siguiente enlace <https://www.gub.uy/ministerio-salud-publica/comunicacion/noticias/preguntas-respuestas-frecuentes-sobre-utilizacion-test-serologicos-para-covid>

**11. Cuántos pacientes en Uruguay han dejado de ser atendidos a raíz del Covid19, motivos y patologías.**

No existen denuncias en el Ministerio de Salud Pública en las cuales se haya constatado omisión de asistencia por causa de COVID-19.

**12. Qué tratamiento se instruye al paciente con un RT-PCR positivo a Covid19 en los centros de Salud?**

El que determine el médico tratante y su prestador de salud, dependiendo de las condiciones del caso en cuestión.

**13. Existen en el mundo otros tratamientos que se han investigado, publicado y corroborado por pares, que no son las Vacunas Covid19, se han estudiado para tratamientos contra el Covid: Ivermectina, Dióxido de Cloro, etc. y si la respuesta es no, por qué causa?**

La presente pregunta no requiere el acceso a información concreta, sino que se explique una decisión del Poder Ejecutivo. Corresponde destacar por lo tanto, que la Ley N° 18.381 establece un procedimiento para solicitar información pública en poder

de organismos públicos, lo cual no es equiparable al pedido de informes parlamentario previsto en el artículo 118 de la Constitución. La Ley N° 18.381 reglamenta un canal para solicitar información concreta, no para obligar a la Administración a que elabore análisis o informes técnicos a medida. No es un mecanismo de solicitud de opiniones, explicaciones, justificaciones o debates. Como destaca el artículo 14 de la Ley N° 18.381 *"Esta ley tampoco faculta a los peticionarios a exigir a los organismos que efectúen evaluaciones o análisis de la información que posean..."* Tampoco corresponde al Ministerio de Salud Pública generar citas, ni de estudios, ni de bibliografía. El Ministerio de Salud Pública dicta actos administrativos, recomendaciones e informes técnicos públicos, a cuyo contenido corresponde remitirse, no siendo la Ley N° 18.381 una vía para solicitar ampliación de los mismos.

**14. Quiénes son todas las personas afectadas al GACH directa o indirectamente?**

El GACH no funcionó en la órbita del Ministerio de Salud Pública sino de Presidencia de la República, razón por la cual no es posible acceder a lo solicitado. <https://www.gub.uy/presidencia/politicas-y-gestion/integrantes-del-grupo-asesor-cientificohonorario-gach>

**15. Quiénes son las personas afectadas al tratamiento de la Pandemia en el Ministerio de Salud Pública, especialidad, conocimiento, experiencia en patologías relacionadas.**

Las decisiones para el "tratamiento" de la pandemia, dentro del Ministerio de Salud Pública, son adoptadas por los Sres. Ministro, Subsecretario, Director General de la Salud, Subdirectora General de la Salud, Director General del Sistema Nacional de Salud y Directora General de Coordinación, cuyos datos surgen del siguiente enlace: <https://www.gub.uy/ministerio-salud-publica/institucional/estructura-del-organismo>

**16. Método por el que se aprueban las vacunas en general y en particular las de terapias Génicas contra el Covid19 en Uruguay.**

Se adjunta las siguientes respuestas, informadas en Expediente N° 3/6959/2020:

**3. Describir el proceso de aceptación de una vacuna, describiendo el paso a paso desde que ingresa al país hasta que se inyecta en la persona.**

En la hipótesis de que la vacuna ingrese por el Fondo Rotatorio de la Organización Panamericana de Salud/ Organización Mundial de la Salud, las mismas son precalificadas por el referido organismo internacional.

Por el contrario, si las vacunas provienen de un laboratorio farmacéutico, el Departamento de Medicamentos analiza el dossier de registro con los datos de calidad, seguridad y eficacia correspondientes, previo asesoramiento de la División Epidemiología. Por otra parte, se analiza el certificado de análisis de liberación del lote emitido por el país de origen.-

Por otra parte, el laboratorio Calmette realiza un control de identidad, lote, vencimiento, cantidad enviada y las condiciones de temperatura en las que arriba el producto, revisando que los monitores de temperatura de las vacunas no tengan alarmas durante el traslado de las mismas, almacenándolas en las cámaras de frío del laboratorio, desde donde se distribuyen a los puestos de vacunación, sean públicos o privados, siendo cada prestador quien debe mantener la cadena de frío hasta su aplicación.

**4. ¿Qué análisis se le hacen a las vacunas en territorio nacional?**

Conforme se responde en la pregunta anterior, el país revisa el certificado de análisis de liberación emitido por el país de origen, sin perjuicio del control del producto efectuado desde el ingreso al país hasta su efectiva administración, en lo referido a la individualización, lotes, vencimientos, conservación de cadena de frío, etc.

**17. Quiénes son los responsables de determinar en Uruguay la eficacia y seguridad de las vacunas Covid19.**

Fue contestado en la pregunta anterior.

**18. El Sars-Cov2 ha sido Aislado, Secuenciado y Purificado según método científico para elementos pequeños en Uruguay? Si la respuesta es Sí, indicar por favor por quién, documentación al respecto, publicación, corroborado por pares (quiénes)**

No tenemos conocimiento que en el país se haya cultivado el SARS CoV 2 ya que exige condiciones de bioseguridad con las cuales el país no cuenta.

Se eleva, sugiriendo hacer lugar parcial a lo solicitado, en función del alcance del presente informe.

# *Ministerio de Salud Pública*

## *Dirección General de Secretarías*

**VISTO:** la solicitud de información pública efectuada por la Sra. María Bettina Galo Viegas, titular de la cédula de identidad N° xxxxxxxx al amparo de lo dispuesto por la Ley N° 18.381 de 17 de octubre de 2008;

**RESULTANDO:** que la peticionante solicita información sobre: **1)** cantidad de infectados por el virus de la influenza (gripe) en cualquiera de sus variantes, en los años 2015, 2016, 2017, 2018, 2019, 2020 y 2021, detallados por año; **2)** cantidad de ingresos por gripe y cualquier patología asociada a todos los CTI del Uruguay detallado por años; **3)** cantidad de fallecidos en cada uno de esos años por el virus de la influenza y todas sus variantes (gripe); **4)** cantidad de fallecidos por Sars-Cov.2 /Covid 19 en 2020 y 2021, detallados por años y meses; **5)** cantidad de vacunados en total, desde el comienzo de la vacunación contra el Sars-Cov.2 /Covid 19, detallando qué vacuna se dio, edad, sexo, departamento del domicilio y de la vacunación; **6)** cantidad de ingresos a CTI pos vacunación, indicando edad, sexo, dosis, vacuna dada y efecto adverso presentado; **7)** cantidad de positivos Covid post vacunación, detallando edad, sexo, dosis y vacuna dada; **8)** cantidad de fallecidos post vacunas, indicando sexo, edad, vacuna inoculada, dosis y efectos adversos que lo llevan a la muerte; **9)** sobre el RT-PCR: **9.1-** cuántos hisopados RT-PCR se han practicado desde el comienzo de la declaración de pandemia en Uruguay; **9.2-** a qué CT se realizaron los PCR desde el comienzo de la declaración de pandemia; **9.3-** a qué valor fueron adquiridos los Kit RT-PCR y a qué empresas, detallando país de origen; **9.4-** qué otros análisis se practican sobre la base de los PCR para determinar Covid 19; **10)** los estudios serológicos que se practican determinan la cantidad de anticuerpos contra el Sars-Cov.2 que tiene cada persona, esto significa que efectivamente la persona tiene inmunidad contra el SarsCov.2/Covid19; **11)** cuántos pacientes en Uruguay han dejado de ser atendidos a raíz del Covid19, motivos y patologías; **12)** que tratamiento se instruye al paciente con un

RT-PCR positivo a Covid 19 en los centros de salud; **13)** existen en el mundo otros tratamientos que se han investigado, publicado y corroborado por pares, que no son las vacunas Covid 19, se han estudiado para tratamientos contra el Covid: Invermectina, Dióxido de Cloro, etc. y si la respuesta es no, por qué causa? **14)** quienes son todas las personas afectadas al GACH directa o indirectamente; **15)** quienes son las personas afectadas al tratamiento de la pandemia en el Ministerio de Salud Pública, detallando especialidad, conocimiento, experiencia en patologías relacionadas; **16)** método por el que se aprueban las vacunas en general y en particular las de terapias génicas contra el Covid 19 en Uruguay; **17)** quiénes son los responsables de determinar en Uruguay la eficacia y seguridad de las vacunas Covid 19 y **18)** el Sars-Cov.2 ha sido aislado, secuenciado y purificado según método científico para elementos pequeños en Uruguay? si la respuesta es sí, indicar por quién, documentación al respecto, publicación, corroborado por pares (quiénes);

**CONSIDERANDO** I) que en merito a lo informado por la División Servicios Jurídicos, corresponde acceder a lo peticionado con excepción de aquella información que no se ajusta a los requisitos normativos, la Ley 18.381 establece un procedimiento para solicitar información pública en poder de organismos públicos, reglamenta un canal para solicitar información concreta, no para obligar a la Administración a que elabore análisis o informes técnicos a medida. No es un mecanismo de solicitud de opiniones, explicaciones, justificaciones o debates, como destaca el artículo 14 de la mencionada norma, estableciendo que “esta Ley tampoco faculta a los peticionantes a exigir a los organismos que efectúen evaluaciones o análisis de la información que poseen, salvo aquellos que por sus cometidos institucionales deban producir”;

II) que de acuerdo a lo dispuesto por el artículo 16 de la citada disposición legal, el acto que resuelva la petición debe emanar del jerarca máximo del Inciso o quien posea facultades delegadas al efecto;

**ATENCIÓN:** a lo precedentemente expuesto y a lo establecido por Resolución Ministerial N° 38/991 de 22 de enero de 1991;

**LA DIRECCIÓN GENERAL DE SECRETARÍA**  
**en ejercicio de las atribuciones delegadas**

**RESUELVE:**

- 1º) Autorízase el acceso a la información en forma parcial, en referencia a la solicitud efectuada por la Sra. María Bettina Galo Viegas, titular de la cédula de identidad N° xxxxxxxx, al amparo de lo dispuesto por la Ley N° 18.381 de 17 de octubre de 2008.
- 2º) Notifíquese a la parte interesada a través de Secretaría de la Dirección General de Secretaría. Pase al Departamento de Comunicaciones para su publicación en la página web Institucional. Cumplido, archívese.

## FREEDOM OF INFORMATION ENQUIRY - RESPONSE

---

Date: 14 December 2021  
Request ID: **S29JF44R94**  
Subject: **Virus Information/Infectious Disease**

Request Type: **Freedom of Information Request**  
Subject Type: FOI/EIR  
Which department do you require information from? Adult Services FOI/SAR and Housing FOI

---

Please see below responses to your enquiry (highlighted in **Green**)

**Response:** We can confirm that **London Borough** of Bromley (LBB) **does not hold the information requested** in your FOI enquiry.

**NB: For future reference, please be aware that LBB does not hold any data pertaining to the purification/causation of sickness in living man regarding any viruses known to man.**

**Request:** Please address my request in full \* and respond in kind on letter head notepaper with a reference number, referencing the information requests made-a separate response letter for each request made that is dated and signed by whomever is responsible for the decision contained within the response letter 'claims of 'virus' isolation/sickness causation' for the sake of clarity and transparency to the publick. I do not wish to create accounts and passwords and all manner of other property to prolong the delivery of evidences/publick records and further attempts to obtain my property will be posted in the publick domain.

I have included link to Public Health England's response letter by way of example as to how it is usual to respond and lay out the response also a response link from Derby to purification of the polio virus. Should you require a copy of PHE's response or further help on how to respond to requests please let me know soonest.

As evidences/publick record these communications will be placed in the public domain rendering them live. For further clarity as i have submitted more than 1 request to the Director of Public Health for Bromley – Nada Lemic, including SARS-CoV-1 'virus' purification/causation of sickness in living man, for HPV, INFLUENZA 'virus' and so forth in the last few weeks would they please indicate what request is referred to.

19 October 2021

Director Public Health  
London Bromley – Nada Lemic

Nada.Lemic@bromley.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

21 October 2021

Director Public Health  
London Bromley – Nada Lemic

Nada.Lemic@bromley.gov.uk

This is my wish for access to records.

### Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of **"Zika virus"** directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and **proving a causation** between the **"virus"** and the suspected infectious disease.

Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to **purify** the suspected **"virus"** (separate the alleged "virus" from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description,

This is my wish for access to records.

### Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of “influenza virus”, directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and **proving a causation** between “influenza virus” and the suspected infectious disease.

Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to **purify** the suspected “influenza virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

20 October 2021

v

Director Public Health  
London

Bromley – Nada Lemic

This is my wish for access to records.

### Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of SARS-COV-1, as well as any of the other common cold associated coronavirus's directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and **proving the causation link** between Sars-Cov-1 and the suspected infectious disease.

Please note that I am using “purification” in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to **purify** the suspected “virus” SARS-CoV-1 or any of the other common cold associated coronavirus's (separate the alleged “virus” from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

## Chiefs unite for Christmas Covid-19 rallying cry

Published: Wednesday, 22 December 2021

\*Shared in partnership with Leicestershire County Council

Chiefs across Leicester, Leicestershire and Rutland have united once more to call on people to get their booster jab, and think about who they're mixing with, as cases of Omicron soar.

The plea comes as councils, police, fire and NHS partners are stepping up work to manage a local surge in COVID which has seen just under 7,000 cases in the last week, a rise of 20 per cent compared to the previous seven days.

As part of a co-ordinated effort, fire officers are set to knock on doors in priority areas to encourage people to get their vaccine.

Chief Fire and Rescue Officer, Callum Faint, said: "We're proud to support our NHS colleagues in any way we can with the vaccination programme. This amongst other activities may include uniformed officers knocking on doors and talking to people about the steps they can take."

Ivan Browne, Director of Public Health for Leicester City Council, said: "We know that cases of Omicron are rising across the country and also here in Leicester. We also know that a vaccine booster gives you the best protection possible against it, so it's vital to get your jabs as soon as you are eligible."

Deborah Taylor, Leicestershire County Council's deputy leader, said: "We know that two jabs offer little or no protection against Omicron, so the advice is clear –

Dear Von

### Request FOI/167

I write further to your request for information received on 20/10/2021 in which you requested the following information:

#### Covid

Your request has been given careful consideration under the Freedom of Information Act 2000/Environmental Information Regulations 2004 however we have established that the information you requested is not held by Council.

If you have any queries about this email please do not hesitate to contact us directly, quoting the reference number listed at the top of this email in all communications.

If you are unhappy with the Council's response to your request and wish to make a complaint, please write to us or complete the on-line complaint form that can be found on our website.

In addition to this and for future reference, Nottingham County Council regularly publishes previous FOIR, s and answers on its website, under Disclosure logs, that may provide details relating to your query. (see link)

<http://site.nottinghamshire.gov.uk/thecouncil/democracy/freedom-of-information/disclosure-log/>

You can use the search facility using keywords i.e. 'funerals.'

If you wish to raise any concerns about the way your request was dealt with, then please write to the Team Manager, Complaints and Information, County Hall, West Bridgford, Nottingham, NG2 7QP or e-mail [foi@nottscc.gov.uk](mailto:foi@nottscc.gov.uk) quoting the reference number above.

If after going through the Council's Internal Review process you are still not satisfied, you can contact the Information Commissioner direct.

19 October 2021

Director Public Health  
East Midlands Nottinghamshire – Jonathan Gribbin

jonathan.gribbin@nottscc.gov.uk

This is my wish for access to records.

### Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**1431/21 - ENVIRONMENTAL INFORMATION REGULATIONS REQUEST**

Dear Sir/Madam

Your request for information has now been considered and the information requested is provided below.

Request:

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultra-centrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything thing else in the patient sample) and instead:

cultured an unpurified sample or other unpurified substance, and/or performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Response:

**Rutland** County Council does not hold this information.

You are free to use any documents supplied for your own use, including for non-commercial research purposes. The documents may also be used for news reporting. However, any other type of re-use, for example by publishing the documents or issuing copies to the public will require the permission of the copyright owner, where copyright exists. Such a request would be considered separately in accordance with the relevant Re-use of Public Sector Information Regulations 2005 and is not automatic. Therefore, no permission is implied in the re-use of this information, until such a request to re-use it has been made and agreed, subject to any appropriate conditions. Any request to re-use the information should be made to me at the address below.

If you are dissatisfied with the handling of your request please contact the Data Protection Officer, Rutland County Council, Catmose, Oakham, Rutland LE15 6HP  
You can also complain to the Information Commissioner at:

The Information Commissioner's Office  
Wycliffe House, Water lane  
Wilmslow, Cheshire

Marc Horn

By email: [request-817480-c59914a7@whatdotheyknow.com](mailto:request-817480-c59914a7@whatdotheyknow.com)

FOI Reference: FOI2021/23894

14 January 2022

Dear Marc Horn

We refer to your request where you asked:

*“Please provide all studies and/or reports and/or records in your possession, custody or control (including departments by any name under your authority) describing:*

*1 - The purification of SARS-CoV2 'virus' in the normal meaning of the word, which is to separate a complete thing from everything else, directly from a sample taken from a COVID-19 symptomatic patient, where the patient sample was not first combined with any other source of genetic material.*

*2 - A unique RNA sequence that is tested for by any testing method which identifies the presence of SARS-CoV2 'virus' and no other genetic material.*

*3 - Unique harm that is caused by SARS-CoV2 'virus'.*

*4 - Experimental transmission of SARS-CoV2 'virus' from a symptomatic COVID-19 patient to a healthy person.*

*Please note that I am using 'purification' in the every-day sense of the word: the act of separating a thing(s) from everything else.*

*Please note:*

*I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged 'virus' from everything else in the patient sample) and instead:-*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

#### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a 'virus' requires host cells in order to replicate, and I am not requesting records describing the replication of a 'virus' without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it).*

*Please provide URLs where possible."*

We are writing to advise you that following a search of our paper and electronic records, we have established that the information you requested is not held by the Cabinet Office.

You may wish to try contacting the UK Health Security Agency at this link: <https://www.gov.uk/government/organisations/uk-health-security-agency> who may be able to help you with your request.

If you are unhappy with the service you have received in relation to your request or wish to request an internal review, you should write to:

Tarley Smith  
Cabinet Office  
70 Whitehall  
London  
SW1A 2AS

email: [foi-team@cabinetoffice.gov.uk](mailto:foi-team@cabinetoffice.gov.uk)

You should note that the Cabinet Office will not normally accept an application for internal review if it is received more than two months after the date that the reply was issued.

If you are not content with the outcome of your internal review, you may apply directly to the Information Commissioner for a decision. Generally, the Commissioner cannot make a decision unless you have exhausted the complaints procedure provided by the Cabinet Office. The Information Commissioner can be contacted at:

The Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF

Yours sincerely

A handwritten signature in black ink, appearing to read 'Tarley Smith', is positioned below the 'Yours sincerely' text. The signature is fluid and cursive, with a large initial 'T' and 'S'.

Dear Mr [REDACTED]

Further to your enquiry below, I can confirm that our Trust, as an independent NHS organisation, does not hold this information.

May we would refer you to the World Health Organisation (WHO), who would be best placed to answer a globally orientated question.

<https://www.who.int/about/contact-us>

Kind regards

Jane Haywood

**FREEDOM OF INFORMATION MANAGER**

# LONDON BOROUGH OF BROMLEY

## FREEDOM OF INFORMATION ENQUIRY - RESPONSE

---

Date: 14 December 2021  
Request ID: **S29JF44R94**  
Subject: **Virus Information/Infectious Disease**

Request Type: **Freedom of Information Request**  
Subject Type: FOI/EIR  
Which department do you require information from? Adult Services FOI/SAR and Housing FOI

---

Please see below responses to your enquiry (highlighted in **Green**)

**Response:** We can confirm that **London Borough of Bromley (LBB)** does not hold the information requested in your FOI enquiry.

**NB: For future reference, please be aware that LBB does not hold any data pertaining to the purification/causation of sickness in living man regarding any viruses known to man.**

**Request:** Please address my request in full \* and respond in kind on letter head notepaper with a reference number, referencing the information requests made-a separate response letter for each request made that is dated and signed by whomever is responsible for the decision contained within the response letter 'claims of 'virus' isolation/sickness causation' for the sake of clarity and transparency to the publick. I do not wish to create accounts and passwords and all manner of other property to prolong the delivery of evidences/publick records and further attempts to obtain my property will be posted in the publick domain.

I have included link to Public Health England's response letter by way of example as to how it is usual to respond and lay out the response also a response link from Derby to purification of the polio virus. Should you require a copy of PHE's response or further help on how to respond to requests please let me know soonest.

As evidences/publick record these communications will be placed in the public domain rendering them live. For further clarity as i have submitted more than 1 request to the Director of Public Health for Bromley – Nada Lemic, including SARS-CoV-1 'virus' purification/causation of sickness in living man, for HPV, INFLUENZA 'virus' and so forth in the last few weeks would they please indicate what request is referred to.

19 October 2021

Director Public Health  
London Bromley – Nada Lemic

Nada.Lemic@bromley.gov.uk

This is my wish for access to records.

### Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any **“COVID-19 virus”** (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first combined with any other source of genetic material** (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.**

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything thing else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

### Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of a **"virus" addressed by any vaccine on either the childhood or adult U.K. "immunization schedule"**, directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and **proving a causation** between the **"virus"** and the suspected infectious disease.

Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to **purify** the suspected **"virus"** (separate the alleged "virus" from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

20 October 2021

Director Public Health  
London Bromley – Nada Lemic

Bromley – Nada Lemic

This is my wish for access to records.

### Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of a **"measles virus"**, directly from a sample taken from a diseased man, where the patient **sample was not first combined with any other source of genetic material** (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells, lung cells from a lung cancer patient) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate and **proving a causation between "measles virus" and the suspected infectious disease.**

Please note that I am using "purification" in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to **purify** the suspected **" measles virus"** (separate the alleged "virus" from everything thing else in the patient sample) and instead:-

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a "virus" without host cells.

Von

Dear M

## **FREEDOM OF INFORMATION ACT 2000/ENVIRONMENTAL INFORMATION REGULATIONS 2004**

Your request for information has now been considered and the Council's response to your questions is shown below.

**You asked:**

### **Description of Requested Records:**

**All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultracentrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.**

**Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything thing else in the patient sample) and instead:**

- **cultured an unpurified sample or other unpurified substance, and/or**
- **performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or**
- **fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or**
- **produced electron microscopy images of unpurified things in a cell culture.**

**Clarification of Request**

## Chiefs unite for Christmas Covid-19 rallying cry

Published: Wednesday, 22 December 2021

\*Shared in partnership with Leicestershire County Council

Chiefs across Leicester, Leicestershire and Rutland have united once more to call on people to get their booster jab, and think about who they're mixing with, as cases of Omicron soar.

The plea comes as councils, police, fire and NHS partners are stepping up work to manage a local surge in COVID which has seen just under 7,000 cases in the last week, a rise of 20 per cent compared to the previous seven days.

As part of a co-ordinated effort, fire officers are set to knock on doors in priority areas to encourage people to get their vaccine.

Chief Fire and Rescue Officer, Callum Faint, said: "We're proud to support our NHS colleagues in any way we can with the vaccination programme. This amongst other activities may include uniformed officers knocking on doors and talking to people about the steps they can take."

Ivan Browne, Director of Public Health for Leicester City Council, said: "We know that cases of Omicron are rising across the country and also here in Leicester. We also know that a vaccine booster gives you the best protection possible against it, so it's vital to get your jabs as soon as you are eligible."

“Deborah Taylor, Leicestershire County Council’s deputy leader, said: "We know that two jabs offer little or no protection against Omicron, so the advice is clear –

### **Freedom of Information Act 2000**

This request is being handled under the Freedom of Information Act 2000.

Request:

*Please note that I am using 'purification' in the every-day sense of the word: the act of separating a thing(s) from everything else. Please note that I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged 'virus' from everything thing else in the patient sample) and instead:-*

- *cultured an unpurified sample or other unpurified substance, and/or*
- *performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- *fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- *produced electron microscopy images of unpurified things in a cell culture.*

Response:

We do not hold the information requested. Lambeth council does not own or operate any clinical laboratory facilities.

Right to review

If you are dissatisfied with the way in which your Freedom of Information request has been dealt with you can request an internal review. Tell us why you are unhappy with our response within 40 working days, and it will be looked at afresh. We will aim to provide you with our review response within 20 working days.

By email: [foi@lambeth.gov.uk](mailto:foi@lambeth.gov.uk) (Please quote the reference number above) or by writing to:

London Borough of Lambeth  
Freedom of Information  
P.O. Box 734  
Winchester  
S023 5DG

If you remain dissatisfied with the outcome of the review you have a further right to appeal to the Information Commissioner, who regulates the implementation of the Freedom of Information Act. The Commissioner can be contacted at the following address:

The Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire SK9 5AF.  
Telephone: 0330 123 1113  
Website: [www.ico.org.uk](http://www.ico.org.uk)

I will now close your request as of this date.

Yours faithfully

FOI Team  
London Borough of Lambeth

Sent via email to: [foi@mopac.london.gov.uk](mailto:foi@mopac.london.gov.uk), [jon.p.simpson@met.police.uk](mailto:jon.p.simpson@met.police.uk), [trevor.struthers@met.police.uk](mailto:trevor.struthers@met.police.uk), [p238599@met.police.uk](mailto:p238599@met.police.uk), [p259888@met.police.uk](mailto:p259888@met.police.uk)

Dear Freedom of Information Clerk:

I require copies of records, as per the Freedom of Information Act 2000.

### Description of Requested Records:

All studies / reports in the possession, custody or control of:

Jon P Simpson who acts as Superintendent, Assistant to Metropolitan Police Commissioner, Cressida Dick;  
Trevor Struthers who acts as Detective Inspector, Criminal Investigation Department, Hammersmith Police Station;  
Oliver Mallett who acts as Detective Sergeant, Criminal Investigation Department, Hammersmith Police Station;  
Irvine who acts as Police Constable, Criminal Investigation Department, Hammersmith Police Station

or anyone else acting for "Mayor's Office for Policing and Crime", that describe anyone on Earth finding and **purifying** the **alleged COVID-19 virus, aka "SARS-COV-2"**, directly from the bodily fluids of any diseased human where the bodily fluids were not first combined with any other source of **genetic** material (i.e. a human or animal cell line; fetal bovine serum).

Please note that I do **not** require and do **not** want studies/reports where researchers failed to **purify** an alleged "virus" from a sick human's bodily fluid and instead:

- cultured an unpurified substance (i.e. bodily fluid) in a malnourished cell line, added toxic drugs, watched for cytopathic effects and called that "virus isolation", and/or
- performed an unreliable amplification test (i.e. a PCR test), that can only detect sequences and **not** "viruses", in the soup of genetic material extracted from a patient's bodily fluid or from monkey/cow/human cell culture supernatant, and/or
- fabricated an in silico (computer) sequence ("genome") from millions of sequences unreliably detected in the soup of total RNA extracted from a patient's bodily fluid or from a monkey/cow/human cell culture, and/or
- produced electron microscopy images of unpurified particles in a monkey/cow/human cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and that a strict application of Koch's Postulates would not be possible even if theoretical "viruses" existed. I do **not** require or want records describing the **replication** of an alleged "virus" without host cells, or fulfillment of Koch's Postulates, or a suspected "virus" floating in a vacuum, or private patient records.

I simply require records that describe **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I require any study/report matching the above details, **authored by anyone, anywhere**, since the alleged discovery of this alleged "virus".

In the interest of transparency and in accordance with the purposes of the FOIA, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Should it prove impossible to provide any such study (since none exist), then please provide or cite a study (maximum 3 studies) that, according to the men listed above, proves the existence of "SARS-COV-2". (This must include proof that the alleged particle/"virus" actually exists and was sequenced and characterized, proof that "it" actually circulated and replicated in many humans around the world, and proof that "it" actually caused the spread of the disease in question via natural modes of exposure - animal experiments will be accepted).

## Automatic reply: Records required under FOIA: "SARS-COV-2" purification

---

**MOPAC FOI** <FOI@mopac.london.gov.uk>  
To: Christine Massey <cmssyc@gmail.com>

Mon, Mar 7, 2022 at 9:32 PM

Thank you for contacting us about the work of the Mayor's Office for Policing And Crime (MOPAC). We aim to respond to written communication as quickly as possible and within 20 working days.

However, please note that we may not reply to correspondence we consider:

- Is addressed to another party and where MOPAC has been copied in for information only.
- Contains comments that do not require a response.
- Includes unsolicited job applications or CVs.
- Is trying to sell or market a product.
- To be vexatious or contains abusive or discriminatory language.

In addition, we will not respond where we specifically state that we are unable to enter into correspondence (for example, when inviting responses to consultation documents).

If you have written to request the release of information under the Freedom of Information Act (FoIA) or Environmental Information Regulations (EIR), please take this message as confirmation your request has been received. We will aim to provide a response within the statutory 20 working day deadline.

If you wish to report a crime to the Metropolitan Police Service (MPS), please do so here:

<https://www.met.police.uk/ro/report/ocr/af/how-to-report-a-crime/>

You may find the answer to your question here: <https://www.london.gov.uk/what-we-do/mayors-office-policing-and-crime-mopac/about-mayors-office-policing-and-crime-mopac/contact-us#acc-i-54355>

Further information about MOPAC can be found here:

<https://www.london.gov.uk/what-we-do/mayors-office-policing-and-crime-mopac>

When responding or considering whether to respond to your message, we will process your personal information in accordance with our privacy notice, which can be accessed here:

<https://www.london.gov.uk/about-us/governance-and-spending/privacy-policies/mopac-privacy-notice>

Depending on the nature of your message, we may need to share your information with third parties, including the MPS where relevant. If you do not want your information to be shared with third parties, you may have the right to object to this. Please contact us at [Enquiries@mopac.london.gov.uk](mailto:Enquiries@mopac.london.gov.uk) if you would like to discuss this further.

Thank you again for writing.

MOPAC

Dear Christine

Thank you for your Freedom of Information (FOI) request of 8 March to the Mayor's Office for Policing And Crime (MOPAC). I confirm that your request has been handled under the Freedom of Information Act 2000 and that MOPAC does not hold the requested information.

The Metropolitan Police Service (MPS) may be able to assist you and you can send your request to them, here:

<https://www.met.police.uk/rqo/request/ri/request-information/rip/request-information-police/>

or using this email address: [MPSPDataOffice@met.police.uk](mailto:MPSPDataOffice@met.police.uk)

If you are unhappy with the response to your Freedom of Information requests, please see the MOPAC website on what the next steps are at:

<https://www.london.gov.uk/what-we-do/mayors-office-policing-and-crime-mopac/governance-and-decision-making/freedom-information>

Dear Freedom of Information Clerk:

I require copies of records, as per the Freedom of Information Act 2000. **The the Mayor's Office for Policing And Crime confirmed for me this morning that they do not have the records I seek (see attached), and recommended that I contact Metropolitan Police Service at [MPSDataOffice@met.police.uk](mailto:MPSDataOffice@met.police.uk).**

### Description of Requested Records:

All studies / reports in the possession, custody or control of:

**Jon P Simpson** who acts as Superintendent, Assistant to Metropolitan Police Commissioner, Cressida Dick;  
**Trevor Struthers** who acts as Detective Inspector, Criminal Investigation Department, Hammersmith Police Station;  
**Oliver Mallett** who acts as Detective Sergeant, Criminal Investigation Department, Hammersmith Police Station;  
**Irvine** who acts as Police Constable, Criminal Investigation Department, Hammersmith Police Station

or anyone else acting for **Metropolitan Police Service, particularly anyone who was involved in investigating crime reference number 6029679/21**, that describe anyone on Earth finding and **purifying** the **alleged COVID-19 virus, aka "SARS-COV-2"**, directly from the bodily fluids of any diseased human where the bodily fluids were not first combined with any other source of **genetic** material (i.e. a human or animal cell line; fetal bovine serum).

Please note that I do **not** require and do **not** want studies/reports where researchers failed to **purify** an alleged "virus" from a sick human's bodily fluid and instead:

- cultured an unpurified substance (i.e. bodily fluid) in a malnourished cell line, added toxic drugs, watched for cytopathic effects and called that "virus isolation", and/or
- performed an unreliable amplification test (i.e. a PCR test), that can only detect sequences and **not** "viruses", in the soup of genetic material extracted from a patient's bodily fluid or from monkey/cow/human cell culture supernatant, and/or
- fabricated an in silico (computer) sequence ("genome") from millions of sequences unreliably detected in the soup of total RNA extracted from a patient's bodily fluid or from a monkey/cow/human cell culture, and/or
- produced electron microscopy images of unpurified particles in a monkey/cow/human cell culture.

### Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and that a strict application of Koch's Postulates would not be possible even if theoretical "viruses" existed. I do **not** require or want records describing the **replication** of an alleged "virus" without host cells, or fulfillment of Koch's Postulates, or a suspected "virus" floating in a vacuum, or private patient records.

I simply require records that describe **purification (separation)** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

I require any study/report matching the above details, **authored by anyone, anywhere**, since the alleged discovery of this alleged "virus".

In the interest of transparency and in accordance with the purposes of the FOIA, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Should it prove impossible to provide any such study (since none exist), then please provide or cite a study (maximum 3 studies) that, according to the wo/men listed above, proves the existence of "SARS-COV-2". (This must include proof that the alleged particle/"virus" actually exists and was sequenced and characterized, proof that "it" actually circulated and replicated in many humans, and proof that "it" actually caused the spread of the disease in question via natural modes of exposure - animal experiments will be accepted as proof of causation).

Thank you for your email to the Metropolitan Police Service Data Office.

Please note the Data Office Triage Team operate Monday to Friday only, this department is closed during bank holidays.

A response will follow in due course.

We do receive a very high volume of requests and although we endeavour to respond to all of them as quickly as possible, there may, at times, be a few days turnaround time, should that be the case with regards to responding to your email, we do respectfully ask you to bear with us while we clear all the emails we received prior to yours.

The following applications are currently processed through the Data Office Triage Team mailbox:

- Right of Access Requests (Formerly Subject Access Requests)
  
- Freedom of Information Act Requests
  
- Association of British Insurers/NPCC Memorandum of Understanding requests
  
- Right to Erasure and Right to Rectification Requests
  
- Requests under the Environmental Information Regulations 2000 (EIR)

Please visit [www.met.police.uk](http://www.met.police.uk) for enquiries relating to:

- I. Road Traffic Collisions,
- II. Sarah's Law – Registered sex offender data
- III. Clare's Law – Domestic violence offender data
- IV. Disclosures for family court proceedings
- V. Publication Scheme and statistics

NOTICE - This email and any attachments are solely for the intended recipient and may be confidential. If you have received this email in error, please notify the sender and delete it from your system. Do not use, copy or disclose the information contained in this email or in any attachment without the permission of the sender. Metropolitan Police Service (MPS) communication systems are monitored to the extent permitted by law and any email and/or attachments may be read by monitoring staff. Only specified personnel are authorised to conclude binding agreements on behalf of the MPS by email and no responsibility is accepted for unauthorised agreements reached with other personnel. While reasonable precautions have been taken to ensure no viruses are present in this email, its security and that of any attachments cannot be guaranteed.

Your ref:  
Our ref: 01/FOI/22/023689

09/03/2022

Dear Ms Massey, M.Sc

**Freedom of Information Request Reference No: 01/FOI/22/023689**

I write in connection with your request for information which was received by the Metropolitan Police Service (MPS) on 08/03/2022. I note you seek access to the following information:

*Dear Freedom of Information Clerk:*

*I require copies of records, as per the Freedom of Information Act 2000. The the Mayor's Office for Policing And Crime confirmed for me this morning that they do not have the records I seek (see attached), and recommended that I contact Metropolitan Police Service at [MPSDataOffice@met.police.uk](mailto:MPSDataOffice@met.police.uk).*

*Description of Requested Records:*

*All studies / reports in the possession, custody or control of:*

*Jon P Simpson who acts as Superintendent, Assistant to Metropolitan Police Commissioner, Cressida Dick; Trevor Struthers who acts as Detective Inspector, Criminal Investigation Department, Hammersmith Police Station; Oliver Mallett who acts as Detective Sergeant, Criminal Investigation Department, Hammersmith Police Station; Irvine who acts as Police Constable, Criminal Investigation Department, Hammersmith Police Station*

*or anyone else acting for Metropolitan Police Service, particularly anyone who was involved in investigating crime reference number 6029679/21, that describe anyone on Earth finding and purifying the alleged COVID-19 virus, aka "SARS-COV-2", directly from the bodily fluids of any diseased human where the bodily fluids were not first combined with any other source of*

Official

## Official

*genetic material (i.e. a human or animal cell line; fetal bovine serum).*

*Please note that I do not require and do not want studies/reports where researchers failed to purify an alleged "virus" from a sick human's bodily fluid and instead:*

- cultured an unpurified substance (i.e. bodily fluid) in a malnourished cell line, added toxic drugs, watched for cytopathic effects and called that "virus isolation", and/or*
- performed an unreliable amplification test (i.e. a PCR test), that can only detect sequences and not "viruses", in the soup of genetic material extracted from a patient's bodily fluid or from monkey/cow/human cell culture supernatant, and/or*
- fabricated an in silico (computer) sequence ("genome") from millions of sequences unreliably detected in the soup of total RNA extracted from a patient's bodily fluid or from a monkey/cow/human cell culture, and/or*
- produced electron microscopy images of unpurified particles in a monkey/cow/human cell culture.*

*Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and that a strict application of Koch's Postulates would not be possible even if theoretical "viruses" existed. I do not require or want records describing the replication of an alleged "virus" without host cells, or fulfillment of Koch's Postulates, or a suspected "virus" floating in a vacuum, or private patient records.*

*I simply require records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*I require any study/report matching the above details, authored by anyone, anywhere, since the alleged discovery of this alleged "virus".*

*In the interest of transparency and in accordance with the purposes of the FOIA, if any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

*Should it prove impossible to provide any such study (since none exist), then please provide or cite a study (maximum 3 studies) that, according to the wo/men listed above, proves the existence of "SARS-COV-2". (This must include proof that the alleged particle/"virus" actually exists and was sequenced and characterized, proof that "it" actually circulated and replicated in many humans, and proof that "it" actually caused the spread of the disease in question via natural modes of exposure - animal experiments will be accepted as proof of causation).*

*Format:*

*Pdf documents sent to me via email; I do not wish for anything to be shipped to me.*

Official

## Official

Your request will now be considered in accordance with the Freedom of Information Act 2000 (the Act). We aim to provide a response within the statutory timescale of 20 working days as defined by the Act. The deadline date for your request is 05/04/2022

During the first part of the national lockdown last year our staff were prevented access to our offices to conduct essential work that could not be carried out remotely, this caused a large amount of backlog and even though lockdown restrictions have eased in more recent times we are still affected by the various restrictions that were in place during the majority of 2020. We do now have a limited number of staff able to attend our offices and it will take time for us to resume our normal service.

Please be reassured that the vast majority of work is carried out unhindered, but due to current circumstances some delays may be unavoidable. The MPS take your rights under data protection regulations very seriously and every effort will be made to ensure a response is provided within statutory deadlines. We apologise for any inconvenience and will endeavour to process your request as quickly as is practicable.

If you have any further enquiries concerning this matter, please contact us at [foi@met.police.uk](mailto:foi@met.police.uk), quoting the reference number above. Should your enquiry relate to the logging or allocations process we will be able to assist you directly and where your enquiry relates to other matters (such as the status of the request) we will be able to pass on a message and/or advise you of the relevant contact details.

Yours sincerely

**Data Office Triage Team**

Official

## **COMPLAINT RIGHTS**

### **Are you unhappy with how your request has been handled or do you think the decision is incorrect?**

You have the right to require the Metropolitan Police Service (MPS) to review their decision.

Prior to lodging a formal complaint you are welcome to discuss the response with the case officer who dealt with your request.

### **Complaint**

If you are dissatisfied with the handling procedures or the decision of the MPS made under the Freedom of Information Act 2000 (the Act) regarding access to information you can lodge a complaint with the MPS to have the decision reviewed.

Complaints should be made in writing, within forty (40) working days from the date of the refusal notice, and addressed to:

FOI Complaint  
Information Rights Unit  
PO Box 313  
Sidcup  
DA15 0HH  
[foi@met.police.uk](mailto:foi@met.police.uk)

In all possible circumstances the MPS will aim to respond to your complaint within 20 working days.

### **The Information Commissioner**

After lodging a complaint with the MPS if you are still dissatisfied with the decision you may make application to the Information Commissioner for a decision on whether the request for information has been dealt with in accordance with the requirements of the Act.

For information on how to make application to the Information Commissioner please visit their website at [www.ico.org.uk](http://www.ico.org.uk). Alternatively, write to or phone:

Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF  
Phone: 0303 123 1113

This matter is being dealt with by:

25/10/2021 07:19:24

Dear Von

## Request FOI/167

I write further to your request for information received on 20/10/2021 in which you requested the following information:

### Covid

Your request has been given careful consideration under the Freedom of Information Act 2000/Environmental Information Regulations 2004 however **we have established that the information you requested is not held by Council.**

If you have any queries about this email please do not hesitate to contact us directly, quoting the reference number listed at the top of this email in all communications.

If you are unhappy with the Council's response to your request and wish to make a complaint, please write to us or complete the on-line complaint form that can be found on our website.

In addition to this and for future reference, Nottingham County Council regularly publishes previous FOIR, s and answers on its website, under Disclosure logs, that may provide details relating to your query. (see link)

<http://site.nottinghamshire.gov.uk/thecouncil/democracy/freedom-of-information/disclosure-log/>

You can use the search facility using keywords i.e. 'funerals.

If you wish to raise any concerns about the way your request was dealt with, then please write to the Team Manager, Complaints and Information, County Hall, West Bridgford, Nottingham, NG2 7QP or e-mail [foi@nottscc.gov.uk](mailto:foi@nottscc.gov.uk) quoting the reference number above.

If after going through the Council's Internal Review process you are still not satisfied, you can contact the Information Commissioner direct.

19 October 2021

Director Public Health  
East Midlands Nottinghamshire – Jonathan Gribbin

jonathan.gribbin@nottscc.gov.uk

This is my wish for access to records.

### **Description of Requested Records:**

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the **purification** (i.e. via filtration and ultra-centrifugation and chromatography) of any “**COVID-19 virus**” (aka “SARS-COV-2”, including any alleged “variants” i.e. “B.1.1.7”, “B.1.351”, “P.1”) directly from a sample taken from a diseased man, where the patient **sample was not first** combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate **proving a causal link** between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to **purify** the suspected “virus” (separate the alleged “virus” from everything else in the patient sample) and instead:

- cultured an unpurified sample or other unpurified substance, and/or
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or
- produced electron microscopy images of unpurified things in a cell culture.

### **Clarification of Request**

For further clarity, please note I am already aware that according to virus theory a “virus” requires host cells in order to replicate, and I am **not** requesting records describing the **replication** of a “virus” without host cells.

Further, I am **not** requesting private patient information, or records that describe a suspected “virus” floating in a vacuum; I am simply requesting records that describe its **purification** (**separation** from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study **authored by anyone, anywhere**. This includes your own **website** which claims to have the virus

isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Pdf documents sent to me via email; I do not wish for anything to be shipped to me.

**1431/21 - ENVIRONMENTAL INFORMATION REGULATIONS REQUEST**

Dear Sir/Madam

Your request for information has now been considered and the information requested is provided below.

Request:

This is my wish for access to records.

Description of Requested Records:

All studies and/or reports and/or records in the possession, custody or control of the addressed body corporate describing the purification (i.e. via filtration and ultra-centrifugation and chromatography) of any "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants" i.e. "B.1.1.7", "B.1.351", "P.1") directly from a sample taken from a diseased man, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum, liver cancer cells) and also studies and/or reports and/or records in the possession, custody or control of the addressed body corporate proving a causal link between Sars-Cov-2 and the suspected infectious disease Covid-19.

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" (separate the alleged "virus" from everything thing else in the patient sample) and instead:

cultured an unpurified sample or other unpurified substance, and/or performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or produced electron microscopy images of unpurified things in a cell culture.

Clarification of Request

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting private patient information, or records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer-reviewed study authored by anyone, anywhere. This includes your own website which claims to have the virus isolated ; given your body corporate/politick receives publick treasure, the worldwide 'interest' and that more than 100 institutions other have no virus isolate this is for publick record/evidence.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Response:

**Rutland County Council does not hold this information.**

You are free to use any documents supplied for your own use, including for non-commercial research purposes. The documents may also be used for news reporting. However, any other type of re-use, for example by publishing the documents or issuing copies to the public will require the permission of the copyright owner, where copyright exists. Such a request would be considered separately in accordance with the relevant Re-use of Public Sector Information Regulations 2005 and is not automatic. Therefore, no permission is implied in the re-use of this information, until such a request to re-use it has been made and agreed, subject to any appropriate conditions. Any request to re-use the information should be made to me at the address below.

If you are dissatisfied with the handling of your request please contact the Data Protection Officer, Rutland County Council, Catmose, Oakham, Rutland LE15 6HP  
You can also complain to the Information Commissioner at:

The Information Commissioner's Office  
Wycliffe House, Water lane

FOI Reference: FOI2021/23894

14 January 2022

Dear Marc Horn

We refer to your request where you asked:

*“Please provide all studies and/or reports and/or records in your possession, custody or control (including departments by any name under your authority) describing:*

*1 - The purification of SARS-CoV2 'virus' in the normal meaning of the word, which is to separate a complete thing from everything else, directly from a sample taken from a COVID-19 symptomatic patient, where the patient sample was not first combined with any other source of genetic material.*

*2 - A unique RNA sequence that is tested for by any testing method which identifies the presence of SARS-CoV2 'virus' and no other genetic material.*

*3 - Unique harm that is caused by SARS-CoV2 'virus'.*

*4 - Experimental transmission of SARS-CoV2 'virus' from a symptomatic COVID-19 patient to a healthy person.*

*Please note that I am using 'purification' in the every-day sense of the word: the act of separating a thing(s) from everything else.*

*Please note:*

*I am not requesting records/studies/reports where researchers failed to purify the suspected "virus" (separate the alleged 'virus' from everything else in the patient sample) and instead:-*

- cultured an unpurified sample or other unpurified substance, and/or*
- performed an amplification test (i.e. a PCR test) on the total RNA from a patient sample or from a cell culture, or on genetic material from any unpurified substance, and/or*
- fabricated a genome based on PCR-detected sequences in the total RNA from a patient sample or from a cell culture or from any unpurified substance, and/or*
- produced electron microscopy images of unpurified things in a cell culture.*

#### *Clarification of Request*

*For further clarity, please note I am already aware that according to virus theory a 'virus' requires host cells in order to replicate, and I am not requesting records describing the replication of a 'virus' without host cells.*

*Further, I am not requesting private patient information, or records that describe a suspected 'virus' floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, for example (but not limited to) any published peer reviewed study authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it).*

*Please provide URLs where possible."*

We are writing to advise you that following a search of our paper and electronic records, we have established that the information you requested is not held by the Cabinet Office.

You may wish to try contacting the UK Health Security Agency at this link: <https://www.gov.uk/government/organisations/uk-health-security-agency> who may be able to help you with your request.

If you are unhappy with the service you have received in relation to your request or wish to request an internal review, you should write to:

Tarley Smith  
Cabinet Office  
70 Whitehall  
London  
SW1A 2AS

email: [foi-team@cabinetoffice.gov.uk](mailto:foi-team@cabinetoffice.gov.uk)

You should note that the Cabinet Office will not normally accept an application for internal review if it is received more than two months after the date that the reply was issued.

If you are not content with the outcome of your internal review, you may apply directly to the Information Commissioner for a decision. Generally, the Commissioner cannot make a decision unless you have exhausted the complaints procedure provided by the Cabinet Office. The Information Commissioner can be contacted at:

The Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF

Yours sincerely
